THE DYKES OF CIVILIZATION

Inaugural Address delivered by Dr. Watson Kirkconnell on the occasion of his installation as President of Acadia University

TWELVE human generations ago, within sight of this campus, the hands of sturdy French colonists built dykes to reclaim from the muddy tides of Minas the fertile reaches of the "Big Meadow"—le Grand Pré. Twice a day for three centuries the shouldering sea has measured its strength against these humble barricades of sod and earth, and twice a day it has fallen back in baffled retreat. Cattle still graze peacefully in the fields that young Evangeline loved. But the sea is not weary. Its vast impersonal force moves tirelessly to destroy the work of men's hands; and if the dykes are neglected, chaos will come again.

These things are a symbol and a portent. All human civilization is in a sense a precarious green meadow won with difficulty from the forces of nature and from the beast in the depths of man's soul; and the threat to its survival was never greater than it is at present.

On the material side, the most fundamental rampart lies in the maintenance of man's agricultural economy, and here the dykes are collapsing with a vengeance. Man's primary problem is in wresting a living from nature. His survival depends on the continuance of a working equilibrium of water, mineral nutrients, and living organisms in the topsoil of the limited areas of the world's arable land. This effective balance is incredibly complex. Soil fertility, if crops are to be adequate for the health of animal life, must include not only adequate calcium, phosphorus, potassium and nitrogen, but nearly a score of such other vital elements as sodium, sulphur, magnesium, chlorine, iron, copper, manganese, cobalt, zinc, and iodine; and these chemical elements, if they are to be assimilated by plant life must be worked on and transmuted by the action of soil bacteria and protozoa. The best that

WE were gratified when Acadia University did honour to itself and to Queen's in the selection of one of our most distinguished graduates, Dr. Watson Kirkconnell, as its ninth president. Watson Kirkconnell entered Queen's as a brilliant freshman in 1913, proceeding to Honours in Classics and the attainment of a Master of Arts degree in 1916. He maintained a consistently high academic record, acquiring scholarships and graduating double medallist (Latin and Greek). He served with Captain's rank in the Queen's Highlanders and became the first Ontario I.O.D.E. scholar under that Order's War Memorial in United College in Winnipeg and as head of the Department of English in McMaster, whence he accepted the appointment to Acadia. He is undoubtedly Canada's most distinguished linguist, honoured for his scholarship in countries as remote as Hungary, Poland, France, and Iceland, but his genius is versatile and it is hard to say whether he is better known on this continent for his academic standing, for his translations from the classics of many of the Slavonic and Central European races, for his own distinguished writings in poetry and prose, or for his early, fearless, and continuous analysis of Communism, and his continuing challenge to it and its permeation of the structure of this country. His inaugural address so reflects the scope of his learning, the grasp of his mind, and the courage of his convictions, that the editors of the "Review" are proud to offer it to his fellow graduates.

223509

chemical fertilizers can do is to implement the normal course of nature. Only the continual reinforcement of soil fertility by natural processes of compost decomposition can restore the annual losses removed in harvested crops. More fatal even than unrestricted cropping is the erosion of soil by wind or water. Under the most favourable conditions, it takes nature several hundred years to produce a single inch of productive topsoil, but on badly farmed land a one-day rainstorm may remove that much of the thin layer that supports life. The barriers that hold back the threat of starvation can easily give way.

Man's record in maintaining these dykes is a disastrous one. Whole areas of the earth, as in North Africa, Syria, Mesopotamia, Greece, and Spain, present indisputable evidence of a once-flourishing civilization that died when the topsoil died. The present day confronts us with the same threat on a world-wide scale.

In the first place, there are no effective reserves of fertile soil still untapped in the world. Tropical forest lands, in Brazil or in Africa, offer little hope, for no sooner are they cleared than the fierce heat of the sun and the force of the torrential rains leach out the productive elements of the soil. Other vast areas, now under temperate or subarctic coniferous forest—as in Siberia and Ontario's "Clay Belt"—have only acid "podsol" soils, dominated by the decomposition of conifer foliage and basically unsatisfactory for farming. Hydroponics and marine agriculture are still only at the research laboratory stage, and may never prove practicable on a large scale. We are pushed back upon the two and a half billion acres from which the two billion inhabitants of our planet are already being fed. This works out at just over an acre per capita, or half the area commonly estimated as essential, at average productivity, to provide a minimum basic diet. The world is at the end of its agricultural tether.

The condition of this land classed as "cultivated" is still more alarming. The Mediterranean littoral of Europe suffers from grave soil exhaustion. Of South Africa, Jan Smuts declares that "Erosion is the biggest problem confronting the country". Australia's soil has been badly depleted by wind erosion, aggravated by intensive sheep-farming and the depredations of rabbits. In South America, large man-made deserts have replaced many of its farming areas, as in Chile and Argentina, and a specialist employed by the Pan-American Union to survey the soil situation has despairingly referred to it as "the vanishing continent". In Mexico, improvident methods have so impaired its resources that the country is now importing much of its basic food supply. In the United States, large areas of the South once planted to cotton and tobacco have been exhausted and abandoned. Of the country as a whole, with a billion acres in croplands, pasture lands and grazing lands, the U. S. Soil Conservation Service reports that more than a quarter of this area has been ruined and the remainder more or less impaired. Soil losses by erosion total over five billion tons a year and, if unchecked, will turn the whole country into a desert.

Nor is Canada in better case. Few Canadians realize that of all its vast area, only 8.6 per cent, or 325,000 square miles—the size of Texas plus

Oklahoma—is officially classed as arable; that most of this is already occupied; and that soil erosion is turning much of it into desert. Of the 30,000 square miles of farm lands in Old Ontario, the most fertile area in Canada, 8,000 square miles have already been ruined and the process is going on virtually unchecked. Here in Nova Scotia, Dr. George Smith of the Department of Agriculture announced last month that the fertile soil of the Province had been reduced in the past fifty years from two million acres to less than one million acres. The invisible dykes of soil fertility have been breached and disaster is streaming in.

Meanwhile, in the past three centuries the population of the world has increased five-fold, from four hundred millions in 1630 to over two billions today, with an extrapopulation, on present trends, of four billions in another seventy years.

That inexorable pressure of the world's population intensifies every economic problem of our time. The humanitarian—to whom the miseries of the world are felt as misery and will not let him be—rightly yearns to have all of mankind well-fed, well-housed, and well-clothed. When he tries to achieve this, even in one country, by equal incomes (achieved through wage-fixing or through confiscatory taxation), he finds to his dismay that the national economy breaks down. Where skill, energy, and thrift are not rewarded and laziness and incompetence are not penalized, nobody wants to work. This was exactly what happened in Soviet Russia in the early 1920's, and so utter was the socialistic failure that the Bolsheviki swung to the other extreme, with a greater inequality of income, greater lenience towards inherited funds, and a higher rate of interest on savings accounts and Government bonds than may be found in any capitalistic country. These were the rewards for the thrifty and energetic, while the incompetent faced the risk of liquidation.

Or again, the immensity of the problem of dealing with social services had led many to strive for a more and more elaborate bureaucracy on a national scale, forgetting that if a democracy is to be effective and meaningful to the individual, there must be vitality and responsibility at the municipal level. The mad emperor Caligula is said to have expressed the wish that the entire Roman people had only one throat—so that he could cut it. A state that centralizes all its authority at the expense of healthy local institutions is putting itself thus ready for the successful violence of a Hitler or a Lenin.

Or again the impulse towards redistributing national income may focus itself on problems, not of production but of division, with strange results. To help supply the nation with badly needed houses, for example, the bricklayer is forbidden to lay more than a quarter of the number of bricks per day that his father used to lay. In present-day Britain, this felony is compounded by punishing any man who dares to build, or even to repair, his own house. In the face of an unprecedented shortage of almost all commodities, the current response is to reduce hours, to cut down production; in a word, to act as though mankind would have more by making less. These are only a few of the challenging problems facing an underfed world.

Another dyke, twice overwhelmed in our time and now once again precariously patched, is the dyke of world peace. Here the hazards are unprecedented. Modern science, a sorcerer's apprentice who has summoned up evil powers that he cannot control, exposes our cities to the threat of annihilation by gas, bacteria, and atomic bomb. The prospect is grim and the possibility of war is imminent, especially since Tryggve Lie, a consistent henchman of Soviet policy, has just announced that war will assuredly be averted. Meanwhile a singularly inept campaign of moral sabotage is being waged by certain ecclesiastical politicians. These ignorant clergymen are busily scolding Canadians and Americans as warmongers and are clamoring for mental, moral, and physical disarmament. Such catspaws of the Kremlin need to be told the facts of life. You are not going to stave off war by scaring Canadians and Americans with threats of the atomic bomb nor by driving them into a shamefaced mood of pacifism. War, if it comes, will not be our doing, but will be precipitated by a group of ruthless men in Moscow who for thirty years have had a detailed programme for our destruction. War is a terrible thing, but there is one thing worse, namely, the betrayal of human freedom by pious fools and active traitors.

Cities, with all their stately buildings, are only the outward manifestation of civilization. Civilization itself is to be found in the spiritual dynamic that is ready to recreate these material things if they are destroyed. It is the invincible devotion of men who are ready to die in defence of truth and justice and liberty, or, surviving, to strive once more for their realization among mankind. We must look elsewhere than in war for the blackest danger of today.

For the greatest threat of our time is neither economic nor military. Men are more than a horde of more or less intelligent beasts, swarming and fighting and perishing on the senile satellite of an insignificant star. It is precisely as it transcends its animality that human life takes on meaning, and it is here above all that our civilization today runs the risk of being submerged in a pre-human flood of savagery.

The spiritual basis of our civilization is breaking up. The invisible foundations of the Occident, that have held it up above the morass for fifteen centuries, are in danger of perishing.

The Roman Empire of the third, fourth, and fifth centuries was threatened by decay from within and barbarian inroads from without. So is it with the spiritual empire of modern Christendom, the moral and religious system by which Greek and Christian thinkers tamed barbarism in the past. Decay from within is all too obvious in the complete lack of any faith, any philosophy, or any convictions on the part of vast numbers of people today. There has been a weakening of the spiritual elements that ought to give purpose and direction to life:

Most men eddy about
Here and there — eat and drink,
Chatter and love and hate,
Gather and squander

Our age is losing its grasp of moral and religious principles, whether those of natural religion and natural morals as evolved by the rational thinkers

of Greece, or those more profound insights that have been revealed by Christianity.

In part this ethical dissolution stems back to a truncation of reason in the age of Descartes, to a limitation of reason to the field of the material. End-products of this disastrous short-circuiting of reason are the dialectical materialism of the Marxists and the biometrical arrogance of some of the newer psychologists, which filters down to the general public as an assumption that morals have no validity, that right and wrong are only traditional taboos, in short, that life has no meaning. It is by confusedly assuming this amputated rationalism to be the only possible version of reason that such well-intentioned modern theologians as Kierkegaard and Karl Barth have sought to defend man against reason—matching one short circuit by another.

Against community thinking thus weakened and confused there has come the ideological onslaught of the New Barbarians. These assailants, of which the Nazis and the Communists are only the most striking examples, are not merely agnostic towards the values of personality, morals and faith. They deny and denounce them. Law, morality, and religion, says Marx, are merely bourgeois prejudices. The Nazi political theorist, Karl Schmitt, in his book, *Das Begriff der Politischen*, erects hatred of one's national enemy into a major principle of life; while the latest text-book on Soviet education, authorized for all schools in the U.S.S.R., prescribes the the inculcation in the young of a burning hatred for all non-Communists who are ultimately to be destroyed. This lordship of hatred not only threatens the stranger beyond the national frontier. It is equally implacable towards every citizen who seeks to preserve his liberty of soul from the tyranny of the régime.

Among the major virtues that have inspired Western civilization have been Justice, Mercy, Truth, and Freedom. In our time two great reptile regimes have emerged to challenge and defile them all. The snake of Hitlerism has been scotched (if not killed) but the crocodile of Communism is more aggressive and arrogant than ever, and we may therefore with advantage pause over its character. What Justice is there in a regime that in the process of robbing the peasants of their farms transported three millions of them to their death in Siberia and killed five million more by famine? that expressly reserves its welfare benefits for a small efficient minority, while charging all workers a "socialized wage" for the upkeep of such social services? that creates greater inequalities of wealth and poverty than any capitalistic state, and taxes the proletarian poor more heavily than the Communist rich? What Mercy is there in a regime that has murdered its political opponents and their families by the million? that rules by terror and has turned torture into a fine art? that for nearly twenty years made death by shooting the standard penalty for petty theft, even by children? that exterminates millions of its citizens at slave labour in Arctic concentration camps? that puts its countless women prisoners at the mercy of bestial guards? that turns its whole vast territory into a dungeon, hemmed in by wolf-hounds, barbed wire, machine-guns, and torture-squads? What

Truth is there in a system that expressly declares that morality is a fraud, and that lying is necessary and useful? What Freedom is there in a country that provides the death penalty for citizens who leave their job or try to escape the country, that does not permit the existence of a single opposition party or a single independent newspaper, that on the contrary, by Constitution, assigns all power to a Communist Party of less than three per cent of the population, that ruthlessly purges even that Party, and that gives its police the power to send any citizen into Siberian slavery without trial? Behind the monstrous façade of propaganda, these are the obscene realities of Soviet life.

Two years ago a young Canadian professor, who does not read Russian, wrote glibly about the value of including *Pravda* in the intellectual diet of our generation. The prescription is good but not in the sense that the young man intended. I myself am one of the very few Canadians who *do* subscribe to *Pravda*; and in it I find overwhelming proof of the superiority of our own Western civilization. Seven days a week one meets in this four-page Party "newspaper" the measure of the depths to which a nation can sink when freedom is blotted out. No purple Cæsar, no Oriental despot, was ever greeted with such gross daily adulation as drips from the pages of the Soviet press. Joseph Vissarionovitch Stalin, the murderous little Georgian bank-robber, is worshipped daily in flattery that would have turned the stomach of a Nero. Here, too, one finds through the years a record of all those pitiless edicts by which millions of Soviet citizens have been liquidated by bullet or by concentration camp. Here, too, are the Party's hymns of hate against the Western world that it is preparing to destroy. By all means let us read *Pravda* and *Izvestia*, so that we may get a glimpse of the abyss into which our new barbarians would push us!

It is impossible to regard this Satanic system as a "proletariat", in Arnold Toynbee's sense, out of which a new religion can take creative form for the redemption of our unsettled age. The proletarian religions which Mr. Toynbee sees performing that function in history have always been intrinsically of a higher morality than the wreckage they replaced; whereas Communism in action has shown itself to be a negation of all morality, an embodiment of hatred, injustice, cruelty, lying, and slavery. The Communists are not the proletariat, but the gaolers and torturers of the proletariat. From the Elbe to Bering Straits the three hundred millions of the masses now under Communist rule are groaning in servitude. The Atonement did not issue from the black hearts of those who killed Christ on the Cross. To offer Communism as a sustaining gospel for mankind would be to deliver milk bottles filled with sewage. Instead of taming the beast in man in the interests of a higher life, Communism unleashes the beast and panders to its ferocity.

I have stood among the whitening bones of ancient civilizations in Greece, in Egypt, and in Palestine, but nowhere with the same sense of desolation of spirit as in contemplating the tortured living body of the Soviet Empire. Greece, Egypt, and Israel died a clean death and their souls lived on in the achievements of other civilizations. But Communism is a loath-

some cancer, a political, social, and spiritual carcinoma flourishing in the agonized flesh of a living civilization. A carcinoma? No, not a carcinoma but a sarcoma, for the same pathological horror can be seen at work everywhere in the tissues of the civilized world today. Its result, if unchecked, can only be the death of civilization itself, nor can the cancer beget the glittering Utopia of which our cancer-worshippers dream.

Such being some of the perils of our time, there are two questions that I wish to raise: What is to be the response of our civilization to these dangers, and what should be the place of a university in that response?

To the first of these questions I shall not be so presumptuous as to offer a programme for action. The challenge of a disintegrating world is not to be lightly met by an inauguration essay. I would submit, however, that the main principles involved are clear enough. We need more intelligence and we need a revival of religious consciousness.

In solving the problems presented us in wresting a subsistence from nature, we cannot have too much high-grade brain power at work, and at work with complete integrity of action. Here the Soviet state had seemed to point the way to the West by a notable endowment of research; but Communist power, in its dogmatism and tyranny, has been unwilling to give free intelligence a chance. In the early 1930's, nearly all of Russia's ichthyologists were liquidated because the Soviet fisheries did not yield their prescribed quota of fish. Or we may cite Stalin's recent purge of all those geneticists who refused to subscribe to the tendentious theory that environment (devised by the all-wise Soviets) could bring about fundamental mutations in any desired direction. Or one may point to the recent political attempt in Canada to prove that increased wages were not a factor in high building costs by pointing to the still higher increases in the costs of materials, but disingenuously omitting to mention that the main element, and the main increment, in the cost of such materials was precisely wages in the lumber industry and elsewhere.

But honest brainwork is not our only need. As already implied, the chief maladies of our time are maladies of the soul and not of the intelligence. Psychologists may quarrel with my old-fashioned terminology, but my meaning should be clear. The human will, shut up in a cistern of self instead of running freely in the sunshine of God's presence, stagnates into deadly sins. Pride, envy, avarice, wrath, lechery, gluttony, and sloth—these evil urges, whose personifications find bad eminence in the pages of Langland and of Spenser—are as active in human life today as they ever were. Unaided human intelligence here falls short of qualities that are recognizably greater. The greatness of Prometheus lies not in his eminent intellectual gifts but in his willingness to suffer on behalf of mankind and for his own integrity of spirit. Goethe's Faust is great not because he has mastered all the sciences but because of his insatiable hunger for a deeper experience; and it is by the love of Margaret, not by his own erudition, that he himself is saved at last. And the supreme example of the consecrated will is found in One who stirs the hearts of millions today, not because He argued penetratingly with the Scribes and Pharisees but because He died a vicarious death on a Roman gibbet.

Only a profound religious awakening, transforming the very hearts and motives of men, can touch the core of the ulcer of our age. Intelligence is not enough.

And what of the university? For I seem to have come to the last movement of my composition without yet touching on that master theme of the academic sonata.

As to the place of intelligence, there can be no debate. The function of a university is to think. If answers to the riddles of our time are to be found, the universities must have a share in the search. Yet at the undergraduate level the thing needful is not the profound or brilliant thinking of the mature scholar or scientist, so much as an honest mastery of basic knowledge, the appropriation of our heritage from the past and of the insights and techniques of the present day. Here the standard to be sought is one of stark competence. In this task, vague good intentions will not do. No amount of piety will compensate for a sloppy job in the class-room or the laboratory. No university can cloak poor work by citing the sanctity of church auspices. If we cannot measure up academically, we ought to go out of business.

The problems, both theoretical and applied, faced by the natural sciences are fairly clearly recognized today and the need for intelligence in them is not often challenged. When we shift to the social sciences, however, there is a boundless conflict of motives and propagandas filling the air with dust and cutting down the mental visibility, often to zero. Here too, however, the need for objectivity and patient scientific toil is paramount, if we are to solve our problems, in spite of doctrinaire fanaticism and sectional interests. Some men will believe that the boss is right because he is the boss; others that the under-dog is right because he is the under-dog. Emotionalism is not a substitute for fact.

There are still other studies that involve more than reason and the moral virtue of integrity. These are the humanities, and here we confront, through history and literature and philosophy and the fine arts, the heritage of the race in terms of conduct and beauty and intellectual synthesis. Here ratiocination is supplemented by imaginative and æsthetic insight into a realm of values.

Many would stop here and feel that a full-orbed development of the mind and of society was provided for by this combination of intelligence and insight, this marriage of knowledge, taste, and wisdom. Yet the greatest power of all lies behind. The person of intelligence and taste may suffer moral shipwreck, unless the springs of action are purified and consecrated, unless the human will is devoted to a religious purpose greater than itself.

The role of that religious consecration in the life of a university is hard to define. Religious experience cannot be communicated by class-room instruction; and while religion may have a legitimate place on a university curriculum, it is there as an object for comprehension by the intelligence, not as a mystical experience to be shared. Its inclusion in the field of university studies is an invaluable recognition of a whole range of values that are not material or secular, a recognition that the data of re-

ligious insight, like those of ethical and æsthetic insight, must be accepted by a complete rationalism.

But a university is not a church and its primary purpose is not devotional. For the non-theological student, the most we can hope for beyond the religious studies I have just indicated is to provide a quiet but assured emphasis on religion in the daily life of the university. There is a place for daily worship on the campus, as a reminder of the existence of One whose Being and whose Will transcend our own and give meaning to them. Only as it accepts the reality of the Lordship of Almighty God does the human soul rise above its poor animality to the dignity of a spiritual destiny. Only so do the values and ambitions of the world fall into their proper perspective. Only so can our most intelligent human answers to our human dilemmas be subsumed in a higher Wisdom. Of this a bankrupt secularism may be sceptical, but it has always been so. To us today as to his readers nineteen hundred years ago, the words of St. Paul still ring triumphantly: "But we preach Christ crucified, unto the Jews a stumbling-block and unto the Greeks foolishness, but unto them which are called, both Jews and Greeks, Christ the Power of God and the Wisdom of God."

CHRISTMAS PARTY HELD FOR STUDENT FAMILIES

ONE hundred and eighty children plus their student parents and other interested persons attended the Christmas party in Grant Hall on December 22. Christmas films were shown and then Santa Claus distributed well-filled stockings containing a horn, a paper hat, and candy. Afterwards, the guests were given a drive home in cars supplied by alumni and members of staff.

Stockings for the party were filled by the Kingston alumnae and money for the venture was supplied by the alumni. The beautifully decorated tree was a gift of the alumni at the Aluminum Company. The party was organized by the University Chaplain, Rev. A. M. Laverty.

One Hundred Young People Attend Christmas Short Course

APPROXIMATELY one hundred attended the Christmas short course for rural young people December 28-30. The course was sponsored by the Ontario Federation of Agriculture in co-operation with the Department of Extension at Queen's, and was under the direction of Mr. Harry Hutton of the University staff.

The programme included reports, discussions, and recreation. Participating were Mr. James Pullen, director of recreation, Hydro Electric Power Commission; Mr. Clare Burt, secretary, Ontario Farm Radio Forum; Mr. Percy Gardner, United Co-operatives of Ontario; Charles McInnis, Federation of Agriculture; Mrs. C. A. Campbell, Federation of Agriculture; Prof. J. L. McDougall, Queen's; Mr. C. H. Cotter, Department of Revenue; Mr. Harold McCaul, Federation of Agriculture; Mr. R. A. Stewart, president, Federation of Agriculture; Mr. Earle Webster, Department of Education. Principal Wallace welcomed the delegates.

Men in attendance for the course were housed in the Gymnasium and the women in Muir House. Meals were served in Grant Hall cafeteria, which was opened specially for the occasion. The groups met for discussion in the Old Arts Building.

Celebrates 92nd Birthday

HEAD of the seniority list of living Queen's graduates, P. A. Macdonald, Arts '76, celebrated his ninety-second birthday in Winnipeg, Manitoba, on January 6.

QUEEN'S TO LAUNCH CAMPAIGN FOR FUNDS

SPECIAL APPEAL WILL BE MADE TO ALUMNI

THIS month Queen's University begins a long-range programme for funds. Endowment headquarters have been established in the Hague House, 132 University Avenue, across from Ontario Hall, and under the chairmanship of Mr. M. N. Hay a central committee has been meeting daily to plan the campaign. The director of endowment will be Mr. Morley C. Tillotson, assistant treasurer of the University.

The campaign has two objectives: The first is \$175,000 a year in annual contributions, and the second is \$3,000,000 for buildings and endowment. The former is required to offset the serious reduction in revenue from student fees when the registration returns to normal. The second is needed to complete the Students' Memorial Union, to extend Ban Righ Hall, to increase the facilities in the Douglas Library, and to provide other quarters for administration, as well as to meet salary and maintenance costs which have risen.

The money is being sought from several sources. It is intended to accomplish the first objective by persuading more alumni to join in the plan which was set up in connection with the Centenary Celebration in 1941, and through which approximately 800 graduates are now contributing \$30,000 annually. The aggregate from many small donations is of great value in meeting the cost of current operations and maintenance. Financial assistance is also being solicited from private individuals of means, from corporations, and from the government.

The only construction being planned at Queen's is that which is absolutely necessary. The Union had to be rebuilt after its destruction by fire. Ban Righ Hall, the main residence for women, must be enlarged to accommodate 300 more students. Since the administrative staff of the University must soon vacate the Douglas Library, an administration building is urgently required. Office space in the library must be turned into seminar and reading rooms to guarantee the best education facilities possible.

Obviously, these are essential construction needs. The emphasis at Queen's is on maintaining high standards, rather than on an unwarranted expansion.

In a recent statement, Principal Wallace outlined the future policy of Queen's: "Queen's University does not seek large numbers of students. The work which Queen's has done, and can do, best is with a limited number of students with a high quality of individual instruction, and with an *esprit de corps* in a unified student life which probably has no equal elsewhere. Queen's draws students from all parts of Canada, because of the reputation of many members of staff. Queen's has given an unusually large number of graduates to the public service, for Queen's is nationally minded. There is a distinct place for it—and for Queen's—in Canadian education."

The present equipment and facilities must be enlarged and improved. Expansion of any kind was out of the question during the war years. It was impossible to obtain equipment, labour, or materials. Yet increased laboratory space for science and medical students,

M. C. TILLOTSON

office space for growing administrative staff, a new students' centre with adequate eating and club facilities, and residences for students have been recognized as needs at Queen's since long before the war. The post-war doubling of the enrolment has made these demands even more urgent.

A larger endowment is a still more vital need, for the income from endowment is now only approximately one-eighth of the cost of operations at Queen's. Fees are only equal to about half the total revenues needed in a year. Even this proportion is much too high, for the average of all the universities in the British Commonwealth is only about 30 per cent.

Although the fee income is augmented by a government grant, anywhere from 12 per cent to 20 per cent of the current expenses of the University must be covered by the interest on the invested endowment. In recent years, the interest rate has fallen considerably. Queen's needs a larger endowment to counteract the effect on revenues of lower interest rates. Yet this fall in revenue per invested dollar has taken place in a period of rising costs! The current inflation has raised the operating costs of the University very considerably. Rising costs and falling revenues place the University in a grave financial plight. The endowment of the University must be increased both to offset the falling yield on investments and the present increased costs.

Both salary and maintenance costs have of necessity been rising in recent years. Salaries may have to be raised still further if Queen's is to keep competent professors and attract the best. Many of the professors, whose scholarship has made the University famous, have remained at Queen's out of a sense of loyalty, at considerable sacrifice to themselves. They may soon be forced to accept more lucrative offers from industry, or from other institutions with a larger endowment. There is a real danger that the standard of education at Queen's will suffer unless the best teachers available can be procured. Inflation has pushed all administrative and maintenance costs upwards.

The endowment committee is now preparing literature for general distribution which will be going forward to graduates and others in the near future. It is planned to start canvassing in February.

QUEEN'S PERSONNEL PRESENT FIRST CANADIAN OPERA

FIRST full-length Canadian opera ever staged, "Evangeline" had its premiere at the LaSalle Hotel in Kingston on December 1, 2, and 3. The composer was Dr. Graham George, professor of music at Queen's; the libretto was written by Paul Roddick, Arts '50, Edmonton, Alberta, and Donald Warren, Arts '50, Chaffey's Locks, Ontario; the sets were designed by Miss Martha Jamieson of the Queen's Music Department; and the cast was composed of students and members of staff.

Many out-of-town musical authorities saw the production and all were high in their praise. Dr. Healey Willan, outstanding organist, teacher, and composer, writing in Toronto *Saturday Night* said: "The entire performance reflects the greatest possible credit upon those who worked so hard and with such evident and effective team-work. The result of their efforts will rank high in the annals of Queen's University; it marks a new phase of musical endeavour in university life in Canada."

CHA GHEIL!

A University of Toronto graduate, fairly successful in business, decided he needed some help and advertised for an assistant. His advertisement read: "Varsity grad preferred, or his equivalent." In short order, the replies poured in. But one was somewhat different. The applicant said: "I am very much interested in what you consider as an equivalent. Do you mean two Western, or one Queen's part-time?"

—*Toronto Star*

THE R. S. McLAUGHLIN DONATION

by H. Pearson Gundy, University Librarian

QUEEN'S has been singularly fortunate for many generations in the benefactions conferred upon the Library. In fact the nucleus of a library existed even before the Royal Charter was granted or the first classes assembled. In July, 1840, Mr. James Mitchell of "The Hermitage, near Vittoria, Talbot District, Upper Canada," dispatched seven boxes of books "To any authorized agent for managing the affairs of Queen's College; Toronto or Kingston." From this modest beginning, the Library has grown to a collection of over a quarter of a million volumes. The Library budget alone could never have achieved this; gifts large and small are a permanent memorial to our many benefactors. The generosity of Dr. James Douglas made possible our present library building. Dr. Lorne Pierce contributed, and continues to build up, one of the finest collections of Canadiana on the continent. The McNicol Collection of books on telegraphy, telephony, and radio has attracted scholars from Canada and the United States. Dr. A. R. M. Lower is, at present, sorting out the large collection of historical notes left by the late Dr. Adam Shortt. To crown our good fortune, Colonel R. S. McLaughlin last month presented to the Douglas Library a Canadian Historical Collection valued by Dr. Gustave Lanctot, retiring Dominion Archivist, at between nine and ten thousand dollars.

Press reports of the McLaughlin donation have appeared in the leading Canadian newspapers; the Kingston *Whig-Standard*, on December 21, gave it a large front-page spread. Since then, letters have come to the Librarian from Halifax to Vancouver and from the United States, paying tribute to Colonel McLaughlin's fine gesture on behalf of the humanities, and congratulating Queen's upon this magnificent addition to the library archives.

The manner in which the presentation was made is typical of Colonel McLaughlin's perception and dispatch. Late

in November, I was called to the Principal's office where Dr. Wallace showed me a letter he had received from the Colonel. A private collector in Ottawa wished to dispose of a large collection of maps, pictures, documents, autographed letters, handbills, proclamations, and other materials relating to the history of Canada from 1520 to the present day. Would Mr. McLaughlin consider purchasing it for his private interest or for some institution? The price was high, and the collection was not fully itemized, but Col. McLaughlin had confidence in the agent who had written to him, and immediately wrote to Principal Wallace, offering the materials to Queen's if we were interested and thought them worth while. The Principal was left in no doubt about my interest, as Librarian. I obtained an annotated list of the 875 items, conferred with the History Department, and drew up a report indicating the value of the collection and recommending purchase. Within forty-eight hours, Colonel McLaughlin's secretary telephoned from Oshawa to say that negotiations were over and the collection would arrive in a few days from Ottawa. In a letter to Dr. Wallace referring to the documents, Colonel McLaughlin wrote: "Please accept these as an additional little present to express further my admiration for your fine institution."

The most valuable part of the collection comprises autographed letters from early Canadian governors, statesmen, patriots, and rebels. Many of these shed new light on various episodes and personalities in Canadian history. Among them are letters from the Chevalier de Levis, 1760, Sir James Monk, 1798, General de la Salaberry, the victor of Chateauguay, 1813, William Lyon Mackenzie, 1824, Robert Nelson, a leader of the Rebellion of 1837, Lord Howick (later Earl Gray), 1837, Sir John Colborne, 1839, Hon. William MacDougall, 1851, Sir George Etienne Cartier, 1861, Louis Riel, 1885, Sir John A. Mac-

donald, 1873-79, Sir Wilfred Laurier, 1896. There is also a series of twenty-five personal letters dealing with the early days in the Canadian Northwest. Transcriptions of some of the above letters, with notes, will appear in subsequent issues of the *Queen's Review*.

Among the autographed documents is a commission on parchment signed by Louis XIII of France and his minister Lomenie in 1620; also letters patent of 1629 affixed with the Great Seal of France and signed by the King.

A document of primary historical importance is the Governor General's personal copy of a manuscript Blue-Book entitled "The Colony of Canada, 1845", giving vital statistics, reports on all public institutions, on the legislature and militia, on agriculture, manufactures, taxes, duties, fees and all other sources of revenue. Only five copies of this were compiled; two went to the Colonial Office in England, two to the Legislative Council and Assembly, and the other was reserved for the Governor General's private use. On page 236, under "Education" occurs the following manuscript note: "*Queen's College, Kingston (Presbyterian)*. This College, as to its general affairs, is under the management of 26 Trustees.—The discipline etc. is regulated by the *Senatus Academicus*, composed of the Professors and two of the Trustees, until the number of Professors amounts to five, when it is to consist of them only. A preparatory school is attached to prepare pupils for College, in which is taught every branch necessary for admission. No part of the expense is borne by the Government." Immediately below this entry there is a note on "*Victoria College, Cobourg (Methodist)*" which concludes with the statement: "It receives from Government an annual grant of £450 stg."

Apart from manuscript and printed documents, the collection contains about one hundred early maps, charts, and pictures. The earliest is a photostat of the "Globus des Johannes Schöner vom Jahre 1520" published originally in Nürnberg; there is a beautifully colored print of a "Mappemonde" showing Cartier and his explorations, published about

1547; also a colorful Dutch map of the Americas in 1597. The remaining maps date, for the most part, from the eighteenth century. There are many pencil drawings, water-colors, steel-engravings, lithographs, and prints, representing the work of Cockburn, Kreighoff, Bartlett, Currier and Ives, and others.

Finally there is an extensive and unique collection of posters, proclamations, orders, circulars, and handbills in English, French, and German, from World War I.

The work of tabulating, transcribing, and annotating the items in the McLaughlin collection has already begun. Eventually a Calendar of the collection will, I hope, be published, so that scholars elsewhere may be fully informed concerning the resources of this notable addition to our archives.

A few of the more interesting items are now on display in the Reading Room Exhibit Case and in the Librarian's Office. Adequate room for housing the collection will have to await the day when the administrative offices are moved from the Douglas Library. In this connection, a letter from Chancellor Dunning brings encouragement:

December 27th, 1948.

Dear Mr. Gundy,

I learned with great pleasure from the press of Colonel R. S. McLaughlin's magnificent donation of a Canadian historical collection to the Douglas Library at Queen's, and wish to share the great pleasure I know you feel at receiving such a gift.

Colonel McLaughlin's interest in our University has shown itself in many forms and I feel that this latest gift imposes upon the Trustees the necessity of seeing to it that the Douglas Library becomes wholly devoted to its real purpose in the shortest possible space of time.

I do not want to raise hopes prematurely but I do regard it as of the greatest importance that the administrative offices be moved from the Library as soon as possible in order that the space they occupy may be used for its real purpose.

With kindest regards, and best wishes for 1949,

Yours truly,

CHAS. DUNNING.'

Perhaps Colonel McLaughlin has builded better than he knew!

“ MY FATHER SENT ME DOWN TO QUEEN’S ”

THE names of fifty second-generation students were added to Alumni Office records at registration this fall. Although only first-year students were requested to fill in forms, a number of previously registered undergraduates, who for some reason did not fill in a form last year, did so this term.

In the following list, the faculty in which each student is enrolled is denoted by (A) for Arts, (S) for Science, and (M) for Medicine:

Kathleen R. Barclay (A)—Late John Ball Dow, Arts '75 (great uncle).

Gordon H. Blair (M)—Dr. James Harold Blair, Meds. '14, Vancouver.

Deborah Bogue (A)—Late Dr. A. P. Knight, Arts '72.

Elaine Bonfield (A)—John Patrick Bonfield, Meds. '18, Ottawa.

Audrey Bracken (A) — W. D. Bracken, Sc. '23, Niagara Falls.

Howard Walter Bradfield (A)—Mrs. I. D. Bradfield (Eva Newell), Arts '26, Kingston.

Hugh Cameron (M)—Judge C. A. Cameron, Arts '13, Ottawa.

Dorothy Campbell (A)—Mrs. A. D. Campbell (Violet Warren), Arts '15, Ottawa.

Marion Carson (A)—George Edward Carson, Arts '25, Kingston.

Don V. Clarke (A)—Harry Vernon Clarke, Arts '23, Mrs. H. V. Clarke (K. Fawcette Elliott), Arts '24, Hamilton.

Marilyn Climo (A)—Cecil Climo, Sc. '23, Niagara Falls.

W. G. Colborne (S)—Mrs. G. O. Colborne (J. B. Cameron), Arts '20, Carleton Place.

A. Corlett (A)—Prof. A. V. Corlett, Sc. '22, Kingston.

Richard Donevan (M)—Dr. Frederick James Donevan, Med. '67, Oshawa.

Dorothy Ellis (A)—Fred J. Ellis, Sc. '21, Port Colborne; Stanley Ellis (brother), Sc. '47.

D. E. Embury (S)—Dr. A. T. Embury, Med. '96 (grandfather), Prescott.

H. Jean Foster (A)—Thomas Richard Foster, Arts '27, North Bay.

Douglas W. Gilbert (A)—Rev. C. C. Gilbert, Theol. '24, Mrs. C. C. Gilbert (Emily R. Inman), Arts '20, Kingston.

Grace Glynn (A)—Late Samuel Macmorrin, Arts '65 (grandfather).

Kevin Greaves (M)—Archdeacon J. M. Snowdon, Arts '85 (grandfather), Ottawa.

G. Robert Horne (A)—Frederick H. Horne, Ex. Arts '26, Sudbury.

Margo Kirkland (A)—John Courtessy Kirkland, Sc. '23, Schumacher.

Joan Lambier (A)—Lorne F. Lambier, extramural, Hamilton.

Desta F. Leavine (M)—Stanley F. Leavine, Arts '28, Meds. '20, Kitchener.

Margaret Lyon (A)—Dr. Rosswell Cameron Lyon, Med. '18, Haileybury.

Marion MacLeod (A)—George W. MacLeod, Sc. '13, Sault Ste. Marie.

C. C. Mahaffy (A)—J. D. C. Mahaffy, Arts '24, Ottawa.

Wm. J. Mahood (M)—Dr. Albert Edward Mahood, Med. '05, Ottawa.

Robert J. McAuley (M)—Mrs. James A. McAuley (Margaret MacIlraith), Arts '16, Ottawa.

Elaine P. McEachern (A)—Ewart Currie McEachern, Arts '11, Regina, Sask.

Elizabeth Mills (A)—Arthur MacTavish Mills, Sc. '19, Port Arthur.

W. V. Moore (A)—Albert Lauder Moore, Arts '22, Toronto.

Flora Jane E. Nayler (A)—John A. Nayler, Sc. '23; Mrs. John A. Nayler (Flora A. L. Fawcett), Arts '25, Arvida, Que.

Beth A. Norman (A)—Horace Frederick Norman, Arts '27, Brantford.

Margaret O'Connor (A)—Dr. Frank D. O'Connor, Med. '17, Kingston.

R. K. Paterson (A)—Dr. R. K. Paterson, Med. '06, Ottawa.

Wilfred L. Patterson (A)—Late Dr. Thos. Bernard Patterson, Med. '23.

Gordon G. Phillips (A)—Dr. G. A. Simmons, Sc. '10, Med. '12 (grandfather).

Rosemond Rinn (A) — Mrs. Robert Rinn (Ruby Garbutt), Arts '26, Timmins.

Joan Sanders (A)—Mrs. N. M. Sanders (Jean Shields), Arts '14, Ottawa.

Alan A. Smith (S)—Late Arnold Smith, Sc. '3.

G. Richard Squire (A)—Richard Lane Squire, Sc. '04, Collins Bay.

Mary Eleanor Thorburn (A)—Late Howard Beverley Thorburn, Sc. '22.

Edward W. J. Thornton (S)—J. E. H. Thornton, Arts '29, Huntsville.

Wallace J. Troup (M)—Dr. Wallace Troup, Med. '24, Ottawa.

Charles R. Whitelock (A)—Dr. Chas. Keller Whitelock, Med. '14, Niagara Falls.

Roseanna Wholton (A) — Thomas Hilliard Wholton, Arts '21, Galt.

Donald L. Wilson (A)—John C. Wilson, Sc. '46 (brother).

Murray R. Woodward (A)—Kenneth Burnett Woodward, Arts '29, Vancouver.

Catherine Wright (A)—William McKay Wright, Arts '13, Mrs. W. M. Wright (Helen Marjorie Hopkirk), Arts '19, Windsor.

Dr. A. Vibert Douglas Visits Pembroke College at Providence

DR. A. VIBERT DOUGLAS, dean of Women at Queen's and president of the International Federation of University Women, was the guest of honour early in January at Pembroke College and the Rhode Island branch of the American Association of University Women, at Providence, Rhode Island. Dr. Douglas addressed two meetings on the work of the I.F.U.W.

"MERCHANT OF VENICE," PRODUCED BY DRAMA GUILD, 1900

The Drama Guild is celebrating its fiftieth anniversary February 18 and 19. The programme includes a banquet, a special Convocation at which Raymond Massey will receive an honorary LL.D., an historical pageant of fashion, and the performance of a new Canadian play.

DR. WM. ANGUS HONOURED FOR WORK IN DRAMA

FOR outstanding efforts in the advancement of Canadian drama, Dr. William Angus of Queen's University was recently given one of the four Canadian Drama Awards.

Dr. Angus earned the honour by virtue of the fact that he is associate professor of dramatics at Queen's, faculty adviser to the Drama Guild, head of the Queen's University Summer Theatre, chairman of several drama committees in Ontario, and organizer of a secondary schools drama festival in Ontario.

MICHAEL HOWARTH WINS RHODES SCHOLARSHIP

A VETERAN with a service record of fifty-six months as a flying instructor in the R.C.A.F., E. Michael Howarth of Montreal has been named as one of the Province of Ontario's two Rhodes Scholars for 1949. Mr. Howarth is in fourth-year honours economics and politics at Queen's.

Mr. Howarth left high school in Montreal at the end of his second year to enter business. While on active service, he learned about the opportunities for discharged personnel and began a course by correspondence. In spite of his inadequate background of formal classroom work, he succeeded in passing a full first year by correspondence with first-class standing in three subjects and a high second in a fourth.

Mr. Howarth is thirty years of age and married.

Sports Notes

THE Tricolour lost 7-5 to University of Montreal Carabins in a senior Intercollegiate hockey game at the Jock Harty Arena on December 4. Queen's had previously lost to McGill, Toronto, and the Carabins . . . In a boxing and wrestling show at the Gymnasium on December 4, Queen's won five out of five wrestling matches and two out of three boxing bouts with a team from Toronto West End "Y".

POPULAR LECTURE SERIES STARTS IN JANUARY

DR. JOHN MACMURRAY, professor of moral philosophy at the University of Edinburgh and Dunning Trust Lecturer at Queen's for 1949, will start off the annual Popular Lecture series at the University on January 17. The complete series is as follows:

January 17—"The Conditions of Freedom—Contemporary Conflicts," by Dr. John Macmurray.

January 24—"The Conditions of Freedom—Freedom in Fellowship," by Dr. John Macmurray.

January 31—"The Grand Tour" (the English in France in the Eighteenth Century), by Dr. W. H. Evans, professor of French, Queen's University.

February 7—"Canadian Foreign Policy," by W. E. C. Harrison, professor of history, Queen's University.

February 14—"The Arctic in the Modern World," by Dr. Trevor Lloyd, professor of geography, Dartmouth College.

All lectures are scheduled for 8 p.m. The first two will be given in Grant Hall; the others in Convocation Hall.

DR. JOHN MACMURRAY

Student Activities

New Lecture Series Starts

ARRANGED by Dr. L. W. Brockington, rector, the first in a series of dinner meetings was held in the Great Hall of the Students Memorial Union on December 11 with Mr. Grattan O'Leary, editor of the *Ottawa Journal*, as the guest speaker. In a talk liberally interspersed with anecdotes, Mr. O'Leary described the characters and personalities of the six prime ministers he had known personally as an Ottawa newspaperman since 1911. Eric Jorgensen, Sc. '49, Toronto, president of the Alma Mater Society, served as chairman.

Veterans Hold Conference

Delegates of all Canadian universities, representing 22,000 student-veterans, attended the three-day conference of the National Council of Student Veterans held at Queen's December 28-30. An increase in the basic training allowance of all student veterans was urged in a resolution outlining the facts that veterans had obtained no increase in their basic training grants since the inception of the D.V.A. programme, and that, although veterans with dependents had received more for that reason, their grant was still equitable to that of the single ex-servicemen. Other resolutions passed included approval of affiliation of the N.C.S.V. with the Canadian Legion of the British Empire Service League. Elected to the new five-man national executive was Don Mathews, Sc. '50, Brantford, who will serve as treasurer.

Sports Night Held

Inaugurated last year, Sports Night programmes are being held again under the auspices of the A.M.S. The first took place on December 11 with a capacity crowd in attendance. In the

two contests with outside teams, Queen's came out on the short end of the score, losing 6-1 to McGill in water polo, and 33-29 to Carleton College in an intermediate basketball game. The programme also included an exhibition of swimming and life-saving by a troupe from Toronto, boxing and wrestling bouts, volleyball, and modern and square dancing.

Band Gives Concert

The brass band gave a concert in Grant Hall on December 8 and it was such a success that consideration is being given to putting another one on in the second term. Such selections as "Begin the Beguine," "March of the Toys," "Strike up the Band," and "American Patrol," in addition to several numbers from "Showboat," added up to a most entertaining programme.

Here and There

William Bauer, Arts '49, Ridgeville, and Dave Leighton, Arts '50, Ottawa, represented the *Queen's Journal* at the Canadian University Press conference at Laval University, Quebec City, in the Christmas holidays . . . Morgan Beebe, Arts '51, Utica, New York, was the Queen's delegate at the three-day conference of the Co-operative Commonwealth University Federation in Ottawa during the Christmas holidays . . . Donald Hill, Sc. '50, Ottawa, was elected premier of the twenty-eighth Older Boys' Parliament which held its sessions at Whitby during the holidays . . . Frank R. Scott, national chairman of the C.C.F. was a guest at the Model Parliament held in December when the C.C.F. was the government of the day. The government's bill for nationalization of the meat-packing industry in Canada was defeated .

At the Branches

Northwestern Quebec

FORMATION of a new branch of the General Alumni Association was the result of a meeting held at the Noranda Hotel, Noranda, Quebec, on December 11. Forty-eight alumni were present for the organization ceremony.

Guest of honour was Principal Wallace, who spoke on "Queen's As It Is Today". The Principal described the outward changes that had taken place recently, with special reference to the new McLaughlin Hall, the new Students Union, the addition to Gordon Hall, and the acquisition of the synchrotron. He also outlined the expansion programme scheduled for the next few years.

The needs of the University were stressed by Principal Wallace, who pointed out that an endowment campaign would be started in the near future and that the appeal would be directed to alumni and friends of Queen's. The alumni branches would be asked to help the local committees in the campaign in their respective communities.

The speaker was introduced by A. G. Morrison, Sc. '10, and was thanked on behalf of the gathering by D. M. MacLean, Sc. '32.

Chairman for the occasion was K. D. Thomson, Sc. '42. He presented the organizing executive's nominations for directors of the branch: G. W. Adams, Sc. '31, J. N. Anderson, Sc. '28, H. L. Ames, Sc. '30, R. L. Coleman, Sc. '42, J. F. French, Sc. '33, R. S. Hafliedson, Sc. '44, W. A. Hoffman, Sc. '34, J. E. Jerome, Sc. '26, D. M. MacLean, Sc. '32, R. G. McKelvey, Sc. '34, L. S.

Brooks, Sc. '39, K. D. Thomson, Sc. '42. On motion of W. W. Beaton, Sc. '26, and P. M. Malachowski, Sc. '41, the foregoing were voted into office.

Mrs. J. G. Berry (Eleanor Stewart), Arts '42, the only woman graduate present, moved that a branch of the General Alumni Association of Queen's University be formed in this district. Seconded by J. G. Berry, Sc. '42, the motion was carried.

A toast to the University was proposed by R. G. McKelvey, Sc. '34, and E. J. Miron, Sc. '42, led in the singing of *Queen's College Colours*.

At the conclusion of the meeting, the directors met and the following officers were appointed: honorary president, Prof. A. V. Corlett, Sc. '22; president, K. D. Thomson; first vice-president, D. M. MacLean; second vice-president Mrs. Claude Smith (Phillis Archibald), Arts '41; secretary, R. L. Coleman; treasurer, W. A. Hoffman.

Kingston Alumnae

"COLLECTIVE Security" was the subject of a most interesting address delivered by Mr. Arnold Smith, a member of the staff of the National Defence College, at the regular meeting held in Ban Righ Hall on December 7. The president, Miss May Chown, Arts '11, was in the chair.

During the business portion of the meeting it was agreed that Christmas stockings should be made and given at the party for the children of students to be held on December 15.

Mrs. D. N. Bruce (Roslyn Marcus), Arts '45, convener of the bridge scheduled for January 19, gave the report of the bridge committee. All members were asked to make up one or more tables.

Miss Florence O'Donnell, Arts '09, was appointed representative of the alumnae on the Local Council of Women, to succeed Mrs. W. W. Gibson (Lulu Cays), who was unable to continue in this capacity.

K. D. THOMSON

MRS. CLAUDE SMITH

Miss Eleanor Tett, Arts '28, convener of the programme committee, reported that the next meeting would take place on January 11. Dr. John Macmurray, the Dunning Trust Lecturer at Queen's, will be the speaker, and members of the University Women's Club will be the guests of the alumnae.

The secretary was instructed to send a letter of congratulation to Mrs. E. L. Earl (Marion Ridley), Arts '30, who had been elected to the City Council of Kingston.

At the close of the meeting refreshments were served by Miss Dorothy Taylor, Arts '41, the social convener, and her committee.

Montreal

THE Intercollegiate football season in Montreal wound up with a satisfactory 10-7 win for Queen's over McGill, and a very successful dance in the evening.

With the kind permission of Lt.-Col. St. Clair A. McLean, the dance was held in the Hillside Armoury of No. 3 Div. R.C.A.S.C. The theme of the dance was the Fan Hat—a child's helicopter hat done in red and blue, with yellow propellers—and the decorations followed this motif. Three walls were decorated with tremendous coloured paper fan hats, and the remaining wall bore a large streamer announcing the results of the game. The backdrop for the orchestra was another enormous Fan Hat. Four large electric fans kept the propellers whirling on the heads of the dancers.

The orchestra, under the direction of Lenny Rubin, was particularly good, and had a special arrangement of *Oil Thigh*.

At midnight, Coach Frank Tindall was introduced to the crowd, and he in turn introduced a number of players on the football team. Dancing ended at 1 a.m., but the four bars which provided the refreshments remained open until 3.30 a.m., and the sing-songs in the Sergeants' and Officers' Messes kept on until long after that time. About 700 friends of Queen's attended the dance, and some were still there at 5 a.m.

Convener of the dance was Rupert (Lazy) Lazarus, Arts '38. The decor-

ations were by John Conner, Com. '46, and Bill Smith, Sc. '46. The special lighting effects were done by Don McLean, Sc. '43, and Bruce McColl, Sc. '44. Bill Craig, Arts '37, and Al Gray, Arts '46, handled the publicity, aided by Alan Gold, Arts '38, and Bernie Burgess, Sc. '44. Other members of the committee were Al Duncan, Sc. '39, Cecil Scott, Sc. '32, Bruce Murphy, Sc. '28, Mike Curry, Com. '48, John Corbett, Sc. '33, and Hugh Davidson, Com. '32.—R.L.

* * *

On the evening preceding the McGill-Queen's game, a meeting was held at the Ritz-Carlton Hotel, with President Bruce Murphy, Sc. '28, in the chair. Coach Frank Tindall of the Queen's team spoke, reviewing the football season and outlining plans for the future. At the conclusion of his address Mr. Tindall answered questions that were raised from the floor.

North Bay

PRINCIPAL of North Bay Collegiate Institute and Vocational School, F. D. Wallace, Arts '09, was named president for the ensuing year at the dinner meeting held on December 10. Mr. Wallace succeeds Walter Little, Arts '28, who served as chairman.

Other officers elected were as follows: past presidents, Walter Little, Mrs. T. J. Hawkins (Anne Henderson), Arts '28; vice-president, Mrs. M. N. Omond (Olga Harvey), Arts '12; secretary-treasurer, Miss Claire Kennedy, Arts '46; directors, Mrs. G. W. Irwin (Jennie

Alumni News

Births

Birch—On December 19, 1948, at the Toronto East General Hospital, to W. D. Birch, Sc. '39, and Mrs. Birch, a daughter (Janet Archer).

Campbell—On October 16, 1948, at the Private Patients' Pavilion, Toronto General Hospital, to Mr. Alex Campbell and Mrs. Campbell (Margaret Shier), Arts '42, a son (Duncan Alexander).

Carson—At the Kingston General Hospital, on September 9, 1948, to Dr. George T. Carson, Med. '41, and Mrs. Carson (Pamela Anglin), Arts '38, a daughter (Barbara Mary).

Carty—At the Toronto Western Hospital, on December 12, 1948, to R. K. Carty, Com. '42, and Mrs. Carty (Catherine Matheson), Arts '42, a son (Robert Matheson).

Clement—At the Ottawa Civic Hospital, on December 29, 1948, to Lt.-Col. J. B. Clement, Sc. '36, and Mrs. Clement, a son.

Cook—On June 21, 1948, to P. R. (Jerry) Cook, Arts '43, and Mrs. Cook, of Port Arthur, Ont., a son (Gregor Edward).

Crowther—At the Hotel Dieu Hospital, St. Catharines, Ont., on December 27, 1948, to Mr. Ralph F. Crowther and Mrs. Crowther (Betty Clarke Palmer), Arts '44, a daughter (Dora Susan).

Davis—On November 4, 1948, at the Private Patients' Pavilion, Toronto General Hospital, to R. K. Davis, Arts '42 and '48, and Mrs. Davis (Dorothy Williams), Arts '43, a daughter (Susan Elizabeth).

Dennis—At Grace Hospital, Ottawa, on December 30, 1948, to K. C. Dennis, Sc. '38, and Mrs. Dennis, a son.

Denyes—At the Kingston General Hospital, on December 9, 1948, to B. B. Denyes, Sc. '44, and Mrs. Denyes, a son (Bruce Bernard).

Engebretson—On April 17, 1948, at Minneapolis, Minn., to Mr. Donald Engebretson and Mrs. Engebretson (Lydia Klein), Arts '41, a daughter (Ann Lydia).

Fee—At the General Hospital, Cornwall, Ont., on July 30, 1948, to Rev. G. J. Fee, Com. '39, Arts '46, and Mrs. Fee (Marion Loucks. Extramural), a son (Robert Michael).

Garlough—On June 15, 1948, at the General Hospital, Cornwall, Ont., to Mr. Wilbur Garlough and Mrs. Garlough (Hilda Merkley), Arts '38, a daughter (Linda Ruth Ann).

Hanbidge—On November 5, 1948, at St. Marv's Hospital, Montreal, to Mr. R. W. D. Hanbidge and Mrs. Hanbidge (Mary Vallentyne), Arts '45, a daughter (Catherine Anne).

Harper—At the Women's College Hospital, Toronto, on December 10, 1948, to Dr. W. S. Harper, Med. '41, and Mrs. Harper, a son.

Harris—At Grace Hospital, Ottawa, on January 5, to John Harris, Sc. '40, and Mrs. Harris (Doris Maxwell), Arts '39, a daughter.

Holland—On May 13, 1948, in the General Hospital, St. Catharines, Ont., to C. D. Holland, Sc. '46, and Mrs. Holland (Ree Martin), Arts '44, a daughter (Doran Martin).

McGinnis—At the Kingston General Hospital, on January 6, to A. D. McGinnis, Sc. '38, and Mrs. McGinnis (Eleanor Clark), Arts '40, a daughter.

Mahon—On July 6, 1948, at the Royal Jubilee Hospital, Victoria, B.C., to Instructor Lieut. Cdr. E. Crawford Mahon, R.C.N., Arts '38, and Mrs. Mahon, a son (Ian Crawford).

O'Connor—On December 18, 1948, at Regina, Sask., to Dr. Laurence N. O'Connor, Med. 43, and Mrs. O'Connor, a daughter (Mary Carol).

Skelton—On November 29, 1948, at the Ottawa Civic Hospital, to Alex Skelton, Arts '27, and Mrs. Skelton, a daughter.

Sprott—On December 8, 1948, to Harold Sprott, Com. '32, and Mrs. Sprott, a daughter.

Urie—At the Ottawa Civic Hospital, on December 29, 1948, to J. J. Urie, Com. '41, and Mrs. Urie, a son (John David).

Watson—On December 10, 1948, at the Community Hospital, Deep River, Ont., to Lavern Watson, Sc. 48½, and Mrs. Watson, a son (Thomas George).

Marriages

Alcock—On June 29, 1948, in Toronto, Patricia Hunter to Norman Zinkan Alcock, Sc. '40.

Bailey—On June 2, 1948, at Montclair Presbyterian Church Oakland, Calif., Kathryn Margaret Kenon (Calif. '49), to Donald Bailey, Arts '40.

Burwash—On November 20, 1948, at St. Andrew's Presbyterian Church, Ottawa, Margaret Morton to Godfrey Douglas Burwash Sc. '48. They are living in Shawinigan Falls, Que.

Carmichael—On November 6, 1948, in Southminster United Church, Ottawa, Hazel Eileen Hamilton to John W. Carmichael, Sc. '38.

Clarke—In Knox Presbyterian Church, Toronto, on December 22, 1948, Martha Anne Sutherland to John Leslie Clarke, Sc. '45. They will live in Toronto.

Corlett—On October 9, 1948, Miss D. M. Brewer to John Thomas Corlett, Arts '37, Sc. '39. Windsor, Ont.

Jackson—On December 6, 1948, in St. John's United Church, Alliston, Ont., Helen Gertrude Banting, niece of the late Sir Frederick Banting, LL.D. '23, to Rev. Fred Jerome Jackson, Arts '38, Theol. '40, minister of the United Church, Hornings' Mills, Ont.

Johnson - Whittier—On December 27, 1948, at the home of the bride's parents, Ottawa, Alma Isabelle Whittier, Arts '44, daughter of A. R. Whittier, Sc. '20, and Mrs. Whittier, to K. M. Selby Johnson, Arts '39, son of Alfred Johnson, Arts '15, and Mrs. Johnson, Woodstock, Ont.

Lorimer - Julian—In First Presbyterian Church, North Pelham, Ont., in the latter part of December, 1948, Glenna Helena Julian, Com. '48, to Rowland Arthur Lorimer, Com. '48, Montreal.

Mullin—In Grace United Church, Napanee, Ont., early in January, Barbara Jean Johnston to Dr. George Lashley Mullin, Med. '47. They will live in Madoc, Ont.

Nelson—On September 18, 1948, in Toronto, Molly Charron to Dr. James Howard Nelson, Med. '47, of Winnipeg.

Scott—On December 29, 1948, at the home of the bride's mother, Ottawa, Caroline Phelps Coghill, to John Wilson Scott, Arts '48, of Halifax, N.S.

Stead—On September 11, 1948, in Stratford, Ont., Helene McCaffrey to Walter D. Stead, Com. '40. They are living in Hamilton where Mr. Stead is with the Otis-Fensom Elevator Company.

Whelen—On August 7, 1948, Christine Harris to Douglas Armstrong Whelen, Sc. '44. Mr. Whelen is assistant city engineer at Burnaby, B.C.

Wright—On December 29, 1948, in the United Church, St. Lambert, Que., Barbara Joan Knowles to John Robert Wright, Sc. '47, Montreal.

Deaths

Adams—After a lengthy illness, Herbert Wallace Adams, Sc. '31, died in Ottawa on November 26. He was in his fortieth year. Mr. Adams was born in County Tyrone, Northern Ireland, and came to Canada twenty-five years ago. He received his preliminary education in the schools of Regina, Saskatchewan, and entered Queen's in 1927. He graduated four years later with his B.Sc. degree in electrical engineering. Since that time he had been employed by the Saskatchewan Telephone Company. During the war he was with the British Government. Mr. Adams was a lieutenant with the 12th Divisional Signals, Reserve Army, Regina. He was an enthusiastic radio "ham." The survivors include his wife, his parents, a son, and two sisters.

Donevan—At his residence in Oshawa, Ontario, Dr. Frederick James Donevan, Med. '07, died on December 10. He was in his sixty-ninth year. Dr. Donevan was born at Gananoque, where he received his early education. He entered Queen's in 1901 and graduated with his M.D.C.M. degrees in 1907. After he completed his internship at the Ottawa Civic Hospital, he practised at Seeley's Bay and later at Smiths Falls. During World War I he served four years with the R.C.A.M.C. On his return to Canada he established a practice in Oshawa. During his residence in

Oshawa, Dr. Donevan took an active part in the development of the city's educational facilities, being a member of the Board of Education continuously for twenty-two years. Survivors are his wife, a daughter, a sister, and two brothers.

Hanley—After an illness of several weeks, Miss Nellie Hanley, Arts '03, died at her home in Kingston, Ontario, on November 22. Miss Hanley was born in Kingston in 1879, and received her early education in the schools of that city. Entering Queen's in 1899 she specialized in languages. She was in attendance for two sessions. Miss Hanley was associated with her brother, the late Dean A. J. Hanley, when he was parish priest in Gananoque for six years and Brockville for ten years. She was known for her many acts of charity in Kingston, Gananoque, and Brockville. She travelled extensively and visited the Holy Land on one occasion. Surviving is one sister.

McGinnis—A conscientious welfare worker, with many interests, Mrs. T. A. McGinnis (Elizabeth Alice Richardson), Arts '09, died on December 7 at Kingston, Ontario. Mrs. McGinnis was born in Kingston in 1887, the daughter of the late Senator and Mrs. H. W. Richardson. She attended the schools of that city, and graduated from Queen's with her B.A. degree in 1909. Mrs. McGinnis always took a keen interest in anything affecting the welfare of the people of Kingston. She was a diligent member of the General Hospital Women's Aid and for two years was president of that organization. She was active in connection with the Women's Home Association of St. Andrew's Presbyterian Church. She was also for two years president of the ladies' section of the Cataraqui Golf and Country Club. During the last war Mrs. McGinnis was particularly zealous and industrious. As war convener in charge of the work rooms of the I.O.D.E., she worked very hard organizing and superintending the sewing work and packing of all the bales of clothing for overseas. In addition, as wife of the chairman of nine Victory Loans, Mrs. McGinnis took on a great responsibility and did a lot of entertaining whenever distinguished visitors came to Kingston to help promote the loans. It was when dispensing hospitality that Mrs. McGinnis was most happy. During the war she kept open house at her home, "Stone Gables," for all members of the services, and hundreds of young men who were training at the military camps, the naval barracks, and the Norman Rogers Airport were entertained by her at week ends. Mrs. McGinnis also took an active interest in the affairs of the University and the General Alumni Association, of which she was a life member, and her generosity to Queen's is well known. The survivors include her husband, T. A. McGinnis, Sc. '09, three daughters—Mrs. W. L. Glen (Norah McGinnis), Arts '35, Elizabeth McGinnis, Arts '46,

Janet McGinnis, Arts 46; two sons, including David McGinnis, Sc. '38; two sisters—Mrs. T. A. Kidd, Mrs. H. G. Bertram; and a brother, J. B. Richardson.

Orwell—After a lengthy illness, Albert Edward Orwell, Sc. '30, died in Montreal, Quebec, on December 2. Mr. Orwell was born in Kingston, Ontario, in 1905 and received his early education in the schools of that city. He graduated from Royal Military College in 1928 and entered the Science Faculty at Queen's. In 1930 he obtained his B.Sc. degree in electrical engineering. He joined the staff of the

Northern Electric Company, starting with the engineering department, and was appointed assistant master mechanic in 1943. Three years later he was promoted to the position of mechanical superintendent of the wire and cable division. He always maintained an active interest in Queen's, and was a past president of the Montreal branch of the General Alumni Association. He is survived by his wife and three children.

Robertson—At the age of sixty-seven, Dr. John Joseph Robertson, Med. '03, died at his home in Belleville, Ontario, on

January 24, 1948. Dr. Robertson was born at Thorold, Ontario, and attended Albert College, Belleville, before entering the Medical Faculty at Queen's. He graduated with his M.D., C.M. degrees in 1903. After postgraduate study he located at Tweed and commenced the practice of his profession in 1905. In 1917 he went to Belleville where he built up a large practice over the past thirty years. During the first World War he enlisted with the Royal Canadian Army Medical Corps and was honorably discharged in 1916. Dr. Robertson was a Fellow of the American College of Surgeons and he was also a member of the Ontario and Canadian Medical associations. Among the survivors are a daughter, a son, a sister, and a brother.

Thompson—Minister emeritus of Glebe United Church, Rev. Dr. T. J. Thompson, Arts '95, D.D. '29, died at his home in Ottawa, Ontario, on December 1. Dr. Thompson had been ill for some time and had had both legs amputated within the last six months. He was born in Toronto, Ontario, and attended Jordan Academy in New York before coming to Queen's. He received his M.A. degree in 1895. After he was ordained he served as minister at John Street Baptist Church, Belleville, and at First Church, Collingwood. He was chaplain of the 49th Regiment in 1900, with the rank of captain, and served in World War I as chaplain of the 38th Battalion. Later he was appointed honorary major and chaplain of the Duke of Cornwall's Own Rifles. In 1913 he was appointed minister at Glebe Church, to which he returned after his war service. He retired in 1939, but was frequently called upon to return for special occasions. Dr. Thompson's reputation was Dominion-wide. In 1947 he was named as delegate for the United Church of Canada at Memphis, Tennessee, meetings of the Alliance of Reformed Churches. In addition to his other interests he was an ardent sports fan. Among the survivors are his wife, two daughters, Erica Thompson, Arts '23, and Barbara Thompson, Arts '40, one son, and a sister.

Notes

1890 - 1899

C. V. Bennett, Arts '94, has been retired for the past year and is living at Stettler, Alta., where he practised law for over thirty years and acted as Crown Prosecutor from 1917 to 1924. After leaving Queen's Mr. Bennett taught in Waterford, Tillsonburg and Barrie, Ont., before attending Osgoode Hall. He was called to the Ontario Bar and to the Bar of the Northwest Territories in 1904 and to the British Columbia Bar in 1909, after which he practised for some time in Lethbridge, Alta., and Prince Rupert, B.C.

1900 - 1909

C. P. Bishop, Arts '00, formerly assistant treasurer of the T. Eaton Company, Toronto, has been retired for several years.

Rev. W. H. Burgess, Arts '09, Theol. '12, was appointed pastor of the United Church in Bracebridge, Ont., last July. He had formerly held the charge at Mount Forest, Ont.

Dr. W. M. Robb, Med. '05, is retired and living at 233 Ridley Blvd., Toronto.

1910 - 1919

Dr. D. M. Baker, Med. '14, Keewatin, Ont., was bereaved on October 23 by the death of his wife, formerly Edna Curry, a graduate of the Lillian Massey School of Household Science, University of Toronto.

Rev. Arthur Bell, Arts '14, is rector of St. Luke's Memorial Church in Tacoma, Wash.

C. A. Boulton, Sc. '17, has joined the staff of Bennett and White Calgary Limited, a construction company in Calgary, Alta.

S. Preston Eagleson, Sc. '17, Ottawa, was bereaved by the sudden death of his wife on December 17.

James M. Forgie, Arts '11, member of the law firm, Forgie and Forgie, was recently elected Reeve of Pembroke, Ont., by acclamation. Mr. Forgie was Liberal candidate for North Renfrew in the last provincial election.

Treffe Imbleau, Sc. '19, of St. Catharines, Ont., and **Dr. Lorrian Imbleau**, Med. '21, of Union, N.J., were bereaved by the death of their mother, Mrs. Henry Imbleau, of Renfrew, Ont., on November 6.

A. E. Judge, Arts '15, is principal of the high school in Burford, Ont.

G. O. Oatway, Arts '16, principal of the collegiate institute in Smiths Falls, Ont., recently completed twenty-five years as a teacher in that school. In honour of the occasion a presentation was made to him by the members of his staff.

T. O. Whillans, Sc. '17, is a patent examiner in the Patent Office, Dominion Government. He lives at 22 Sunset Blvd., Ottawa.

1920 - 1929

H. E. Balfour, Arts '21, is director of the school of administration in the Department of Education, Government of Alberta.

R. C. Brehaut, Sc. '27, has resigned as manager of the Sherritt Gordon Mines, Sherridon, Man., and has established his own business as a consulting mining engineer in Winnipeg. He is still retained by the Sherritt Gordon Mines as mining consultant.

Edith Durnin, Arts '21, head of the mathematics department in the high school at Fort Frances, Ont., since 1925, has retired from teaching. She is living at 311 First St., Fort Frances.

L. E. Ennis, Sc. '23, is special engineering representative with the Bell Telephone Company in Montreal.

Dr. G. C. Hamilton, Arts '22, Med. '24, practises at 86 Front St., Binghamton, N.Y., specializing in internal medicine.

Life has Changed for the Family Man

MOST men live longer than their grandfathers. Women have a better life expectancy, too. So have children—not only that, but children nowadays spend more of their years getting an education.

These facts have brought significant changes in the family man's financial obligations. They mean that he must *be prepared to support everyone in his family longer—including himself!*

Fortunately, there is an effective way of meeting financial obligations of this nature—a well-planned insurance programme. Life insurance is a sure means by which a man can provide protection for his family in the event of his death or an income for himself should he live to retirement age.

The family man is wise to review his insurance requirements in view of changing conditions. If *you* would like expert advice, a representative of the Manufacturers Life will be glad to give it to you.

HEAD OFFICE • TORONTO, CANADA

(Established 1887)

A. H. Friedgut, Arts '20 (LL.B. Manitoba), Toronto lawyer, has been appointed agent-general to represent interests of Canadian Zionists in Israel. He is leaving shortly to take up residence in Tel-Aviv.

D. G. Geiger, Sc. '22, Transmission Engineer, Western Area, Bell Telephone Company of Canada, has been named chairman of the Canadian Council of Professional Engineers and Scientists for 1949. Mr. Geiger is vice-president of the Canadian district, American Institute of Electrical Engineers.

Dr. O. W. Gilmour, Med. '29, is supervising psychiatrist at Wassaic State School, Wassaic, N.Y.

Dr. E. Harold Hinman, Arts '27, has been appointed director of public health at the University of Oklahoma, Norman, Okla. After leaving Queen's he took his M.B., and M.D. degrees from Louisiana State University Medical School, and his M.P.H. from Johns Hopkins School of Hygiene and Public Health. He is the author of many scientific articles on public health, tropical medicine and medical entomology and parasitology.

H. M. Ide, Sc. '27, formerly with Frost and Wood Company, Smiths Falls, Ont., has for the past year been with Canadian Arsenals, first as planning supervisor in the head office, Ottawa, and recently in Lindsay as chief engineer of the gun ammunition division.

J. H. Kent, Arts '29, has been promoted to full professorship and head of the department of Latin at Southwestern College, Memphis, Tenn. During the past three summers he has been attending the Institute for Advanced Study at Princeton University.

Donald Kincaid, Sc. '27, recently joined the staff of Minnesota and Ontario Paper Company at International Falls, Minn., as research supervisor in charge of the insulate base products group.

W. L. McDougall, Com. '28, is president and general manager of Lorne McDougall Insurance Agencies Limited, Belleville, Ont., which he organized in 1946.

W. T. Pound, Sc. '29, has been appointed plant engineer for Pacific Mills Limited, Ocean Falls, B.C. Until recently he was plant engineer with the Brown Corporation at La Tuque, Que.

Rev. G. H. Sadler, Arts '21, Smiths Falls, Ont., has been appointed a canon of St. Patrick in Christ Church Cathedral, Ottawa.

Alex Skelton, Arts '27, was recently appointed Assistant Deputy Minister of Trade and Commerce. He was formerly economic adviser to the Bank of Canada.

W. D. Stone, Arts '29, has been appointed facilities supervisor in the Western Area, Bell Telephone Company of Canada, with headquarters in London, Ont.

1930 - 1939

Dr. D. C. Bews, Med. '35, associate professor in the Faculty of Medicine, McGill

University, has been appointed assistant medical director for the Bell Telephone Company of Canada, and will assist in the co-ordination of health services in the Eastern Area. Dr. Bews did postgraduate work in public health at the University of Toronto and in tropical medicine at McGill. In 1937 he went to the Far East where he was superintendent of the Kareyzawa Sanatorium in Japan and later at the Mackay Memorial Hospital in Formosa. He returned to Canada just before the outbreak of war with Japan.

R. C. C. Brown, Sc. '33, and Donald W. Brown, Sc. '38, Toronto, were bereaved by the death of their father, Mr. Harry W. Brown, on December 15. Mr. Brown was former assistant to the deputy minister in the Department of National Defence.

W. R. Burnett, Com. '34, is a member of the legal firm MacCracken, Fleming and Burnett, 48 Sparks St., Ottawa. He was recently elected president of the Ottawa West Liberal Association.

Paul Cunningham, Com. '30, Toronto, was bereaved by the sudden death of his father, Mr. John Ernest Cunningham, of Kingston, on December 27.

Dr. Max Echenberg, Med. '32, is practising in Reading, Pa., specializing in neuropsychiatry.

F. L. Edwards, Sc. '36, formerly with the Sutton-Horsley Company, Toronto, is now plant superintendent for the Parker Pen Company in London, Ont.

M. A. Erickson, Sc. '36, is with the Chrysler Corporation, Detroit, Mich., as head of the stress analysis department.

R. P. Guselle and C. M. Sager, of Com. '39, are with the Bank of Canada, Ottawa, as administrative officers of the Foreign Exchange Control Board.

Dr. J. J. Hergott, Med. '33, is in general practice at Ayton, Ont.

Dr. J. E. Josephson, Med. '34, is pathologist to the Government of Newfoundland and director of the public health laboratories. He is also pathologist to the General, St. Clare's and Grace hospitals in St. John's, Nfld.

J. G. Kerfoot, Sc. '36, recently joined the staff of the Phillips Electrical Works, Brockville, Ont., where he is doing plant engineering.

J. W. Leavens, Sc. '30, is works manager of the small arms division, Canadian Arsenals Limited, Long Branch, Ont.

Col. W. W. Lockhart, Sc. '31, of Edmonton, has been appointed the new Director of Signals at Army Headquarters, Ottawa, to succeed Col. A. E. Wrinch, Sc. '35, who will be at the Canadian Army Staff College, Kingston, for the 1949 course.

Jean Naismith, Arts '35, teaches in the high school at Kemptville, Ont.

Lt.-Col. G. W. L. Nicholson, Arts '31, of the Historical Section at N.D.H.Q. Ottawa, visited Italy during September and October for the purpose of going over the terrain occupied by the Canadians during the war.

Louis Orenstein, Arts '34, who received his law degree in 1937 from the University of Montreal, has been practising since that time in Montreal in partnership with Joseph Malen, Arts '34. Their offices are at 261 St. James St. W.

G. W. Robinson, Sc. '36, is employed as manager of Polaris Taku Mining Company Limited, Tulsequah, B.C.

E. T. Sherwood, Arts '35, who has been doing graduate work at the University of Chicago for the past two years, left recently for Africa to do a research project in human relations for his Ph.D. dissertation.

Wing Cmdr. Nelles Timmerman, Sc. '36, senior staff officer at North West Air Command Headquarters, was chosen with six other Canadian R.C.A.F. officers to attend an air force photography and reconnaissance conference in Topeka, Kansas, early in December.

H. D. Worden, Sc. '35, is with the bureau of geology and topography, Department of Mines and Resources, Ottawa.

Dr. H. G. Young, Med. '38, of Glen Falls, N.Y., has been made a Fellow of the American College of Surgeons.

1940 - 1948

R. F. Bailey, Sc. '48½, has been appointed town engineer at Crystal Beach, Ont.

J. W. Bavis, Com. '40, is with Price, Waterhouse and Company, 800 Royal Bank Bldg., Toronto, Ont.

Ned Better, Arts '48, is studying Medicine at the University of Geneva, Switzerland.

David Biggar, Sc. '48½, has joined the engineering department of the Canadian Sirocco Company, Windsor, Ont.

S. B. Birnbaum, Arts '47, is in his second year Pharmacy at the University of Montreal.

L. H. Browne, Sc. '40, is assistant chief geologist for MacLeod-Cockshutt Gold Mines, Geraldton, Ont.

R. W. Butcher, Arts '47, is lecturing in mathematics at the University of Manitoba, Winnipeg, Man.

R. M. Callum, Arts '41, of the Robert Simpson Company, has been transferred from Toronto to Robert Simpson Western Limited in Regina, Sask., where he is manager of the statistical department.

A. P. Campbell, Arts '46, is doing post-graduate work at Bishop's University, Lennoxville, Que.

A. H. Donnelly, Arts '47, is a reporter for the Canadian Press. He lives at 39 Dalton Road, Toronto.

K. R. Eland, Sc. '40, is works manager for Lion Grinding Wheels Limited, Brockville, Ont.

Betty Garbutt, Arts '44, is assistant bacteriologist in the Division of Laboratories of the British Columbia Government. During the past summer she took a post-graduate course in advanced bacteriology at the University of Michigan.

DESERT COUNTRY OF THE RIO GRANDE

H. Arliss Denyes, Arts '45

THE moonlight gleams on bush and rock where long shadows reach across the desert floor. Far away a silver shaft etches the steep face of a mesa or flows over the jagged pinnacles of mountain masses to soften the bitter outline cut by centuries of sand-laden winds and torrential rains. The plaintive howl of the coyote drifts down from the mesa on the gentle night wind. Nearby the rapid click of hooves tells you that your camp is close to a favourite water hole. Gratefully you close your eyes once more since there is nothing to fear from the gentle mule deer or the coyote on the distant mesa.

When you awaken again the shadows have shortened beneath the bushes, the wind has gone back into the mountains with the mule deer and the coyote. In the deep silence, which only the desert can know, there begins a low hum that seems to come from the very stillness of the air and to reach out and wrap itself around you. In the east, behind the

cliffs of the Sierra del Carmen, the first rays of the sun are flashing into deep red against the pale morning sky as the god of the desert ascends to his throne. There his power will not wane until the last hour of his setting. The low hum, you say, is the hymn of the desert to the master of all things therein, but you are wrong, for it is only the pounding of blood in your ears.

As you rise quickly to put away bed-rolls and cots and make breakfast in the fast shrinking shade of the car, the sun has already risen above the cliffs. The desert belongs to him, indisputably, for his weapons are heat and thirst. You know that he has been here before through the days of many centuries for there is little flowing water except in the shade of the high, tree-covered El Chisos, the Ghost Mountains.

The day's work will not be done until the last light fades from the sky for there are only two of us in this vast expanse with all the strange plants of the desert to collect and the many traps to be laid out. Early in the morning the trap lines are run and the peculiar little mammals of the desert are brought into camp to be made into museum skins for future study. Then our ceaseless hunt for the strange species of cacti, yuccas, agaves, and other spiny or razor-edged plants takes us into the dry arroyos of the intermittent streams typical of arid regions, up the rough slopes of the hills and mountains with their sword coverings of lecheguilla, sotol, acacia, and opuntia and into the deep pine-oak canyons of the higher mountains. With great care we step around the crevices of limestone ledges for under these, where he can find respite from the intense heat of the sun, often lies coiled the large and virulently poisonous Texas Diamond Back or his close relative, the

The 1948 winner of the Marty Memorial Scholarship awarded by the Alumnae Association, Miss Denyes is now completing her doctorate at the University of Michigan. She graduated from Queen's with an honours B.A. in 1945. As an undergraduate she won several awards, including the W. W. Near Scholarship in Biology, the Reuben Wells Leonard Scholarship for the highest standing at the end of the penultimate year, and the medal in biology. After graduating from Queen's Miss Denyes went to the University of Michigan on an Ontario Research Foundation award of \$1,200 and obtained her M.S. degree in 1946. In connection with her work on her doctorate, Miss Denyes has been engaged in field research in Texas, and this article gives an account of some of her experiences.

small but equally dangerous, Green Rattlesnake. An overturned stone may reveal the resting place of a small lizard, or a scorpion with his tail whipping savagely. The huge tarantula lives in large numbers on the desert flats and in the grasslands farther north. It is common to see them crossing the roads at night, harbingers of the coming storm. When teased, their defence is weak and their greatest desire, as with all these poisonous creatures, is to be as far away from you as you would wish to be from them.

The succulent plants of the desert are heavy and we return to camp bowed down by the weight of our loot and well covered with a maverick-brand of many cuts and sores. Cacti must be cut longitudinally and dried in the baking sun before they can be put in a plant press. The chemical constitution of a cactus is such that it holds water with a grip of iron which only salt and the desert sun can break. A whirling dervish of the desert, the spiraling pocket of wind called the dust devil, is never loath to pirouette in magnificent confusion through the ordered rows of cacti lying on their numbered papers. There may be no rest for the devil anywhere but in the desert there is no rest for anyone.

Noontime brings temperatures of 120 to 130 degrees Fahrenheit, no shade and a maddening desire to drink a bathtub full of water. The daily allotment of water for drinking is one full canteen, and for washing body and clothes an inch in the bottom of a pail. The dirty water is then used for soaking the jacket of the canteen in order to cool the contents by evaporation. The fastidious do not prosper on the desert.

In the afternoons of the summer rainy season, violent storms sweep across the country filling the dry beds of the streams with three-foot walls of water. These often carry cars for miles downstream and leave them buried in silt up to the roof. Many hours are spent by the traveller in this country waiting for the roaring, mud-laden waters to subside. Invariably the whole bottom of the stream is shifted and where the road once crossed, great piles of fine gravel, huge

boulders, or deep deposits of mud require an energetic use of pick and shovel. Often the desert trails follow wide arroyas for miles where the car labours ahead in low gear, with the tires smoking and the steering wheel spinning violently as the front wheels buck the piles of gravel and the hidden rocks. The reward for hard work and danger, here, is an interesting place to trap, a plant new to our collection, or an old and deserted settlement replete with the colourful history of this boundary country.

The roads south of the Chisos and just north of the Rio Grande have been neglected for several years except for the occasional government River Rider or Border Patrol official. In this wild and infrequently travelled region are the great drainage channels of the mighty Chisos Mountains. Here the car tracks are swept away in every heavy rain, and it is wise to drive with one eye on the faint tracks in the deep arroyas and the other on the clouds gathering over El Chisos. The only warning of approaching water is a deep rumble and a rank odour. In the deep beds of the dry creeks there is seldom any place to get out except where you came in and where you will, God willing, eventually leave. The sound of this angry roar, when camping near a creek bed at night with the washoff from the nearby hills and flats lapping around the calves of your legs, is indeed terrifying.

The cover is too sparse, the soil too impervious and the rains too torrential for the land to retain the moisture. As a result the water flows, almost unchecked, to the Rio Grande and thence to the ocean. Nothing can stop the race of the water to the river and its million channels change the face of the country each time the banks of the Rio Grande are swelled with its outpourings.

Here and there along the Rio Grande and north of it are scattered small adobe settlements. In a few of these, Mexican families are still living but the greatest number are abandoned to the memory of their violent history which will remain long after the last adobe brick has melted into the desert floor. The most interesting of these is Glenn Spring,

where, in its heyday, before 1917, there were many Mexican families, a ranch house whose irrigation made the desert bloom, a store guarded by American soldiers, and even a school house with a pretty teacher who created quite a sensation in the local newspapers of that time. Now the Mexican families have left, the roofs have gone, and the walls are melting away. Only the graves, marked by piles of rock and the strange rock designs which they laid out before their now vanished homes, remain. The walls of the store are standing to remind one of the raid by Pancho Villa's men in which one soldier and a small boy were killed. The remaining four soldiers took off across the countryside in their bare feet, through lecheguilla and cacti, to escape the vicious treatment for which these raiding Mexicans were notorious.

Deserted quicksilver mines are not uncommon. The reddish tailings are left scattered against the hillsides which are dotted with narrow mine shafts. These are usually open to serve as a roost for bats but some are closed by oddly shaped wooden doors. The working conditions in these mines were deplorable. The humidity was generally 100 per cent, the

temperatures high, ventilation practically non-existent, and the pay for the Mexican labourers only a few cents a day. Most of the mines closed down because of flooded conditions.

No desert or mountainous country is complete, of course, without a tale of lost mines and the Big Bend is no exception. Several of the highest, jagged peaks of the Chisos Mountains are designated as Lost Mine Peaks. During the time when the Spanish were masters of this land convicts were brought north, blindfolded, from San Vicente on the Rio Grande to work in a silver mine in El Chisos. It is said that the story of how to locate the mine was put together secretly by the prisoners. If one stands at San Vicente on Easter Morning when the sun is just rising over the Sierra del Carmen a shaft of light will be seen striking the Chisos Mountains directly at the entrance of the mine. The story continues to describe how the Apaches became antagonistic to the Spaniards and blew up the entrance high in the mountains. Expeditions have looked for this lost mine but have only succeeded in finding remains of Spanish spurs and tools. Although it is well

The Rio Grande River flows through Santa Elena Canyon with Mexico to the left and Texas to the right.

known that stories of lost mines are seldom based on truth there is an almost irresistible desire to believe and to search for these will-o-the-wisps out of the romantic past.

Late afternoon in the desert brings a slight relief from the unbearable heat but it also brings the necessity for baiting 360 traps set out in their regular rows in adjoining types of vegetation. On the flats the desert is dominated by creosote, blackbush, mesquite, ocotillo, acacia, cacti of many different kinds, and after a rain numerous little ephemeral flowers appear whose seeds have waited for many months to bring their contribution to the beauty of the desert. On the low hills the sotol and the lecheguilla grow in uncomfortable profusion. In the higher mountains the stark glare of the arid flats is replaced by the soft green of many oaks, pines, and junipers and the thick green leaves of the madrona. Beneath these, cacti grow in less profusion and the rich grama grasses of the Southwest soften the contour of grim volcanic rock.

A second name for the Big Bend could well be "Hawk Paradise". Red-tailed hawks are common sights wheeling over the country in search of unwary prey or surveying their kingdoms from fence posts. Swainson's, Cooper's and Harris's Hawks, the Ferruginous Rough-Leg, Mexican Goshawk and Black Hawk, the Prairie Falcon and the Sparrow Hawk are a few of the more common Falconiformes. The Aplomada Falcon, now almost extinct, is a rare visitor from Mexico.

The Golden Eagle is the centre of much controversy between ranchers and conservationists. According to hearsay and based on no scientific observation the Golden Eagle is branded as a destroyer of lambs and kids. For this reason it is hunted and shot from airplanes and hundreds are killed every year. The carcasses are hung on fences in a disgusting display of wanton destruction. In the great wilderness of northern Mexico and in the Big Bend National Park the Golden Eagle can find some sanctuary from economic pressure and prejudice.

A most colourful feathered inhabitant of the desert is the "Chaparral Cock" or Road-Runner. This slender, long-tailed bird has been known to pace alongside cars at considerable rates of speed, and is reluctant to take to the air. In mating season the clucking calls of the male give away his hiding place although he often blatantly exposes himself for the admiration of any susceptible female. The fame of the Road-Runner lies in his habit of attacking and killing rattlesnakes. The bulk of his diet is found, however, in the numerous small lizards of the desert.

There are a number of birds peculiar to the Big Bend or more particularly to the Chisos Mountains. These mountains, which rise with surprising abruptness and isolation out of the desert flats, offer much that is interesting to the student of evolution. Here, if one is fortunate, a glimpse may be caught of the rare Colima Warbler or the little Elf Owl. The gushing trill of the Canyon Wren echoes along the mountain valleys in the early morning and the scolding of the Arizona Jays is nature's alarm clock.

Along the Rio Grande the brilliant plumes of Orioles, Tanagers, Hummingbirds and the Pyrriloxia flash among the cottonwoods and the mesquite. The Mexican Cliff Swallows dip over the water and wing their way back to the mud nests on the canyon walls. The pompous forms of Scaled Quail parade defiantly across the desert flats and overhead the vultures circle in a never-ceasing vigil of the desert floor. The Cactus Wrens build nests of spines to keep out snakes, and their many subsidiary and unprotected constructions ornament the cholla cacti like rakish wigs.

The bird life of the desert is rich and varied. Heat, dust and the scarcity of water have not discouraged the formation of a rich avifauna. The desert is full of song as well as of beauty.

The small mammals of the desert are as secretive as those found elsewhere in the world. No casual observer knows them for they forage by night and lie hidden in the cool depths of the earth during the day. Only the larger mammals forage by day using the shade of

the low plants as much as possible. Many creosote bushes harbour Black-tailed Jack Rabbits or Cottontails and occasionally one glimpses Coyotes, Gray Foxes and Ring-tailed Cats as darkness falls. A rare treat is the sight of a small band of Peccari, or wild pigs, which have been almost exterminated in the region. Virginia Deer range in the higher Chisos while at the lower altitudes, in the foothills and on the flats, the large-eared Mule Deer is common. The largest predator is the Mountain Lion who has found a refuge from persecution in the wild portion of the southern rim of the Chisos. At night, when camped in the mountains the sound of laboured breathing tells of a Black Bear in the canyon below.

The deep canyons of the southern edge of the Chisos have given refuge to a number of plants as well as the Mountain Lion. These are plants which are normally found only in the higher zones of the Rocky Mountains and have been left here as a relict of a climate past and gone. The Douglas fir grows well near Boot Spring and the Arizona cypress is found in Juniper Canyon as a stand whose individuals are many feet thick and forty or more feet tall. The Chisos Mountains are an oasis in the midst of the desert and a sanctuary for many of the peculiar plants and animals found in the Big Bend.

What then of the small mammals which emerge only in the cool of the night, for they are a very important part of the desert and its mountains. By the bright moonlight it is possible to watch them scurry about in search of food or tumble about in what we must confess has every semblance of play. The most common of these little creatures are the Kangaroo Rats who live together in large mounds, and the Pocket Mice. Both of these mammals are adapted to the arid conditions and are capable of going without water indefinitely provided that they can obtain enough from the metabolism of their food. Their cheeks have external fur-lined pockets and the hind legs are lengthened so that they hop rather than run. Quickly they move about to fill their pockets with seeds of grasses, forbs, and cacti for their stores on which they can live should the weather become unsuitable for foraging.

One of the smallest mammals is the tiny Merriam Pocket Mouse whose body is approximately the size of the last joint of a man's thumb, not including a tail several inches long. In spite of its size it is one of the most ambitious characters of the region, being found in almost every habitat. Several species of White-footed Mice are also well adapted to the arid conditions and occur in considerable numbers in every trap set.

M. S. Anthony

Camping on the desert flats east of the Chisos Mountains, Big Bend, Texas.

Grasshopper Mice are fat-bodied little mammals with a short fat tail, whose chief gustatory delight is illustrated by their common name. They are one of the smallest carnivorous mammals and would be very beneficial if their numbers were not generally small and their distribution spotty. The home of the Pack Rat is betrayed by piles of sticks, cacti, and other vegetation. Its numbers have been greatly reduced by range control practices. The Ground Squirrels of the Big Bend are often seen during the cooler parts of the day on the desert and in the mountains. The pert and brightly coloured Antelope Ground Squirrel is fascinated by squeaking noises and comes close to investigate with his little tail bobbing frantically over his back. The large black and white Rock Squirrel moves quickly among the mountain boulders and is reluctant to approach the valiantly squeaking naturalist.

In order to study these furtive creatures it is necessary to trap them. They can be repeatedly caught in live traps laid out in a pattern from which one can obtain considerable information on their movements, home ranges, and territories. This is a very desirable method for studying mammals, but the live traps are heavy and cumbersome, in toto, and in widespread studies of difficult regions it is necessary to use the smaller dead-trap. This is nothing more nor less than a fancy model of an ordinary mouse trap. Although dead trapping reduces the population, it is built up again from the surrounding region in a matter of a few weeks. Larger mammals, because of their lower breeding rate, could not, of course, survive such treatment. It is primarily for this reason that the scientist uses these small mammals for his studies of population dynamics in hopes of obtaining general concepts applicable to populations as a whole. A comprehension of animal populations will help to bring an understanding of the means to control those species not desirable at various times or places, as well as the means to encourage those species whose desirability not only to man but to the community, in the sense of the ecologist, is high. There is nothing on

the face of the earth, above or below, which does not possess a relation with something else. For this reason alone we must take care in our handling of this earth and its creatures for we ourselves are inextricably involved in all of these reciprocal relationships.

The desert has always held the imagination of poet and artist for it is close to the beginning of things. Nature stands revealed in cruelty, in magnificence, and in shocking beauty. A seed is planted in the minds of those who have known the desert and in time it flowers, and its fruit is the desire to return again.

In this short space I have tried to frame a picture of one of the desert regions of North America. Needless to say there is much that I have not included. A wealth of impressions and scientific fact was accumulated from two visits, a total of ten months, to this peculiar country lying in the bend of the Rio Grande. I have given only a few of these but I have tried to reveal both the stark and the beautiful which are always interwoven in desert country. As time goes by one forgets the heat, the thirst, and the discomfort of the desert and remembers clearly only those things which have fed the mind whose power it is to raise us above the mundane and the materialistic.

F. R. Parker, Arts '87, Honoured At Elmira, New York

A shaft honouring Francis R. Parker, Arts '87, who was termed the "father of modern athletics in Elmira schools," was dedicated recently at Parker Field in Elmira, New York.

Mr. Parker retired in 1936, after fifty years of high school teaching, thirty-one of which he spent as principal of Elmira Free Academy. At the dedication he was lauded for his constructive interest in sports. Afterwards he was presented with a memento book which was signed by those whose contributions had made the shaft possible. At the same time a bouquet of roses was presented to Mrs. Parker.

AN APPRECIATION OF MRS. ADAM SHORTT

By Charlotte Whitton, C.B.E., Arts '17, LL.D. '41

SEVENTY years ago, come this next Easter Tuesday, "three young ladies," the Toronto press recorded, "presented themselves before the Council of Physicians and Surgeons for matriculation examination." On May 28, 1879, it was reported that "two of them, Misses Augusta Stowe and Elizabeth Smith, were successful." One of them (the later Dr. Augusta Stowe Gullen) closed a rich, full life in 1935; the other, Ottawa's own "Mrs. Adam Shortt", will record her ninetieth birthday on January 18, 1949. Long invalided, sight and hearing paying their toll to age, her indomitable spirit sent me this New Year greeting, "I'm rather flattened out at last but not dead until I've died." She has been a great part of woman's story in this city and county in her four score years and ten.

Elizabeth Smith Shortt bears in her veins a vigorous blood; her brother, the late Senator Hon. E. D. Smith, built the great fruit preserving industry that has made "Smith's, Winona" a household name in Canada and abroad; her niece, Mrs. Gordon Conant, wife of the former Attorney General and Premier of Ontario, was one of the first women municipal executive officials in the Dominion and today is Girl Guide Commissioner for the province.

When the young Elizabeth Smith presented herself for this examination, she was making history and also starting it. There were then but two women physicians in Canada, Dr. Emily Stowe (Augusta's mother) and Dr. Jennie K.

Trout, both in Toronto, but both had been required to go to United States' colleges for training, then to attend one session in a Canadian Medical Council for examination for licensing and practice.

One of the matriculation examiners in 1879, Mr. A. P. Knight, was principal of the Kingston High School, and later became the loved "Dr. Archie" Knight, "Prof. of Physiology and Animal Bi" at Queen's. He was a Valley man, from Renfrew, and a graduate in Arts. Like any Queen's graduate, he was zealous for promising recruits for the University. He asked "young Miss Smith" where she was going to study and when she said Ann Arbor, he urged her to get up a petition to Queen's for her admission there. And, of course, she did. Thus, before she was twenty-one years old, Elizabeth Smith was crusading, a pioneer in women's causes, but not then, nor even, just as a woman, or for the sex's status as such—she wanted women skilled in medicine and surgery to serve women. Successful in her petition, she became one of the first five women to enter a Medical School in Canada (Augusta Stowe entered in Toronto, three others in Queen's, in 1880.)

The indignities and difficulties to which these four Queen's pioneers were submitted led to yet another doughty battle for a very young woman—the demand for separate teaching facilities, free from the boorish abuse of "some not wonderful men" (so her diary cynically described them), students whose marks were consistently lower than the women's. The terrific drive of the earnest little group led to the opening of the first Women's Medical College in the Dominion at Queen's in 1883.

In 1884 Elizabeth Smith graduated M.D., C.M., with two other pioneers, and was admitted a member of the Ontario College of Physicians and Surgeons. She practised Medicine for three years in Hamilton but, meanwhile, one of the

This article on the late Mrs. Adam Shortt was written for the Ottawa Evening Citizen by Miss Whitton and was to have appeared on January 15 as a Bytown Biography sketch. Mrs. Shortt died on January 14, and the article was printed without changes to the text as a richly deserved tribute to this prominent Queen's graduate.

men students at Queen's—they were not all inimical to the three women in Medicine, the four in Arts—Adam Shortt had become interested in his brilliant fellow-student. (It was of the versatility of the liberal Arts courses of that day, that Shortt would graduate with the Medal in Botany, go to Glasgow to study under Lord Kelvin and return to Queen's, to give the first course in Political Science and Economics offered in a Canadian university).

Upon her marriage to young Prof. Shortt, Mrs. Shortt returned to Queen's to lecture in Medical Jurisprudence and Sanitary Science, one of the College songs to this day carrying forward her students' ragging,

O Doctor, Cut my leg off,
O Doctor, Cut my leg off,
O Doctor, Cut my leg off,
Shortt, Shortt, Shortt!

Into every phase of college and city life, her pioneering vision and crusader's vigour and courage carried her. She organized the few women graduates into a group that later became the powerful "Queen's Alumnae." She worked for the opening of one of the first "YW's" in Canada and served as its president. With the diversity of interest which has always marked her, she was a sponsor of the Kingston Musical Club and presided over it for seven years.

Of course, she and Lady Aberdeen were natural affinities. With her doughty Excellency, she defied the Canadian Medical's early opposition, personally lobbied "Mr." Laurier, used her great Conservative family's association with the Opposition to help in assuring the start of the V.O.N. At Kingston, as one of Lady Aberdeen's lieutenants, she was active in starting one of the first Local Councils of Women, and, of course, moved on at once to the Provincial and to the National Council. She was Provincial vice-president for Ontario for years, and acted successively as National Convener of Immigration, of Public Health, and of Mental Hygiene. In all these fields, she brought real action.

Shocked at the ravages of T.B., she wrote her short impelling pamphlet, "Some Social Aspects of Tuberculosis",

and was in the centre of the powerful Anti-Tuberculosis League, set up in Ottawa and in which she, J. A. Machdo and Sir George Burn, to name but two, gave such devoted service that their efforts soon took on national scope, the forerunner of today's powerful Canadian Tuberculosis Association.

She was influential in the controls developed over the inexcusably lax immigration of women; with Lady Drummond, Dr. Helen Reid of Montreal, Mrs. H. D. Warren and Mrs. H. P. Plumptre of Toronto, and Mrs. Charles Thorburn, here, she got the system of Women's Immigration Hostels set up, and women appointed as interviewing and escort officers. Our vastly improved services for the treatment of social diseases and the segregation and care of the mentally deficient owe incalculable debt to her vision and force in these years.

Dr. Adam Shortt came to Ottawa as first Civil Servant Commissioner in 1910, and Mrs. Shortt's power enlarged from her more direct contacts in the national scene. She became vice-president of the National Council, acted for some time as president. It was the decade of the battle for the franchise and Mrs. Shortt was in the forefront, locally and nationally.

In Ottawa's daily life, Mrs. Shortt was active in all sectors. She and Dr. A. E. Marty, that other energetic Queen's

Mrs. Adam Shortt

woman to whom Ottawa owes so much, were foremost in starting the Women's Canadian Club, and she became second president. Worried by the deteriorating housing and the slums that Ottawa's growth was breeding, Mrs. Shortt brought about the first supervised playground of the City's present extensive public recreation system.

Of course, the Shortt family would all be Queen's, as are two grandchildren: Muriel is Mrs. Roger Clarke of Jordan, Ontario; George, formerly of the Penitentiaries' Administration, Dominion Department of Justice; and Lorraine, following her mother's bent, is on the executive staff of the Ottawa Public Welfare Department.

[The grandchildren are Mrs. R. Facey-Crowther (Betty Clarke) Arts '44, and Donald Clarke, now in final year honours history and political science.]

In Kingston and in Ottawa both, the Shortt home was always open to the protégés of Dr. Adam and Dr. Elizabeth Shortt—students, young staff members, young men and women “making a start”—and many of those, such as the late Hon. Andrew Haydon and the late O. D. Skelton, grounded their life-long affection for “the Shortts” in their gratitude for help in the loneliness or uncertainty of youth.

Looking back across sixty years it is probable that two of Mrs. Shortt's most enduring memorials will be those springing from that incisive and effective turn which marked her humane interests, for she went in for practical action. She was Ontario's most persistent worker for financial aid to needy mothers, otherwise capable guardians of their own children. She wrote the first report in Canada on the problem in 1911 and campaigned this province in 1918-19 to obtain the statute which enacted, in 1920, our system of Mothers' Allowances. A government, politically opposed, made and retained her for years as vice-chairman of the commission set up to administer the act.

The appeal of the aged gentlewoman, without family home, touched her closely and she was the founder of this city's quiet Elizabeth residence, so

named in her honor, by her co-directors in recognition of her major part in its founding and her service for years as its president.

Of all her battles the issue she joined in 1919 was the most stubbornly fought. It was thirty years ago, that “hades moved into Parliament Hill”—so she described it—when she started her campaign for oleo-margarine in Canada. For months, she and the late D'Arcy Scott, determined Ottawa counsel of the National Dairy Council, could not be carried in the same streetcar without their debate disturbing the public peace. She has lived to hear the Supreme Court judgment read to her and, though grimly commenting, “They'll fiddle around, finding other excuses now”, is content that the issue has really been won.

Archdeacon Snowdon, like other contemporaries in Ottawa, can recount many a diverting anecdote of Mrs. Shortt's incisive mind, terse and discerning wit and deep, if often devastating, humor. For Mrs. Shortt brought an alert, crisp judgment to problems and people and never suffered fools or folly gladly.

“That woman's head is as untidy inside as out: don't bother arguing with her: she'll blow herself out”, she once calmed two of us, militant young social workers, being denounced at the National Council for urging that children of unmarried birth should be legitimised upon the marriage of their parents.

“Can't see the wood for the trees”, she bluntly blurted out when a member of the Cabinet (“there by geography, not ability”, she said) was making a lengthy speech to dodge the issue which a delegation had put, red hot, on his desk.

“Doesn't know undergraduates grow and graduate; stay right with it”, she advised some younger Queen's women, being “put in their place” by some older graduates.

Elizabeth Smith Shortt has lived to see her day and ways established indeed, and entering the tenth decade of her life, she can well say with Tennyson's Ulysses:

Much have I seen and known: cities of
men
And manners, climates, councils, gov-
ernments,
Myself not least, but honour'd of them
all.

LETTER FROM CHINA

By Hilda Hague, Arts '16

AS to my news, there seems to be an awful lot of it, beginning with my departure from Peiping. Such a time as I had after I chartered that plane, with people changing their minds every minute, one day wanting to go, the next wanting to stay. Actually it was rather a tragic situation, because the Chinese head of the University was determined that everyone should stay, and there were many Chinese who wanted to leave but who couldn't be assured of their travel expenses (all by plane and very expensive in war time) or of salaries and jobs if they did leave. The American head of the University was away in Shanghai, and as it turned out later, there was money available to transport both faculty and students if they wanted to go south, and they would have been looked after, too, in Shanghai; but word of this never got through to Peiping, until it was too late for them to leave the campus.

My two housemates left for the U.S.A. on an evacuation ship before me, so I had the house and servants to settle as well as my own packing. I was also acting as passenger agent for the plane, so I was surely running around in circles. We had a chance to get away when everything was quiet, but some of my passengers weren't ready and begged for more time, so I weakly gave in, and then the fat was in the fire. Things broke up very suddenly, and the afternoon I left the campus for the city the oil dumps were going up on the west airfield three miles from us, from which we had expected to leave the following day, and I moved into the city in the midst of a retreating army. I couldn't get one of the University trucks that day to take me in with all my baggage, so had a bus instead which proved my salvation as it filled up with soldiers on the way in and looked like part of the whole cavalcade.

You should see a Chinese army in retreat. It's not like anything you could imagine, for it includes dependents,

women and children, household effects (they were abandoning the barracks out our way) and every kind of vehicle on four or two wheels, foot soldiers, cavalry, artillery, all mixed up together, so a large bus with mattresses, bicycles, trunks, soldiers, refugees, and their bedding rolls, and a child clutching a large yellow cat, just fitted perfectly into the picture.

It is a half-hour ride from our campus to the city gates. We left the campus at 3 p.m. and by 7 p.m. managed to nose in under the archway, and then stuck, locked in by a death grip with a mule cart, and completely blocked all traffic for some time. I really thought they would slam the gates to and leave us outside, but we got disentangled finally. Only the good humour of the Chinese, even in retreat, saved the situation, and I finally got into the city. Next morning we took off for the south airfield, ten miles from the city, in two trucks, with a U.S. consular car preceding us.

I certainly take off my hat to those glamour boys of the consulate. They worked like stevedores to get us away, parleying with soldiers all the way to

Miss Hilda Hague has been associated with the Yenching University in Peking since 1920. When the Graduate School of Chinese Studies (Harvard-Yenching Institute, with headquarters at Cambridge, Massachusetts) was founded in connection with the University, Miss Hague became its English secretary, which post she held until Yenching University was closed by the Japanese on the morning of the attack on Pearl Harbour.

Miss Hague was in Peking in 1937 when the city was occupied by the Japanese, leaving early in 1941 for a furlough in Canada. Returning in October of the same year, she was caught in Shanghai and interned, and was eventually repatriated on the "Gripsholm." She returned to Yenching after the war and the above letter is an account of her latest experience.

the field, rushing about to find a 'phone to get another plane for us when ours didn't arrive, and finally when ours did come, throwing off their coats and helping to unload and then reload the plane, and never even batting an eye when they were asked to do it all over again in the afternoon, as the plane wanted to come back and take out another load of people.

The following afternoon the Communists had the range of the field and shelled it, and pandemonium reigned. Five planes had come in to take out loads of people and when the shells began to fall they just took off, leaving all the people and their luggage stranded on the field, so you see I did get away just in the nick of time.

They took us to Tsingtao (on the Shantung coast where the American navy was holding the fort) and I spent a very pleasant two weeks there after all my alarms and excursions, and a very good Christmas too, with navy people and refugees like myself, and we had wonderful Christmas turkey provided by Uncle Sam. It was all a wonderful rest, and no responsibility. Then we were flown from Tsingtao right through to Canton, and here I am established on a campus that I had fondly imagined would be very like ours at Yenching, but nothing could be farther from the truth. Climate, people, and habits of living are very, very different. The first thing that happened to me is typical. I was led to a very charming faculty home, set in a lovely garden full of flowers and flowering trees. I was led upstairs to a neat bathroom with a white porcelain tub. A small jug of hot water was on the floor covered with a towel. My hostess said, "I'm sorry that I cannot offer you a bath," and departed, and this after I had spent all day in a plane, and not a luxury plane either. I wiped off with hot water, and took a cold bath. Taps were marked H but no water ever emerged from them. I never had anything but a cold bath all the time I stayed in the house. Everything here is like that. The only explanation I can see for it is that there are a lot of very ancient and bald-headed foreigners on this campus, who must have come out here in their youth

in the early Victorian age, before people took hot baths, and none of the young people who followed them have ever dared to complain.

The climate is little short of extraordinary. When I arrived the weather was like summer. Then suddenly it rained, the thermometer fell just above freezing, the wind blew, and I have never been so miserable in my life indoors. No heat provided. Grate fires are lit only where there is a party. It's prehistoric.

I am living in a faculty suite in a women's dormitory—bedroom, study, and bathroom (the bath and wash-basin on my arrival had no stoppers, pipes were disconnected. I have got the maid to bring me up each evening a wooden tub filled with hot water so I can take a bath of sorts. At least the water runs out of the bath, nothing runs in, and this in a university that is on a bank of a large river and where wood is plentiful, if coal is not. But there are bright spots. I eat at a mess where visitors like myself, visiting professors and students, foregather. Here we keep a bright fire blazing all the time. I have a nice office looking out on lawns and trees; it is sunny and I have bought an oil stove. It is all so ridiculous that we have already written to Cambridge, Massachusetts, asking if we may put up our own bungalows where we can at least live in decency and some comfort, but it may well be we will all soon be coming home, for the Harvard-Yenching Institute is not staying if the Communists come in here, and when the British Consulate sends me a notice about evacuation, this time I shall be on the first ship.

GRADUATES ELECT TWO MEMBERS TO BOARD

IN the election by graduates to the Board of Trustees, W. C. Clark, C.M.G., Arts '10, LL.D. '35, Ottawa, was re-elected, and D. D. Findlay, Sc. '22, Carleton Place, was elected without contest. They will serve a three-year term ending 1952.

COMMITTEES SET UP FOR CAMPAIGN

Drive To Start This Month

LOCAL committees have been set up in a number of centres in preparation for the campaign for funds that Queen's is starting this month. By the time this reaches print, it is expected that much of the preliminary organization work will have been completed.

In Kingston, the chairman of the general committee is George Carson, Com. '25. A committee has been tentatively selected and its numbers will be augmented in the near future. It is planned to open the campaign locally as soon as possible.

In Toronto, several meetings have been held and the organization there is well advanced. Col. E. A. Baker, Sc. '15, managing director of the Canadian Institute for the Blind, is the general chairman, with J. Courtland Elliott, Arts '19, in charge of special names and C. C. Peck, Arts '39, and Mrs. R. E. Dowsett (Jean Rose), Arts '19, heading up the alumni canvass.

The Ottawa group is headed by Dr. Wallace Troup, Med. '24, former president of the Ottawa alumni branch. N. B. McCrostie, Sc. '11, Arts '14, past president of the General Alumni Association, is chairman of the special names committee, and Miss Olive Zeron, Arts '26, is executive secretary.

Various other centres have held preliminary meetings and committee personnel will be available in the next issue of the *Review*. Last fall, Dr. Charlotte Whitton, Arts '17, visited some forty communities and set up tentative committees. Some of this organization was in connection with the Ban Righ campaign which was subsequently absorbed into the general endowment drive.

Direction of the policy of the campaign is in the hands of a central committee, under the chairmanship of M. N. Hay, Sc. '23, which has been meeting daily. The campaign director is M. C. Tillotson, Com. '26, assistant treasurer, who, apart from his duties at campaign headquarters, will also be in charge of

most of the field work. Endowment headquarters have been established in Hague House, 132 University Avenue.

Expert advice has been sought on various phases of the campaign. Young and Rubicam, a well-known advertising firm, has given valuable advice, free of charge, in the preparation of the general information pamphlet which is being mailed out to all alumni. R. B. Collett, of the Bureau of Industrial Services, prominent in Canadian public relations circles, has helped to formulate a publicity campaign.

The campaign has a two-fold objective: The first is \$175,000 a year in annual contributions, and the second is \$3,000,000 for buildings and endowment. The first is required to meet increased operating costs. The second is needed to provide immediate and essential construction and to augment the University's endowment funds.

In 1941 the plan of making annual contributions of modest amounts to a fund was suggested to the alumni of Queen's as a practical method of rendering valuable aid. Through this plan 800 graduates and former students are now contributing \$30,000 annually. The purpose of the present campaign is to interest a much larger percentage of the alumni body in the plan of annual giving.

This method of university financing has been gaining increasing popularity

since the First Great War. Large capital gifts, which meant so much to Queen's and other universities in the past, have become increasingly rare as a result of high taxes. The University must rely henceforth upon smaller gifts from greater numbers for a substantial part of the funds necessary for the successful continuation of its work. When the donations of annual contributors are treated as current revenue, they are equivalent to the yearly interest on a large amount of endowment capital.

For the capital objective for buildings the only construction being planned is that which is absolutely necessary. The major building needs are an administration building, a reconversion of the Douglas Library, extensions to Ban Righ Hall, and the new Students' Memorial Union. The administrative staff of the University is now housed in the Library. This not only limits the use of the Library but seriously handicaps the efficient administration of the University. When the administrative staff vacates the Library, office space must be turned into new stackrooms and additional seminar and reading rooms. Ban Righ Hall, the main residence for women students, must be enlarged to accommodate the women students whose numbers have increased from approximately 200 to over 500 in the past ten years. As for the Students' Union, the old building was destroyed by fire in 1947 and a new, larger building is now being erected as a memorial to those from Queen's who died in Canada's wars. The cost of all this badly needed construction is \$1,000,000, which breaks down as follows: administration building, \$200,000; Douglas Library, \$100,000; Ban Righ Hall, \$350,000; Students' Union, \$350,000.

One of the main reasons which made an increase essential in the endowment funds of the University is the fact that fees do not cover costs. A student pays less than half the cost of his education at Queen's. The annual government grant is helpful, but by no means large enough to cover the gap between the amount paid by the students and the cost of operations.

Although salaries at Queen's are still not high, both salary and maintenance

costs have risen in recent years. If Queen's is to keep competent professors and attract others, salaries must be in line with those at other universities. Many of the staff whose reputation has made the University famous have remained at Queen's out of a sense of loyalty and at considerable sacrifice to themselves.

The decline in interest rates in recent years is common knowledge. Today a larger endowment fund is necessary to bring the same return as formerly. The importance of the income from the invested endowment cannot be overestimated. In a normal year, at best, 30 per cent of the total cost of operations should come from this source.

From what groups does the University hope to raise the necessary funds? For the programme of annual giving, the approach will be to the graduates. Capital gifts will be sought from private individuals, corporations, and government for the most part.

"Queen's does not wish to become a large institution," Principal Wallace has said in outlining the policy of the University. "Queen's can do its best work with a limited number of students, in giving them a high quality of individual instruction and by imbuing them with an *esprit de corps* which has no equal elsewhere.

"Queen's students come from all parts of Canada. They are drawn by the reputation of her staff, by the relatively low living costs in the Kingston area, by her pioneering work in the fields of extramural activity, of co-education, of Commerce and Finance, and of Industrial Relations, and by the zeal of her graduates. Only a very small proportion of her undergraduates are from the Kingston area. She serves all Canada.

"Queen's graduates have gone forth to every corner of our country," said the Principal. "Queen's has given an unusually large number to the public service of Canada, for she is nationally minded. The graduates of Arts have made their presence felt in the professions, in the financial world, and in the undertakings of private and public enterprise. The graduates of Science have helped to develop the natural resources

of this nation, have built highways, and have helped in the planning and in the operations of Canadian industry. The University has trained doctors who have ministered to the physical needs, and ministers who have attended to the spiritual needs of Canadians everywhere.

"Queen's is eager to continue her manifold services to education. There is a distinct place for them—and for Queen's—in Canadian life. Four things, however, are needed for effective university work: sound research, able teaching, a sense of corporate unity, and adequate physical facilities. To maintain a strong position in all four, Queen's needs immediate financial assistance. That is the reason for this appeal. When it is answered, Queen's will not fail."

SIXTEEN NOMINATED FOR UNIVERSITY COUNCIL

SIXTEEN candidates have been nominated by graduates or by the executive committee of the University Council for this year's Council elections. Nine of these nominees are to be elected, to hold office until April, 1955.

On the back of the ballots, now being mailed to graduates, brief information about each of the nominees is given. The ballots must be returned to the Registrar of the University on or before March 31, 1949.

The list of nominees is as follows: L. H. Appleby, M.D., C.M. '19, Vancouver, B.C.; G. C. Bateman, B.Sc. '05, LL.D. '44, Montreal, Que.; J. A. Bell, B.Sc. '24, Toronto; N. L. Bowen, M.A. '07, B.Sc. '09, LL.D. '41, Ph.D. (M.I.T.), Washington, D.C.; Harvey Campbell, B.A. '16, D.D., Westmount, Que.; J. J. Dunlop, B.A. '15, Ottawa, Ont.; A. C. Hanley, B.Sc. '18, Kingston; J. Y. MacKinnon, B.A. '11, M.A. '12, B.D. '15, Ph.D. '35, London, Ont.; N. B. MacRostie, B.Sc. '11, B.A. '14, Ottawa; J. L. Murray, B.A. '20, B. Paed, Kingston; Mrs. T. A. Newlands (Etta A. Reid), M.A. '92, Kingston; Miss Mary K. Rowland, B.A. '26, B.Com. '28, Ottawa; J. R. Rutledge, B.A. '22, Toronto; D. B. Shaw, B.Com. '27, Winnipeg, Man.; R. K. Thoman, B.Sc. '36,

Montreal, Que.; Miss Mary E. White, B.A. '29, M.A. '30 (M.A. Oxon), Toronto, Ont.

TWO TRUSTEES ELECTED TO BOARD BY BENEFACTORS

TWO trustees have been re-elected by the benefactors to the Board of Trustees. They are T. A. McGinnis, Sc. '09, of Kingston, whose term is for four years, and A. E. MacRae, Sc. '14, who will serve until 1952.

Department of Extension Sponsors Weekly Broadcasts

QUEEN'S is now a co-sponsor of a weekly "Rural Review" broadcast over Station CKWS, Kingston. Every Saturday morning, at 8:15, immediately after the CBC News, Miss Raymonde Hollington of the Department of Extension is on the air with news of farm forum groups and other items of special interest to rural listeners.

Launched by the Federation of Agriculture in Frontenac and Leeds counties, the programme is proving popular. Negotiations are now under way for the Federation in Lennox and Addington to join the sponsors.

Drama Guild Plans Celebration Of Fiftieth Anniversary

IN connection with the celebration of the fiftieth anniversary of the Queen's Drama Guild, an attractive history of the organization has been published in booklet form.

Patrons of the event are Chancellor Dunning, Rt. Hon. Vincent Massey, chancellor of the University of Toronto, and Mrs. Massey, Principal and Mrs. Wallace, Dr. and Mrs. William Angus, Senator Rupert Davies, Dr. W. E. McNeill, Dr. L. W. Brockington, and Dr. B. K. Sandwell.

The celebration programme includes a banquet, a special convocation at which Raymond Massey is to receive an honorary degree, an historical pageant of fashion, and the performance of a new Canadian play.

Student Activities

Busy Week for Artsmen

COMPLETELY sold out, the Arts Formal in the Gymnasium on January 28 was an outstanding success. Decorations were on a modern night club theme, with small tables around the edge of the dance floor. Music was provided by Benny Louis and his orchestra, of Toronto, and refreshments were served in the Great Hall of the Students Union. Convener was Dave Day, Arts '49, Kingston.

Arnold Smith, associate director of the National Defence College in Kingston, was the guest speaker at the annual Arts dinner in the Union on January 25. Also on the programme was the presentation of faculty letters to outstanding athletes.

The Arts Week activities also included the annual election of officers and the graduating year's final dance in Grant Hall. At the latter, honorary president and guest of honour Alfie Pierce was presented with a number of gifts.

Intramural Sports Reorganized

Reorganization of the Intramural Athletic Committee has been approved by the Athletic Board of Control, together with a more adequate budget and changes in the rules and scoring system. The new Committee is larger and more representative of student opinion. The faculty athletic sticks will be augmented by the athletic sticks of each year on the campus. "Jake" Edwards remains in charge as director, and will be joined by F. H. Bartlett, director of the School of Physical and Health Education, as adviser. The A.M.S. athletic stick becomes chairman and represents the Committee on the A.B. of C. along with Mr. Bartlett.

Theologs Sponsor Student

Under the sponsorship of the Queen's Theological Society, a student from a

Chinese university will enter Queen's next fall. He will be supported by the members and friends of the Queen's Theological College for a period of three years, if necessary, so that he may receive his testamur in theology and be able to return to China for ordination as a Christian clergyman.

Aquacade Makes Hit

Presented before capacity crowds in the Queen's pool on January 22, 24, and 25, the Aquacade repeated its success of the last few years with an outstanding show. The performance featured King Neptune and his court, together with sailors, mermaids, and various forms of marine life. Headlining the review were several exhibitions of ornamental swimming, clown diving, and tumbling acts, coupled with precision swimming. The director was Miss Helen Currie, Med. '53, St. Catharines.

Conducts Drive For Funds

In mid-January the International Students Service conducted its annual drive for funds. Money raised this year will finance foreign students at Queen's, establish a broad programme of international scholarships, and will help provide books, food, and clothing for needy students in Europe and Asia. Last year the sum of \$2,770 was raised at Queen's, the highest per capita realized at any Canadian university. Heading the campaign this year was Jeff Glover, Arts '49, Trail, B.C.

Here and There

Pat Conroy, secretary of the Canadian Congress of Labour, was the guest speaker at the Newman Club meeting on January 9. . . . Gordon Gwynne-Timothy, president of the National Federation of Canadian University Students, addressed an open meeting at Queen's on January

21 As a result a committee was set up to stimulate interest in this organization consisting of Marc de Goumois, Arts '52, Quebec, Que., Dave Leighton, Arts '50, Ottawa, Phil Crouch, Arts '51, Welland, and Hale Trotter, Arts '52, Kingston. . . . A. R. McGill, vice-president and managing director of Young and Rubicam Limited, addressed the Queen's Commerce Club on January 13. . . . The permanent executive of Science '49 has been elected as follows: president Eric Jorgensen, Toronto; vice-president, Charles Smith, North Bay; secretary, Nancy Moffat, Weston; treasurer, Charles Hopkins, Battleford, Sask.; social conveners, Lyle Jarvis, Ottawa, and Tony Storcer, Fernie, B.C. . . . A series of lectures has been arranged for all first-year students as part of their physical training program. Dr. C. H. McCuaig gave the first, speaking on "Mental Stability." . . . George Devlin, Sc. '50, Brantford, has been elected president of

the Engineering Society for next year. The senior A.M.S. representative is Jim Kirk, Sc. '50, and the junior representative is Pat Courage, Sc. '51, Port Colborne. . . . Dr. O. M. Solandt, director of defence research for Canada, was the guest speaker at the annual Aesculapian Society dinner on January 17. . . . Post-graduates on the campus have organized their own club. Dr. G. B. Frost was the speaker at the dinner meeting held in the Students Union on January 18. . . . The Newman Club presented a variety show, "Continental Capers", before a capacity audience in the K.C.V.I. auditorium on January 19. . . . Eleanor Sergison, Arts '50, Windsor, was elected "Queen of Queen's" in a typical co-ed competition conducted by the I.S.S. . . . Gelindo De Re, Arts '50, Fort William, has been elected senior Arts representative on the A.M.S., and Morgan Bebee, Arts '51, Utica, N.Y., is the junior representative.

Out of the Past

"STOP THIEF," PRODUCED BY DRAMA GUILD, 1920

This month the Drama Guild is celebrating its fiftieth anniversary. The programme includes a banquet, a special convocation, an historical pageant of fashion, and the performance of a new Canadian play.

At the Branches

Middle Atlantic

THE Middle Atlantic Branch held its second annual fall dinner at the Hotel Warburton in Philadelphia on the evening of November 20, with twenty-seven in attendance. A social hour preceded the dinner at which old acquaintances were renewed and the newcomers were made to feel at home. After dinner, Dr. John Lansbury, Med. '26, vice-president, introduced the speaker of the evening, Dr. E. W. Chamberlain, and then introduced Queen's to the speaker by giving a brief account of her history, functions, and achievements.

A past president of the American Society of Radiologists and prominent in medical affairs, Dr. Chamberlain then gave an absorbing and enlightening talk based on a six-weeks' trip which he had made to Poland in the late summer of 1948. By means of coloured slides, Dr. Chamberlain showed how Poland since the war has worked hard toward rebuilding the devastated areas and is now much stronger, with the people better fed, than before the war. What astounded the speaker was that Russia has not yet seen fit to interfere very much in Poland's internal affairs. He was able to buy *Time* magazine every week at a newstand in Warsaw, and was permitted to move about freely, without supervision, taking pictures. The government, headed by a Polish socialist, not a communist, has greatly improved the lot of 99 per cent of the people.

The other one per cent, including former aristocrats, are given all the rights accorded the 99 per cent, provided they work. The medical and health standards are very high, said the speaker.

After Dr. Chamberlain's address, a short business meeting was held and the following officers were elected: vice-president, H. S. Campbell, Sc. '28; directors—Dr. R. K. Childerhose, Med. '21, J. E. Fox, Sc. '41; secretary, W. R. Conn, Arts '32.

Dr. Flanagan then turned over the presidency to Dr. Lansbury, who ac-

cepted with a few remarks in appreciation of his predecessor who had been largely responsible for the formation of the Middle Atlantic branch.—W.R.C.

Montreal Alumnae

THE annual sherry party was held January 22 at the home of H. S. Van Patter, Arts '12, Sc. '15, and Mrs. Van Patter (Jean McPherson), Arts '19. The guests were received by Mrs. Van Patter and the alumnae president, Miss Eleanor Holland, Arts '28.

More than 125 members and friends attended the function, which was held in aid of Ban Righ Building Fund. The executive assisted in serving, aided by the members of the alumni branch who gave their enthusiastic support. Queen's colours were effectively used as decorations and formed a pleasing background for the delightful event.

London

A VERY successful bridge party was held in the Rainbow Room of the London Y.M.C.A. on January 14. Walter Herron, Arts '30, supervised the playing of two hours of progressive bridge. The president, Mrs. O. S. Fells (Mabel Anderson), Arts '34, introduced the new members, and awarded prizes to Mrs. H. H. Wilson, Walter Gilliland, Com. '30, Mrs. Walter Gilliland, and A. A. Merkle, Sc. '47. Refreshments were served to conclude the programme.

Montreal

MONTREAL alumni turned out en masse for the Queen's-at-McGill hockey game on January 28, and the team was so overcome that they managed to lose by the season's biggest score, 10-4. Despite the setback the game was greatly enjoyed and so was the support accorded the team.

After the game there was a "ryeception" in the Hunt Club in the Mount Royal Hotel for all Queen's supporters.

A. D. Gray, Arts '46, officially welcomed the members of the hockey team and also those members of the basketball team who had come down a day early. Coach Gene Chouinard introduced the players to the alumni. A terrific Queen's cheer was led by "Rupe" Lazarus, Arts '38. A. S. E. Duncan, Sc. '39, provided the piano accompaniment for a rousing round of college songs.

It is planned to make this welcome for visiting Queen's teams a regular event.

Kingston Alumnae

DR. JOHN MACMURRAY, internationally known philosopher and lecturer, and currently Dunning Trust Lecturer at Queen's, addressed the Kingston alumnae in Ban Righ Hall on January 11. He said that there were three basic institutions today—the Christian church, the state, and the University; "if any one of these institutions attempts to set up a tyranny over minds and bodies, it eventually collapses."

Dr. Macmurray dealt with the properties of each institution, urging that they be kept independent in order "that civilization might exist." He said "knowledge is a goal still far ahead of us. The church and the university cannot do without each other, for they are concerned with not merely knowledge, but the direction of lives. Let us help our universities to maintain the search for knowledge as a search for truth, for the cure of our sicknesses, and to set us on the true path of human life."

Dr. Macmurray was introduced by Principal Wallace, and thanked by Miss Jean Royce, University registrar. Miss May Chown presided.

Fifty-five tables were in play at the annual bridge party held in Grant Hall on January 19, under the convenership of Mrs. D. N. Bruce (Roslyn Marcus), Arts '45. Prize winners included E. G. Jones, Miss Jean Richardson, Arts '35, Mrs. H. Cunningham, Major J. Mloszewski, and Mrs. J. Dickson.

The convener was assisted by a committee consisting of Misses Diana Blake,

Arts '45, Marjorie Rice, Arts '45, Phyllis Waters, Arts '47, Eleanor Smith, Arts '46, and Eleanor Whitney, Arts '48.

After the winners were announced, refreshments were served.

Ottawa Alumnae

A VERY successful tea was held at the Y.W.C.A. on January 29. The guests were received by the president, Mrs. N. M. Sanders (Jennie Shields), Arts '14; the vice-president, Miss May Burnett, Arts '21; and Dr. Florence Dunlop, Arts '24.

Presiding at the tea table were Mrs. J. E. Plunkett (Marion Moffat), Arts '26, Miss Myra Tilley, Arts '29, Mrs. A. G. Taylor (Edith May Culbert, Arts '19, and Miss Marjorie Gordon, Arts '38.

Those serving and assisting were the recent graduates, under the convenership of Miss Jerry Barclay, Arts '47.

Guelph

DR. F. H. C. BAUGH

Dr. F. H. C. Baugh, Arts '20, Med. '22, was elected president of the Guelph Branch at a reorganization meeting held January 31. Other officers appointed included Mrs. S. S. Smith (Edna Musgrove), Com. '25, as vice-president, and Dr. R. S. Brown, Arts '33, as secretary.

Principal R. C. Wallace addressed the meeting, describing recent developments at the University and needs for the future. He asked for the support of all alumni in the forthcoming endowment campaign.

Alumni News

Births

Browne—On January 15, to Eric I. Browne, Sc. '36, and Mrs. Browne (Marion Hayes), Arts '35, of Islington, Ont., a daughter.

Burrows—At the Kingston General Hospital, on January 11, to J. L. Burrows, Sc. '40, and Mrs. Burrows, a daughter (Donna Louise).

Camm—At Chambers Memorial Hospital, Smiths Falls, Ont., on January 6, to Mr. R. W. Camm and Mrs. Camm (Phyllis Hough), Arts '44, a daughter (Marion Eleanor).

Covey—At the Kingston General Hospital, on December 20, 1948, to S. J. Covey, Com. '47, and Mrs. Covey, a daughter (Susan Ann).

Denyes—At the Kingston General Hospital, on December 9, 1948, to B. B. Denyes, Sc. '44, and Mrs. Denyes, a son (Bruce Bernard).

Dymond—At the Ottawa Civic Hospital, on January 24, to D. M. Dymond, Sc. '46, and Mrs. Dymond, a daughter.

Elliott—At Mount Hamilton Hospital, Hamilton, Ont., on January 19, to J. M. Elliott, Sc. '39, and Mrs. Elliott, a daughter.

Greenidge—At the Ottawa Civic Hospital, on December 9, 1948, to Dr. H. W. Greenidge, Med. '46, and Mrs. Greenidge, a son (Laurie William).

Field—On December 23, 1948, at Red Cross Hospital, Bancroft, Ont., to J. L. Field, Arts '42, and Mrs. Field, a son.

Fortier—At the Ottawa General Hospital, on January 13, to Y. O. Fortier, Sc. '40, and Mrs. Fortier, a son.

Gordon—At the Ottawa Civic Hospital, on November 16, 1948, to Dr. Alan Gordon, Med. '44, and Mrs. Gordon, a daughter.

Harper—At the Women's College Hospital, Toronto, on December 10, 1948, to Dr. W. S. Harper, Med. '41, and Mrs. Harper, a son.

McIlraith—On December 5, 1948, at the Ottawa Civic Hospital, to K. M. McIlraith, Arts '30, and Mrs. McIlraith (Patricia Soper), Arts '38, a daughter.

Milne—On December 17, 1948, at the Oakville and District Temporary Hospital, Oakville, Ont., to J. N. Milne, Sc. '35, and Mrs. Milne, a son.

Morton—On February 2, at the General Hospital, Porcupine, Ont., to D. F. Morton, Sc. '40, and Mrs. Morton, a son.

Odell—At Grace Hospital, Ottawa, on January 23, to Dr. A. C. Odell, Med. '42, and Mrs. Odell, a son.

Paterson—On December 2, 1948, at the Ottawa Civic Hospital, to Dr. W. P. E. Paterson, Med. '26, and Mrs. Paterson, a son.

Sprott—On December 8, at the Ottawa Civic Hospital, to Harold Sprott, Com. '32, and Mrs. Sprott, a daughter.

Marriages

Barnsley—In St. Andrew's Presbyterian Church, Fort Coulonge, Que., on December 4, Helen Lily Elizabeth Neville to Roland Howard Barnsley, Arts '44. They will live in Toronto.

Barron—On January 29, in Westmount, Que., Elizabeth Rira Tirsch to William Donald Barron, Sc. '43.

Carson—On January 22, in St. James' Cathedral, Toronto, Nadine Jane Hamilton Osler, widow of Major Edmund Featherstone Osler, to Brigadier Sir Frederick Carson, Arts '08, Montreal.

Clarke—On December 22, in Knox Church, Toronto, Martha Anne Sutherland to John Leslie Clarke, Sc. '45.

Gates—In the chapel of the Church of St. Peter, Hamilton, Ont., early in December, Gwynneth Joan Leslie to Kenneth Graham Gates, Sc. '43, son of Mrs. Gates and the late A. B. Gates, Sc. '11, Peterborough. They are living on O'Connor Drive, Toronto.

Harris—In Brandon, Man., on October 16, 1948, Martha Jean Harris, Arts '49, to Mr. Garnet Duncan Northcut.

Halliday—On February 5, in Wesley United Church, London, Ont., Mary Hadfield to Charles John Halliday, Sc. '43.

Hollis—In Kingsway-Lambton United Church, on December 18, Audrey Marion Hollis, Arts '43, daughter of Dr. K. E. Hollis, Med. '14, and Mrs. Hollis, Lambton Mills, Ont., to Dr. John Halliburton Laurie, Sydney, N.S.

Lewis—On January 29, in St. Nicholas Anglican Church, Toronto, Nancy Grace Lewis, Arts '47, to Mr. William Taylor Robson.

Mills—In Morgan Memorial Chapel, Queen's University, on January 28, Wilma Doreen Byron to William Thomas Mills, Arts '51.

Malcolm—At the home of the bride's parents, Collingwood, Ont., on December 18, Isabelle Jean Malcolm, Arts '44, to Mr. John Gordon Phippen, Toronto, Ont.

Mulholland—In St. Mary's Anglican Church, Windsor, Ont., on December 28, 1948, Beverley Browne Harris to William Edgar Mulholland, Sc. '47. Arthur B. Harris, Sc. '47, was best man and Edith M. Chambers, Arts '51, was a bridesmaid.

Munro—On January 1, in Morgan Memorial Chapel, Queen's University, Joyce Marion Fitton, to John Charles Munro, Sc. '50.

Deaths

Campbell—A pioneer in the electrical field, Mr. John Murdoch Campbell, for many years a member of the Queen's Board of Trustees, died in the General Hospital at Kingston, Ontario, on January 1. Mr. Campbell was born at Glen Lyon Cottage,

Bathurst, Perth, Lanark County, in 1862. Before the turn of the century he was associated with the Royal Electrical Company, prior to the formation of the Canadian General Electric Company. He supervised installations of some of the first generating stations to be built in Canada. Mr. Campbell was an expert on electrical traction and had charge of the installation of many of the earliest street railways in Ontario, Quebec, and British Columbia. He was general manager of the Buffalo, Lockport, and Rochester, N.Y. Railway Company from 1908 to 1911. Subsequently he acquired the Gananoque Light, Heat, and Water Supply Company. A new dam and power house were erected at Kingston Mills and in recent years plants have been built at Washburn, Brewers Mills, and Jones Falls. He was also actively interested in navigation and operated steamers on the Bay of Quinte and the St. Lawrence River. Mr. Campbell was an ex-chairman of the board of governors of the Kingston General Hospital and he was a member of the Kingston Board of Trade for many years. Surviving are his wife, a son and two daughters.

Dingwall—After a brief illness, Malcolm Dingwall, Arts '03, Toronto, Ontario, died in the General Hospital at Cornwall, Ontario, on January 9. He had gone to Cornwall to spend New Year's with members of his family, but was ill on arrival and was taken to the hospital. Mr. Dingwall was born in Cornwall in 1879, and received his early education there. He entered Queen's in 1901 and graduated with his B.A. degree two years later. Subsequently he studied law at Osgoode Hall. Mr. Dingwall practised in Cornwall with his father, the late James Dingwall, Arts '61, county Crown Attorney, until his father's retirement. After that he went to Regina as law officer in the attorney general's department and later became deputy acting attorney general for Saskatchewan for a number of years. On his retirement, he resided in Toronto. An active alumnus, he was a member of the executive of the Toronto branch. Among the survivors are his wife, three sons: Prof. James Dingwall, Arts '38, Dr. Malcolm Dingwall, Med. '40, and Dr. Roderick Dingwall, Med. '43; two brothers, including Roderick Dingwall, Arts '07; and a sister, Miss Anne Dingwall, Arts '03.

Easson—At the age of sixty-four, Roy Cameron Easson, Arts '08, died at his home in Moose Jaw, Saskatchewan, on or about June 24, 1948. Mr. Easson was born in Stratford, Ontario, and received his preliminary education in that city. He entered Queen's in 1904, and graduated four years later with his M.A. degree and the medal in botany. He continued his studies until 1910, mainly in chemistry and mineralogy. After a short period of instruction at Dalhousie University he went to the Canadian West where he engaged in teaching. For some years he was principal of the High

School at Milestone, Saskatchewan. From there he moved to Moose Jaw where he spent the remainder of his life on the staff of the Collegiate Institute. In 1920 he married Miss Nora Lantz (B.A., Dalhousie), who predeceased him in 1937. During their residence in Milestone, Mrs. Easson was also a member of the high school staff. Among the survivors are a sister and a brother.

Ellis—In the Civic Hospital, Ottawa, Mrs. C. W. Ellis (Hester Melissa Shore), Arts '27, died on January 4. Mrs. Ellis was born in Ottawa in 1905. She received her preliminary education in the schools of Ottawa and entered Queen's in 1923. She graduated four years later with her B.A. degree. The survivors include her husband, mother, two sons, two brothers, and three sisters.

Galligan—One of the best-known residents of the Ottawa Valley, Dr. John B. Galligan, Med. '14, died suddenly at Pembroke, Ontario, on January 21. Dr. Galligan had practised in Pembroke since the end of World War One. Born in Renfrew, Ontario, in 1892, he received his early education there and at Eganville and at Loyola College, Montreal. He then entered Queen's, graduating with his M.B. degree in 1914. Immediately afterwards he entered the armed forces and served with the R.A.M.C. in Mesopotamia and in France. After the war he took postgraduate work in the United States and then established a medical practice in Pembroke. Taking a keen interest in almost all sports, he was perhaps best-known as an ardent golfer and was one of the founders of the Pembroke Golf Club, of which he was a past president and director for many years. Surviving are his wife, three daughters, a son, two sisters, and a brother.

Holdcroft—After an emergency operation, Dr. Joseph Holdcroft, Med. '89, died in the Peterborough, Ontario, Civic Hospital, on January 9. Dr. Holdcroft was born near Gananoque, Ontario, in 1866. He attended the schools of the district, including the high school in Gananoque. At the age of fourteen he left school to take up telegraphy. After a few years he returned to complete his matriculation, and went on to medical college. He graduated from Queen's with his M.D. degree in 1889, and later from Trinity College, Toronto. Dr. Holdcroft's first practice was at Inverness, Quebec. He moved to Merrickville, Ontario, and later to Havelock, where he practised for fifty years. Dr. Holdcroft won fame for his pioneer work in appendectomies, many of them performed unassisted in the homes of his patients. His hobby was fishing, particularly for trout. Surviving are his wife, three sons, including Dr. Donald J. Holdcroft, Arts '21, Med '24, and William P. R. Holdcroft, Arts '21, Sc. '23, and a daughter.

Little—Associated for several years with the Shell Oil Company of Canada, Reginald Jack Little, Sc. '34, died January 4 at the General Hospital, Toronto, Ontario. Mr. Little was born in St. Thomas in 1912 and received his early education in the schools of that city. He entered Queen's in 1930 and graduated four years later with his B.Sc. degree in chemical engineering. He worked for the Shell Oil Company in Thorold and London before going to the Toronto head office five years ago. The survivors include his wife, parents, a son, and a daughter.

MacKinnon—Prominent Ottawa valley physician, Dr. Kenneth L. MacKinnon, Med. '15, Renfrew, Ontario, died in the Kingston General Hospital on December 31, after an illness of eight days. Dr. MacKinnon was born in Renfrew in 1891 and received his preliminary education in the schools of that community. He registered in the Arts Faculty at Queen's in 1910 and later transferred to the Faculty of Medicine. As a student he starred on the senior hockey team and was captain of the last Queen's team to win the Inter-collegiate championship. He received his

Medical degree at a special convocation in January, 1915, for twenty-one of the class who were enlisting for service in World War I. He served overseas with the Canadian and Royal Army Medical Corps from graduation until the Armistice. At the end of the war he returned to Renfrew and entered into partnership with the late Dr. S. H. Murphy. He carried on a practice in Renfrew until his retirement two years ago. Since that time he made his home in Napanee. Dr. MacKinnon always took an active interest in sports and for years was an ardent supporter and financial backer of junior hockey teams. Surviving are his wife and four children. His first wife, Lucy Scott, Arts '15, predeceased him some years ago, as did a daughter, Kaireen, Arts '43.

Macphail—One of the best loved men of Queen's, Col. Alexander Macphail, LL.D. '39, died in the Kingston, Ontario, General Hospital, on January 13. Former head of the Department of Civil Engineering, Colonel Macphail was an engineer, soldier, professor, and poet, and in his lifetime had become a legend at the University. In ill health for some time, one of his rare public appearances during the past few years was at the Science '13 reunion dinner in the fall of 1948. He was educated at Prince of Wales College, P.E.I., and at McGill University, where he took honours in civil engineering. After graduating from McGill he took postgraduate studies at Heidelberg, Germany. At the outbreak of the First World War, he became officer commanding the First Division Engineers. He had a distinguished military career, being awarded the Distinguished Service Order in 1915 and the C.M.G. in 1919. He won the Belgian Croix de Guerre and was five times mentioned in dispatches. During his service overseas he met the late Rudyard Kipling. Of Colonel Macphail the famous poet said: "He built bridges with one hand and wrote poetry with the other." An outstanding speaker, Colonel Macphail was especially noted for his whimsical humour. He always found packed houses when he spoke. He first came to Queen's in 1904 as professor of general engineering. He rejoined the staff in 1919 and was made head of the Department of Civil Engineering. He held this post until his retirement in 1939. At that time he was awarded an honorary LL.D. degree. He held a similar degree from McGill University. He was editor of the "Queen's Quarterly" until 1943. In 1939, Colonel Macphail was awarded the Montreal Alumni Medal for "meritorious contribution to the honour of the University." He will be remembered by a host of graduates and staff members as one of the outstanding personalities of Queen's. An appreciation of Colonel Macphail by Dr. George Herbert Clarke will appear in an early issue of the "Review". Surviving is a son, Dr. Moray St. John Macphail, Arts '33.

Rev. Dr. Menzies — President of the Ottawa branch of the General Alumni Association, Rev. Dr. Albert Percy Menzies, Arts '10, Theol. '12, D.D. '48, died at his home in Ottawa, Ontario, on December 26. Dr. Menzies was born at Aylmer, Quebec, in 1887, and received his early education in Ottawa. He entered Queen's in 1905 and as a student won many prizes and scholarships. He graduated with his M.A. degree in 1910, and his B.D. and testamur in theology two years later. In 1948, Queen's made him the recipient of an honorary D.D. degree. After graduation he was an assistant for one year at Knox Church, Regina, Saskatchewan. He then did postgraduate work at the Universities of Berlin and Marburg, Germany. On his return to Canada he was made minister of the Presbyterian Church, Whitby, Ontario. Dr. Menzies enlisted in the first war as a lieutenant in the 75th Battalion. Later he transferred to the 4th C.M.R.'s and in France participated in all major engagements until he was wounded just before Hill 70. He rose to the rank of major and was awarded the Military Cross for outstanding bravery at Vimy Ridge. On his return to Canada he served on the Headquarters Staff in Ottawa for a year. After his discharge from the army, Dr. Menzies became minister of the Presbyterian Church in Saskatoon, which charge he was forced to leave because of illness. On his recovery he served as minister at the United Church at Russell, Ontario, for five years. Since then he had been minister of Westboro United Church for the past eighteen years. Among the many offices Dr. Menzies held were president of Queen's Theological Alumni Association, for three years; president of the Ministerial Association of the United Church and of the General Ministerial Association, Ottawa. During 1947-48, Dr. Menzies was elected president of the Montreal-Ottawa United Church Conference. For many years he served as chaplain of the Canadian Legion. Taking an active interest in the Boy Scout movement, Dr. Menzies served as Scout Master and Rover Leader. In 1947 he was awarded the Medal of Merit for distinguished Scout service over a period of thirty-five years. Among the survivors are his mother, a sister, and three brothers.

Nickle—After a long illness, Douglas Joseph Nickle, Arts '22, died at Toronto, Ontario, at the age of forty-nine. Mr. Nickle was born at Kingston, Ontario, and received his early education in the schools of that city. He served with the Royal Air Force in World War One, and retired with

the rank of squadron leader. He entered Queen's in 1919, but left after one year to study law at Osgoode Hall. After graduation he practised in Toronto. Surviving are his wife, his father, W. F. Nickle, Arts '91, and a brother.

Ransom—Superintendent of refineries for the Consolidated Mining and Smelting Company, Frederick Charles Ransom, Sc. '30, died suddenly while at work at Trail, British Columbia, on December 16. Mr. Ransom was born at Kingston, Ontario, and attended the Royal High School at Edinburgh, Scotland, before enrolling at Queen's. He graduated with his honours B.Sc. degree in metallurgy in 1930. He joined the staff of the Consolidated, starting with the assay office and rising to the head of the refineries, a post he was promoted to early in 1946. He still held that title, though for the past few months he had been engaged in special duties with the Company's personnel department. He was president of the Trail Fine Arts Association, one of the founders of the annual photo salons, and a member of Trail Little Theatre. An enthusiastic alumnus of Queen's, he was a past president of the Kootenay branch of the General Alumni Association.

Redmond—One of Edmonton's oldest physicians and surgeons, Dr. William C. Redmond, Med. '01, died suddenly at his home in Edmonton on January 3. Dr. Redmond was born in Picton, Ontario, in 1875, and received his early education there and at Brandon, Manitoba. He entered Queen's in 1897 and graduated four years later with his M.D., C.M. degrees. He practised for a short time in Westwood, Ontario, before going to Edmonton in 1906. Well-known in Edmonton medical circles during more than four decades of practice, Dr. Redmond served as a member of the Misericordia Hospital board of directors for many years and as lecturer to undergraduate nurses. He retired in 1943. Dr. Redmond played an active part in church work and was an elder of the First Presbyterian Church until his death. He was a life member of the Edmonton Masonic Lodge. Besides his wife he is survived by two sons, and three sisters.

Scarrett — Headmaster of University School at Victoria, British Columbia, for thirteen years, Rev. George Herbert Scarrett, Arts '31, died suddenly on July 29, 1948. He was fifty-seven years of age. Mr. Scarrett was born in Leek, Staffordshire, England. He taught at Alexander School in Broadstairs and at Skelsmergh School in Margate before he came to Canada in 1911. For three years he taught at Bobcaygeon, Ontario. When war came he joined the Prince Rupert Regiment and rose to the rank of Captain. After the war Mr. Scarrett studied at Queen's from where he graduated with his B.A. degree. He went to Victoria, where he served on the

staff at Collegiate School before joining University School. Surviving are his wife and a daughter.

Shortt—One of the first woman physicians in Canada, Mrs. Adam Shortt (Elizabeth Smith), Med. '84, died at Ottawa, Ontario, after a long illness. She was one of three women who wrote their final Ontario medical examinations in 1884 at a time when there were only two other women doctors in Canada. Mrs. Shortt was born at Winona, Ontario, in 1859, and attended Hamilton Collegiate Institute before going to Queen's. In 1884 she graduated with her M.D., C.M. degrees and was admitted a member of the Ontario College of Physicians and Surgeons. She practised medicine for three years in Hamilton, until her marriage to Prof. Adam Shortt, Arts '92, LL.D. '11, one of the most outstanding members of the staff at Queen's. Mrs. Shortt returned to the University to lecture in medical jurisprudence and sanitary science. She became active in every phase of college and city life. Under her leadership, the few women graduates were organized into a group that later was to become the Alumnae Association. She worked for the opening of one of the first "Y.W.C.A.'s" in Canada and served as its president. She was also a sponsor of the Kingston Music Club and presided over it for seven years. She was active in starting one of the first Local Councils of Women and moved on to the Provincial and National Council. She was provincial vice-president for Ontario for years, and acted successively as national convener of immigration, of public health, and of mental hygiene. In 1910 she moved to Ottawa where she continued to be active in various social welfare projects. She helped organize the Women's Canadian Club and was its second president. In 1912 and 1913 she helped organize a civic welfare bureau and later toured the country as a lecturer on food preservation and health rules. She was the first head of the Mothers' Allowance Board for the Province of Ontario. She was the founder of Ottawa's Elizabeth Residence, named in her honour, for aged gentlewomen, and served as its president for many years. One of her strongest battles was the fight for oleomargarine in 1919. Mrs. Shortt was one of the outstanding graduates of Queen's and a tribute to her achievements is a leading article in this issue of the "Review". Mrs. Shortt is survived by a brother, two daughters: Mrs. R. F. Clarke (Muriel Shortt), Arts '09, Miss Lorraine Shortt, Arts '20, and a son, Dr. G. E. Shortt, Arts '18.

Struthers—Within twenty-four hours of having suffered a stroke, Mrs. E. B. Struthers (Margaret Walks), Arts '12, died in Foochow, China, on December 4. Mrs. Struthers was born in Paisley, Ontario, in 1887. She attended Walkerton High School before registering at Queen's in 1908. She graduated four years later with her B.A.

degree. That same year she went to Honan, China, under the auspices of the Presbyterian Church in Canada. Four years later she was married to Dr. Struthers. Mrs. Struthers taught English on the staff of Cheeloo University under the United Church of Canada. Her husband was on the staff of the School of Medicine. They had recently moved to Foochow because of the Communist threat.

Susman—At the age of fifty-three, Dr. William Susman, Arts '19, Med. '23, died at Manchester, England, on December 23. Dr. Susman was born at Montreal, Quebec. He attended the Collegiate Institute at Kingston, Ontario, and entered Queen's in 1912. From 1915 to 1919 he served with the Canadian Army Medical Corps, and then returned to Queen's to finish his course. In the last war he was a medical officer in the Home Guard. Dr. James Miller, formerly head of the Department of Pathology at Queen's has written as follows: "The death of William Susman at the early age of fifty-three demands more than a passing notice in the "Review". He was one of the most distinguished graduates in medicine of the last thirty years. When I came to Kingston as professor of pathology in 1920 he was one of my earliest pupils and from that time onwards he remained faithful to his choice of a specialty. After qualifying in 1923 he obtained a Hoffman fellowship and on my recommendation he went to Edinburgh to study pathology under Prof. Lorrain Smith. At once he made his mark as a student of research and began producing papers at a steady rate. In Edinburgh he held a number of junior appointments in the pathological departments of the University and the Royal Infirmary. In 1925 he went to Manchester as assistant lecturer in bacteriology in the department of pathology under Prof. Shaw Dunn. Here he remained for the rest of his life, holding latterly the post of senior pathologist to the Manchester Royal Eye Hospital in addition to his position in the University. His main contributions to medical literature were in the department of endocrinology. In addition to being a research worker and teacher, Dr. Susman was also an able photographer, and before I left Queen's in 1946, he had presented a large number of his photographs of diseased conditions to the Museum of Pathology. A loyal Queen's man, a loveable personality, and a distinguished scientist, Dr. Susman will long be remembered by his teachers, his colleagues, and his pupils.' Among the survivors are two brothers: Dr. A. B. Susman, Arts '26, Med. '28, and Dr. B. R. Susman, Arts '30, Med. '33.

Wilson—Noted author, educationalist, and philosopher, Dr. Richard Albert Wilson, Arts '01, died at his home in Vancouver, British Columbia, on January 2. He was an authority on language and his best-known work is "The Miraculous Birth of Language" for which George Bernard

Shaw wrote a 26-page preface which described the volume as "the most important since Samuel Butler's time." At the time of his death, Dr. Wilson was working on a second book in which it was his purpose to analyze the English language and explain its origins more completely than had ever been done. Dr. Wilson was born at Admaston, Ontario, in 1874. He was educated in the schools of Renfrew and entered Queen's in 1895. He obtained his B.A. degree in 1901 and his M.A. one year later, graduating with the medal in mental philosophy. He also received the degree of Ph.D. from Queen's in 1906. Dr. Wilson taught in high schools, first in Ontario, and then in Saskatchewan, until 1912, when he became principal of the Normal School in Regina. After three years, he was appointed professor of English language and literature at the new University of Saskatchewan, and there he taught for twenty-five years. In 1939 he retired and moved to Vancouver with his family. The book on which his fame rests, "The Miraculous Birth of Language" was brought out in 1937 in England. Few copies reached Canada and by the time the worth of the book was established paper was rationed. George Bernard Shaw discovered it and wrote a foreword for the 1941 edition. Mr. Shaw said that he would make it required reading for anyone seeking any religious, scientific, legal, or civil employment — let alone the right to vote or to call oneself educated. He also said that if Canadians had the wisdom to make men like Wilson professors he would like to live in Saskatoon or Vancouver. William Arthur Deacon, writing in the Toronto "Globe and Mail", said: "It is a fair guess that the late Professor Emeritus Wilson was the only Canadian, so far, to write a book likely to effect, in time, the outlook of all human beings." The only survivor is a son, his wife having died on the day of his funeral.

Notes

1880 - 1900

John Marshall, Arts '86, is retired and living at 2036 Meadow Place, Oak Bay, Victoria, B.C.

Dr. J. A. Snell, Arts '90, LL.D. '17, is retired at living at 811 10th St. W., Owen Sound, Ont.

Dr. A. L. Tinkess, Med. '98, has been retired for over a year. His address is now 113 S. Pleasant St., Watertown, N.Y.

1900 - 1909

Rev. Dr. G. A. Brown, Arts '04, Theol. '07, D.D. '33, Minister of Chalmers United Church, Kingston, is retiring from the active ministry next fall. He is completing forty-two years in the ministry, twenty-five of which have been spent at Chalmers Church.

A. A. Carr-Harris, Sc. '06, is doing mining engineering in San Salvador, Central America.

Dr. F. F. Carr-Harris, Med. '01, is practising at Desbarats, Ont.

D. B. Fleming, Sc. '08, is equipment engineer for the Hydro-Electric Power Commission of Ontario, Toronto.

R. D. Guy, Arts '05, Winnipeg, is chairman of the Manitoba Progressive-Conservative Association.

Dr. A. J. Keeley, Med. '09, is in general practice at 206 West Market St., Akron, Ohio.

John L. King, Sc. '07, formerly with the Department of Public Works, Vancouver, B.C., is now retired and living at 3313 Wilson Ave., New Westminster, B.C.

Kate McKellar, Arts '04, is retiring this year after teaching in Calgary schools since 1909.

Dr. F. J. O'Connor, Med. '06, Kingston, was bereaved by the death of his second-youngest daughter, Frances Patricia, on February 7. She is a sister of Dr. Maurice O'Connor, Med. '34, Dr. Fergus, Jr., Med. '36, Norah (Mrs. Milton Laughland), Arts '29, Eileen (Mrs. C. W. McDougall), Arts '36, Margaret (Mrs. Allan Doherty), Arts '31, and Mary, Arts '38.

1910 - 1919

R. W. Burdekin, Sc. '13, retired in January from the General Electric Company, Schenectady, N.Y., after thirty-five years as electrical engineer.

Dr. S. E. Burnham, Med. '15, formerly of Eastend, Sask., is now living at 1236 E. Wabash St., Phoenix, Arizona.

Dr. A. F. G. Cadenhead, Arts '13, D.Sc. '45, Director of Chemical Development for Shawinigan Chemicals Limited, and Mrs. Cadenhead (Dorothea Goodwin), Arts '13, and their son and daughter have moved from Shawinigan Falls, Que., to Montreal, where their address is 4859 Draper Ave.

Dr. G. S. Clancy, Arts '11, Med. 14, is practising at Montmarte, Sask.

Dr. Ralph Filson, Arts '13, Med. '15, was recently appointed medical director of the Travelers Insurance Company, Hartford, Conn.

Rev. E. V. Forbes, Arts 15, pastor of St. John's United Church, Windsor, N.S., for over nine years, was recently inducted as pastor of St. James United Church in Antigonish, N.S.

O. G. Gallaher, Sc. '10, has been with the Department of Works, Province of British Columbia, since 1922. He is now district engineer.

R. D. Harkness, Sc. '13, formerly vice-president and general manager of Northern Electric Company was recently made president of the firm.

Nelson McCartney, Sc. '15, of Niagara Falls, Ont., was bereaved by the sudden death of his brother, William Henry McCartney, at his home in Kingston on February 1.

Persie Meadows, Arts '17, is teaching English in the high school at Cayuga, Ont.

Dr. C. K. Wallace, Arts '11, Med. '13, is assistant superintendent in the Department of Medicine and Hygiene, Travelers Insurance Company, Hartford, Conn.

1920 - 1929

Dr. N. E. Berry, Med. '26, was elected president of the Kingston Branch of the Red Cross Society at the annual meeting held on January 18.

D. W. Boyd, Arts '22, is practising law in Smiths Falls, Ont., with offices in the Wood Building.

Dr. D. M. Carmichael, Med. '26, is Clinical Director at Rockland State Hospital, Orangeburg, N.Y.

H. J. Code, Arts '29, is with the Bell Telephone Company, Belleville, Ont.

B. I. England, C.A., Arts '20, Com. '23, senior partner of England and Leonard, chartered accountants, Kingston, recently announced the enlargement of the partnership to include Mr. L. G. Macpherson, B.A., C.A., Associate Professor of Commerce at Queen's, as a general partner, and A. J. Saunders, C.A., Com. 42, as a member of the firm. It will operate under the name of England, Leonard, Macpherson and Company.

J. L. Fell, Sc. '28, is vice-president and managing director of Lamson-Munro Limited, Toronto.

C. H. Frid, Sc. '22, is a member of the firm Frid Bros. Limited, 790 Main Street W., Hamilton, Ont.

J. T. Gow, Arts '22, member of the law firm, Blake, Anglin, Osler and Cassels Company, Toronto, was created a King's Counsel under the New Year's Honours List.

J. P. Howard, Sc. '27, formerly of Ottawa, is now district municipal engineer for the Ontario Department of Highways at North Bay, Ont.

F. L. LaQue, Sc. '27, of the International Nickel Company, New York City, has been elected president of the National Association of Corrosion Engineers.

Dr. Finlay McLennan, Med. '20, practises at Ochre River, Man.

Dr. C. H. MacNeill, Med. '29, is with the Department of Veterans Affairs, Kingston.

Dr. C. H. Poyart, Med. '28, practises at Port Mellon, B.C.

Audrey Isabel Richards, Arts 29, is lecturing in mathematics at Utica College, Utica, N.Y.

Dr. H. A. Richardson, Med. '23, is in Toledo, Ohio, where he is head of the Veterans' Regional Office. His address is 4330 Toruay Ave.

Dr. R. K. Start, Med. '28, left Canada last July for Japan to resume his work at New Life Sanatorium, Obuse Mura, Nagana Ken-Honshu.

Dr. G. L. Warner, Med. '23, Marcy State Hospital, Marcy, N.Y., was bereaved by the death of his wife at Kingston, Ontario, General Hospital, on November 16, 1948. Donald Warner, Arts '48, and Hugh Warner, Med. '52, are sons.

K. B. Woodward, Arts '29 (B.Paed. Toronto) is municipal inspector of schools for Surrey, B.C. He lives at 3869 Dundas St., Vancouver.

1930 - 1939

K. O. Birkin, Arts '33, is Inspector of Schools in Peterborough, Ont.

Ruth Brinkman, Arts '39, is in the advertising department of Simpson's Limited, Toronto.

Dr. Sidney Brownstone, Med. '36, is doing general practice with his brother in Clear Lake, Iowa.

S. V. Burr, Arts '39, is with Geotechnical Development Company, Bourlamaque, Que.

Rev. R. A. Cameron, Arts '31, Theol. '34, is pastor of the United Church in Sawyer-ville, Que.

Dr. W. R. Conn, Arts '32 (Ph.D. New York University) was recently appointed head of one of the research laboratories of the Rohm and Hass Co., Inc., Philadelphia, Pa.

Dr. G. A. W. Currie, Med. '38, has been appointed administrator of hospitals at University of Colorado Medical Centre and assistant professor of Preventive Medicine at the University of Colorado School of Medicine. He recently received his M.Sc. from Columbia in Hospital Administration.

Dr. E. R. Ellicott, Med. '31, Napanee, Ont., was bereaved on December 15, by the death of his mother, Mrs. George C. Ellicott.

Eleanor Fox, Arts '39, is on the staff of the collegiate institute in Brantford, Ont., as teacher-counsellor in the guidance department.

Campbell Fraser, Sc. '34, of the Ontario Department of Highways, is now division engineer at Owen Sound, Ont.

Dr. W. C. Gussow, Sc. '33 (Ph.D. M.I.T.) is chief geologist for the Shell Oil Company of Canada, Ottawa, Ont.

Lt.-Col. W. G. Hamilton, Arts '38, Sc. '40, who has been serving in the Quartermaster-General's branch in Ottawa, was recently transferred to the Directorate of Weapons and Development as general staff officer.

Dr. W. J. Houghtling, Med. '32, is internist at Mountain Sanatorium, Hamilton, Ont.

F. W. Joy, Sc. '36, Peacock Brothers Limited, has been transferred from the head office in Montreal to the Lakehead area where he will cover territory comprising pulp and paper mills and mines in north western Ontario and Manitoba. His headquarters are in Dominion Bank Building, Port Arthur, Ont.

C. C. Kamm, Sc. '34, is with Allard Lake Quebec Mines Limited, Havre St. Pierre, North Shore, Que.

Dr. Margaret McQuade, Arts '30, who received her M.D. from the University of Western Ontario last spring, is now interning at the Kingston General Hospital.

Dr. E. G. Mack, Med. '38, is practising pediatrics in Beverley Hills, Calif. His address is 130 South Robertson Drive.

W. C. Marshall, Sc. '39, is with the American Smelting and Refining Company as chief engineer for the Mexican Mining Division at Charcas, S. L. P., Mexico.

Lt.-Col. A. O. Monk, Sc. '35, who recently completed the 1948 course of the Canadian Army Staff College, Kingston, has been appointed technical staff officer, grade one, in the Directorate of Vehicle Development at Army Headquarters, Ottawa.

Col. R. B. Murray, Med. '35, R.C.A.M.C., has been transferred from Toronto to Halifax as command medical officer for Eastern Command.

Marion Ross, Arts '39, director of physical education for women at Queen's University, recently returned from the ninth Women's National Aquatic Forum in Hollywood, Florida.

Dr. E. D. Rooke, Med. '37, is on the staff of the Mayo Clinic in Rochester, Minn., as a specialist in neurology and psychiatry.

H. A. Sampson, Sc. '39, is with Trans Canada Air Lines, Winnipeg, Man., as power plant engineer.

Lt.-Col. W. R. I. Slack, Med. '34, is commandant of the R.C.A.M.C. School at Camp Borden, Ont.

Dr. J. W. Stevenson, Med. '39, has been promoted to associate professor of bacteriology at McGill University, Montreal.

W. R. Thatcher, Com. '36, president of Moose Jaw Hardware Limited, Moose Jaw, Sask., has been member of parliament for Moose Jaw Federal Constituency since 1945.

A. C. Turney, Sc. '39, is now superintendent of ore plants for the Aluminum Company of Canada at Arvida, Que.

J. R. Allen, Arts '47, is back at the University this year doing postgraduate work.

Maureen Armstrong, Arts '47, is in charge of the art department at the Collegiate-Vocational Institute in Pembroke, Ont.

G. M. D. Claus, Arts '42, is with the Department of Customs and Excise, Ottawa.

Dr. D. W. Cockburn, Med. '43, is continuing his postgraduate studies in radiology at the Ottawa Civic Hospital.

C. N. Crowson, Arts '41, Montreal, and J. S. Crowson, Sc. '50, Queen's University, were bereaved by the death of their mother, Mrs. Arthur Crowson, at her home in Ottawa on January 21.

Edward Cunningham, Sc. '48, is now in the control department of the Gatineau Mill of Canadian International Paper Company, Gatineau, Que.

J. K. Dever, Sc. '41, is with the International Nickel Company of Canada Limited, Copper Cliff, Ont. He lives at 514 Ernest St., Sudbury, Ont.

Dr. A. G. Follows, Sc. '44 (Ph.D. Toronto), is research chemist with the Solvay Process Division, Allied Chemical and Dye Corporation, Syracuse, N.Y.

F. H. Frappier, Sc. '46, is with the E. B. Eddy Company, Hull, Que.

E. L. Fulcher, Sc. '46, is with H. G. Acres and Company, consulting engineers, Niagara Falls, Ont.

R. I. Hamilton, Sc. '48½, has joined the staff of the Canadian International Pulp and Paper Company, Three Rivers, Que.

Dr. D. M. Hollinger, Med. '46, is practising in Smiths Falls, Ont.

H. C. Hunter, Arts '43, supervising principal of Kingston Township School Area, has been appointed business administrator of the area. Mr. Hunter's new duties include those of secretary of the board as well as those of supervising several schools and acting as principal of First Avenue School in Kingston.

R. D. Hutchison, Arts '46, is on the staff of the Quebec City High School as science teacher.

Lieut. John Kane, Sc. '46, is attached to R.E.M.E. 204 Base Workshop, London, Ont. His address is Officers Mess, Meredith House, London.

R. M. McKnight, Sc. '45, is owner of McKnight Construction and Engineering, 253 Park St., Kingston, Ont.

R. A. Milliken, Arts '40 (Saskatchewan Law '48), was recently admitted to the Saskatchewan Bar as a barrister and solicitor and at present is practising with Messrs. MacPherson, Milliken, Leslie and Tyerman, at Regina.

A. S. Morse, Sc. '48½, has joined the staff of the McColl-Frontenac Oil Company, Toronto.

Laurence Palef, Arts '48, is attending the Academy of Radio Arts, Toronto.

SPUN ROCK WOOL

(Reg'd)

A resilient, long-fibered insulation made from molten rock. Proof against Fire, Vermin, Vibration and Corrosion. Recommended for cold-storage; sound-proofing and acoustical treatments; all industrial purposes up to 1000 F. Made in standard forms for home insulation; exported in bulk form.

WHAT GOES ON IN THE LIBRARY?

By H. Pearson Gundy, University Librarian

AMONG the subtlest, most potent and heady distillations known to man, the Queen's spirit, in my estimation, is pre-eminent. And I believe that I can qualify as somewhat of a connoisseur of academic spirits. I'm a Varsity man myself and a Torontonion; my second Almer Mater was the University of Chicago; for a decade and a half before coming to Queen's I taught in two other Canadian universities, one in Ontario and the other in the Maritimes. When I left Mount Allison two years ago President Flemington, an honorary graduate of Queen's, said to me, "If we have to lose you, we would rather lose you to Queen's than to any other university, but we'll always consider you an Allisonian". And I am proud to be so considered. But after two short years at Queen's I am unreservedly a Queen's man.

Now there must be something magical or mystical about the Queen's spirit to captivate so completely one whose loyalties were as widely dispersed as mine. And my testimony is far from unique. Countless others have come under the spell of Queen's and have given her undivided allegiance. Nor is a salary cheque from Queen's, a registration card, or a graduation diploma necessary to inspire pride and admiration in her achievements and loyalty to the faith that she proclaims. Every Kingstonian knows that.

"What Goes On In the Library?" was delivered as an address at a March meeting of the Kingston Kiwanis Club. It presents a clear picture of the reason why the reconversion of the Douglas Library was included in the necessary construction programme of the University.

And now Queen's asks for a vote of confidence in her future—for the ultimate test of confidence by voting supplies. You are invited to invest in Queen's future right now, and the dividends will be a share in producing future leaders of Canada in all walks of life. Queen's, as you already know, is asking for \$3,175,000—one million of this for immediate essential construction, two millions to increase endowment, and \$175,000 in the form of pledged annual support.

This is not a campaign speech, but the campaign itself is one in which, as Librarian, I have a very direct and vital interest, for on its success depends the possibility of urgently needed library expansion. Most, perhaps all of you, know the Douglas Library from the outside, an impressive building in modified collegiate Gothic opposite the new Union on University Avenue. Many of you have been inside the building, and have perhaps admired the dignified proportions of the main Reading Room on the third floor. But very few of you, I am sure, know that the congestion in the storage space for books, periodicals, pictures, maps, and documents has arrived at a point where desperate measures must soon be taken.

Yes, the Library is a fine, large, impressive building, but in addition to books it houses what my predecessor somewhat indelicately referred to as "foreign bodies" in its midst. And who or what are these foreign bodies? All eminent, highly respected people for whom we have the best good will in the world, except that they are occupying space sorely needed for library purposes. The Library now shelters the Principal (who, I hasten to say, can scarcely be referred to with propriety as a "foreign body" wherever his office on the campus may

de!), the Treasurer, the Accountant, and their staffs, the Registrar and her still larger staff, the University Post Office, the Extension Department, the offices of the Dean of Medicine, the Employment Office, and the Alumni Office—and what space is left over goes to the Library!

Now I would not have you think for one moment that we harbour hard and bitter feelings about this. That would be directly contrary to the Queen's spirit which is above all a spirit of co-operation. No, we are all on the best of terms. But the fact remains that a book has three dimensions and occupies an inflexible amount of space; and over a quarter of a million books occupy so much space in our segment of the library building that there is practically no space left. In fact we have had to beg from Dr. Bruce a basement room in Miller Hall for our over-flow.

That is why a separate Administration Building has been given highest priority on the construction programme which this financial campaign will make possible. For a number of years a building fund has been slowly accumulating; all that it needs is the extra spurt of this present drive—the generous support of all our friends in one concerted effort to transform our plans into reality.

Is this a worth-while endeavour, as far as the Library is concerned? Why do we need so many books at Queen's? Can we really make good use of the extra space when we do get it? What goes on inside a library that requires so much room? Well, these are all pertinent questions, and I shall try to answer them as directly and frankly as possible.

How important is the Library? Let me put it this way. If every single professor and instructor at Queen's, by some act of God or the Devil, were suddenly to vanish from the face of the earth, Queen's within a year or so could engage a new faculty—I won't say a better one—and resume her work. But if every book at Queen's were to vanish, the University would be crippled for decades to come. An academic library can be built up only over a long period of time, and no scholar would come to Queen's if there were no books in the Library.

It is not by accident or coincidence that the greatest universities in the world have the greatest libraries. Other colleges may have buildings, laboratories, gymnasia, the finest athletic equipment and the best athletes in the world, but if their libraries are inadequate they will never achieve academic greatness. This applies not only to the liberal arts colleges but to universities that specialize in the applied sciences as well. M.I.T. is outstanding not merely because of its faculty and mechanical equipment but because of its magnificent scientific library.

For students and staff in the Arts Faculty, of course, the Library is in a very special sense the laboratory where research is done—tracing the history of ideas down through the ages in countless records of the past; forming hypotheses and testing them by the printed word; seeking new connections, new implications, interpreting the present in the light of the past. And where is the past? Stored up in the pages of books and journals, newspapers and yellowing manuscripts, ancient letters and documents. This laboratory is less dramatic, less impressive-looking to the layman than the beakers and test tubes, the bunsen burners and complicated apparatus of the scientists, but it is no less necessary, and little less costly. Let us not imagine, however, that the scientists themselves can carry on research without books. When you consider the vast amount of scientific research that is being conducted in laboratories all over the world, and consider further that the results of this research will inevitably be published sooner or later in order to make further research possible, you can readily see how important scientific literature has become today. We receive in the Douglas Library just over one thousand journals and periodicals, well over half of which are devoted in whole or in part to the sciences.

You can see, too, the problem that confronts us in the Library. We have to pay subscriptions and keep them up to date, check every issue that comes in, make current issues available to students and staff, gather them all in at the end of the year, replace missing numbers and

finally send the important journals to be bound in annual volumes. Last year our bill for binding alone came to nearly \$3000. And think of the space in the stacks that these bound volumes consume—newspapers especially; the *New York Times*, for instance, in twelve huge volumes added every year to a file in the basement which now stretches almost the whole length of the building from north to south. Yet without these aids to research the modern university cannot hope to keep its standards high.

This, of course, is part and parcel of the revolution in higher education that has taken place within our own life-time. Formerly all Canadian and most American universities were basically undergraduate colleges. Harvard had a graduate school, but for the most part scholars went abroad for their post-graduate training. Why? Partly because the world's greatest scholars taught in the older universities, but also because North American libraries were inadequate for research. The last fifty years have completely changed this picture; in all our larger universities there has been an increasing emphasis on graduate work and facilities for research. When I was appointed to Queen's I was specifically directed to take immediate steps toward building up the library for graduate work; and this requires a lot of money. Nevertheless it is an investment which

is in the best interest of Queen's. With the growth of our centres of population, junior colleges will absorb a large proportion of first and second year students who will then go on to our larger universities to take their bachelor's, master's, and doctor's degrees. Queen's future lies very definitely within this field of higher specialization.

We must take immediate steps to advance with the times; this financial drive is a pledge of our determination to do so. We can attract scholars to Queen's and retain them on the faculty only if we can provide facilities for scholarly work. In some departments, Canadian history for example, we have source material for research equalled by few other universities. It will interest you to know that we recently acquired on loan for purposes of classification and research twelve large packing boxes containing the letters, papers, manuscripts, and documents of Sir Wilfred Laurier. Although these are not a permanent acquisition, and our period of custody will expire within a few years, our History Department now has access to many thousands of documents of the first importance that have never yet been made public.

Dr. Lower and I have already spent many hours making a general inventory of the collection, and our task is no more than started. We are working in cramped and unsatisfactory quarters at present, but this must be remedied. Again I return to the problem of space.

Records show that American university libraries have doubled in size every sixteen to twenty years. Small wonder that librarians and administrators have become alarmed by the housing problem for books that this rate of increase has created. A partial solution which is gaining wide acceptance is the reproduction of books, journals, and newspapers on microfilm. We have started a microfilm library at Queen's which I hope greatly to expand. In this small strip of film which I hold in my hand is a complete 108-page novel. Put it in a microfilm reader or viewing machine, and it can be enlarged to the size of ordinary print—or twice the size if necessary.

H. PEARSON GUNDY

Rare, out-of-print books can be obtained this way when the originals are unprocurable. A still more recent development is the reproduction by microphotography of an entire book on a single small card. Here is a microcard on one side of which there are sixty-four pages. By placing the card in the regular card catalogue you save 100 per cent storage space. The card is the book, though, of course, you need a special viewing machine to read it. The cards cost about five cents a piece, but it is only within the last few months that they have become commercially available through the Microcard Foundation in Middleton, Connecticut.

But while these newer developments will help to solve the problem of space, they will never completely replace books which are pouring from our printing presses today in greater numbers than ever before. Libraries will always contain books in addition to microfilms and microcards, and as a book-lover I rejoice that this is so. If our special collections at Queen's were reduced to microcard form, it might be possible to keep them all in a single card-catalogue drawer. But one would be forced to exclaim "Ichabod, Ichabod"—the glory has departed.

Now what are some of these special collections? First and foremost is the Lorne Pierce Collection of Canadiana, internationally known, and containing a unique collection of manuscripts by Bliss Carman, Sir Charles G. D. Roberts, William Wilfred Campbell, Marjorie Pickthall, and many other Canadian poets and prose writers, in addition to hundreds of first editions and rare volumes relating to, or written in, Canada from 1598 to the present. For adequate display of these treasures we require a room several times the size of the present Lorne Pierce Room where there is now scarcely enough space left to turn around.

Another special donation which you read about in the press last December is the R. S. McLaughlin Canadian Historical Collection worth approximately ten thousand dollars. This contains many original manuscripts and letters by

Canadian governors, statesmen, patriots and rebels; pictures, maps, charts, broadsides, proclamations, posters, handbills—all materials which should be exhibited in a special room.

Our one and only "Treasure Room" is a misnomer for it is not a room at all but a screened-off portion of the book-stack with a separate entrance. There is no room whatsoever for furniture here; all the space is taken up by bookshelves. There are no windows in the room and the only ventilation is from the stack level immediately below. Yet this is the only place we have at present to house our rarities. It is not a large collection but it has its peculiar fascination. It contains a number of books printed before 1500 when book-printing was in its cradle—hence the technical term *incunabula* applied to these books, from the Latin word for cradle. Among other rarities are various first editions, including a first edition of Darwin's *Origin of Species* (1859) purchased for the library shortly after it was first published in England. Then there are a number of special gift books inscribed and presented to the University by famous personalities. We have, for example, four beautifully bound volumes presented by Queen Victoria between 1864 and 1885. Shortly after the death of Prince Albert, she sent to the Library a copy of *The Principal Speeches and Addresses of His Royal Highness the Prince Consort* with the following inscription on the fly-leaf: "Presented to the Queen's College Library, Kingston, in Memory of Her Great and Good Husband by His Broken-hearted Widow—Victoria Reg., 1864."

A handsome set of speeches by Franklin D. Roosevelt was presented by Eleanor Roosevelt, and there are other presentation volumes by statesmen, scholars, and writers of national and international fame—limited editions printed on hand-made paper, often sumptuously illustrated and bound in hand-tooled leather. In addition to these treasures we have over 1300 rare Canadian pamphlets preserved in pamphlet binders, and arranged chronologically. This fugitive material, now exceedingly rare, throws revealing light on many

obscure events in Canada's past. We also have over 3500 manuscript letters and documents dealing with the founding and early history of Queen's. These are only a few of our library treasures. They deserve a better fate than to be cooped up in a dark corner. "Time which antiquates antiquities," as Sir Thomas Browne said, "and hath an art to make dust of all things, hath yet spared these minor monuments." Shall we not spare for them a fitting memorial room?

I have already spoken of our resources in Canadian history. These resources are greatly enlarged by our collection of government documents in which we take special pride. We have almost complete files of the British and Canadian *Hansard* and the U.S. *Congressional Record*. Our Canadian parliamentary papers from 1774 to Confederation include the statutes of Upper and Lower Canada, the *Journals* of both the Legislative Council and Legislative Assembly, and reports of special parliamentary committees. Since Confederation, Queen's has been on the "Type I" list to receive all publications of the King's Printer. We also have the statutes of all the provinces and the sessional papers of Ontario and Quebec. I am now negotiating for a set of the statutes of Newfoundland. This section of our library has long since outgrown its original stack space. Our shelves are bulging with material and groaning under its weight. As soon as the administrative offices move out, we shall commandeer new quarters for the Department of Government Documents.

I have said little so far about the work of my staff, some twenty strong, including professional and non-professional workers. No library administrator could wish for a more competent or enterprising group. The staff is departmentalized but it works together as one team to assist students and faculty and to provide the most efficient library service within our means.

The Order Department is a hive of industry, ordering books in many languages from all quarters of the globe—English, French, German, Spanish, Italian, Russian, Latin, Greek, and many

others. The Cataloguers must classify all these books, print call numbers on them, type and file cards under author, title, and subject in the card-catalogue. The Circulation Department keeps track of thousands of book-loans every month. The Reference Librarians are specialists in where to find information on every conceivable subject.

The modern library at Queen's has travelled a long way from the olden days when it used to be housed in what is now the Principal's dining room and was open to students for one hour every afternoon. When I feel discouraged by present handicaps and future problems, I look back on the past and my depression vanishes. Nor do I need to go back to the horse and buggy days; for I can take, I hope, a modest pride in our achievements of the past two years—achievements made possible only by the unfailing support of my staff, my colleagues on the faculty, and the university administration.

When the present financial campaign goes over the top, as it will if everyone who shares the Queen's spirit contributes according to his means, the Douglas Library will enter into its rightful inheritance and make a contribution to this city, this province, and this Dominion beyond all human calculation.

Coming Events

Meetings in connection with the endowment campaign have been scheduled as follows:

April 6—Cornwall; Principal Wallace.

April 7—Smiths Falls; Principal Wallace.

April 11—Peterborough; Mr. H. K. Hutton.

April 12—London; Principal Wallace.

April 18—Montreal; Principal Wallace.

May 4—Brockville; Principal Wallace.

May 6—Kitchener; Dr. B. K. Sandwell.

SPECIAL CONVOCATION ADDRESS

By Raymond Massey, LL.D. '49

MR. Vice-Chancellor, members of convocation, ladies and gentlemen—I am deeply proud of the honor which your great university has done the theatre today and I am very grateful to have been the theatre's representative. I am most sensitive of the privilege you have granted me in admitting me to the fellowship of Queen's University.

Mr. Vice-Chancellor, the more than kind remarks which have been addressed to me make me feel welcome in that fellowship.

I wish to offer my compliments to Queen's University Drama Guild for having given a sustained performance for fifty years. A sustained performance is quite a different thing from a one-night or even a one-year production. It is the very essence of the theatre, embodying technique, standards, and above this enthusiasm, and above all imagination. It is quite a job your Drama Guild has done, an accomplishment in the true and sometimes sorely tried tradition of the drama.

I have to make certain assumptions today in speaking to you. I make them with confidence because your very able committee would have told me if you wished to hear my views on politics or farming or why the sea is boiling hot. I am assuming that you would like to hear what I think about the theatre, since it is the profession I have tried to serve for over thirty years.

When I say "theatre" it is a general term. I'm talking about offering entertainment to people, theatre, screen, radio television, through whatever medium entertainment reaches people. I am taking it for granted that you believe with me that a play, a cinema, a radio or television script has no primary place on your library shelf, that they are living, moving, acting things, that the audience makes an effort to see and hear, and not merely read, and having seen is more influenced and moved than had they read at home, quietly in the library. I believe that people everywhere feel a

need of more than reading, otherwise it seems quixotic for them to make the effort of going out to the theatre or the cinema. I assume you hope as I do that this will always be true.

We of the theatre have values which sometimes seem a little off centre until we explain them, but in the case of the half a hundred years of enthusiastic and successful efforts of this Drama Guild I believe the value needs no spelling out. Anyone who stays with a project for fifty years is either rather slower than ordinary to make a change or convinced it's worth doing.

So since I am some three years older than the Drama Guild, I happily feel that I may speak to you as one survivor to another. "Show business" is a sort of clan anyway. When one of us meets another, we speak of what interests us most, which is show business. I gladly seize my opportunity to tell like-minded friends what I think about the profession in which we have been concerned long enough to be celebrating your fiftieth anniversary. I think the stage, the screen, the radio, and television today are so really in need of men and women of standards, sensitivity, selectivity, sense of proportion, and plain old-fashioned good taste.

I believe that you and I and everyone else who is concerned with offering entertainment to the public would do well to recognize and accept a responsibility to the public, as correlative to our demand for freedom of expression; and it is my impression that the creators of entertainment have in recent years come very close to yelling "fire" in a crowded gathering and calling it "freedom of speech".

I believe that creative writing talent needs discipline and fulfils itself best when imposing that discipline upon itself. I know that to be true of interpretive talent.

And I do not mean outside censorship. I do mean ordinary prudence in self-censorship—perhaps I mean plain

common sense in rejecting the gaudy attention-catcher, whether in subject, writing, costuming, direction, or acting.

You see, whether we like it or not, and we of the profession like it—what goes out on the stage or screen or radio is a great social force. Whatever entertainment is available in a community is a vital force. It really affects the people who see it. I don't mean just little Johnny coming home from the movies acting distressingly like a gangster at supper, or even our junior miss doing her hair in a frightening new manner—that is the surface and, it is to be hoped, temporary effect. The inescapably permanent effect is produced very much on purpose because, if we are successful in our efforts, each member of each audience has lived the play for himself.

What you try to do when you act on the stage is consciously to create an effect. The result of this effect is that the audience live vicariously what is compelled from the stage. It is truly the audience, not the actor, that plays the play—it exists in the minds and emotions of the audience. It exists for them as an added experience, and it is as such a potent influence on their reactions to future experiences. The more so because it is the realm of imagination, the escape, the magic carpet. It's the new hair-do, the different colour scheme, it is also the new point of view, valid or not, the new idea, true or false. Whatever it is, it has lasting effect because each member of the audience finds it for himself, absorbs it, translates it into his personal terms.

This power which we have over people through their imaginations is invited by them. They seek us out. They go by their own choice to the theatre, the movie. They select the radio programme. They want entertainment. They have need of it. It is essential to the well-being of a nation—as is amply proved, if proof be needed, in war time. And the creative and interpretive talent of this entertainment which is so thirsted for must, it seems to me, start right away to discipline itself exactly because of its impact. We who are honestly and unalterably opposed to outside censorship

find ourselves very hard pressed today. In all media of entertainment there seems to be an increasing emphasis on the sensational, the off-the-path subject—the key-hole shocker—the quick and sure way to attract attention and the price of admission.

The elastic of the imagination seems to be unnecessarily stretched. Lately it has seemed to me that entertainment has forgotten or ignored the art of delighting people. We used to know how to cast a spell. We used to enchant people. Time was when I, as a stage actor, was not essentially a megaphone to convey a message. Time was when there was a difference between a parrot and an actor; there was even a difference between an essayist or editorial writer and a playwright.

Best of all, in the proverbial good old days, there was an exacting public, an audience that came to the theatre to be entertained by dramatic material, imaginatively conceived and skilfully presented, and if they didn't get exactly what they wanted they expressed their disappointment immediately and personally without waiting for the morning paper to agree with them.

Ladies and gentlemen, that public is still here. That public, believe me, still knows the difference between a play and a speech. It can hear an axe being ground and it can see a log being rolled, and can feel its pocket being picked. That public is, I do believe, perfectly competent to "censor" its entertainment. That public is perfectly equipped to censor in a way no bureaucrat can do—it can just stay away. No box office, no show. Nobody has ever improved upon public opinion as an effective weapon against the cheap, the shoddy, the penny-catcher.

I want to put in a plea to you who are going out from here with, one hopes, the sense of proportion and instinct for the fitness of things which your university has tried to help you to attain. I want to ask you to keep high the standard of the entertainment which you offer or which will be offered to you. If you are writers for the stage, learn your trade. Put your characters not on the

library shelf, but before your audience with validity, and contrive to get them on and off the stage without the use of block and tackle. Concern yourselves, please, with the ordinary and so eternal values, the heart and soul of people. If you are interpreters, please interpret. Design your set to frame your play, not dominate it. Make your costumes to be acted in, not merely to be looked at. And if you're an actor, the mechanics of acting can, of course, be taught to you but please learn to absorb and maintain the character you are interpreting. Don't live your part, make the audience live it.

You will find among working professionals of the theatre a noticeable and frequently articulate lack of understanding of what the non-professional calls, with a bit of awe, artistic temperament. He seems to understand a mood, or in his generosity make allowance for such.

We don't. I know of no profession, except the medical, where mood and temperament is less appreciated and less rewarded. Acting is the most disciplined profession, and I have no explanation for the extremely kind popular delusion that we are eccentric purveyors of our wares, privileged to indulge our egos like badly raised children.

In the commercial theatre, as in the hospital operating room, precision prevails. It is only inculcated discipline that can possibly give you the exact fresh performance on the 200th night of a play that you get on an opening night. But you get it. The public would not be inclined to overlook the inexpert removal of an appendix because of the mood of the surgeon, nor should they be so kind as to overlook an inept performance by an actor. They know this. But they still feel that we are entitled to artistic temperament. Very kind. But we know we must remain precise and disciplined in the art of creating a character and maintaining it through the two hour traffic of a play, and doing it not only on the adrenalin produced by sheer terror of a first night, but for the hundred of times we hope we shall play it. It is our job to find the best performance of our role and to be able to repeat it with the same precision ex-

pected of the pianist, or violinist, or ballet dancer. And of course, in all honesty, I must quote to you the professional source of inspiration of my friend Howard Lindsay. He was co-author and star of "Life with Father" and, having played the part some 700 consecutive times, was being interviewed about his amazing ability to sustain his performance. Howard gave away a lot of our trade secrets, then came clean. Said he, "I wish to add that nothing helped me toward a conscientious performance so much as a conscious interest in the royalties".

Most of you, those who are not going to work in the theatre, are not let off my plea. You are going to be our audience. We hope you have fun, and we hope you will be exacting of us. Please hold us to our standards.

The unhappy truth is the truth stated by my friend Dudley Nichols, a writer of stature and a director and producer of good films. Mr. Nichols believes, and I believe, that the public is given exactly what they want. The entertainment business is created by the people. Where there is demand, there there shall be supply. So long as you demand witless, adolescent entertainment and stay away in flocks from adult offerings, just that long will you be offered shoddy goods.

The entertainment business is a fisherman with an expensive rod and it will not sit all day and go bankrupt because of baiting its hook with what the fish don't want. This fisherman has, because of you, the audience, found the deep pools unprofitable. Of late, on stage, screen, radio, the abundant fishing

DRAMA GUILD CELEBRATION

Pictures on opposite page.

Top picture, Special Convocation, left to right: Principal Wallace, Rev. Dr. H. A. Kent, Dr. Raymond Massey, Dean G. S. Melvin. Centre picture, head table at Guild banquet, left to right: Dr. William Angus, Miss Joan Pollard, Raymond Massey, Douglas Dale, Principal Wallace, Mrs. Massey, William Purdy, Mrs. Angus, Dr. W. E. McNeill. Bottom left, Hon. Vincent Massey, Chancellor of the University of Toronto, and Dr. Raymond Massey. Bottom right, a contrast in styles from the pageant "Bustles and Bows." The models are Margaret Armstrong and Peggy Pepler.

has been in the troubled waters of adolescence, violence for the sake of violence, and nothing else, physical action for the sake of action, and nothing else, glamour that is not beauty, sex with a snicker, the black and white thinking of the juvenile, life in terms of tabloid journalism and the comic strip, and love, love, love, in terms which I may moderately call flirtatious.

Don't blame us for this, blame yourselves. And don't ascribe the sordid offerings exclusively to show business, the newspapers and magazines and novels have a mass circulation as well, and they too would welcome even a faint small voice, preferably a shout, from you asking that they and we do as well as we know how; because we do know how, all of us.

There is a quality which becomes any man, and is essential to people who live their lives in my profession. It is humility. That is not the opportunist desire to please, which seems about to force you as an audience to stay at home with a good book rather than go out to see our latest most hectic offering. The theatre, the great dramatists, and actors, past and present, had to have humility. Entertainment in general today seems to have ignored it. It seems to me that too much are we feeling your pulse, too much are we the fishermen protecting our investment in the expensive rod. We have not the true humility. Somewhere along the line we started to consider bait.

I want to get away from my simile fast, because it is too trivial to convey to you my profound feeling that playwright, scenario writer, actor, director, producer, stage-designer, all of us should have more humility toward the art we serve and toward our audience and less regard for our gambling guess as to what they want.

With your informed demand for the best we can do, we can do it. Believe me, we would much like to follow Polonius, "This above all; to thine own self be true and it must follow as the night the day, thou canst not then be false to any man."

There's a phrase "a decent respect for the opinion of mankind" which you as an audience would do well to recall to us. Recall it to us as playwrights and technicians and actors. Remind us, by knowing what we're supposed to bring you and, demanding it, don't settle for a peep-show. Believe us, like good servants, we know when we've done an opportunist job.

I want to read to you what Geoffrey Chaucer wrote, because it's what I mean by humility, dignity and a sensitivity that we of show business and perhaps you might find appropriate. At least, let it speak for me if I have inadvertently offended today by speaking what I believe to be true. Chaucer was a humble man and a great entertainer — "Here the maker of this book takes his leave; Now I beg all those who hear or read this little treatise to thank our Lord Jesus Christ, from whom come all wit and all goodness, for anything in it which pleases them. And if there is anything which displeases them, I also request them to attribute it to my lack of skill rather than to my evil intention, for I would very gladly have spoken better if I had been able."

Guild Celebration Programme Under Distinguished Patronage

The Drama Guild celebration programme was under the distinguished patronage of Chancellor Dunning, the Rt. Hon. Vincent Massey and Mrs. Massey, Principal and Mrs. Wallace, Dr. and Mrs. William Angus, Senator Rupert Davies, Dr. W. E. McNeill, Dr. L. W. Brockington, and Dr. B. K. Sandwell.

Members of the celebration committee included Douglas Dale (chairman), Misses Kathleen Barclay, Kathleen Brown, Joan Pollard, and Messrs. F. W. MacLean, A. R. Webster, A. H. Todd, and A. W. Purdy.

Spring Convocation

Spring Convocation will take place this year in Grant Hall on Saturday, May 21.

DRAMA GUILD MARKS FIFTIETH ANNIVERSARY

RAYMOND MASSEY IS GUEST OF HONOUR

THE Queen's Drama Guild celebrated its fiftieth anniversary February 18-19 with a banquet, special convocation, pageant of fashion, and a production of a prize-winning play. Raymond Massey, world-famous Canadian actor, was a guest of honour at the banquet and received an honorary LL.D. degree at the convocation.

In his banquet address Mr. Massey predicted that Canada is soon to occupy a position of major importance in the English-speaking theatre world. Two of England's top producers, Michael Powell and Emeric Pressburger, have already made plans to produce films in this country. Mr. Massey urged that Canadians become more actively theatre conscious and that they organize and support such drama groups as will provide a pool of trained acting talent for Canadian-produced films.

The famous actor made a special plea for the decentralization of the theatre in this country and elsewhere. He urged the revival of road and repertory companies as the only real proving grounds for acting talent. Centralization and lack of stage training, together with high production costs and a dearth of good plays, are the chief causes of trouble in the theatre today, he said.

"Drama Guilds in universities can do and are doing more than any other agency in Canada now to overcome the lack of training facilities," Mr. Massey told his audience. He congratulated Queen's on the operation of its play-producing unit over the past half-century and on the recent establishment of a department of drama. "If, out of your work, there comes one playwright and a deeper appreciation by the people of Canada of the history and tradition of the theatre, then you will have contributed immeasurably to the cause," he said.

Canada has always had a wealth of talent in such fine actors as Walter Huston, Walter Pidgeon, and Hume Cronyn, but they have had to leave the

country in order that their abilities might receive full recognition, said Mr. Massey. He urged that Canadian actors be provided with at least an initiation into the art in their own country. He recommended that drama be given every assistance so that a truly Canadian theatre may be developed.

Mr. Massey recalled his own first venture into the theatre. As a Canadian soldier in Siberia just after the First World War, he was ordered summarily to "produce a show and have it ready by Christmas" (two weeks away). If the show was not exactly a refined one, he commented, it did have the desired morale-building effect.

Dr. L. W. Brockington, rector of Queen's, was also a guest speaker at the banquet. He recalled some of his experiences as amateur actor and critic in his own inimitable style. He paid tribute to the work of the University theatrical organizations in general and to the Queen's Drama Guild in particular. Such organizations help to spread the glories of English speech and to convey to actors and listeners alike the inspiration which comes from pure beauty, he said.

The Rector referred to the golden age of the theatre, as did Mr. Massey. He said that such artists as Ellen Terry enacting Shakespearean roles were a far cry from the "fleeting and evanescent things put before the public in the form of art today."

The banquet was held in the Great Hall of the Students Memorial Union, with approximately 200 students, alumni, and others interested in the work and progress of the Guild. Douglas Dale, Arts '47, chairman of the celebration committee, served as toastmaster. A telegram of congratulation from the directors of the American National Theatre and Academy was read by Mr. Dale.

Referring to the toastmaster's own contribution to the work of the Guild, Principal Wallace recalled the 1945 production of *Hamlet* in which Mr. Dale

played the lead. It was one of the finest productions in the half-century of existence of the club, he said. The Principal had much praise for all those who had helped the Guild to function as an essentially student organization throughout the years. He paid tribute as well to the work of Dr. William Angus, head of the drama department and faculty adviser to the Guild.

Seated at the head table were Miss Kathleen Barclay, who thanked the speakers; Dr. Brockington, Mrs. R. C. Wallace, Dr. William Angus, Miss Joan Pollard, Mr. Massey, Mr. Dale, Principal Wallace, Mrs. Massey, William Purdy, Mrs. Angus, Dr. W. E. McNeill, and Wyatt MacLean.

After the dinner programme, an informal reception was held in the Common Room of the Union.

Special Convocation

At the special convocation held in Grant Hall on the afternoon of February 19, Raymond Massey was made the recipient of an honorary LL.D. degree. He was presented for the degree by Dr. W. A. Mackintosh, vice-principal, who cited Mr. Massey as follows: "Who by his singular achievements in the art of the theatre, has widened and enriched our heritage of heart and mind, as his forbears broadened and made fruitful our material resources; who has added inspiration to the enthusiasm for the dramatic arts which is witnessed in these celebrations; and whom the Senate deems worthy of honour by the University in his native country."

In his remarks, which are printed in full as a leading article in this issue, Mr. Massey made a plea for higher standards in the entertainment field. He also paid tribute to the Queen's Drama Guild for its sustained performance over fifty years. The rich tones of his voice, beautiful enunciation, and dramatic delivery were a highlight of the proceedings.

Mr. Massey was introduced by Wyatt MacLean, president of the Drama Guild. A word of thanks was offered by a veteran Guild performer, A. R. "Sandy" Webster.

After the convocation ceremony a pageant of fashion displaying some of the many treasured costumes collected and used by the Drama Guild during the past fifty years was presented. Entitled "Bustles and Bows," the pageant was produced by Miss Lois Sharp and directed by Miss Edith Shindman. The continuity was written by Mrs. William Angus and the commentator was Mrs. Glen Shortliffe.

Students who participated in the pageant as models included Misses Nancy Armbrust, Gaye Irwin, Dorothy Bishop, Joan Waite, Wilhelmina Dowler, Sylvia Mackenzie, Elspeth Wallace, Freda Rosen, Myrtle Morrison, Catherine Wright, Eileen Haddaway, Dorothy Bradley, Kae Beaumont, Muriel Garlough, Noni Melville, Eleanor Campbell, Eileen Kouri, Barbara Lamb, Margaret Armstrong, Ann Vallentyne, Shirley Hodgins, Ann Elliot, Joan Waddell, Margaret Scarth, Marie Calp, Barbara Cox, Peggy House, Jean Henderson, Margaret Davidson, Betty Taylor, Peggy Pepler, Diana Christie, Eyre Heyniger, Edith Shindman;

Messrs. Donald Foley, Robert Martin, Clare Bolger, Michael Howarth, Derek Arnould, R. J. Reid, Jack Vallentyne, Glen Wilms, A. R. Webster, Harry Threapleton, Ken Brown.

"The Vise"

Presentation of the play *The Vise*, in Convocation Hall on the evening of February 19, concluded the celebration programme. The audience included Raymond Massey, Hon. Vincent Massey, chancellor of the University of Toronto, and William Digby, author of the play.

The Vise was chosen the best full-length play in a nation-wide contest conducted by the Drama Guild last year. Several other entries, given honorary mention, are at present being considered for production by the Guild.

The Vise depicted the tragic and fruitless struggle for survival of the artistic spirit of an æsthetic youth caught in the grip of a culturally unimaginative family. It was accorded an enthusiastic reception.

FIELD WORKERS SET UP LOCAL COMMITTEES IN CONNECTION WITH CAMPAIGN FOR FUNDS

DURING the month of February a considerable amount of field work was carried out in connection with the University's campaign for funds. By the time this reaches print, the drive will be under way in numbers of centres and others will follow as soon as organization and local conditions will permit.

M. C. Tillotson, assistant treasurer of the University and campaign director, has taken on the task of trying to be two places at once, in charge of work at the Endowment Office headquarters, and out in the field. He has visited Sarnia, Windsor, Chatham, Niagara Falls, St. Catharines, Hamilton, Toronto, and Ottawa. This itinerary will be enlarged upon during the month of March.

Rev. S. M. Gilmour of the Queen's Theological College has visited Napanee, Pembroke, Renfrew, Arnprior, and Ottawa. H. K. Hutton, director of the Department of Extension, has been to Fort William, Port Arthur, and Sudbury. Principal Wallace has visited Peterborough, Huntsville, and Guelph.

All field workers report an enthusiastic reception. It was not always easy to find a person with the time and the ability

to head up the local committees but eventually the essential personnel were pressed into service. In some centres the field workers found conditions that called for special treatment.

As it has not been possible to visit all centres, some organization has been accomplished by correspondence. This part of the work is under the supervision of Dr. Ursilla Macdonnell at headquarters. Mrs. Macdonnell was formerly Dean of Women at the University of Manitoba.

A progress report issued at the end of February showed that nine centres were considered as very active, with a strong organization set up and plans proceeding according to schedule. There are over 3500 alumni in these nine centres. Seven more districts are quite active, although lacking the advantage of a visit from a field worker. These groups include more than six hundred graduates. Eleven centres were in the organizing stage and represented more than 2300 alumni. Nine centres were reported as making slow progress.

To date the efforts of the Endowment Committee have been concentrated on the most populous areas and those nearest to headquarters. As soon as possible the organization will be expanded to include Western Canada and the United States.

The publicity committee at headquarters has been strengthened by the addition of Mrs. Jean Love Galloway, an experienced newspaperwoman and publicity expert. Under Mrs. Galloway's direction it is hoped to obtain wide coverage in the newspapers and other media.

The Endowment Committee has prepared a pamphlet entitled "The Needs of Queen's." This will be sent or distributed to all graduates as well as to other interested persons. Other literature will follow.

The campaign has a two-fold objective: The first is \$175,000 a year in annual contributions, and the second is \$3,000,000 for buildings and endowment.

H. K. HUTTON

The first is required to meet increased operating costs. The second is needed to provide immediate and essential construction and to augment the University's endowment funds.

The plan of making annual contributions of modest amounts to a Fund was first suggested to the alumni in 1941 as a practical method of rendering valuable aid. Through this plan 800 graduates and former students are now contributing \$30,000 annually. The purpose of the present campaign is to interest a much larger percentage of the alumni in the plan of annual giving.

For the capital objective of \$1,000,000 for buildings, the only construction planned is that which is absolutely necessary. The major building needs are an administrative building, a reconversion of the Douglas Library, extensions to Ban Righ Hall, and the new Students' Memorial Union. All this construction was recognized as being badly needed before the start of the war. The additional capital objective of \$2,000,000 is needed to bolster the endowment funds of the University. Rising costs, declining interest rates, and the fact that student fees do not cover expenses have made it imperative that Queen's secure more endowment.

The University hopes to raise the capital gifts from private individuals, corporations, and government, for the most part. For the programme of annual giving, the approach will be to the graduates.

In a recent statement the Principal said: "It has been noticeable in recent years that industry has taken a sympathetic attitude to the problems of the universities. Trained personnel are needed for industry. Research workers are now an essential part of very important industrial concerns, for by research industry expands and prospers. The engineer, the scientist, and the business executive receive their training in engineering, science, and commerce from the university. Industry and the universities are in partnership and industrial corporations are beginning to realize that they have to be generous to

universities in their financial contributions if the supply of trained men is to continue to be available. And, in turn, the fundamental research which is being carried on in the university laboratories will provide the data for the applied researches in the laboratories of our industrial corporations. There is no clear dividing line between pure and applied research.

"But it must not be forgotten that the deeper values in life come from the universities — from literature, ancient and modern, from philosophy, from the fine arts," warned the Principal. "These fields have not as yet the generous support that many give willingly to the sciences and the applied fields in science and technology. It is the responsibility of the universities to see that the liberal arts are not starved. If they are, the whole university will wither and die. And so it must be seen to that these aspects of university life and thought be kept alive and vigorous, in order that young men and women may go out with a sense of values and of understanding of the meaning of life that will stand them in good stead when the waters become rough. Least of all Queen's, where there has been a tradition in classics, in philosophy, in theological thought, can we afford to neglect by inadequate support those activities of the human mind which in the past have made Queen's great.

"For Queen's has been, and is, great," said Principal Wallace. "Great in philosophic thought, in industrial relations, in economics and service to the state, in engineering and the development of our national resources, in assistance through extramural courses to an arm of teachers throughout Canada, in assistance to municipal governments, in the medical men who have been trained at Queen's, in fields of research in which Queen's men have international reputations, in the great loyalties of students and staff, in the men of Queen's who have stood out—and stand out—in national life, in all of these and much more Queen's is great. It is too precious an asset to lose."

Student Activities

Named to Tricolour Society

NINETEEN were selected for admission to the Tricolour Society this spring, the largest number on record. Included in the list were three members of Science '48½, who graduated last fall. The honour is awarded for valuable service to the University in non-athletic, extra-curricular activities. This year's group includes: A. A. Beveridge, Arts '49, Elmsdale, N.S.; R. P. Blake, Sc. '48½, Halifax, N.S.; J. G. Chance, Arts '49, Ottawa; K. L. F. Coupland, Sc. '48½, Kingston; Wilhelmina Dowler, Arts '49, Ottawa; E. M. Howarth, Arts '49, Montreal, Que.; R. L. G. Hurd, Sc. '48½, Windsor; L. G. W. Jarvis, Sc. '48, Ottawa; E. G. Jorgensen, Sc. '49, Toronto; F. W. MacLean, Arts '49, Brockville; W. L. Morden, Arts '48, Theol. '49, Picton; A. W. Purdy, Sc. '49, Toronto; A. E. Ross, Med. '49, Kingston; Sydney Segal, Med. '50, Montreal; Edith Shindman, Arts '49, Toronto; Norman Simmons, Sc. '49, Ottawa; A. R. Webster, Arts '49, Fort William; W. C. Wedlock, Med. '49, Peterborough; H. F. Williamson, Med. '50, Belleville.

Won Bridge Tournament

The Queen's Bridge team won the new Toronto *Telegram* trophy, emblematic of the Intercollegiate championship, at a tournament held in Toronto early in February. The team was composed of Les Voynich, Arts '50; Bill Lyttle, Arts '50, St. Catharines; Bob Frost, Arts '49, Toronto; and Jack Warrell, Arts '51, Cochrane. A second Queen's team placed third in the competition and consisted of Phil Hooper, Arts '49, Ottawa; Bill Campbell, Arts '50, Maxville; Bob Clayton, Sc. '51, Hamilton; and John Quance, Sc. '51, Sudbury. This year's entry included three teams from McGill,

Queen's, Toronto and Ajax, two teams from Western, and single teams from Carleton, Ottawa University, and McMaster.

"Laugh Campaign" Pays Off

In one of the most extensive publicity campaigns in campus history, Bill O'Hara, Arts '50, Toronto, swept into the presidency of the Arts Society. A record 66 per cent vote was registered and observers gave most of the credit for the large turnout to O'Hara's campaign. For three days before the election the campus was decorated with more than 500 hand-made posters, supposedly made by the "Anti-O'Hara W.C.T.U. League," which described O'Hara as everything from a bloodless gargoyle to a Skid Row version of a gentleman of distinction. One downtown furniture store had a window display in which was featured a bed with the sign "O'Hara Slept Here."

Musical Comedy Scores Success

An all-Queen's musical comedy, "The Golden Years," was an outstanding success in a three-night stand in the K. C. V. I. auditorium February 1, 2, and 3. Eighteen new lyrics and fourteen new tunes were written especially for the show by Queen's students. The musical background was provided by Boyd Valteau, a former student. The producer was Ed Shaw, Arts '50, Kingston.

Win Gliding Trophy

To the Queen's Gliding Club went the honour of the Berkely Roden trophy for the club which amassed the greatest number of points for flights and soloed pilots. The contest was nation-wide and included both university and other clubs. Principal Wallace accepted the trophy on behalf of the University at the annual convention of the Soaring

Association of Canada held in Kingston on February 12.

Here and There

George R. Heasman, head of the Commercial Intelligence branch of the Department of Trade and Commerce, addressed a meeting of the Commerce Club on February 3. . . . Peggy House, St. Catharines, has been elected president of the Levana Society for next year. Joan Keough, Revelstoke, B.C., and Helen "Bubs" Benger, Port Arthur, will serve as senior and junior A.M.S. representatives, respectively. . . . Harry Walker, Moncton, N.B., is chairman of the Queen's Student Veteran Committee for 1949-50. . . . John Diefenbaker, member of parliament for Lake Centre, Sask., was the guest of the student Progressive Conservative government at the meeting of Mock Parliament on February 10. . . . The Camera Club annual salon was held February 21-26, and Bob Bowley, Ottawa, veteran student cameraman, carried off most of the major prizes. . . . Mrs. Grace Campbell, author of *Thorn Apple Tree*, *The Higher Hill*, and *Fresh Wind Blowing*, spoke at a meeting of the Levana Society on February 5. . . . The annual Iron Ring ceremony for the graduating class in Science was held on February 16 and approximately 220 received the coveted award. After the banquet the men adjourned to a stag party at the Club Val D'Or. . . . The Levana Society marked its Diamond Jubilee with a special edition of the *Journal*, which featured messages from Lady Alexander, Lady Byng, Mrs. Eleanor Roosevelt, and articles of particular interest to women, students and graduates. . . . Dr. Austin Smith, secretary of the Council on Pharmacy and Chemistry, American Medical Association, was the guest speaker at the annual meeting of the Aesculapian Society on February 28. . . . The Alma Mater Society has recommended to the Senate that the present arrangement for health services be terminated and that it be replaced with a form of group insurance which will provide for free choice of attending physician by individual students as well as hospital charges not covered by the existing plan. . . . Jack

Gordon, Schreiber, has been elected president of the Aesculapian Society for next year. Bruce Morgan, Kingston, and Doug Geiger, Toronto, will serve as senior and junior A.M.S. representatives, respectively. . . . One hundred and seventy-five graduates, faculty members, and members of the Levana executive attended the annual graduates' banquet and dance in Ban Righ Hall on February 23. Elizabeth Corlett, Kingston, was the convener.

Dean G. S. Melvin Welcomed On Return to University

DR. G. S. MELVIN, dean of the Faculty of Medicine, returned to the University early in February after an absence of several months abroad. Recovered from the illness that had prolonged his visit to the Old Country, he has resumed his duties at the University.

Dr. and Mrs. Melvin were greeted on arrival at the Kingston station by a delegation of Medical and other students. As they stepped from the train, a piper broke out with a Scottish air. John McAuley, president of the Aesculapian Society, voiced the welcome of the group.

To Receive Applications For Columbia Scholarships

A GRADUATE of Science '09, Dr. C. W. Drury of Toronto has been appointed chairman of a committee for Canada to receive applications for national scholarships for Columbia College, Columbia University, New York. These scholarships are tenable for four years and carry a stipend of \$600 to \$1200 annually. They are open to Grade XIII students.

To Receive Medal

HEAD of the Department of History at Queen's, Dr. R. G. Trotter has been awarded the James B. Tyrrell Medal for history by the Royal Society of Canada. The medal will be presented at the Society's annual meeting in Halifax July 5-8, during the city's bicentennial celebrations.

Athletics

Boxers Win Championship With Five Victories in Finals

QUEEN'S won the Intercollegiate boxing team title in decisive fashion when they took five out of eight championships in the annual assault-at-arms held in the Gymnasium on February 25 and 26. The final standing showed the Tricolour with 23 points, Toronto, 14, and McGill, 3.

In wrestling Queen's placed third, winning one title and sharing another. The final count was Ontario Agricultural College, 15; McGill, 14½; Queen's, 10½; Toronto, 4. Under the old system of combining the boxing and wrestling championships, Queen's would have led the way with a grand total of 33½ points and Varsity would have ended up in second place with 18.

The Tricolour champions are as follows: boxing — Lew Keating, 140 pounds; Frank Oravec, 147; Hank Unruh, 155; Mike Milovick, 175; Keith Christiansen, heavyweight; wrestling—Mickey McGuire, 175 (shared with Harry Biewald of McGill); Harry Stewart, 190.

KEITH CHRISTIANSEN

Highlights of the two-day card were numerous and Queen's representatives shared in most of them. Particularly noteworthy were the two knockouts scored by Keith Christiansen in registering his third straight Intercollegiate championship and the wrestling match between Mickey McGuire of Queen's and Harry Bielwald of McGill. The two wrestlers were tied in points at the end of the regulation three rounds and in two overtime sessions neither was able to gain any advantage. The verdict, while new to Intercollegiate annals, was eminently fair and just.

On the first night of competition three Queen's boxers and four wrestlers won. In boxing, Lou Keating decisively outpointed Leprich of Toronto at 140 pounds, and Hank Unruh won from DuBoulay, also of Toronto, at 155; Keith Christiansen, after a slow start, knocked out Turner of Toronto in the second round. In wrestling, Vince Politi outpointed Shaver of Toronto, 15 to 7; George Flanagan outpointed Walker of McGill, 4 to 3; Mickey McGuire outpointed Graham of Toronto, 9 to 5; and Harry Dick threw Kilpatrick of Toronto in one minute and thirteen seconds of the heavyweight final. Losers were John Westaway at 135 pounds and Lang Farrand, 145; Farrand was Intercollegiate champion in 1948.

On the final night, Queen's was represented by a man in every boxing final. At 125 pounds Pat Nourry dropped a decision to Henshall of Toronto and at 135 Stew LeBaron lost by a TKO in the third round to Geary of Toronto. The crowd did not like the latter decision as it appeared that LeBaron had handed out as much punishment as he had taken.

Lew Keating registered the first win for the Tricolour boxers when he won three out of four rounds from last year's champion, Heney of McGill. Frank Oravec took a close decision from Conceiro of Toronto at 147 pounds, and

Hank Unruh won by a sizable margin from McAllister of McGill at 155, to make it three straight titles for Queen's. Boxing at 165 pounds, Bill Verge ran into stiff opposition in Patrick of Toronto and went down to a second-round TKO defeat.

In the light-heavyweight class Mike Milovick racked up his third straight intercollegiate championship when he outpointed Scott of Toronto. Mike had a clear margin in the first three rounds and successfully withstood a strong closing rally to win the title. Keith Christiansen also won his third straight heavyweight boxing crown when he knocked out Cragwell of McGill in the second round. Keith only threw one punch at his opponent but it was enough to settle the issue.

In wrestling, Harry Stewart won from Owen of McGill by a margin of 8-0 to take the 190-pound championship while Mickey McGuire and his opponent fought to a draw as noted above. On the losing side of the column were Tak Fuginagari, 135, who had two falls scored against him; Vince Politi, 145, who lost 4 points to 2 in two overtime sessions to Farrell of O.A.C.; George Flanagan, 165, who went down 12-8 to Jensen of O.A.C.; Harry Dick, who was thrown in two minutes and fifty-three seconds by Kowal of McGill.

The wrestling was conducted under American rules for the first time and the innovation made the bouts much more interesting than they had ever been before. Points were awarded as soon as they had been scored and these were shown prominently on a blackboard so that the trend of the contests could be followed at all times. John Oliver, wrestling coach at St. Lawrence University, Canton, New York, was the referee and his capable officiating added a great deal to the enjoyment of the programme. The boxing referee was Bob Seright, Sc. '31, winner of five titles for Queen's in his day.

The Queen's boxers were coached by Jack Jarvis, who has produced fifty-two champions in twenty-two years. The wrestlers had a new mentor in Jim Say-

lor, Arts '23, and made their best showing in years. At the same rate of progress they should prove strong contenders in the years to come.

Queen's Retains Badminton Title With Decisive Win Over Western

QUEEN'S retained the Intercollegiate badminton championship with a decisive 12-3 victory over the University of Western Ontario, winners of the western zone title. The Tricolour won all six singles matches and took six of the nine doubles events, in a tournament played in Kingston in February. Al France, a freshman in Medicine from Kelowna, B.C., and last year's Canadian mixed doubles finalist, won the singles championship. Others on the team included Tom Drope, Arts '52, Regina, Sask.; Jim McBride, Sc. '49, St. Stephen, N.B.; Des Sparling, Arts '51, Moncton, N.B.; Leigh Ronalds, Arts '49, Montreal, Que., and Hugh Macpherson, Sc. '51, Stratford.

Sport Shorts

HIT hard by the loss of star Hugh Bolton to the Toronto Marlboroughs, and by three other regulars who were forced to drop out in order to keep up with their studies, the Queen's senior hockey team went through a winless season. In February the Tricolour lost 8-7 to University of Montreal Carabins, who are the new league champions; 8-4 and 12-4 to Toronto, and 9-7 to McGill. In the latter game Queen's had a two-goal lead which they lost in the last seven minutes of play. . . . The senior basketball team wound up at the bottom of the league standings, sharing this doubtful honour with McGill. The squad's lone victory was turned in at the expense of McGill at Kingston on February 18 and the final score was 47-36. . . . Ross McKelvey has been elected Captain of the football team for next year, succeeding Al Lenard. . . . Meds '52 won the Bews Trophy, emblematic of the intramural sports championship. . . . Jake Edwards will take over the coaching duties of next year's intermediate football team.

At the Branches

Saguenay

A STUDENT loan fund has been established by the Saguenay branch, it was recently announced by R. W. Kraft, Sc. '40, president.

Applicants for the fund must be Queen's students from the Lake St. John or Chicoutimi counties, and must have successfully completed the first year of their course. Individual loans are not to exceed \$100, at the start, but later the limit may be increased to \$200.

Brantford

DORMANT for some years, the Brantford branch was reorganized at a special meeting held on February 27 at the home of H. J. Vallentyne, Arts '20. About twenty-five were present.

Officers were elected for the ensuing year as follows: president, H. J. Vallentyne, Arts '20; vice-president, J. S. Johnson, Sc. '41; secretary, Mrs. R. N. Dobson (Norma MacRostie), Arts '37; treasurer, A. G. Scott, Arts '14.

During the brief business session, a system was outlined by which the branch could work with other groups for the greatest benefit of Queen's.

The remainder of the evening was spent in playing bridge, the winners

being Mrs. R. N. Dobson, ladies' high, H. I. Ralph, men's high. Dainty refreshments were served under the con- venership of Miss Agnes Mackintosh, Arts '16.

Porcupine

AT the annual meeting held in the Rainbow Room of the Goldfields Hotel on February 25, S. B. Hansuld, Sc. '23, was elected president for the ensuing year. Mr. Hansuld succeeds Dr. William Taylor, Med. '33.

Other officers elected were as follows: first vice-president, D. W. Carriere, Arts '35; second vice-president, Dr. R. E. C. Anderson, Med. '35; secretary-treasurer, C. B. Ross, Sc. '47; executive—E. B. Weir, Sc. '26, G. M. Godfrey, Sc. '38, W. B. Sparks, Arts '40, Miss Mary Everard, Arts '40.

Approximately seventy members and friends were in attendance. During the business part of the meeting it was agreed that the regular executive would handle the details of the local endow- ment campaign for the University

The remainder of the evening was spent in playing cards and in dancing. The card games included poker, bridge, cribbage, and the like. For the purpose of gambling, members were provided with "\$200" each. Prizes were pre- sented to those who had the largest amount of money at the end of the even- ing and Mrs. M. B. Truman and Mrs. E. B. Weir were the winners. A buffet lunch completed the programme.

Vancouver Alumnae

AT the annual meeting held on Febru- ary 5 at the home of Mrs. O. F. Lundell (Freda Collier), Arts '24, the following executive was elected for the ensuing year: honorary president, Mrs. Daniel Buchanan; president, Mrs. E. Page (Edna McCartney), Arts '19; vice-president, Miss Ruby Nash, Arts '12; secretary, Miss Lorna Horwood, Arts '31; treasurer, Miss Margaret Miller, Arts '47; press, Mrs. C. A. Wied-

rick (Ethel Irene Hedley), Arts '23.

During the past year the branch sent thirteen food and clothing parcels to Britain. It was decided to continue these parcels for the coming year, sending a portion to a displaced person in Germany: Dr. Lueya Reksana, a Latvian.

Ottawa

A STRONG plea for a more careful study and use of the English language was made by Dr. W. E. McNeill, former vice-principal and treasurer of the University, at the annual dinner meeting held in the Chateau Laurier on February 8. Approximately three hundred were in attendance.

"There has never been a time when there has been so much abuse of the King's English—and probably of God's patience," said Dr. McNeill. He gave a number of examples of grotesque expressions, misused words, mixed metaphors, all gleaned from books, magazines, newspapers, and radio broadcasts.

A college degree did not prove one could either write or speak English. Colleges give lip service to the King's English as something they must teach every student but, in reality they give it hardly any teaching at all. An English course teaches history, dates, names of books; the teaching of writing is only incidental.

Speech was more than communication; it was the great revealer of social and intellectual status, even a revealer of character, the creator and preserver of civilization, said the speaker.

Dr. McNeill was introduced by Dr. L. W. Brockington, Rector of Queen's, who referred to the "gift and treasure of his quiet life." He was thanked by A. E. MacRae, Sc. '14.

Red, yellow and blue candles added a touch of Queen's colours to the festivities. The head table guests were piped to their places in traditional style. The singing of Queen's songs and a spirited rendition of the University yell further helped to create the right atmosphere. Jean Burrows, Arts '37, led in the sing-song, with Henry Wightman, Com '46, providing the piano accompaniment.

Dr. L. D. Wilson, Med. '28, president of the branch, served as chairman. He paid tribute to two highly respected alumni who had died in January: Rev. T. J. Thompson, honorary president of the branch, and Rev. Dr. A. P. Menzies, president.

J. M. Macdonnell, Arts '04, LL.D. '41, chairman of the Board of Trustees, spoke briefly in describing the University's need for funds and concerning the current drive for funds. He appealed to all graduates and friends of Queen's to support their university.

The committee in charge of this highly successful event was headed by H. I. Marshall, Sc. '41.

Montreal Alumnae

THE Silver Anniversary of the founding of the Montreal branch of the Alumnae Association was celebrated at the annual dinner held at the Berkeley Hotel on February 7, with more than sixty members present.

The president, Miss Eleanor Holland, Arts '28, welcomed the guests. She called upon each of the past presidents, who were seated at the head table, to rise and be greeted by the assembly. Included were Mrs. Stanley Andrews (Gretta McRae), Arts '24; Mrs. J. M. Joyce (Catherine Holland), Arts '20, Mrs. George Longley (Dorothy Harris), Arts '27, Miss Beryl Truax, Arts '27, Mrs. J. C. Grant (Beatrice Craig), Arts '20, Mrs. A. G. Racey (Phyllis Leggett), Arts '31, Mrs. H. S. VanPatter (Jean Macpherson), Arts '19, Mrs. F. W. Benn (Marion MacArthur), Arts '24, Mrs. D. B. Thomas (Roberta McLean), Arts '20, Mrs. G. V. Roney (Kathleen MacNamee), Arts '21, Mrs. A. P. Blackburn (Eileen Campbell), Arts '20, Mrs. W. J. Hyde (Bessie Farrell), Arts '17, Miss Elizabeth Rattee, Arts '26.

A specially decorated anniversary cake was cut by Mrs. A. P. Blackburn (Eileen Campbell), Arts '20, as senior president. Mrs. Blackburn then addressed the gathering, giving an interesting history of the Montreal branch. Mrs. Blackburn paid tribute to the efforts and enthusiasm of the first president, the late Mrs. S.

TWENTY-FIFTH ANNIVERSARY DINNER, MONTREAL ALUMNAE

Top picture: view of the head table. Bottom picture: presidents of the Montreal Alumnae branch: standing, left to right, Mrs. Stanley Andrews, Mrs. J. M. Joyce, Mrs. George Longley, Miss Beryl Truax, Mrs. J. C. Grant, Mrs. A. G. Racey, Mrs. H. S. Van Patter, Mrs. F. W. Benn; seated, Mrs. D. B. Thomas, Mrs. G. V. Roney, Mrs. A. P. Blackburn, Miss Eleanor Holland, Mrs. W. J. Hyde, Miss Elizabeth Rattee; absent, Mrs. S. S. Burns (deceased), Mrs. J. S. Bennett, Mrs. C. MacIntyre, Miss Jean Tweddell.

S. Burns, in getting the organization started. "Twenty-five years have seen the success of the branch, not only in the plan to aid in the building of a women's residence at the University, but in its general purpose of promoting good fellowship among Queen's alumnae and of spreading Queen's ideals into community life," she said.

Miss Winnifred Bambrick, guest artist, entertained with several delightful selections on the harp, concluding most appropriately with "Believe me, if all those endearing young charms." Mrs. A. G. Racey (Phyllis Leggett), Arts '31, moved a vote of thanks to Miss Bambrick.

Kingston Alumnae

COL. W. R. SAWYER, Sc. '26, vice-commandant and director of studies at the Royal Military College, was the guest speaker at the regular meeting held in the Common Room of Ban Righ Hall on March 1. His subject was "Atomic Energy."

The potential use of nuclear fuel for military purposes and civilian power was outlined by the speaker. Because of the economic factor developments in connection with civilian power may be expected to come in more slowly than in the other field. Colonel Sawyer said that it would be necessary to find out much more about nuclear forces before it would be possible to make a reasonable forecast of the potentiality of harnessing a much greater fraction of the energy of the nucleus.

A vote of thanks to the speaker was moved by Mrs. R. O. Earl (Olga Somerville), Arts '14.

The meeting was presided over by Miss May Chown, Arts '11. Miss Jean Tweddell, Arts '12, treasurer, reported that there was a balance of \$106 in the general fund and \$800 in the residence fund.

It was announced that the alumnae had been asked to take charge of the tea arrangements for the annual convocation reception to be held on May 21. The executive was authorized to appoint a convener or conveners for this affair.

After the meeting, Miss Dorothy Taylor, Arts '41, social convener, and the members of her committee served light refreshments.

Lakehead

GUEST of honour at the annual meeting and dinner at the Royal Edward Hotel, Fort William, on February 22 was H. K. Hutton, director of extension at Queen's. H. B. Burns, Arts '31, was in the chair.

In his remarks about the University, Mr. Hutton gave a brief statement of the purpose of the present endowment drive. He said that Queen's, in common with most Canadian universities, was having difficulty in balancing the budget. Certain new buildings are badly needed

and administrative costs have risen considerably. In addition to this, income from endowment has decreased. The University is now seeking \$1,000,000 for construction purposes, \$2,000,000 for endowment, and \$175,000 in annual subscriptions.

The speaker was introduced by C. A. MacDonald, Arts '50, and was thanked on behalf of the meeting by R. Muir, Arts '28.

The guests were entertained by J. R. Lawrence, Arts '42, and Mrs. Lawrence, who presented an excellent travelogue on a recent trip to Europe. The programme also included a toast to the University, proposed by Mrs. C. A. Cleland (Marion Ferguson), Arts '28, and the singing of Queen's songs under the leadership of Dr. R. G. Miller, Med. '37, with C. A. MacDonald, Arts '50, assisting at the piano.

The following officers were elected for the coming year: past president, D. R. Beckett, Sc. '43; president, Dr. R. G. Miller, Med. '37; first vice-president, J. R. Lawrence, Arts '42; second vice-president, Betty Smith, Arts '35; secretary-treasurer, Dorothy Jessop, Arts '33; executive—Mrs. G. H. Young, (Lillian Gardner), Arts '39, Olive Langley, Arts '44, Campbell McGregor, Arts '47, K. A. McCaffrey, Sc. '43.

Queen's colours predominated in the gay table decorations of candles, crests, and spring flowers.

Winnipeg

PROFESSOR of surgery at Queen's, Dr. D. C. L. Bingham was the guest speaker at the meeting held at the Marlborough Hotel on February 19. Forty-six were present.

Dr. Bingham told of some of the recent developments at Queen's, both in the University as a whole and more particularly in the Medical School. He gave some of his impressions of the University and predicted that it would play a vital and important role in Canada's future.

Dr. R. A. Macpherson, Med. '29, introduced the speaker, and a vote of thanks was moved by R. M. Fisher, Arts '13.

Alumni News

Births

Bimm—On November 25, at Cottage Hospital, Pembroke, Ont., to E. E. Bimm, Arts '36, Sc. '38, and Mrs. Bimm, of Eganville, Ont., a son.

Byrne—On February 4, at the Belleville General Hospital, to Dr. John Byrne, Med. '35, and Mrs. Byrne, of Trenton, a son.

Carlson—At the General Hospital, Winnipeg, Man., to A. J. Carlson, Sc. '41, and Mrs. Carlson, a son (James Arthur).

Chalmers—At the Civic Hospital, Peterborough, Ont., on November 12, 1948, to A. E. Chalmers, Sc. '23, and Mrs. Chalmers, a daughter.

Chapman—At St. Joseph's Hospital, Toronto, on March 14, to R. S. Chapman, Sc. '41, and Mrs. Chapman, a son (Timothy Eldon).

Conner—On January 24, at the Western Division of the Montreal General Hospital, to John E. Conner, Com. '47, and Mrs. Conner (Lucette Hansen), Arts '45, a son (Brian John).

Corrigan—On February 15, at the Grey Nuns' Hospital, Regina, Sask., to Dr. V. A. Corrigan, Med. '38, and Mrs. Corrigan, a son (Charles Joseph).

Davoud—At Keresley Hospital, Warwickshire, England, on March 2, to Dr. J. G. Davoud, Arts '37, and Mrs. Davoud, twin daughters (Allison Everard and Jennifer Anne).

Elliott—At the Women's College Hospital, Toronto, on February 17, to M. G. S. Elliott, Sc. '46, and Mrs. Elliott, a son.

Free—At Wellesley Hospital, Toronto, on February 5, to G. K. Free, Com. '40, and Mrs. Free, a son (Stephen Douglas).

Fritz—On December 8, 1948, at St. Joseph's Hospital, Sudbury, Ont., to W. D. Fritz, Arts '35, Sc. '40, and Mrs. Fritz, a son (James Allen).

Garrett—At St. Joseph's Hospital, Peterborough, Ont., on February 25, to A. R. Garrett, Arts '18, Sc. '20, and Mrs. Garrett, a son.

Hale—At Shawinigan Falls, Que., on December 9, 1948, to G. M. Hale, Sc. '45, and Mrs. Hale (Mary Lillian Conner), Arts '45, a daughter (Susan Emily).

Holloway—On March 5, at the Kingston General Hospital, to Mr. George Holloway and Mrs. Holloway (Audrey Lawson), Arts '38, a daughter (Ann).

Hewitt—On October 26, 1948, to Dr. R. L. Hewitt, Arts '35, and Mrs. Hewitt, a daughter (Rosmy Lyle).

Hill—At the Toronto General Hospital, on February 18, to D. H. Hill, Sc. '42, and Mrs. Hill, a daughter (Mary Elizabeth).

Howe—On March 11, at the Hotel Dieu Hospital, Kingston, to R. M. Howe, Sc. '40, and Mrs. Howe, a son.

Howson—On February 15, at the Private Patients' Pavilion, Toronto Western Hospital, to Mr. W. G. Howson and Mrs. Howson (Marjorie Sutherland), Com. '33, a daughter (Catherine).

Jenkins—At the Kingston General Hospital, on February 26, to Dr. J. G. Jenkins, Med. '40, and Mrs. Jenkins, a daughter.

Knowles—On February 23, at the Western Division of the Montreal General Hospital, to G. V. Knowles, Sc. '39, and Mrs. Knowles, a son.

Law—On November 10, 1948, at the Ottawa General Hospital, to Dr. W. B. Law, Med. '42, and Mrs. Law, a son.

McCracken—On March 4, at the Ottawa Civic Hospital, to E. W. McCracken, Com. '48, and Mrs. McCracken, a daughter.

McCullough—On March 3, at the Kootenay Lake General Hospital, Nelson, B.C., to Dr. R. M. McCullough, Med. '37, and Mrs. McCullough, a daughter.

McIntyre—At the Private Patients' Pavilion, Toronto General Hospital, on February 14, to Dr. J. A. McIntyre and Mrs. McIntyre (Katherine McRuer), Arts '43, a daughter.

MacKinnon—On January 28, at the Vankleek Hill Hospital, to Clifton MacKinnon, Sc. '36, and Mrs. MacKinnon (Barbara Adsit), Arts '39, a fifth son (Robb Campbell).

Morgan—At the Kingston General Hospital, on February 20, to Bruce Morgan, Med. '51, and Mrs. Morgan (Agnes Barry), Arts '48, a daughter (Ann Janise).

Muir—At Grace Hospital, Windsor, Ont., on October 31, 1948, to W. W. Muir, Arts '38, and Mrs. Muir (Isabel Hope), Arts '37, a daughter (Barbara Ellen).

Munro—On November 24, 1948, at the General Hospital, Pembroke, Ont., to Dr. C. B. Munro, Med. '40, and Mrs. Munro, a son.

Nettleton—On March 11, at Sarnia, Ont., to J. S. Nettleton, Sc. '43, and Mrs. Nettleton, a son (Gordon James).

Newlands—In Calgary, Alta., on February 11, to Capt. J. C. Newlands, Arts '38, and Mrs. Newlands, a daughter (Patricia Margaret).

Perry—On February 2, to F. L. Perry, Sc. '42, and Mrs. Perry, of Calgary, Alta., twin daughters (Judith Anne and Janet Clare).

Pratten—On March 4, at the Private Patients' Pavilion, Toronto General Hospital, to Dr. John Pratten, Med. '43, and Mrs. Pratten, a son (Robert John).

Ross—At the Vancouver General Hospital, on March 5, to Dr. J. E. Ross, Med. '45, and Mrs. Ross, a daughter (Mary Elizabeth).

Stinson—At Alice Hyde Hospital, Malone, N.Y., on November 30, 1948, to

W. G. Stinson, Sc. '44, and Mrs. Stinson, a daughter (Auren Leslie).

Thompson—At St. Michael's Hospital, Toronto, on February 13, to M. W. Thompson, Arts '38, and Mrs. Thompson, a son (Melville McClelland).

Watts—On March 15, at Mount Hamilton Hospital, Hamilton, Ont., to T. O. Watts, Sc. '33, and Mrs. Watts, a daughter.

Whyte—At the Ottawa Civic Hospital, on February 15, to Dr. D. W. Whyte, Med. '40, and Mrs. White, a daughter.

Marriages

Allison—On March 5, in the United Church, Wallacetown, Ont., Jean Edythe McKillop to Russell Stafford Allison, Sc. '46. They will live in Montreal.

Collins-Sachs—On October 9, 1948, in Toronto, Nancy Elizabeth Sachs, Arts '44, to Donald Joseph Collins, Arts '48. They are living at 24 Hiawatha Ave., Toronto.

Peria—On February 8, in St. Theresa's Church, Ottawa, Joan Theresa Kelly to William Thomas Peria, Sc. '48.

Sinkins—On September 25, 1948, in St. John's Anglican Church, Sarnia, Ont., Margaret Lucas, R.N.; to Dr. James Milton Sinkins, Med. '45. Dr. Sinkins is at present doing postgraduate work in surgery at the Royal Infirmary in Edinburgh, Scotland.

Sterling—On November 17, 1948, at Matheson, Ont., Emily Irene Bustard to Thomas Story Sterling, Sc. '43, of Ottawa.

Deaths

Campbell—A former school inspector, Norman Campbell, Arts '22, died in the General Hospital at Kingston, Ontario, on February 11. He had retired eighteen months ago, following a stroke. In recent months he had been enjoying good health, previous to a second stroke which resulted in his death. Mr. Campbell was born at Cedarville, Ontario. He first enrolled at Queen's as an extramural student and completed his studies by correspondence and intramurally. Veteran of World War I, he obtained his B.A. degree in 1922 and his M.A. two years later. He held teaching appointments in Monteith, Hamilton Technical School, and Glebe Collegiate Institute, Ottawa. Mr. Campbell was appointed public school inspector for North Renfrew in 1928, which position he held for seventeen years. He transferred to Kingston in 1945. Surviving are his wife, two daughters, a son, and two brothers.

Chown—One of the best-known child disease specialists in Western Canada, Dr. S. Gordon Chown, Arts '09, Med. '11, died at his home in Winnipeg, Manitoba, on February 9, after a heart attack. Dr. Chown was born in Kingston in 1888 and received his early education in the schools of that city. He graduated from Queen's with his B.A. degree in 1909 and his M.D. C.M. degrees two years later. He went

to Winnipeg in 1911 and shortly afterwards became associated with the children's hospital. A former president of the Manitoba Medical Association, he had been a member of the University of Manitoba medical faculty and had organized a separate department of pediatrics at the University in 1946. Among the survivors are a daughter and a sister, Mrs. Lorne Pierce (Edith Chown), Arts '13.

Fraser—In failing health for some time, L. Stuart Fraser, Arts '13, died in hospital at Edmonton, Alberta, on February 17. Mr. Fraser was born at Lancaster, Ontario, and was educated there and at Williams-town before going to Queen's. As a student he was a star hockey and football player. He graduated with his B.A. degree in 1913. He went to Edmonton and joined a law firm as a student, but soon after the outbreak of war joined the Queen's University field battery. Subsequently he earned his commission and went to France with an artillery unit and later with a trench mortar group. Wounded and invalided home, after the war he joined the legal firm which became known as Bishop, Giroux and Fraser. In later years he was in practice alone. Mr. Fraser always took an active interest in sports, particularly in football and baseball, and for some time was associated with Deacon White, widely known sports promoter. He is survived by his wife and two brothers.

McCouan—Suddenly at the home of his parents in Smiths Falls, Ontario, Dr. Wallace McCouan, Med. '33, died on December 10. Dr. McCouan was born in Smiths Falls in 1904 and attended the schools of that community. He entered Queen's in 1927 and graduated six years later with his M.D., C.M. degrees. For a number of years he practised in Carleton Place and subsequently he returned to Smiths Falls. During World War Two he served as a medical officer in the Canadian Army. Among the survivors are his parents and his wife, Mrs. McCouan (Edith Murphy); Arts '29.

McCreary—At the age of eighty-one, Robert Nelson McCreary, Arts '95, died at his home near Pakenham, Ontario, on January 30. Mr. McCreary was born near Carleton Place. He was educated there and at St. Catharines High School and Perth Model School. He taught school for a time and then enrolled at Queen's. In 1895 he graduated with his M.A. degree. Shortly afterwards he settled on the farm where he lived until his death. Mr. McCreary was an active citizen in his community. In 1920 he was elected as reeve of Pakenham township and for twelve years served that municipality. He was elected warden of Lanark County in 1925 and was a member of the first Mothers Allowance Board and Old Age Pension Board of the county. He was honoured as first president of Lanark County Educa-

tional Association. A prominent dairyman, he was secretary of Pakenham Cheese and Butter Association, an office he held for more than thirty years. Having served as a trustee of S.S. No. 5, he was appointed secretary and served a quarter of a century in that capacity. Surviving are two sons, of whom Dr. R. H. McCreary, Arts '27, Med. '29, is one; three daughters, including Mrs. E. W. Stirtan (Kathleen McCreary), Arts '30; and one brother.

McDonell—A medical practitioner in Edmonton, Alberta, for forty-three years,

Dr. John James McDonell, Med. '03, died at his home on February 4. He had retired in November, 1947, and had been ill for several months. Dr. McDonell was born at Harrison's Corners, Ontario, in 1878. He attended Cornwall High School before going to Queen's. He graduated with his M.D., C.M. degrees in 1903. After practising for a short time at Riveriere-qui-Barre, Alberta, he moved to Edmonton. Surviving are his wife, two daughters, two brothers.

Easter Gift Books

THIS IS NEWFOUNDLAND

Edited by Ewart Young. A handsome book on Canada's new tenth province. With an historical outline, twenty-four pages of superb views of the Island, twenty portraits by the inimitable Karsh and a prologue by E. J. Pratt. \$4.00.

GOD'S UNDERGROUND

By Father George, as told to Gretta Palmer. This remarkable story of the religious underground in Russia is proving a runaway best seller. Over 4,000 copies a week are being sold. \$3.75.

BOLD GALILEAN

By LeGette Blythe. A novel of the time of Christ, excellently written and with as great an appeal as *The Robe*. Now listed on *The New York Times Book Review* best seller list. \$3.75.

AND FROM THAT DAY

By Alan Sullivan. A sensitive and excellently written novel of the Crucifixion by a former winner of the Governor-General's Award. \$1.49.

THE RESURRECTION AND THE LIFE

By Leslie D. Weatherhead. Five talks on a living and triumphant Christ, as available to men today as He was in the days of His flesh. With an appendix on the physical resurrection. 85 cents.

THE LONELIEST JOURNEY

By Frances I. Jackson. Not originally intended for publication, this is the personal revelation of a woman who made the lonely journey through doubt to understanding and peace with herself and her God. \$1.75.

TORONTO

MacIntyre — Word has reached the "Review" of the recent death of Dr. Angus Dougald MacIntyre in Spokane, Washington. Dr. MacIntyre was born at Glencoe, Ontario, in 1877, and he received his early education in the schools of that community. He graduated from Queen's with his M.D., C.M. degrees in 1901. He took over his father's practice at Glencoe, later going to Petrolia, and from there to the superintendency of the Kingston General Hospital. In 1909 he moved to Spokane and about ten years ago became director of the Medical Service Bureau. He was also president of the Spokane County Medical Society.

MacKay — At the age of sixty, Dr. William Mackintosh MacKay, Med. '13, died at Waltham, Massachusetts, on January 31. Dr. MacKay was born at Cornwall, Ontario, and received his early education in the schools of that city. He entered Queen's in 1909 and graduated four years later with his M.B. degree. He obtained his M.D., C.M. degrees in 1914. He served as associate physician at the Mowat Sanatorium, Kingston, Ontario, from 1917 to 1926. Dr. MacKay was appointed resident physician at Sassaquin Sanatorium, New Bedford, Massachusetts, in 1926 and served in this capacity for six years. In 1932 he was made senior physician of the Middlesex County Sanitarium, and he continued in this office until his death. Survivors include his wife, three brothers: Dr. B. R. MacKay, Sc. '08, R. B. MacKay, Sc. '04, Rev. J. I. MacKay, Arts '14, Theol. '17; two sisters, of whom Dr. Katherine MacKay, Arts '14, is one.

MacKinnon — At his old homestead in East Lake Ainslee, Cape Breton, Rev. Dr. Alexander MacKinnon, Arts '94, Theol. '97, died on January 29. He was born in 1866, and received his early education at East Lake Ainslee, Glenmore, MacPhail's Mountain, Whycocomagh, and River Deny's. He graduated from Pictou Academy, after which he taught school at Whycocomagh Village. He then entered Queen's and graduated with his B.A. degree in 1894 and his B.D. three years later. He was the valedictorian of the graduating class in theology. During his college course he did missionary work in British Columbia and Western Canada. After graduation he was called to St. Andrew's Presbyterian Church in Boston, Massachusetts, where he remained the beloved pastor for sixteen years. In 1913 he was called to a larger church in Kitsilano, British Columbia, and remained there for nine years. He then accepted an appointment as a roving missionary to the rugged and scattered area of the Cariboo in British Columbia. Known as "Mr. Big," for more than twenty years he laboured there, opening up frontiers hitherto unknown, building churches and halls for a membership of only a handful of people. When he reached the age of retirement he left the Cariboo and served

as the regular pastor of the United Church at Peachland, British Columbia, for five years. He then returned East, to spend his last days on the family homestead. Surviving are four brothers including Rev. Dr. Murdoch A. MacKinnon, Arts '97, Rev. Dr. John Y. MacKinnon, Arts '11, Theol. '15, Dr. Hugh M. MacKinnon, Med. '13, Rev. Archibald D. MacKinnon, Arts '04. There are also two daughters, Lovett (now Lady de Villiers), and Joy (Mrs. George Black), who had won international acclaim as figure skating stars. Among the brothers who predeceased him were Rev. Hector L. MacKinnon, Arts '97, Theol. '00, and Rev. Dr. Donald L. MacKinnon, Arts '02, Theol. '05.

Omond—A churchman of renown, Rev. Dr. Malcolm Norman Omond, Arts '09, Theol. '13, LL.D. '47, died at his home in North Bay, Ontario, on January 30. He had been in ill health for about a month. Dr. Omond was born at London, Ontario, in 1883. He received his early education there and entered Queen's in 1904. He graduated with his B.A. in 1909, his M.A. in 1910, and his B.D. in 1913. He was given an honorary LL.D. degree in 1947. After graduation he studied in Germany for a time, leaving that country shortly before the outbreak of the First World War. After his ordination he held a pastorate at Picton, Ontario, and then went overseas as a chaplain. When he returned to Canada he was chaplain of Queen's University for a year, then filled Ontario pastorates at Prescott, New Liskeard, Cochrane, and North Bay. Dr. Omond held many high posts in the service of his church. He was elected to the general council of the United Church of Canada on a number of occasions and served for four years on the sub-executive of the Council. He was the United Church representative for Northern Ontario on the commission appointed to discuss union with the Anglican Church. Dr. Omond was home mission convener for the North Bay presbytery and past president of that organization and of the North Bay Ministerial Association. About nine years ago he served as president of the Toronto conference of his church, and for many years he was the representative of Northern Ontario on the Home Mission Board of the United Church. A member of the Board of Governors of the Queen's Theological College, he was also active in the affairs of his Alma Mater. Surviving are his wife, Olga Harvey, Arts '12, a daughter, and two brothers.

Richards—One of the world's foremost radiologists, Dr. Gordon F. Richards, LL.D. '47, died at Toronto, Ontario, on January 13. Cause of death was leukemia, a blood disease that sometimes strikes persons exposed to radiation. Notable for his work in cancer diagnosis and treatment, Dr. Richards was professor of radiology at the University of Toronto and director of radiology at the Toronto General Hospital.

What Does a Bank Mean to You?

A Friendly Neighbour

A bank is as essential to welfare and progress as the local school, drug and grocery store, church police and fire stations. And how friendly and useful a neighbour this bank can be! You can use it to cash a cheque, make a deposit, pay a bill and perform other banking services . . . here and at hundreds of other places in Canada.

THE CANADIAN BANK OF COMMERCE

SPUN ROCK WOOL

(Reg'd)

A resilient, long-fibered insulation made from molten rock. Proof against Fire, Vermin, Vibration and Corrosion. Recommended for cold-storage; sound-proofing and acoustical treatments; all industrial purposes up to 1000 F. Made in standard forms for home insulation; exported in bulk form.

Spun Rock Wool, Ltd.

THOROLD, ONTARIO

J. Buss, Sc. '19

C. R. Buss, Sc. '27

Stricken a year ago, his disease did not halt him from continuing his work until he was forced to bed by growing weakness several weeks prior to his death. Dr. Richards was born at Lyn, Ontario. He graduated from the University of Toronto in 1908 as a gold medallist. He lived for some years in British Columbia and served overseas in the First World War with the Medical Corps. In 1917 he was appointed radiologist at the Toronto General Hospital and held the position until his death. He received the honorary degree of Doctor of Laws from Queen's two years ago. He was an Honorary member of the Royal Society of Medicine, a Fellow of the Royal College of Physicians and Surgeons, and a Fellow of the American College of Radiology. Surviving are two sons.

Sterne—An outstanding figure in the field of industrial chemistry and research in Canada, Edward Tyghe Sterne, Sc. '13, died suddenly at Brantford, Ontario, on February 2. He was in his sixtieth year. Mr. Sterne was born and raised in Brantford, where he received his early education. He then entered Queen's and graduated with his B.Sc. degree in 1913. Following postgraduate work at the University of Chicago he served on the teaching staff at Queen's. After a brief career in the Canadian Army he filled an important office in Canadian munitions production in the First World War as chief chemist to the Imperial Munitions Board. After the war he joined the staff of Shawinigan Water and Power Company, becoming European technical representative with headquarters in London, England. In 1921 he resigned that post and returned to Canada to join his three brothers in the business which their father had founded in Brantford in 1898. Together the Sterne brothers planned the programme that was to build the company to its present place of prominence in the Canadian industrial field, and a major part was played by E. T. Sterne, who came to be recognized as one of the best-known industrial chemists in the Dominion. At the beginning of the Second World War, Mr. Sterne was released by his company to become Director of Explosives for the Allied War Supplies Corporation. Later he became Controller of Chemicals for the Wartime Prices and Trade Board. He returned to the service of the company in Brantford in 1946. In his native city Mr. Sterne was a leader in many spheres of service and active in many organizations, local, provincial, and national. He was an associate of the Royal Institute of Chemistry, a fellow (and past president) of the Canadian Institute of Chemistry, and a past president of the Association of Professional Engineers of Ontario. He was also a director of the Ontario Research Foundation and a member of the Canadian Safety Council. Among the survivors are his wife, two sons, one of whom is F. E. Sterne, Sc. '46, a daugh-

ter, Mrs. W. McDonnell (Margaret Shirley Sterne), Arts '44, and a brother.

Young—A medical specialist in Edmonton, Alberta, for many years, Dr. J. G. Young, Med. '11, died in hospital in that city on February 7. Dr. Young was born in Cypress, Manitoba. He obtained his M.D., C.M. degrees in 1911, and set up practice in Elstow, Saskatchewan. A few years later he went to Vienna and London for postgraduate studies. In 1925, on his return from Europe, he went to Edmonton. He carried on a practice there until his retirement in 1944 due to ill-health. Surviving are his wife, two sons, a daughter, four sisters, two brothers, and two grandchildren.

Young—At the age of seventy-six, Dr. Ward Young, Arts '96, Med. '98, died at Gouverneur, New York, on January 26. Dr. Young was born at Fredericksburg, Ontario, and was educated there and at Kingston before going to Queen's. He graduated with his B.A. degree in 1896 and his M.D., C.M. degrees two years later. Medicine and Masonry were the two great driving forces of his life. Among the survivors are two sons, including Reginald W. Burdekin, Sc. '13.

Notes

1880 - 1900

Rev. W. A. Finlay, Arts '88, is retired and living at 84 Duchess St., London, Ont.

Dr. J. G. Burrows, Med. '91, is retired and living in Belleville, Ont.

A. W. Poole, Arts '99, formerly with the Department of Munitions and Supply, Ottawa, is now living at R.R. 2, Mallorytown, Ont.

1900 - 1909

Dr. W. H. Cole, Med. '08, formerly medical director of Pan America de Mexico, Mexico City, is now in La Jolla, Calif., where his address is 6363 Via Maria.

Dr. L. D. Densmore, Med. '01, practises in Bathurst, N.B.

Dr. T. S. Duncan, Arts '03 (Ph.D. Johns Hopkins), professor of Greek at Washington University, St. Louis, Mo., since 1927, has retired under the retirement age regulations of that institution. He joined the faculty in 1919 as associate professor of Greek and Latin after having taught at the University of the South, Sewanee, Tenn., for five years.

Dr. J. R. Goodfellow, Med. '04, of Superior, Wis., is now retired and living with his son, Dr. J. G. Goodfellow, Med. '36, who practises in Aurora, Ill.

D. W. Houston, Sc. '07, formerly with the municipal railway department in Regina, Sask., is now retired. He lives at 2246 Cameron St., Regina.

J. A. S. King, Sc. '09, is doing engineering and surveying work with offices at 44 George St., Brantford, Ont.

T. C. Smith, Arts '07, public school inspector at Perth, Ont., for many years, is retired and living at 16 Isabella St. in Perth. He also recently resigned from the Perth Public Library Board on which he served as chairman for twenty-two years.

1910 - 1919

Rev. H. T. Archbold, Arts '14, formerly of Toronto, is now rector of the Parish of Duncan-Somenos, Diocese of British Columbia.

Rev. A. J. Arthur, Sc. '10, Arts '17 (B.D. Trinity), formerly minister of the Church of the Good Shepherd, Toronto, is retired and living at 286 Jedburgh Road, Toronto.

Mrs. L. L. Burgess (Ethel Maud Dupuis), Arts '10, is now living at 2 Rutland St., Cambridge, Mass.

Dr. S. E. Burnham, Med. '15, has been retired since 1945 owing to ill health. After leaving Queen's he settled in Saskatchewan, practising first at Grenfell and Lafleche and later serving the Eastend district. He did postgraduate work in Chicago for some time. Since his retirement he has made his home at 153 Ninth St. N.E., Medicine Hat, Alta. At present he is temporarily at 1236 Wabash St., Phoenix, Arizona.

Dr. G. W. Burton, Med. '12, practises at Milltown, N.B.

R. H. Hutchison, Sc. '11, formerly field engineer for Coniagas Mines Limited, is now retired and living at 624 S. Franklin St., Fort William, Ont.

C. W. Knowles, Sc. '19, is vice-president and construction manager for Walter Kidde Construction Inc., Engineers and Builders, New York City.

N. B. MacRostie, Sc. '11, Arts '14, has been appointed to the Ontario Hydro-Electric Power Commission in Ottawa.

C. E. Putnam, Arts '19, is living at 423 Lake Promenade, Long Branch, Ont. He is attached to the Dominion Unemployment Insurance Commission.

Janet Saunders, Arts '18, has left Montreal and is now in Geneva, Switzerland, where she is associate librarian in the International Labour Office.

A. S. Thomas, Sc. '11, is with the lands and development services branch of the Department of Mines and Resources, Ottawa.

1920 - 1929

W. J. Anderson, Com. '26, is with the Pacific Meat Company, Vancouver, B.C. His address is 2035 West First Ave.

W. A. Beatty, Arts '20, formerly Swift Current, Sask., is now retired and living at 137 Lawrence Ave. E., Toronto.

V. R. Currie, Sc. '23, is with the Welland Ship Canal, St. Catharines, Ont.

W. O. Hart, Sc. '29, is sales manager for Oshawa Dairy Limited, Oshawa, Ont.

E. D. Henry, Arts '20, has been appointed principal of the Ottawa Technical School in succession to W. B. Wallen, Arts '24, who has been named principal of the new Fisher Park High School which opens next September.

Eric Holt, Sc. '23, is now manager of Toburn Mines, Kirkland Lake, Ont.

J. E. Jerome, Sc. '27, is mine manager at Powell Rouyn Mines, Noranda, Que.

Mrs. J. K. Kerster (Zelma Black), Arts '27, is living at Marine Drive, White Rock, B.C.

R. A. Kirkpatrick, Sc. '27, is resident architectural engineer at Limestone Air Base, Limestone, Maine.

C. W. MacDonald, Sc. '29, formerly at Berens River Mines, Favourable Lake, Ont., recently moved to Noranda, Que., where he is general superintendent of Quemont Mining Corporation.

Robert Westwater, Arts '27, was recently elected chairman of the Ottawa Public Library Board.

1930 - 1939

Mrs. G. A. Adamson (Mary Florence White), Arts '30, is now living at R.R. No. 3, Campbellville, Ont.

P. J. Bigelow, Arts '32, is teaching in the high school at Port Hope, Ont.

Mrs. H. J. G. Bird (Phyllis Van Loven), Arts '38, has moved to Dartmouth, N.S., where her husband, Lt. Cmdr. Bird, is attached to the Royal Canadian Navy.

Mrs. P. V. Blake (Shirley Colcleugh), Arts '32, is living in Trenton, Ont., where her husband is a Flight-Lieutenant in the R.C.A.F.

S. L. Brennan, Arts '31, is on the staff of the high school at Rainy River, Ont. After his discharge from the army in 1946 he taught for some time in the Kitchener Training and Re-establishment Institute.

M. S. Blanchard, Arts '31, is on the staff of the MacKay Institute, School for the Deaf, in Toronto.

Rev. Melville Buttars, Arts '36, Theol. '39, United Church Minister at Bloomfield for the past eight years, has accepted a call to the Inglewood charge in Western Ontario. He will assume his new duties in June.

Dr. C. W. Clapp, Sc. '32 (Ph.D. Michigan), was one of the fifty-five employees of the General Electric Company and its affiliates throughout the United States who this year received the Charles A. Coffin award, the company's highest honour. He and an associate, Mr. Paul Vogt, were cited jointly for "resourcefulness and diligence in developing the X-ray thickness gage which made possible more accurate manufacture of steel at an increased rate of production." Dr. Clapp is section engineer of the audio frequency and industrial developments section of the general engineering and consulting laboratory in Schenectady, N.Y.

Dr. F. G. Elliott, Med. '34, practises as a diagnostician in Edmonton, Alta., with offices in the Tegler Building.

Mrs. Robert Gans (Ruth Hinchcliffe), Arts '33, is living at Ocean Falls, B.C.

E. V. Gibbons, Sc. '37, formerly with G. F. Sterne and Sons, Brantford, Ont., is now on the staff of the National Research Council, Ottawa.

T. J. Halme, Sc. '38, of the Canadian General Electric Company, has been transferred from Toronto to Winnipeg where he is in the apparatus department.

M. S. Hatch, Com. '38, who recently obtained his C.P.A. degree, has joined the staff of General Products Manufacturing Corporation, 343 Richmond St., London, Ont., as internal auditor.

C. H. Hillier, Sc. '34, is plant manager of Kellogg and Company Limited, London, Ont.

J. L. MacDougall, Arts '31, headed a Canadian delegation to a meeting of an industrial committee of the International Labour Organization which met in Rome from March 15 to 26 to deal with various problems affecting the construction industries, with particular reference to building, civil engineering and public works.

Margaret Newton, Arts '35, who received her M.S.W. from the School of Social Work, University of Toronto, early this year, has been appointed Provincial Supervisor of Children's Institutions for the Ontario Government.

Elmer Niergarth, Sc. '39, was recently appointed supervising engineer with the Quebec Division of the Bell Telephone Company of Canada.

Mrs. Wilfred Parsons (Edythe Beatrice Franckum), Arts '34, is now living at 4937 Sherbrooke St., Westmount, Que.

H. S. Pesner, C.A., Com. '36, is comptroller of Pesner Brothers Limited and comptroller of Montford Holdings Limited, Montreal. He was also made secretary-

treasurer of Pesner Realty and Investment Company last June.

Dr. Austin Smith, Med. '38, secretary of the council on pharmacy and chemistry, American Medical Association, was guest speaker at the annual meeting of the Aesculapian Society held recently at the University.

L. M. A. Smith, Sc. '36, has returned to Kenya Colony after spending the past six months in Canada. Mr. Smith and two of his children flew from Montreal on February 6 and arrived in Nairobi on February 9. Mrs. Smith (Evelyn Shillington), Arts '35, and two other children are awaiting boat passage and expect to leave for their home at Macalder Mines, Kisumu, in March or April.

Muriel Smith, Arts '32, teaches English and art in the collegiate institute in Strathroy, Ont.

J. Ferguson Stewart, Arts '38, formerly on the staff at Strathcona Academy, Montreal, has been appointed principal of the Guy Drummond School in Outremont, Que.

Eleanor Sweezy, Arts '39, is director of the Department of Medical Illustration at Queen Mary Veterans Hospital, Montreal. She was also recently appointed adviser in Medical Illustration to D.V.A.

G. R. Weegar, Sc. '33, is with the Hydro-Electric Power Commission of Ontario, 620 University Ave., Toronto.

Mrs. Earl Willows (Edith Ruttle), Arts '30, of Carleton Place, Ont., was bereaved on December 21 by the death of her father, Mr. R. M. Ruttle.

1940 - 1948

Harry Abramson, Arts '41, is practising law in Kirkland Lake, Ont.

R. G. Babion, Arts '44, teaches in the high school in Kirkland Lake, Ont.

R. H. Barnsley, Arts '44, is an associate in the firm Stanley Thompson and Associates, Golf Course and Landscape Architects, Toronto and Guelph. He lives at 79 Yorkshire St., Guelph.

R. P. Blake, Sc. '48½, is employed by the Defence Research Board at Naval Research Establishment, H.M.C.S. "Stadacona", Halifax, N.S.

W. P. Campbell, Sc. '47, is a welding metallurgist at the Physical Metallurgy Research Laboratories, Bureau of Mines,

D. B. Carlyle, Com. '46, is western regional supervisor, group sales division, North American Life Assurance Company, 303 West Pender St., Vancouver, B.C.

D. J. Collins, Arts '48, is attending the graduate school of Business Administration at the University of Toronto where he is taking a two-year course leading to a Master of Commerce degree.

J. M. Conway, Sc. '45, F. C. Knight, Sc. '47, and Jack Patterson, Sc. '46, are taking postgraduate work in business administration at the University of Western Ontario.

Mrs. Janet Dworkin (Janet Steinman), Arts '45, is doing social service work for the Jewish Family and Children's Service in Providence, R.I. Her residence address is 8 Greenville Road, Woonsocket, R.I.

Elizabeth Dyke, Arts '44, is teaching in the high school at Long Branch, Ont.

R. B. Farrell, Arts '47, has been awarded a scholarship by the Canadian Social Science Research Council. Mr. Farrell is working on his doctorate in political science at Harvard University where he recently won two fellowships.

W. G. Fleming, Arts '47, has joined the staff of the collegiate institute in Port Arthur, Ont.

Rodrique Gosselin, Sc '40, is general superintendent at Campbell Red Lake Mines, Balmertown, Ont.

W. R. Green, Arts '48, is back at the University this year taking the Industrial Relations course.

John Hall, Com. '46, has been awarded the silver medal given by the Ontario Society of Industrial Cost Accountants for the second highest marks in cost accounting in the May examinations.

Dr. J. A. Hay, Med. '45, is doing medical missionary work at Malamulo Mission Hospital, Malamulo, Nyasaland, Africa.

D. S. McCann, Sc. '47, has been with Peacock Brothers Limited, Montreal, since graduation. He is now sales engineer.

D. J. McIntyre, Sc. '40, is on the staff of Canada Metals Company, 6265 Notre Dame St. E., Montreal.

H. A. Quinn, Sc. '41, is doing field geology for Norman W. Byrne, Sc. '36, consulting engineer, Yellowknife, N.W.T.

Bryan Rapson, Sc. '47, has joined the staff of the Aluminium Laboratories Limited in Arvida, Que.

Ada Rath, Arts '49, is teaching in the high school in Dresden, Ont.

W. F. Read, Sc. '43, is chemical supervisor in charge of the product control and research laboratory, Edible Oils Limited, Fort William, Ont.

R. G. Rowan, Sc. '40, was recently made supervising engineer with the Quebec division of the Bell Telephone Company of Canada. He is living at 356 - 40th Ave., Lachine, Que.

A. E. Sibbick, Sc. '47, has been transferred by the C.N.R. from Belleville to St. Thomas where he is in the Division Engineer's office.

T. B. Smith, Sc. '42, has joined the staff of Imperial Oil Limited in Calgary, Alta.

Moses Steinberg, Arts '43, is assistant professor of English at the University of British Columbia, Vancouver.

H. P. Thomas, Sc. '41, is doing postgraduate work at the University of Notre Dame, South Bend, Indiana.

R. M. Thomson, Sc. '47, formerly with the B. F. Goodrich Rubber Company, Kitchener, Ont., is now in the export department of the Ford Motor Company of Canada, Windsor.

J. S. Whyte, Sc. '46, formerly with Long Lac Pulp and Paper Company, Terrace Bay, Ont., has joined the staff of Spruce Falls Power and Paper Company, Kapuskasing, Ont.

WHAT OF EDUCATION ?

Address delivered by Principal Wallace at the meeting of endowment workers for the Toronto area held in the Royal York Hotel on March 23.

YOU have invited me to speak to you, not about any institution of learning, important though that may be, but about some of the problems that exercise all of us who are concerned with ourselves as human beings. Are we doing our part in education to meet them? Is the world without direction? Can we as educators do something to put it right? Are the public and private funds which we put into education justified in the event? Why is there a question mark at the end of so many sentences today? And why, and why, and why?

The questions are honest. They come out of a certain sense of bewilderment. We had hoped for better solutions than we have achieved. We have become impatient, doubtful, even almost cynical. Almost, but not quite; for cynicism is much less prevalent than we might expect. But bewildered, yes. Shall we try to get at the root of the matter?

A strenuous war has been fought, at the cost of many men and much money. It was fought to eliminate an evil menace that threatened our liberties and our spiritual ideals. We were successful; as we were emotionally uplifted by our success. But in the slow process of return to normal other threats to liberty have arisen, and we have not found the peace of mind that we had longed for. We feel let down, deflated, cheated. We expected reasonableness, understanding, co-operation. We find suspicion, distrust, even enmity. Why does not reason prevail?

Now may I get rid of question marks and come down to positive statements. We have a much bigger job to do in education than we have even contemplated. Until we do it, we shall be without direction. And it is not of the mind only. It is of the emotions as well. And it will not be done in a day, even with our best efforts. It is a long-time job. It is no less than the reorientation of the human mind. It is the inculcation of a sense of values. Some of them we had, and have lost. Some we have not yet reached. Let me enumerate.

There is good—much good—in all of us, and of every country. We must find it, and use it. It will drive out the bad. It will appear in our literature, our music, our art, our political institutions. We must know more about them. It will pay handsomely to capitalize on the good, and use it as a means of human understanding. For it is our common link.

Again, the forces of nature are on our side, if we but use them aright. There is infinitely more good for the human race in atomic energy than all the destruction of which the atomic bomb is capable—if we set our minds to achieve that good. We must not be afraid of nature. We need to understand her laws much more fully than we yet do. Out of knowledge will come wisdom.

But not out of knowledge alone. There are spiritual values which we ignore only at our peril. The sense of our obligation to the common weal, the importance of using our abilities and our energies to the utmost, the imperative of truth, the sacredness of our bond, the faith that we have in a power outside ourselves — all of these are needed for wisdom. Wisdom is after all a sense of the right thing to think, to say, to do. It comes from knowledge and from a sense of values. Without wisdom we go astray, as individuals and as nations.

So much for background. Now as to education. We have our school systems and our colleges and universities. We have the organized forces in adult education. All of it is devised to give an opportunity to use to the fullest the gifts that nature has bestowed on us. And they are different gifts, yours and mine. It would be a tragedy, and an economic waste, if we were not to discover them, not to develop them by education, not to put them to the use to which they are best fitted. In a word, it is the height of folly not to find out what this boy or girl is best fitted for, to guide and help them to that end, and to see that they are placed in a position in life where they can best use these abilities. This is vocational guidance. We should have been at it long ago. Let us do all that we can to support those who are providing for it in school and in college.

The opportunities are being widened in two ways. More are being assisted to go on with their education by bursaries and scholarships. But it still remains a fact that many are unable to continue from lack of means. We shall have an uneasy conscience so long as able young men and women are deprived of the education that would return dividends many times over. There is much ability among those of limited means, whether in city or country, and more frequently on the farm than we have been accustomed to admit. There are other countries that provide the opportunity more readily than we do in Canada. We cannot be permitted to forget that if universities are not generously supported, they are compelled to raise fees, and by so doing are excluding those who have limited means, no matter how able they may be. Let us beware of sacrificing much needed ability to the altar of financial competence. In this, other people are wiser than we.

But assistance is being sought in another way. Junior colleges are being established in centres where there are not universities, so that further education may be made available to young people without leaving home. This is a definite and a positive gain. But there is a warning needed. Colleges are growing up, and will grow up, with aspirations to university status, and here aspirations will be assisted by a sense of local pride. What is not realized is that universities — and particularly senior courses in universities — cost money, and that there is only a definite amount of money, whether public or private, available. The danger is that all will be starved alike. Sound policy would dictate that junior colleges serve their communities through wider opportunities in education, to the limit of the possibilities of junior college work, and that there be left to the established universities their established function in university education, and the necessary support to maintain high prestige in the carrying out of this function. I know a coun-

try not without sound prestige in education where a population of five million people is served by four universities. They have been so served for from three to five hundred years. They are adequately served because the universities are adequately supported. Ontario, with a population of three and a half million, already has five well established universities, one of them very large. It may be the part of wisdom to pause and take stock.

Time was when the primary purpose of a university education was to understand better the way to live. The modern need is somewhat different. It is to be trained the better to make a living. We should not cavil too sharply at this change of emphasis. It is part of our social conditions, for nowadays everyone needs to make a living. There are no leisured people. And so the professional schools have become dominant. What we have to ask is whether they are quickening the mind as well as giving the background of skill and knowledge; whether they are helping to make a man more humane, as well as more expert; whether they are widening the interests and sympathies as well as sharpening the professional alertness. If they do so, they are filling their place in education. If not, they belong to technical institutes, not to the universities. By that criterion must they be judged. We have to be sure that we shall not be weighed in the balance and found wanting. For life is a much greater thing than making money. The riches of the ages are a storehouse of treasure more satisfying by far than all that money can buy.

I have been in university life for well over forty years, more than twenty years of that time in administrative responsibility. If wisdom comes with experience, there are some judgments out of these years that may have pertinence. May I give them to you now. There is no way to learning, to knowledge, to ultimate wisdom, but by hard work, by the fullest use of our abilities, by faith in ourselves. No leaning on others will help. We need to get back to the grit and determination of our fathers. We need a gospel of hard work, and of pleasure in the doing of it. We need faith in our fellow men. They are better than we take them to be, and they will be all the better that we believe in them. And we must give young people a chance to make the most of themselves. They are of great quality, and they will prove their worth if we give them a helping hand. I have a right to speak of their quality, for I know.

There are values that have not failed human kind. It is for the universities to hold them high. At Queen's we are endeavouring to do so. In the critical years now ahead she needs your help. She will repay a hundred fold.

And whether university enrolment surges or ebbs, whether junior colleges are the answer or not, Principal Wallace and his school will go on their soberly humorous way with that mixture of humility and arrogance typified in this unofficial slogan of the Toronto branch of the endowment campaign committee: "Queen's — not the biggest, merely the best."—*Toronto Star Weekly*.

CAMPAIGN FOR FUNDS OFF TO A GOOD START QUEEN'S UNIVERSITY SEEKS SUBSTANTIAL FINANCIAL ASSISTANCE

AFTER months of preliminary organization the Queen's endowment campaign was officially opened at the annual alumni dinner of the Kingston branch of the General Alumni Association held in the Great Hall of the Students Union on March 17.

With this meeting, Queen's announced its urgent requirements: \$1,000,000 for essential building construction, \$2,000,000 for additional endowment funds, and \$175,000 in annual contributions.

The only construction being planned is that which is absolutely necessary: an administration building, \$200,000—the administrative staff of the University is now housed in the Douglas Library, which limits the use of the Library and seriously handicaps the efficient administration of the University; Douglas Library, \$100,000—when the administrative staff vacates the Library, office space must be turned into new stackrooms and additional seminar and reading rooms; extensions to Ban Righ Hall, \$350,000—the main residence for women students must be enlarged to accommodate the increase in the number of women students from approximately 200 to over 500 in the last ten years; new Students Memorial Union, \$350,000—a new and larger building is now being erected to replace the Union destroyed by fire in 1947.

The reasons which make an increase essential in the endowment funds of the University are that the fees paid by a student cover less than half the cost of his education at Queen's, and that salary and maintenance costs have of necessity risen, and the interest rates have declined, in recent years.

For the \$175,000 in additional yearly revenue, it is hoped to reach the objective by an extension of the Queen's Alumni Fund. This plan was started in 1941, with the alumni being asked to make annual contributions according to their means. This method of university financing has been gaining popularity on this continent since the First Great War, since large capital gifts have become rare as a result of high taxes. Some alumni will not be able to participate in the plan at this time, but it is confidently expected that a majority will contribute and therefore ensure success.

This, then, is the story Queen's had to tell, and the response to date has been most encouraging. All over the country committees of volunteer workers have been organized, as fast as field men from headquarters could pay a visit. In some cases, the preliminary organization has been arranged by correspondence, but it is ultimately hoped to visit all communities where there is a concentration of Queen's men and women.

M. N. HAY

The campaign is not being carried on simultaneously in all centres. Instead, each community is adopting a schedule that seems best suited to its particular requirements. Some are conducting a short, intensive drive that will be completed by the time this reaches print. Others will carry on during the late

spring and summer and still others will not be able to get properly under way until the fall. It is expected that in all cases a follow-up programme will have to be carried out.

All the work is being done by graduates or friends of Queen's. In the last endowment campaign, in 1926, professional fund-raisers were employed. This time the work is being directed by a central committee of alumni and members of staff, so that every cent contributed to the campaign goes to the University.

Chairman of the central committee is M. N. Hay, a member of the Board of Trustees, and plant manager of the Kingston Works of the Aluminum Company. Under his direction, the campaign has been planned at headquarters in the Hague House at 132 University Avenue. He keeps emphasizing to his committee that out of this drive Queen's stands to benefit more than financially, that the University will derive good will and closer ties among the alumni that will stand her in good stead in the years to come.

Director of endowment is Morley C. Tillotson, assistant treasurer of the University. A comparative newcomer to the University Staff. Mr. Tillotson is a graduate in Commerce of 1926. He has been responsible for most of the organizational details at headquarters and in the field. He has personally visited as many centres as time would permit.

Dr. S. M. Gilmour of the Queen's Theological College is associated with Mr. Tillotson as second in command. Dr. Gilmour was already involved in raising

funds for his College when he was drafted for service with the larger project. He soon proved to be such an effective field worker that arrangements were made for him to join the staff on a full-time basis for the summer months.

One of the most indefatigable field workers has been Principal Wallace who has adapted an exacting schedule that is a continual source of amazement to his colleagues. He is always available for an address or to approach a "special name" or whatever other use the committee wishes to make of his services. Every alumni group wishes to hear the Principal and it is remarkable just how many he manages to work into his itinerary.

Also doing some field work have been Rev. A. M. Laverty, University chaplain, and H. K. Hutton, director of the department of extension. Other members of the Central Committee include Mrs. D. M. Chown, D. B. Davidson, and H. J. Hamilton.

Rev. J. R. Leng, one-time member of the Queen's staff and now assistant secretary of the Board of Home Missions for the United Church of Canada, has arranged for a brief leave of absence from his position to call on alumni groups in Northern Ontario. Mr. Leng is well-known in the north country and his addition to the field staff is most welcome.

J. Alex Edmison, a graduate whose enthusiasm for Queen's is outstanding, has done some preliminary work for the campaign during the course of his recent tour of Western Canada for the United Nations Society and the John Howard Society. He has paved the way for the forthcoming visit of Dr. Gilmour, who will travel to the west in April and May.

First To Subscribe

A graduate of McGill University was the first person to subscribe to the Queen's endowment campaign in Ottawa. At the March 31 meeting in the Chateau Laurier, Dr. Wallace Troup, chairman of the Ottawa committee, presented the cheque to Treasurer J. Lee Shearer.

The McGill graduate said he was making the contribution out of a "deep affection" for the university on the Old Ontario Strand.

Kingston Alumni Banquet

The occasion of the annual banquet of the Kingston alumni branch on March 17 was used to start officially the University's fund-raising campaign. A capacity crowd of approximately 270 heard Rector L. W. Brockington describe the high position in education filled by Queen's University.

"The history of this institution is the story of a fire that would not be quenched, of misfortunes that could not

conquer," said Dr. Brockington. "Today you are being asked along with others to help Queen's to remain a free university—one of those institutions which are among the strongest foundations in the temple of our national life. You are being asked to help her to be as kind, ageless, wise, and bountiful as when you sat on her hearth.

"The range of our usefulness includes successors as well as companions," said Dr. Brockington. "The farther off we place our aims, the wider and richer will be our successes, for we cannot benefit those with us as much as those who come after us. Let us not forget our duty to the founders of Queen's as well as to those who will follow."

Dr. Brockington was introduced by Vice-Principal W. A. Mackintosh, who referred to the great affection in which the Rector is held by the student body at Queen's. Thanks to the guest speaker were extended by Principal Wallace, for "a great utterance from a great man, a great Canadian, and a great citizen of the world."

"The omens are good because Dr. Brockington has spoken to us," said the Principal. "I am sure the success of the venture which we are undertaking tonight will be good as well."

Mr. M. N. Hay, chairman of the central endowment committee, described the aims and objectives of the campaign. He pointed out that an average contribution of \$25 a year for five years from a majority of the graduates would meet the objective set for the alumni. Mr. Hay reported the progress that had been made to date in organizing the various centres and predicted success for the drive if such enthusiasm were sustained, as he fully anticipated.

Dr. G. W. Mylks, Jr., Kingston alumni president, who served as chairman, called on Col. E. A. Baker, chairman of the Toronto district, Dr. Wallace Troup, head of the Ottawa district and George Carson, Kingston chairman, for a few words. All three pledged full support in their respective territories.

Chairman of the alumni canvass is E. M. Lockett, who will be assisted by Miss Caroline Mitchell. A. C. Hanley,

former president of the General Alumni Association, is in charge of the special names committee.

Toronto Dinner Meeting

Education faces a greater challenge than ever, Principal Wallace told a dinner meeting of more than one hundred voluntary workers held in the Royal York Hotel on March 23. His remarks are printed in full as the leading article in this issue.

Current world conditions are a stirring challenge to educators, said the Principal. He urged that education redirect both the minds and emotions of men and inculcate in them a new sense of values, both material and spiritual.

J. Courtland Elliott, chairman of special names for the Toronto area, and C. C. Peck, chairman of the graduate canvass also spoke to the workers. Both stressed that the entire Queen's campaign is being carried on by voluntary workers and no professional organizers are engaged or commission paid.

Attends Ottawa Rally

No university in Canada was so well suited to assume a national character as Queen's, Principal Wallace told a large rally of Ottawa workers March 31, at the Chateau Laurier. "We like to think of Queen's as national in its reach, and of playing, effectively, a national part," said the Principal.

Several hundred persons crowded the Convention Hall to hear the Principal,

ENDOWMENT GROUPS

Section of head table at annual meeting of Kingston branch of the General Alumni Association: left to right, Principal Wallace, Dr. L. W. Brockington, Dr. G. W. Mylks, Jr. and Mrs. D. W. Boucher. Cornwall meeting: seated, T. A. McGinnis, Dean D. S. Ellis; standing, H. E. Meadd, Rev. A. M. Laverty, W. P. Nesbitt, N. B. MacRostie. Toronto endowment: C. C. Peck, chairman of alumni canvass, J. C. Elliott, chairman of special names committee. Cornwall meeting: Dr. Wallace Troup of Ottawa, Principal Wallace, B. T. Yates, chairman of Cornwall endowment committee, and J. B. Stirling of Montreal. Ottawa endowment: seated, Miss Olive Zeron, Dr. Wallace Troup, chairman, Miss Mary Rowland; standing, N. B. MacRostie, J. L. Shearer, P. E. H. Brady, Judge C. A. Cameron, Donald Gordon, A. K. Light, Rev. A. J. M. Gray.

Rector L. W. Brockington, and Mr. Donald Gordon. Dr. Wallace Troup, chairman of the campaign's Ottawa committee, presided at the meeting.

Dr. Brockington paid tribute to the Principal with the remark that was once made about Robert Louis Stevenson: "Whenever he enters the room it is as though another candle has been lit." He said that Queen's was one of the universities of the world "that wishes to be smaller." "Queen's wishes so, not because it wants to receive less, but because it wants to give more. It does not want to be a factory of diplomas. What it wants to be today is a forge of character and an armory of citizenship."

Mr. Gordon, deputy governor of the Bank of Canada, introduced Dr. Brockington. The Principal was presented by Dr. Florence Dunlop. A vote of thanks to the speakers was made by Charles Bland.

Queen's yells were led by George Perrin, Max Narraway and Art Fee, and a group of university songs was sung by Misses Jean Burrows and Bernice Brose.

Ottawa Canvassers Meet

Two hundred Ottawa canvassers got their campaign instructions at a banquet held at Erskine Presbyterian Church on April 2. J. M. Macdonnell, chairman of the Board of Trustees at Queen's, explained the background of the University's financial difficulties. He said that this was a time when serious people should rally to the defence of the basic things. Education came after the family and church.

"As far back as I can remember, we have heard about the Queen's spirit," said Mr. Macdonnell. He added that he feared some of the spirit had been "taken out in talk".

P. E. H. Brady, co-chairman of the alumni canvass committee, presided at the banquet. A. E. MacRae, former president of the General Alumni Association, introduced Mr. Macdonnell, who was thanked by Miss Mary Rowland, co-chairman of the alumni canvass. Miss Jean Burrows led the singing of Queen's songs.

Members of the Ottawa committee include also: Miss Helen Lynton, secre-

tary; Maxwell Narraway, special assistant; team captains: Dr. O. E. Ault, Henry Bleakney, J. J. Dunlop, D. H. W. Henry, Dr. C. W. Kelley, H. I. Marshall, Dr. G. C. Monture, Mrs. A. G. Taylor, Mrs. T. K. Waddell.

Renfrew Alumni Banquet

"There is a part in national life that a university can play if it is strategically placed so to do," Principal Wallace told a meeting of approximately sixty graduates and friends in the Renfrew area at a dinner meeting held in Hotel Renfrew on April 1. Queen's was the best suited of any university in Canada to assume a national character, he said.

Principal Wallace said funds for the University were needed to aid "in strengthening and perfecting the undertakings to which Queen's is fully committed. It is of special importance that salary levels be kept high—higher than they are today. Only by so doing will Queen's get and keep the men and women who will replace those who have given long and distinguished service to Queen's."

Dr. J. H. Box served as chairman for the occasion. The Principal was introduced by D. W. Stewart, Sr. Also speaking were D. A. Gillies, past president of the General Alumni Association, Dr. James Wallace, and Rev. A. M. Laverty, University chaplain.

Group Organizes at Hawkesbury

Twenty-five graduates and friends attended a meeting at the home of Mr. and Mrs. A. C. Douglas at Hawkesbury on March 29 to hear Rev. A. M. Laverty of Queen's describe the need for funds. An interesting period of questions and answers followed.

The Padre acted as chairman while the meeting elected A. C. Douglas of Hawkesbury as general chairman of the campaign for that area. Other officers appointed included W. T. Bray, Kilmar, Quebec, Arthur Tackaberry, Hawkesbury, and Clifton McKinnon, Vankleek Hill, as regional chairmen; Miss M. H. Rutherford, Vankleek Hill, secretary. Mr. Tackaberry is to survey the area for "special names."

An interesting development of the meeting was the expression of a strong

desire to form an alumni branch. It is expected that an organization meeting will be held in the near future.

Belleville District Meeting

At a meeting of alumni in Belleville and district held on March 29, it was agreed that the first step should be the formation of an alumni branch. Mr. A. S. Robb was elected as president (for further details of the formation of this branch see section "At the Branches").

Principal Wallace outlined the campaign organization and assured the group of all the support and help possible from the Central Committee. He gave a description of procedures that had been adopted in other centres.

The meeting agreed to establish its own campaign organization as soon as possible. Dr. G. S. Cronk, Mrs. W. I. Doyle, and Mr. A. B. Sprague, who have been working to date, will be active in the new set-up.

Cornwall Group Organizes

One hundred and twenty-five graduates and friends of Queen's from Dundas, Stormont, and Glengarry counties met for a dinner at the Cornwallis Hotel, Cornwall, on April 6, in connection with the endowment campaign. Included among the guests were members of the central endowment committee from the University and alumni from Ottawa, Montreal, and Kilmar, Que.

Principal Wallace was the guest speaker of the evening. Broadcasting over the local radio station, Dr. Wallace outlined the problems facing Queen's at the present time. He described the University as a national institution. "There is no university in Canada which has a greater national reach than Queen's," he said. "The university is not tied to any one province." He added that he had been encouraged by the enthusiasm shown by Queen's people since the campaign opened.

The Principal was introduced by Mr. Alex Caldwell, and was thanked on behalf of his address by Dr. I. M. Gourley. Also speaking were Rev. A. M. Laverty, of Queen's, Dr. Wallace Troup of Ottawa, and Mr. J. B. Stirling of Montreal.

Mr. H. E. Meadd introduced the guests. Visitors were welcomed by N. I.

Battista, and an address of welcome was given by Dr. M. O. Good on behalf of the city.

During the dinner the C.C.V.S. girls A Capella choir, under the direction of A. F. Vogt, entertained with a number of selections. A. E. Gratton led in the singing of Queen's songs and in the Queen's yell.

B. T. Yates, general chairman of the endowment committee for the Cornwall area, presided at the well-organized and enthusiastic meeting. Other members who were in charge of arrangements included W. P. Nesbitt, L. E. Harris, Mrs. G. L. Bateman, A. E. Gratton, T. B. Webster, Alex Caldwell, Miss Doris McWhinnie, John Hawkes, H. E. Meadd, and R. A. Findlay.

Alumni Branch Revived

Features of the Lanark County meeting at Smiths Falls on April 7 included the reorganization of the branch with E. A. Fleming of Perth as president and D. W. Boyd of Smiths Falls as general chairman of the endowment committee for the County.

Approximately fifty alumni from Smiths Falls, Perth, Almonte, Carleton Place, and other centres were present to hear Principal Wallace. He expressed the belief that the answer to world peace must come through education in the liberal arts. "We must have faith. We must work patiently and quietly towards the elimination of distrust, and we must do it through education," he said.

The Principal spoke in response to a toast to Queen's University proposed by G. W. Motherwell of Carleton Place. Mr. Motherwell referred to the happy memories and associations all alumni have for Queen's. The Principal was thanked for his address by Miss Isabel Code of Smiths Falls.

Dr. S. M. Gilmour of Queen's Theological College described the work of the central endowment committee at Queen's and gave a summary of progress made to date. H. J. Hamilton, General Alumni secretary, spoke of the close association between his organization and the endowment committee.

WE SEE BY THE PAPERS . . .

ALTHOUGH it is one of the smaller universities of the Dominion, Queen's has nevertheless made an important contribution to its development, one that largely exceeds its size, and it has stood throughout its long history for a soundness of scholarship, an efficiency of operation and an advancement of instruction which have brought it widespread recognition and renown.

—*Brockville Recorder and Times*

For well over a century, Queen's University in Kingston has held a high place in the intellectual life of Canada. . . . Canadians from coast to coast have benefited from the scholarship, the leadership and the example of Queen's University. A generous contribution toward its continued service to Canadian youth would help greatly and make each contributor a partner in a noble enterprise.

—*Toronto Globe and Mail*

The policy of Queen's is "quality" rather than quantity, as is manifest in the stamp of Queen's graduates throughout Canada. Queen's is one of Canada's finest institutions.

—*Nelson, B.C., Daily News*

Announcement in the news columns of this newspaper yesterday that Queen's University at Kingston is launching a campaign for funds should strike a responsive note in Cornwall and the United Counties, in which there are close to 200 graduates and former students of that university.

—*Cornwall Standard-Freeholder*

The thing to keep in mind is that Queen's University has been an invaluable publicity agent for Kingston. Such service should be rewarded—if only because the reward promises further dividends. On that score alone, and it is among the lesser reasons, individuals and organizations in Kingston should respond generously to Queen's University's appeal for the funds it needs to continue its truly great service to the nation in the field of higher education.

—*Kingston Whig-Standard*

Queen's University in Kingston has just launched a public subscription cam-

paigned for a little more than three million dollars. . . . The public service given to all the people through the educational and research facilities of any Canadian university is well worth all the financial assistance individuals, corporations, and organizations can lend.

—*North Bay Nugget*

Old and close ties ensure that the call from Queen's University for financial aid will be heard with sympathy in Ottawa, where the public as well as many graduates have benefited by the work of the university through the years. And Queen's can appeal without embarrassment to all Canadians, for its students come from every province and its contributions to Canada have been great.

—*Ottawa Citizen*

Queen's is now seeking to raise funds so that she may have the physical and financial resources to maintain her high standards. The appeal merits the most cordial support.

—*Winnipeg Free Press*

Few schools boast so loudly and with as much right as Queen's University. It is a wonderful thing, this pride of belonging that a college can instill in her students and it should stand Queen's in good stead in the campaign now being launched to raise funds.

—*The Northern Miner*

Queen's University in Kingston has just launched a public subscription appeal for a little more than three million dollars for construction, endowment, and maintenance costs. They well deserve all the support the people of Canada can muster.

—*Rouyn Noranda Press*

. . . Queen's graduates rank with the best, and the university itself is one of the educational institutions from which anyone may be proud to graduate. . . . There is no question of the need, and there should be a lively response to it.

—*Toronto Daily Star*

Given this public appreciation of the university's plight we should imagine Queen's should have little difficulty in raising the modest sum asked.

—*Montreal Star*

AN APPRECIATION OF D. D. CALVIN

By H. W. Macdonnell, Arts '09

READERS of the *Queen's Review* and indeed, Queen's men and women generally, it is safe to assume, will be interested in knowing something more about the late Mr. D. D. Calvin than could be gathered from the brief notice of his sudden death on the 3rd of November last. He came of a family which had long given loyal support to Queen's. He was himself a graduate whose devotion never flagged; he served for a time as trustee; and he wrote the official history of the University in connection with the centenary of 1941.

"Dil" Calvin (as he was known to his intimates, a considerable but not an unlimited circle), entered the Arts Faculty of Queen's in 1898, and graduated in 1902, after a course of which the central interest was English literature. Those were days when the total attendance was only some 750, and when Arts students numbered some 400. The buildings consisted of the Old Arts Building, Science Hall (the present Carruthers Hall), the Old Medical College, and the "Tool House". Kingston Hall and Grant Hall

did not come until 1903 and 1904. But if the material equipment was unimpressive, it was not so with the intellectual. It was with this particular period in mind that Sir Robert Falconer, for twenty-five years president of the University of Toronto, said: "It is safe to say that no Canadian university has ever had at one time a group of greater teachers in the humanities". The men to whom he referred were John Watson, in Philosophy, James Cappon in English, John Macnaughton in Greek, and John Fletcher and T. R. Glover in Latin. And, dominating and inspiring this select band and indeed the whole University, was the dynamic leader, Principal Grant. The Queen's of that day was not lightly forgotten by its sons and certainly Dil Calvin never forgot it.

Just as he graduated in Arts in 1902, it was hoped, and even expected, that the Ontario Government would establish a School of Forestry at Queen's, and he planned to enter it, but the School was never established. Instead he entered the long-established and extensive family rafting and shipping business and served for some years as its representative at Quebec where the great timber rafts were broken up after their voyage down the river from Garden Island, and loaded in ships for England. With the disappearance of easily accessible timber, the days of the family rafting and shipping business were, however, numbered, and Calvin decided to study at the famous Ecole des Beaux Arts in Paris, with a view to becoming an architect. This plan he carried out and on returning from Paris in 1911, he joined the late R. K. Shepard, also a graduate of the Beaux Arts, in forming the firm of Shepard and Calvin. Among the buildings to their credit during the score of years of their association are Ban Righ Hall and the Douglas Library.

But though architecture was his profession, Dil Calvin's central interest was literature. And he was not content to be well-read in the special fields that interested him; he also had the urge to

D. D. CALVIN

write and he did it extremely well. Those who knew him find in his writing the qualities they cherished in him, clarity, sincerity, downrightness, and love of beauty. It was also fitting that he should devote himself to writing, for another reason that he had, in his wife, (nee Eleanor Malloch, Arts '04), a coadjutor whose interest and knowledge and sureness of touch, in the field of literature, matched his own.

The writing to his credit includes, as has been mentioned, *Queen's University at Kingston*, the official history written in connection with the centenary in 1941, *Corner of Empire*, written in collaboration with his old friend, the late Dr. T. R. Glover of St. John's College, Cambridge, and for some years (1896-1901) Professor of Latin at Queen's, and *A Saga of the St. Lawrence*. *Queen's University at Kingston* is admirably done. The moving story of the struggle for existence in the early days — and not only then — and of the courage and sacrifice that alone ensured survival is told with clarity and sympathy. It is also told with commendable brevity — in some 300 pages. It is most satisfactory to think that the official history of the University should have been written by one of its own most devoted sons, and that he should have succeeded in producing a work so worthy of the theme.

APPRECIATION

Mr. D. D. Calvin, who had retired from the Board in 1946, died on November 3, 1948. Mr. Calvin gave ten years of service to the University as a trustee. He was the author of *Queen's University at Kingston 1841-1941*, which was published at the time of the centenary celebrations as the official history of Queen's University. He will be long remembered as a man of delicate perception and fine sensibility, who carried forward the values of the past into the judgments of the present. In his prose writings, whether historical or descriptive, there was a quality of word painting which gave special distinction to all that he wrote. He meant much to Queen's. —

Principal's Report

A Corner of Empire, published in 1937, tells with colour and freshness significant parts of the story of Kingston and its University — the founding, the French period, the United Empire Loyalists, its strategic importance for trade at the head of the great river, with special reference to the family shipping and rafting business, and then the University, its early struggles for existence, its building to strength by Principal Grant, and some of its outstanding personalities, chief among them the well-loved and remembered Professor of Greek, John Macnaughton.

The theme of *A Saga of the St. Lawrence* is the family shipping and rafting business, surely one of the more colourful episodes in the country's early economic history—the fleet of ships bringing down the great ninety-foot timbers from the Upper Lakes, the building of the rafts at Garden Island where the river leaves the Lake, the long haul by tug to Quebec with the tricky running of the rapids to give a special touch of colour and excitement, and the break-up of the great rafts for shipment to Britain. The story is well worth telling and it is told with vividness and feeling. There is no mistaking that the author writes "with his eye on the object", which, if memory serves, Matthew Arnold said was the *sine qua non* of good writing.

In writing these two books, in addition to his admirable history of Queen's, Mr. Calvin not only did well by his native place in presenting so gracious and attractive a picture of it; he also did well by future historians who will find that his pages shed a clear light on the ways and works of the last few generations who made their home "on the old Ontario strand".

Mr. Calvin's interest in, and service to, the University, did not end with his writing of its official history. He served as Trustee from 1936 to 1946, following in the footsteps of his father who had served for many years as one of Principal Grant's most staunch supporters on the Trustee Board. His interest in education was keen, and his influence was always on the side of the humanities, and

against the tendency to abandon the old "liberal education" ideal in favour of training of a more technical kind. It was because the Queens he had known had stood, above all, for that tradition, that he cherished for her the deep feeling he did. This is how he concludes the history of his Alma Mater:

During the Great War a former professor of Queen's wrote of a graduate who had died in early manhood that he had had for Queen's University "a superabundant measure of that fanaticism of gratitude which it is its peculiar grace and testimonial to inspire in all that have ever had any connection with it." Is this pitched a little high? It may be so, for not all the friends of Queen's have the fire that burns in those words, written by one Highlander about another. Nevertheless the same idea, pitched in a lower key, may be found twenty years later in the words of a Winnipeg journalist who had spent a few days at a Press Conference in Kingston and saw something of the University. The student at Queen's he said, becomes "a part of the place—forever. That is what Queen's does to its men".

This book has been written in vain if it has not shown that such words, whether from professor or journalist, have always rung true in the ears of the friends of Queen's. And, so long as that response continues, the future of Queen's University is safe.

WEEKLY RADIO BROADCAST PROVES HIGHLY SUCCESSFUL

QUEEN'S Department of Extension, co-sponsor of the weekly radio broadcast, Rural Review, over station CKWS, Kingston, has been asked by the Federation of Agricultural Societies in Leeds, Frontenac and Lennox-Addington to continue its close association with this programme in 1949-50. The present series, considered to have been highly successful, concluded on March 26.

Based largely on the reports of Farm Forum groups in the three counties, the broadcasts have been given by Miss Raymonde Hollington, of the Department of Extension staff. It is planned to broaden the scope of the series this year and regular interviews with Federation of Agriculture and other rural leaders will be featured.

NINE MEMBERS ELECTED TO UNIVERSITY COUNCIL

THREE new members and six retiring members were elected to the University Council in the annual elections which closed on March '1. These Councillors will hold office until 1954.

The new members elected by the graduates are: Dr. L. H. Appleby, Med. '19, Vancouver, B.C.; Dr. N. L. Bowen, Arts '07, Sc. '09, LL.D. '41, Washington, D.C.; Miss Mary L. Rowland, Arts '26, Com. '28, Ottawa.

Re-elected members are: G. C. Bateman, Sc. '05, LL.D. '44, Montreal, Que.; J. A. Bell, Sc. '24, Toronto; J. J. Dunlop, Arts '15, Ottawa; N. B. MacRostie, Sc. '11, Arts '14, Ottawa; J. L. Murray, Arts '20, Kingston; Miss Mary E. White, Arts '29, Toronto.

Dr. Charlotte Whitton To Address University Graduates in Ohio

MISS Charlotte Whitton, Arts '17, LL.D. '41, will be the guest speaker at two meetings of the Canadian Universities Association of Ohio in May. Her topic will be "The University Graduate's Responsibility in a Changing World."

The first event will be a dinner with the faculty group at Ohio State University, Columbus, Ohio, on May 6. This will be followed with a banquet at the Allerton Hotel in Cleveland on May 7.

Members of the Board of the Association recently entertained at lunch several guest delegates attending the U.N.-E.S.C.O. meeting in Cleveland, including Dr. B. K. Sandwell, former rector of Queen's, and George G. Croskery, president of the Queen's Summer School Association in 1938.

Dr. D. R. G. Cowan, Arts '17, is president of the Canadian Universities Association of Ohio.

Dean Douglas Presides At I.F.U.W. Council Meeting

DEAN of Women at Queen's, Dr. A. Vibert Douglas presided at a council meeting of the International Federation of University Women, of which she is president, in Paris on April 4.

MISS PAULINE JEWETT WINS MARTY MEMORIAL

THE Alumnae Association has announced the award of the Marty Memorial Scholarship to Miss Pauline Jewett, Com. '44, Kingston, Ontario, for use in 1949-50.

Miss Jewett, who has been a lecturer in the Department of Political and Economic Science at Queen's for the past two years, has had a distinguished academic career. She graduated from Queen's in May, 1944, with first class honours in politics, the Medal in Politics, an Arts research resident fellowship, and a special fellowship for use at the Summer School of International Relations at Salisbury, Connecticut.

She took her master's degree at Queen's in May, 1945, and qualified for a resident fellowship at Radcliffe College in Cambridge, Massachusetts, where she was registered from 1945 to 1947. During her second year at Radcliffe, Miss Jewett served as tutor in international relations at Wellesley College. Miss Jewett is interested in the general problem of administration in the modern democratic state and she pro-

poses to study next year at the London School of Economics and at Oxford University.

The Marty Memorial Scholarship of the value of \$1,400 was established by the Alumnae Association of Queen's in memory of Dr. Aletta Marty, who was a pioneer in the field of education in Ontario. The scholarship, which is open to any woman graduate of Queen's with a master's degree, is ordinarily awarded for a year's graduate work overseas.

DISTINGUISHED GROUP TO RECEIVE HONORARY DEGREES AT THREE CONVOCATIONS THIS SPRING

HON. Ray Lawson, lieutenant-governor of Ontario, will give the address at the Spring Convocation on Saturday afternoon, May 21, when the students in Arts and Theology will graduate. He will receive the honorary degree of Doctor of Laws, as will Stanley H. McCuaig, K.C., of Edmonton, president of the Canadian Bar Association, and Dr. P. G. C. Campbell, formerly head of the Department of French at Queen's.

The honorary degree of Doctor of Divinity will be conferred on Rev. H. W. Cliff, of Cooke's United Church, Kingston, Rev. D. A. Hay of Knox College, Toronto, and Rev. C. R. MacLennan, of New Glasgow, Nova Scotia.

At the Convocation in the forenoon of the same day, when students of Applied

Science and Commerce will graduate, Robert C. Stanley, chairman and president of the International Nickel Company of Canada, New York, will give the address. He will receive the honorary degree of Doctor of Laws, W. B. Timm, director of mines, forests, and scientific services, Department of Mines and Resources, Ottawa, Prof. M. B. Baker, formerly head of the Department of Geology at Queen's, and Prof. S. N. Graham, formerly head of the Department of Mining at Queen's, will also receive degrees of Doctor of Laws.

Dr. Duncan Graham, formerly head of the Department of Medicine at the University of Toronto, will receive the degree of Doctor of Laws at Medical Convocation on June 4. He will be the speaker on that occasion.

AN APPRECIATION OF DR. J. F. McFADYEN

By Prof. J. A. Roy

WE were recently greatly saddened to hear of the death of Dr. J. F. McFadyen. Dr. McFadyen was one of those rare spirits who can combine practical other-worldliness with an exceedingly practical knowledge of this world and what is needed to get on in it. But I have known very few persons who were better Christians than he was. When I heard that he was thinking of going back to India from Queen's, I asked him if there was anything in the rumour. He said: "I have, or, rather, my wife and I have done one of the things we came to Canada to do—seen

our daughters through Queen's and given them a start in life. He would be a poor man who, having put his hand to the plough, would turn back. Yes, I have let the Principal know that we are going back to India. That is where we belong".

Dr. McFadyen and "Willie" Morgan were two of the best Christians I have met at Queen's. They were very learned men and outstanding in their line. They took a practical view of theological teaching, had no use for nonsensical exposition of the "meaning of certain disputed passages in the Scriptures", and applied to them a reverent common sense. Sometimes there was almost a touch of impracticality about Dr. McFadyen. When he was torpedoed in the First World War and rescued by British sailors, he told me that the men were kindness itself but that he felt they were speaking a strange tongue. "Meaning by that?" I asked. "Their language in the presence of death was so fearful", he said. I had heard the same language in the Salient, on Vimy, and in the Somme by men who were not wholly bad.

Dr. McFadyen found relaxation in amateur theatricals and, given a part he liked, he was an excellent actor. I remember when he took the part of the Sheriff in *Campbell of Kilmohr* and had to bully the Highland woman (Mrs. McFadyen) who was suspected of having concealed a Jacobite fugitive after Culloden, he was so carried away by the invective put into his mouth that his wife, instead of answering him according to the text, said, with a look of horror, "Oh, Joe, what language!" A tribute to Dr. McFadyen's acting ability but not helpful at a dress rehearsal.

The McFadyens (one cannot think of Dr. McFadyen without thinking of Mrs. McFadyen) were kindness and hospitality personified. Their house was Open House; Marion and Jean were among the most popular co-eds on the Campus. When I handed in my resignation to the secretary of the Saturday Night Club on the grounds that I had no place to

Formerly Professor of New Testament Language and Literature in Queen's Theological College, Rev. Dr. J. F. McFadyen, M.A., D.D., died in Edinburgh, Scotland, on March 8. Dr. McFadyen was educated in Glasgow and as a student he was outstanding, winning many medals, prizes, and scholarships. In 1899 he went to India as a missionary of the Church of Scotland and joined the staff of Hislop College, where he served as Professor and Principal till 1920 (except for a period with the Y.M.C.A. in France during World War One). In 1920 he was called to the Chair of New Testament Language and Literature in Queen's Theological College, which he held for seven years. He also held the Bruce Lectureship in New Testament Literature at Glasgow College. Returning to Hislop College in 1927, he was elected Vice-Chancellor of Nagpur University in 1929. In 1932 he was awarded the Kaisar-i-Hind Gold Medal for his service in the cause of education. He continued at Hislop until 1937, when he joined the staff of Serampore College, Bengal, where he served until his retirement in 1946. While in Serampore he was several times elected chairman of the Bengal Mission Council of the Church of Scotland. Author of many books, Dr. McFadyen was best known for "Jesus and Life" which ran through several editions. He is survived by his widow, and by his daughters, Mrs. J. K. Boyle (Marion McFadyen), Arts '23, Middlesex, England, and Mrs. C. Roper (Jean McFadyen), Arts '27, Lahore, Pakistan.

entertain the members, Dr. and Mrs. McFadyen tried to dissuade me and offered their own home. Dr. McFadyen was thoroughly up-to-date in his reading and wrote a great deal because he believed that no scholar who had anything to say dared keep his information to himself. He believed that the man who produced nothing was a man who had nothing to say. He was a strong advocate of Church union, rightly maintaining that while reasons for belonging to this or that communion *may* have been valid some hundreds of years ago, they were not now. Had he been asked to die for the Christian faith he would gladly have done so. In Canada Dr. McFadyen fought for Church union because he believed that church union was not only economically sound but the will of God.

Dr. McFadyen was a plain, unassuming man but absolutely genuine. He spoke his mind and when he had done so you knew exactly where you stood. He was your friend by preference but if he had to differ with you he told you so and it was clean fighting. He was utterly without worldly ambition for himself, regarding whatever post he might be appointed to as an opportunity to serve his Master. New kings are arising which know not Joseph, but I doubt me whether we shall ever look upon his like again.

NEWFOUNDLAND STUDENTS OFFERED SCHOLARSHIPS

A SCHOLARSHIP, valued at from \$900 to \$1,250, has been offered to Newfoundland high school students by Queen's, Principal Wallace has announced. Similar to entrance scholarships, which have been available for the past fifteen years to each of Canada's nine provinces, the scholarship is for general proficiency in final-year high school studies.

The scholarship is aimed at attracting students from Canada's new province, and the minister of education for Newfoundland has been notified of the award. The scholarship provides \$100 cash in each of three years and free tuition for the same period.

DR. McNEILL'S ADDRESS INSPIRES PRAISE

ALTHOUGH eighteen months have elapsed since Dr. W. E. McNeill delivered his farewell address at Autumn Convocation in 1947, his remarks still excite comment.

The president of *British Weekly* recently wrote: "I wish I could have been present to hear the address, one of the wisest and loveliest of its kind within my knowledge. Is it possible for me to persuade a publisher to take Dr. McNeill's swansong and so arrange that it sounds from the rivers in Great Britain where are colleges and universities? If it were within my competence I should like to put a copy of the address into the hand of every undergraduate in the United Kingdom."

A letter from Professor Merriman, Master of Davenport, one of Yale's associated colleges, says, in part: "At that time I was much impressed with this document and I have just used it at two noon-day Chapel appearances here at Yale."

There are still a few copies of this Address available to alumni.

WIN TWENTY-TWO AWARDS OUT OF SIXTY AVAILABLE

STUDENTS at Queen's are recipients of twenty-two of sixty scholarships awarded by the Research Council of Ontario to assist Canadian university graduates in postgraduate research work.

The scholarships, ranging in value from \$750 to \$1,500, and totalling \$50,000, are awarded annually by the Ontario Government as a means of stimulating interest in research as a career. Of the \$50,000, \$18,300 was won by Queen's men and women.

Thirteen scholarships went to students at the University of Toronto, eight to University of Western Ontario, seven to McMaster, six to Ontario Agricultural College, three to the University of British Columbia, and one to the University of New Brunswick.

Student Activities

Wins Presidential Election

FOR the first time since the system was inaugurated in 1944, the electoral college failed to appoint an A.M.S. president and the selection was left to a general vote of the student body. In the election, which was held on March 16, Gelindo De Re, Arts '50, Fort William, was returned as head of student government for the ensuing academic year.

The complete executive is as follows: President, Mr. De Re; vice-president, Jim Kirk, Sc. '50, Fort Frances; Miss Peggy House, Arts '50, St. Catharines; Miss Joan Keough, Arts '51, Revelstoke, B.C.; Miss Helen Bengler, Arts '51, Port Arthur; W. S. O'Hara, Arts '50, Toronto; Morgan Bebee, Arts '51, Utica, N.Y.; George Devlin, Sc. '50, Brantford; Pat Courage, Sc. '51, Port Colborne; John Gordon, Med. '51, Schreiber; Bruce Morgan, Med. '51, Kingston; Doug Geiger, Med. '52, Toronto; Ted Leighfield, Theol. '50, Inverary. Jim Sherbut, Sc. '51, Toronto, will be the A.M.S. Athletic Stick.

A. M. S. Colour Night

The past year of athletic activity at Queen's passed in review at the annual Colour Night Banquet which was held in the Great Hall of the Students Union on March 4. Highlighting the proceedings were the presentation of trophies to Intercollegiate champions in three sports and to six outstanding athletes in recognition of their contributions to their teams. A.M.S. President Eric Jorgensen acted as toastmaster. The toast to the University was proposed by Bob Stevens and Principal Wallace replied. Participating in the presentation of awards were Dr. John Orr, Miss Willie Dowler, J. W. Wright, Col. D. M. Jemmett, Fred T. Bartlett, and Jake Edwards. After the banquet, a formal

dance was held in Grant Hall, the music being provided by "Ziggy" Creighton and his all-Queen's band.

Student Health Programme

Dissatisfaction with present student health programme was strongly voiced at the annual meeting of the Alma Mater Society held in Grant Hall on March 10. It was finally agreed that the Board of Trustees be informed of the feeling of the students and that a referendum be held proposing a group health insurance plan as part of a student health service, after the details had been worked out, and that results of the referendum be sent to the Board for their consideration.

Veterans Establish Scholarship

The Students Veterans Council have set up a scholarship for the sons and daughters of war dead. The award is to be on the basis of academic merit and financial need, is tenable at Queen's, and is open to persons from all parts of Canada. Amount is subject to modification but is to be not less than \$100 a year to each student qualifying. Money not used for the awards goes into a fund from which loans may be made as a supplement to the scholarship. Funds will be raised among war veteran graduates and undergraduates of the University.

Here and There

Miss Sylvia Mackenzie of Ottawa has been awarded the St. Andrews Exchange scholarship for 1949-50. Miss Mackenzie is an honours student in politics. . . . Daughter of Principal Wallace, Miss Elsbeth Wallace will accept a university scholarship of tuition which has been awarded her by the University of Michigan. . . . Robertson Davies, editor of the Peterborough *Examiner*, author, and playwright, delivered the annual

A.M.S. Lecture in Grant Hall on March 4. Mr. Davies spoke on "The Drama in Canada". . . . Dr. Cecil Roth of Oxford addressed a Hillel House meeting on March 2. . . . The Glee Club and Orchestra presented Gilbert and Sullivan's "Trial by Jury" in Grant Hall on March 21. . . . Dr. G. D. W. Cameron, deputy minister of health for Canada, spoke at a special meeting of the Aesculapian Society on March 4 on "Canada's National Health Programme". . . . Dave Leighton, Arts '50, Ottawa, has been appointed editor of the *Journal* for next year. . . . A.M.S. appointments include George McNee, Arts '50, Hearst, as head cheerleader; Dave Sweezey, Sc. '52, Kingston, editor of *Who's-Where*; Vic Wilson, Sc. '50, Ottawa, manager of the band; Mike Halliday, Sc. '51, London, sports nights convener; Jack Worrall, Arts '51, Cochrane, Colour Night convener. . . . The A.M.S. has voted to join the National Federation of Canadian University Students next year, after dropping membership for twelve months. . . . Rev. Dr. Wilkinson of St. Paul's Anglican Church, Toronto, delivered the sermon at the annual baccalureate service in Grant Hall on March 6. . . . Chloe MacLeod, Arts '50, and Ken Lendon, Arts '50, Toronto, were the respective winners of the Senator Davies Poetry Prize and the *Whig-Standard* Essay Contest valued at \$500 each.

GRANT FOR CANCER RESEARCH TO AID DR. E. M. ROBERTSON

A GRANT of \$2,200 for cancer research has been given to the Queen's Department of Gynaecology and Obstetrics under Dr. E. M. Robertson by the National Council of Jewish Women of Canada, it was recently announced. The grant was made in accordance with the Council's policy of education and service.

Fourteen Council sections from coast to coast joined in the donation, which will be used to purchase research apparatus, a clinical kymograph, and special nurses' time to assist Dr. Robertson on special research problems in connection with cancer.

Lanark County

DORMANT for some years, the Lanark County branch was reorganized at an enthusiastic meeting held in the basement of Westminster Church, Smiths Falls, on April 7. Approximately fifty were in attendance.

A nominating committee composed of G. R. Dulmage, Arts '32, W. P. McCreary, Arts '38, and Miss Lila Hudson, Arts '27, brought in a slate of officers which was approved as follows: president, E. A. Fleming, Arts '25, Perth; vice-president, G. W. Motherwell, Arts '37, Carleton Place; secretary, A. E. James, Arts '33, Perth; representatives—Rev. W. R. Alp, Arts '16, Perth; D. D. Findlay, Sc. '22, Miss Isabel Sinclair, Arts '21, Carleton Place; Donald Warren, Arts '49, Miss Mary McCallum, Arts '16, M. W. Lever, Arts '37, Smiths Falls; Dr. F. W. Snedden, Med. '31, W. F. Thom, Arts '36, Almonte. A representative for Lanark will be appointed at a later date.

D. W. Boyd, Arts '23, Smiths Falls, served as chairman for the meeting. Mr. Boyd was elected county chairman for the University's endowment campaign. The alumni executive was given power to add to its numbers and to the organization of the endowment committee.

The toast to Queen's University was proposed by G. W. Motherwell, Arts '37, who said that graduates of Queen's had a particular type of comradeship that was at once the despair and the envy of other seats of learning.

Response to the toast was made by Principal Wallace, who spoke of the University's endowment campaign. He pointed out that Queen's was appealing for \$1,000,000 for necessary construction, \$2,000,000 for additional endowment, and \$175,000 a year in annual contributions.

Dr. S. M. Gilmour of the Queen's Theological College described the work of the central endowment committee and the progress that had been made to date. H. J. Hamilton, secretary-treasurer of the General Alumni Association, also spoke briefly.

During the evening Mr. Gordon Sutton entertained with a group of songs. Mr. Dulmage also led the meeting in a sing-song.

At the Branches

Belleville and District

A NEWCOMER to the Queen's family, the Belleville and District branch was formed at a meeting held in the Collegiate and Vocational Institute on March 29. Officers were elected as follows:

President, A. S. Robb, Sc. '36; past president, Dr. G. S. Cronk, Med. '15; first vice-president, R. H. Macklem, Arts '33; second vice-president, Mrs. C. W. Burr; third vice-president, R. L. Perkin, Arts '30; secretary-treasurer, G. D. Dies, Sc. '43; executive committee—Mrs. W. J. Doyle (Irene Aherne), Arts '14, W. L. MacDougall, Com. '28, Dr. A. E. Miles, Med. '42, A. B. Sprague, Arts '33.

Principal Wallace addressed the meeting on the needs of the University and the aims and objectives of the current endowment campaign. He emphasized that Queen's is appealing to the graduates for \$175,000 in annual giving and that this amount may be realized if two-thirds of the alumni body give an average of \$25 a year.

It was agreed that the first activity of the new branch will be administration of the endowment campaign in the Belleville area.

Kingston Alumnae

FUNDS totalling \$800 in the branch treasury will be turned over immediately to the Queen's endowment and building campaign for the extension of Ban Righ Hall, it was announced by the president, Miss May Chown, Arts '11, at the annual meeting in Ban Righ on April 5.

Guest speaker at the meeting was Maj.-Gen. J. F. M. Whiteley, C.B., C.B.E., M.C., who served with Montgomery on the western desert, was later on Eisenhower's Allied Operations Staff in Western Europe. At present, he is commandant of the National Defence College and the Canadian Army Staff College in Kingston.

"We are at war today, and if we don't win it, we are faced with two alternatives—surrender or open hostilities," said Gen. Whiteley. "Two conditions are es-

sential for our success. First, we must have a contented people so in love with their institutions that they are ready to sacrifice, ready to fight for them if necessary. Secondly, we should see that our people have security."

The speaker was introduced by Prof. Hilda Laird, Arts '18, and thanked on behalf of the meeting by Prof. Wilhelmina Gordon, Arts '05.

Mrs. Reginald Jackson (Clara Farrell), Arts '24, was elected president for the ensuing year. Other members of the executive include: first vice-president, Miss Caroline Mitchell, Arts '26; second vice-president, Miss Melva Eagleson, Arts '25; secretary, Miss Diana Blake, Arts '45; treasurer, Miss Jean Tweddell, Arts '12; programme convener, Miss Eleanor Tett, Arts '28; social convener, Miss Dorothy Taylor, Arts '41; membership convener, Miss Marjorie Rice, Arts '45; press convener, Miss Eleanor Smith, Arts '46; councillors—Mrs. R. O. Earl (Olga Somerville), Arts '14, Mrs. K. B. Parkinson (Wilda Baker), Arts '43, Miss Fay Jackson, Arts '48, Miss Jean Richardson, Arts '45.

Sarnia

IN the elections which were recently held for the newly reorganized Sarnia branch, T. B. Doherty, Sc. '36, was returned as president. Other members of the executive include: secretary, Mrs. W. M. Douglas (Virginia Baker), Arts '48; committee—Mrs. D. S. Simmons (Florence Frost), Arts '29, Mrs. C. C. Crober, Mrs. J. E. Macdonald, Dr. H. W. Carter, Med. '33, and A. G. Moreton, Sc. '48.

St. Maurice Valley

APTLY named "Cardances", two successful bridge-dance parties have been held recently. Members at the event on February 25 included H. C. Jenkinson, Sc. '27, and Mrs. Jenkinson (Elizabeth Graham), Arts '27, W. M. B. Harvey, Sc. '24, and Mrs. Harvey, J. A. Brooks, Sc. '42, and Mrs. Brooks, J. C. Hamilton, Sc. '42, and Mrs. Hamilton, G. M. Hale, Sc. '45, and Mrs. Hale

(Mary Lillian Conner), Arts '45, J. G. Campbell, Arts '38, Sc. '40, and Mrs. Campbell.

The second affair on March 18 was a gala event with square dances and bridge prizes. J. A. Brooks, Sc. 42, provided the intermission entertainment. Among the guests were A. C. Wise, Sc. '42, and Mrs. Wise, J. A. Colquhoun, Sc. '31, Arts '34, and Mrs. Colquhoun, E. F. Charlesworth, Sc. '44, and Mrs. Charlesworth, L. R. Klinck, Sc. '46, and Mrs. Klinck (Edna Marie Virtue), Arts '50, H. F. Fulton, Sc. '35, and Mrs. Fulton, W. A. Rabb, Sc. '44, and Mrs. Robb, J. A. Brooks, Sc. '42, and Mrs. Brooks, Mr. and Mrs. G. M. Hale.

It is planned to make these cardances a regular feature of next winter's programme.

Toronto

A FEATURE of the annual smoker held at the Royal York Hotel on March 4 was entitled "Endowment Personalities". It took the form of three brief but inspired addresses by members of the Toronto committee: Col. E. A. Baker, Sc. '15, J. C. Elliott, Arts '19, and Colin A. Campbell, Sc. '22, each in turn introduced by C. C. Peck, Arts '39.

One hundred and seventy-five Queen's men and their guests were present for the occasion. In the absence of President J. R. Rutledge, Arts '22, who has moved to Vancouver, honorary President D. A. Scott, Sc. '30, served as chairman.

Past president Ernie Collyer, Sc. '23, presented the report of the nominating committee which was adopted as follows: honorary president, Col. E. A. Baker, Sc. '15; past president, J. R. Rutledge, Arts '22; president, A. J. Strain, Sc. '25; vice-presidents, J. H. Stewart, Arts '31, C. E. McRoberts, Sc. '33, C. C. Peck, Arts '39; vice-president and secretary, N. E. Butler, Com. 30; assistant secretary, Graham Whidden, Com. '44; treasurer, John Buss, Sc. '19; committee—W. D. Alford, Sc. '41, A. H. Anderson, Sc. '42, J. A. Brown, Sc. '44, Donald Chinnery, Sc. '47, A. P. Clark, Arts '40, Fred Devolin, Arts '41, J. S. Dewar, Sc. '41, J. D. Fahey, Sc. '48, Dr. N. S. Gordon, Med. '40, J. W. Grimmon, Arts '32, R. E. Helmer, Arts '32, J. C. Ingram, Arts '28, P. L. P. Macdonnell, Arts '40,

Dr. J. C. Millar, Med. '41, N. C. Morris, '48, J. M. Munro, Arts '38, J. G. Smith, Sc. '48, J. E. Somppi, Com. '43, Harry Sonshine, Arts '37.

An outline of the past year's activities was given by Mr. Stott, with particular reference to the successful golf tournament last May when the Reg Barker Trophy was first presented for competition. He mentioned with regret the loss of the Royal York Hotel for this year's Football Dance. Other arrangements will now have to be made for the dance.

Johnny Munro, Arts '38, conducted a short session of the Quarterbacks' Club with Frank Tindall of Queen's, Ted Morris of Toronto Argonauts, and Frank Gnupe of Hamilton. A movie of the Ottawa-Calgary Dominion football championship game of last fall, with a splendid running commentary by Teddy Morris, was greatly enjoyed.

Radio Artist Mildred Moray contributed a group of songs which was well received. Prize winners in the lucky draw included Vic Murray, Sc. '28, Dr. Lloyd White, Arts '20, C. E. McClurg, Com. '29, Graham Whidden, Com. '44, Ken Atcheson, Com. '32, Col. E. A. Baker, Sc. '15, J. K. Fletcher, Com. '48, and Murray Shepherd, Sc. '48½.

"Queen's Is on the March" and the Toronto branch salute the Smoker committee of Al Clark, Arts '40, Ernie Collyer, Sc. '23, Rupe Helmer, Arts '32, Pete Macdonnell, Arts '40, Johnny Munro, Arts '38, Jim Strain, Sc. '25, and Chairman Charlie Peck, Arts '39.

TORONTO SMOKER

Pictures by Jim Brown, Sc. '44

Top row, left to right: Bob Campbell, Al Sharpe, Sam Alexander, Ernie Benvides, Bob Hope, Don Campbell, Ed Somppi, Reg Irwin, Hank Burbidge. Second row: Ernie Gill, Hugh Shortill, Graydon Saunders, John Munro, Ernie Collyer, Col. E. A. Baker, Charlie Peck, Herman Browne, Pete Macdonnell, Colin Campbell, Alex Farlinger, Alex Givens, Dr. John Hannah. Third row: Dr. Hannah, Ernie Gill, Pep Hunter, Pete Macdonnell, Herman Browne, Frank Gnupe, John Munro; middle picture, Col. E. A. Baker speaks; third picture, Colin Campbell speaks. Bottom row: Court Elliott, speaks; portion of head table shown during the sing-song; Judge A. Gray Farrell, third on the seniority list of graduates, and J. T. Yee.

Toronto Alumnae

J. W. McFADDEN, K.C., member of the Toronto branch of the Dickens Fellowship and honorary vice-president of the London, England, Dickens Fellowship, was guest speaker at the annual meeting held in the I.O.D.E. headquarters on March 17. His address, based on an intimate knowledge of the novelist's works, showed that Dickens was really more interested in character than plot.

Mr. McFadden was introduced by Miss Bessie Billings, Arts '26. The retiring president, Mrs. Norman McLeod (Mary Johnston), Arts '26, who served as chairman for the occasion, expressed the thanks of the meeting to the speaker.

Mrs. Joseph Dyer (May Sharpe), Arts '27, in the absence of the convener, Mrs. T. M. Weatherhead (Evelyn Bennington), Arts '23, read the report of the nominating committee. The executive for 1948-49 is as follows: honorary president, Mrs. G. H. Ross (Isabel Bryson), Arts '05; past president, Mrs. McLeod; president, Miss Martha Murphy, Arts '24; first vice-president, Miss Bessie Billings, Arts '26; second vice-president, Mrs. N. L. Selkirk (Claire Reynolds), Arts '18; third vice-president, Mrs. B. E. Tolton (Helen Nelson), Arts '24; recording secretary, Miss Margaret Armstrong, Arts '37; corresponding secretary, Miss Audrey MacEwen, Arts '46; treasurer, Miss Jean Larsen, Arts '34.

Refreshments were served at the close of the meeting.—M.I.A.

Kent County

AT the meeting held in the William Pitt Hotel on April 2, N. J. Southern, Sc. '39, was elected president for the ensuing year. Others appointed included: vice-president, George Hood, Sc. '43; treasurer, Dr. W. F. Glenn, Med. '32; secretary, J. H. D. Wilson, Sc. '22; executive—alumnae representative, Miss Norma Stevens, Arts '34; Ridgetown representative, J. W. Edwards, Arts '16; Merlin, Tilbury, and district representative, F. S. Fletcher, Arts '31; Blenheim and district representative, John Gilchrist, Arts '15.

Also elected were E. Russell Smith, Arts '24, Com. '25, as chairman of the endowment campaign, and J. H. D. Wil-

son, Sc. '22, as secretary. Mr. Smith outlined the needs of the University and described the drive for funds which is now in progress.

The new president thanked the retiring officer, Mr. Wilson, for the work in reorganizing of the Kent County branch. He announced that the next meeting would be held at the cottage of W. D. Colby, Sc. '44, at Rondeau Park in June.

Progressive bridge was enjoyed during the evening with prizes going to Mrs. George Hood of Chatham, Mrs. John Edwards of Ridgetown, and Mrs. Norman Southern of Wallaceburg.

Kingston

AS described elsewhere in this issue, the annual dinner meeting of the Kingston branch was used to open the Queen's endowment campaign on March 17.

Guest speaker was Dr. L. W. Brockington, rector of the University, who paid tribute to Queen's as being an institution completely free of racial and religious prejudices. Dr. Brockington was introduced by Vice-Principal Mackintosh and was thanked by Principal Wallace.

An outline of the work of the central endowment committee was given by Chairman M. N. Hay. Also speaking were Col. E. A. Baker, Toronto, Dr. Wallace Troup, Ottawa, and George Carson, Kingston, chairman of the endowment committees in their respective areas.

During the evening the meeting was led in singing by Mr. Joseph McCann, with Mr. Hilton Stephens at the piano. Mr. McCann also contributed a number of vocal solos.

Approximately 250 were in attendance, filling every available seat. Among those present were E. J. Corkill, Arts '86, and Dr. G. W. Morden, Arts '88, both of Napanee. Dr. G. W. Mylks, Jr., Arts '27, Med. '29, president of the branch, served as chairman.

The committee in charge included Dr. Mylks, Graham Thomson, Arts '34, and D. L. Rigsby, Sc. '40.

Alumni News

BIRTHS

Annis—At Owen Sound, Ont., on March 17, to Dr. L. H. Annis, Med. '47, and Mrs. Annis (Margaret Young), Arts '45, a daughter.

Barker—At Mount Hamilton Hospital, Hamilton, Ont., on April 10, to J. T. Barker, Com. '38, Arts '39, and Mrs. Barker (Isobel Shaw), Arts '38, Com. '39, a son.

Beachell—On December 28, 1948, at the Delaware Hospital, Wilmington, Delaware, to Dr. H. C. Beachell, Arts '37, and Mrs. Beachell, a son (James Charles).

Beswick—On April 17, at the Kingston General Hospital, to P. J. Beswick, Sc. '42, and Mrs. Beswick, a daughter (Barbara Ruth).

Bishop—At the Ottawa Civic Hospital, on April 15, to Col. J. W. Bishop and Mrs. Bishop (Mary Fraser), Arts '35, a son.

Brown—At the Kingston General Hospital, on March 22, to Major Lindsay H. Brown, Sc. '47, and Mrs. Brown, a daughter (Lina Kezla).

Campling—On April 7, at Cambridge, Mass., to C. H. R. Campling, Sc. '44, and Mrs. Campling (Laura Miller), Arts '46, a son (Frederick Miller).

Cloke—At Mount Hamilton Hospital, Hamilton, Ont., on March 19, to Mr. Jack Cloke and Mrs. Cloke (Frances Hayward), Arts '41, a son (William Torrance).

Davis—At the Kingston General Hospital, on April 6, to Mr. Harold Polson Davis and Mrs. Davis (Dorothy Horwood), Arts '33, a son.

Gilbert—At St. Joseph's Hospital, Sarnia, Ont., on March 21, to J. F. Gilbert, Sc. '37, and Mrs. Gilbert, a daughter.

Gillespie—At the Cresswell Maternity Hospital, Dumfries, Scotland, on March 18, to Mr. J. M. Gillespie and Mrs. Gillespie (Jean Calvert), Arts '42, a son (Patrick MacKintosh).

Ginn—At Kirkland Lake, Ont., on March 29, to Peter Ginn, Sc. '39, and Mrs. Ginn (Anne Constantine) Arts '41, a son.

Glover—At the Hotel Dieu Hospital, Kingston, on April 11, to Dr. A. M. Glover, Med. '34, and Mrs. Glover, a son (John Francis).

Hamilton—On February 19, at the Samaritano Hospital, Sao Paulo, Brazil, to H. I. Hamilton, Sc. '41, and Mrs. Hamilton, a son (Henry Alexander).

Hepburn—On April 15, at the General Hospital, Brantford, Ont., to B. R. Hepburn, Sc. '41, and Mrs. Hepburn, a son (John Keith).

Hurd—On March 10, in Windsor, Ont., to R. L. G. Hurd, Sc. '48½, and Mrs. Hurd, a son (Gordon Lynn).

Knowles—On February 23, at the Western Division of the Montreal General Hos-

pital, to G. V. Knowles, Sc. '39, and Mrs. Knowles, a son.

Leon—At the Mount Hamilton Hospital, Hamilton, Ont., on March 14, to C. E. Leon, Sc. '45, and Mrs. Leon, a daughter (Grace Kathleen).

Livesey—On April 1, at the Kingston General Hospital, to Dr. R. J. Livesey, Med. '40, and Mrs. Livesey, a daughter (Emily Jane).

McCuaig—On February 10, at the Kingston General Hospital, to D. W. McCuaig, Arts '49, and Mrs. McCuaig (Agnes Nickle), Arts '50, a son (William Wallace).

McKechnie—At the General Hospital, Stratford, Ont., on March 7, to Mr. N. S. McKechnie and Mrs. McKechnie (Elizabeth Cameron), Arts '36, a son (James Cameron).

McKnight—On March 28, at the Kingston General Hospital, to R. M. McKnight, Sc. '45, and Mrs. McKnight, a son (Russell Douglas).

Morrison—At Deep River, Ont., on April 12, to I. A. W. Morrison, Sc. '48, and Mrs. Morrison (Connie Merritt), Arts '44, a son (David Ian).

Newman—At the Kingston General Hospital, on April 4, to Seldon Newman, Arts '41, and Mrs. Newman (June Climo), Arts '48, a daughter (Wendy Jean).

Partridge—At the Kingston General Hospital, on April 16, to Mr. J. A. Partridge, and Mrs. Partridge (Margaret Muir), Arts '40, a daughter.

Peckover—At the Women's College Hospital, on April 11, to Mr. G. H. Peckover and Mrs. Peckover (Mary Mackenzie-Naughton), Arts '40, a son (Bruce David).

Richards—At the Ottawa Civic Hospital, on March 27, to J. L. Richards, Sc. '44, and Mrs. Richards, a son (James Alexander).

Ross—On March 5, at Port Alberni, B.C., to Dr. J. E. Ross, Med. '45, and Mrs. Ross, a daughter (Mary Elizabeth).

Runge—At London, Ont., on April 14, to W. A. Runge, Sc. '44, and Mrs. Runge, a son.

Sloan—At the Vancouver General Hospital, on March 20, to D. A. Sloan, Sc. '41, and Mrs. Sloan (Margaret Irwin), Arts '42, a son (Norman Alexander).

Smuck—At the General Hospital, Pembroke, Ont., on April 1, to Harold Smuck, Sc. '41, and Mrs. Smuck, a son.

Trumpour—In Kingston, Ont., on March 17, to B. W. Trumpour, Arts '43, and Mrs. Trumpour, a son.

Whillans—At Kapuskasing, Ont., in March, to Douglas Whillans, Sc. '44, and Mrs. Whillans, a son.

White—At the Private Patients' Pavilion, Toronto General Hospital, to Dr. C. A. White and Mrs. White (Martha Johnson), Arts '38, of Red Lake, Ont., a daughter.

MARRIAGES

Agulnik—On March 19, in B'nai Jacob Synagogue, Ottawa, Ruth Agulnik, Arts '46, to Mr. Maurice Rischall, of St. Paul, Minnesota.

Baker—In August, 1948, Lois Ruth Christensen, of Minot, North Dakota, to John P. Baker, Arts '44, of Winnipeg.

Browne-Fleming—In Division Street United Church, Owen Sound, Ont., on August 28, 1948, Eleanor Irene Fleming, Arts '48, to Charles Donald Brown, Sc. '47. Joy Coyles, Arts '48, was maid of honour and Hugh Porter, Arts '47, was groomsman.

Fox—In the Roof Garden of the Royal York Hotel, Toronto, in March, Dr. Zelda Lucille Rothbart to Lester Leonard Fox, Com. '41. They will live in Montreal.

Harvey—On January 29, in St. Cecilia's Church, Boston, Mass., Mary T. Kelly, of Boston, to John Arthur Harvey, Sc. '45. Douglas Van Patter, Sc. '45, was best man. After the wedding a reception was held at the apartment of Harry E. Gove, Sc. '44, and among the guests present were C. H. R. Campling, Sc. '44, and Mrs. Campling (Laura Miller), Arts '46; Frank Lee, Sc. '45; and Malcolm A. Clark, Sc. '47.

McLean—On March 24, at St. Jude's Church, Hull, England, Kathleen Margery McLean, Arts '46, to Mr. Norman Sheppard, of Hull, England.

McGibbon-Sheldon—On April 9, at Hillside, Galt, Ont., Beatrice Elizabeth Sheldon, Com. '43, to John S. McGibbon, Com. '43.

Nash—On March 19, in Kingston, Ont., Evelyn Louise Harris to Philip Townsend Nash, Sc. '45, of Hamilton, Ont.

DEATHS

Chown—A pioneer in women's suffrage, women's trade unionism, and the international peace movement, Miss Alice Chown, Arts '91, died at the Queen Elizabeth Hospital, Toronto, Ontario, on March 2 at the age of eighty-three. Miss Chown was born in Kingston, and was educated in the schools there, as well as at Hamilton Ladies College and Queen's. She began her life-long educational crusade with a boys' club in Kingston. From this she branched out into a vigorous championship of labour, women's rights, co-operative movements, international peace, and others. In 1909 she visited England for the express purpose of participating in the women's suffrage parade. Afterwards she visited Edward Carpenter at Letchworth and took up women's suffrage, organizing the Equal Franchise League in Toronto. Much of her time and nearly all her small resources were invested in various co-operative communities. After the formation of the League of Nations, she became an active leader, founding the women's section of the league. Miss Chown visited Geneva and attended sessions of the league in order that she might speak more in-

telligently about the work. Her long experience in settlement work in New York, where she was on the staff of a trade union college for the training of union leaders, prepared the way for her interest in labour problems generally, culminating in a trip to Russia. Miss Chown made numerous public addresses and published articles in periodicals in Canada and abroad. For several years she contributed a column to the United Church "Observer," and she was the author of an interesting book that summed up her philosophy, "Climbing Life's Stairway." Miss Chown was predeceased by her brothers, who include Dr. A. P. Chown, Med. '90; Dr. H. H. Chown, Med. '80, LL.D. '03, founder and later Dean of the Manitoba Medical College; G. Y. Chown, Arts '84, treasurer of Queen's; S. T. Chown, Arts '89. Survivors are a number of nephews and nieces, including Miss May Chown, Arts '11, S. M. Chown, Arts '22, Miss Helen Chown, Arts '23, Mrs. Lorne Pierce (Edith Chown), Arts '13, Mrs. L. R. Morse (Edna Chown), Arts '22.

Cohen—In his thirty-fourth year, Daniel Cohen, Sc. '40, died at Montreal, Quebec, on January 6. Mr. Cohen was born in Montreal and attended West Hill High School before entering Queen's. He graduated with his B.Sc. degree in chemistry in 1940. During the war Mr. Cohen was employed as a chemist with the Norduyn Aviation Company in Montreal. Afterwards he entered the business field in Montreal. Among the survivors is his wife.

Connors—A member of the staff of the Ottawa General Hospital for twenty years. Dr. Raymond Vincent Connors, Med. '14, died in the Civic Hospital, Ottawa, on April 5 after an illness of two years. He was fifty-eight years of age. Dr. Connors was born in Ottawa and received his early education at St. Patrick's School and Lisgar Collegiate. He graduated from Queen's with his M.A. degree in 1914 and returned to Ottawa where he was interne for a period at the General Hospital. He finished his internship at Misericordia Hospital in New York City and then joined the Canadian Army. He served overseas from 1916 until the end of hostilities and in 1919 was discharged with the rank of Captain. Dr. Connors established a practice in Ottawa, which he maintained until his recent illness. He is survived by his wife, a son, two brothers, and two sisters.

Dickson—Retired for the past seven years, Dr. Charles William Dickson, Arts '00, died at his home at Grafton, Ontario, on March 12. Mr. Dickson was born in Hamilton in 1878. He entered Queen's and graduated with his M.A. degree in 1900. As a student he had a brilliant academic career, winning the University medal in chemistry and a Science research scholarship. Later he obtained his Ph.D. degree at Columbia University. He spent some

time in research work in chemistry at Heidelberg, Germany. For a few years he was on the teaching staff of Queen's. He prospected in the Cobalt area and was the co-discoverer with Dr. Cyril W. Knight of the Silver Bar Mines. Dr. Dickson served in the First World War with the Seaforth Highlanders of British Columbia and was wounded at Vimy Ridge. He received the Military Cross at Buckingham Palace in 1918. After demobilization he went to Kelowna, British Columbia, where he was government agent for many years. He

had lived in Grafton ever since his retirement. Among the survivors are his wife and three sisters, of whom Mrs. H. C. Nickle, (Ethel Dickson), Arts '98, is one.

Holmes—After a short illness, Thomas Fraser Homes, Sc. '17, died at his home in Kemptville, Ontario, on March 22, in his fifty-fourth year. Mr. Holmes was born in Kemptville, the son of the late Dr. F. S. L. Holmes, Med. '77, and Mrs. Holmes. His ancestors had played a prominent part in the development of the Community, and his

ACCOUNTING PRINCIPLES AND PRACTICE

By *R. G. H. SMAILS*

B.Sc. (Econ.), F.C.A. (Eng.)

*Professor of Commerce,
Queen's University, Kingston*

"In bringing Accounting Principles and Practice together and up-to-date, the author has performed a valuable service to the business community and to the accountants who will be trained to take their places in that community." — *Saturday Night*.

"A comprehensive, well-developed presentation. The reviewer feels that in general it is superior to many texts now widely used in the United States." — *L. J. Benninger in The Accounting Review, Rochester*.

"Accounting Principles and Practice, based as it is upon contemporary Canadian methods and institutions, should set the standard for accounting texts in Canada for many years to come." — *The Montreal Star*.

"A most valuable accounting reference work, useful to anyone concerned with the recording of financial transactions and the preparation of financial reports." — *J. H. Thompson in The Canadian Chartered Accountant*.

"A useful text for students and those engaged in practice alike." — *The Financial Post*.

"This new volume will be immediately and increasingly consulted." — *Wellington Jeffers in The Globe & Mail*.

"A new and very complete accounting text, a useful reference work for business men." — *The Canadian Banker*.

TORONTO

father had carried on a medical practice in Kemptville for fifty years. Mr. Holmes entered Queen's in 1913 and graduated four years later with his B.Sc. degree in civil engineering. He took employment in highway construction in Ontario. More recently he became interested in buildings and the fine school in Kemptville is a lasting memorial to his workmanship. The town's development and improvement were always of keen interest to him. Surviving are his wife, three sons, a daughter, a brother, and two sisters.

Huber—Retired since 1945, Wimund Huber, Sc. '08, died on December 14, 1948. Mr. Huber was born at Bracebridge, Ontario, in 1883. He attended Gravenhurst High School and the School of Practical Science, University of Toronto, before entering Queen's. He obtained his B.Sc. degree in civil engineering in 1908. The following year he joined the staff of Crown Reserve Mine, Cobalt. In 1910 he returned to southern Ontario and took up road construction and bridge building. He joined the Department of Highways of the Ontario Government. Later he went into contracting for himself. In 1920 Mr. Huber was appointed road superintendent of Lanark County. During World War Two he worked for the British Inspection Board and was sent by them to St. Louis, Decatur, and other cities in the United States to help organize munition works. After two years he returned to Canada and worked as munitions inspector in Niagara Falls and St. Catharines.

Johnston—After a long illness, William Alfred Johnston, Arts '03, Sc. '05, died at his home in Campbellford, Ontario, on March 12. He was in his seventy-fifth year. Mr. Johnston was born in Petrolia, Ontario, and attended Athens High School before going to Queen's. He graduated with his M.A. degree in 1903 and his B.Sc. degree in civil engineering two years later. He also did postgraduate work at Yale. Mr. Johnston was a member of the Geological Survey of Canada from 1905 until his retirement in 1939. He was a specialist in glacial geology, and was also consultant for the department on engineering projects. Surviving are his wife, three sons, six sisters, and a brother.

MacLeod—Reported missing on a photographic mission in British Columbia on October 18, 1947, F/L John Leslie MacLeod, Com. '40, has been officially declared dead. Mr. MacLeod was born at Alexandria, Ontario, in 1919. After graduating from Queen's with his B.Com. degree in 1940, he took a position in Toronto as an auditor. He joined the R.C.A.F. in 1942, trained as a pilot, and was commissioned in 1943. From then until the end of the war F/L MacLeod served with distinction as a captain on Coastal Command operations with No. 160 Bomber Reconnaissance Squad-

ron stationed at Sea Island, British Columbia, Yarmouth, Nova Scotia, and Torbay, Nova Scotia. For his operational flying, he was awarded the Distinguished Flying Cross. After the war he served on the staff at Torbay for a time, until posted to No. 5 Equipment Depot at Moncton. In 1946 he was transferred to Air Force Headquarters where he remained until September, 1947, when he became a pilot with No. 413 Photo Squadron. Surviving are his wife, parents, and a brother, D. R. MacLeod, Arts '41.

Miller—At the age of forty-seven, Percy A. Miller, Arts '41, died at his home in Brockville, Ontario, on January 28. Mr. Miller was born in Brockville in 1902 and received his early education in the schools of that city. He taught school in the surrounding district of New Dublin and Soperton, and later in Brockville. He entered Queen's in 1937, but later interrupted his course to go on active service. As a member of the First Battalion, Brockville Rifles, he was in the army for four years and served on the Pacific and the Atlantic Coast and in Jamaica. On demobilization he completed his education, obtaining his B.A. degree at Queen's in 1947. At the time of his death he was a member of the teaching staff of Victoria public school in Brockville. Among the survivors are his wife, two brothers, and two sisters.

Nugent—Well-known medical missionary in the foreign fields of the Presbyterian and United Churches, Dr. Alexander Nugent, Arts '97, Med. '99, died in Ottawa, Ontario, on March 18. Dr. Nugent was born at Omeme, Ontario, in 1864, and attended Lindsay Collegiate Institute. He entered Queen's in 1893, graduating four years later with his B.A. degree and in 1899 with his M.D., C.M. degrees. He went to India as a medical missionary under the Presbyterian Church and served with it and later the United Church until 1932. He had lived in Ottawa since 1939. He is survived by one daughter, Mrs. Charles Donald (Fannie Nugent), Arts '13, and two sisters.

Oliver—At the age of sixty-four, Rev. Thomas Edward Oliver, Arts '17, died at his home in Ojai, California, on March 11. Mr. Oliver was born in Tregarth, Wales, and received his early education in the schools of that country. He attended Queen's for one session, 1913-14, and later took some courses extramurally. Subsequently he attended San Francisco Theological Seminary, from where he graduated. Mr. Oliver spent some time as a minister in a northern Saskatchewan lumber camp. During World War I he was a Y.M.C.A. secretary at the San Francisco presidio. After more Y.M.C.A. work at California Tech. he was called to a ministry at Clovis, then to Orange Cove, both in California. He then spent seven years at the New Park

Boulevard Presbyterian Church in Oakland. In 1930 he went to the Ojai Presbyterian Church, which had just been completed. During his eighteen years of service there he was twice called to the University Memorial Chapel at Stanford as chaplain, in 1939 and 1941. The survivors include his wife, and a daughter.

Porteous—One of the first Canadians to use electric and insulin shocks for treatment of mental disorders, Dr. Carlyle Arnot Porteous, Med. '01, died at Montreal, Quebec, on March 14. Dr. Porteous was born at Iroquois, Ontario, in 1877. Entering Queen's in 1894, he graduated with his M.D., C.M. degrees in 1901. After eighteen months on the staff of Verdun Protestant Hospital, Verdun, Quebec, he went to Edinburgh for postgraduate studies, returning in 1904 as assistant superintendent. He was appointed superintendent in 1923, which position he held until his retirement in 1947. He was a lecturer and clinical professor in psychiatry at McGill University, and an assistant in neurology at the Montreal General Hospital for nearly a quarter of a century. He was a life member of the American Psychiatric Association and although he had no private practice he was often called in consultation in community and medico-legal cases. Besides his wife, he leaves a son, a daughter, a sister, and a brother, D. C. Porteous, Arts '91.

Pringle—One of Canada's outstanding railway executives, James Farrand Pringle, Arts '05, died in hospital at Toronto, Ontario, on February 8. He was vice-president of Canadian National Railways, Central Region, and formerly vice-president and general manager of the Atlantic Region. Mr. Pringle was born at Cornwall, in 1885, and attended Dufferin Grammar School before entering Queen's. He obtained his B.A. degree in 1905 and a three-year diploma in civil engineering in 1912. He started his railway career in 1907, joining the engineering department of the National Transcontinental Railway, now a part of the Canadian National system. During the First World War he served with the Royal Canadian Engineers with the rank of major. He was one of the officers in charge of the rehabilitation of the Halifax, Nova Scotia, docks after the 1917 explosion. Mr. Pringle entered the service of the C.N.R. in 1919 as an assistant engineer in the engineering department at Montreal, and continued in that position until 1923, when he was made transportation engineer to the chief of transportation. Two years later he was made assistant to the chief of transportation and later in the same year was transferred to Toronto as assistant general superintendent of transportation. In 1930 Mr. Pringle was one of two C.N.R. technical experts lent to assist in the re-organization of the national railways of

Mexico. Returning to Toronto he was appointed general superintendent of transportation in 1932. Four years later he became general superintendent, Southern Ontario district. In 1941 Mr. Pringle was appointed system chief of transportation. In 1943 he was promoted to general manager of the Atlantic region, becoming vice-president and general manager later in the same year, with headquarters in Moncton. In 1944 he was appointed vice-president and general manager, central region, with headquarters in Toronto. He became vice-president of the central region in 1948. The survivors include his wife and four sons.

Reynolds—President emeritus of Ontario Agricultural College, Dr. Joseph Benson Reynolds, LL.D. '27, died November 13, 1948, at Bowmanville, Ontario. He had been president of O.A.C. from 1920 to 1928, and he had been a member of the senate of the University of Toronto. Dr. Reynolds was born in Solina, Ontario, in 1868. He started his career as a high school teacher in Eastern Ontario and became identified with O.A.C. in 1893, when he was appointed to head the physics and mathematics department. When the Department of English was established, Dr. Reynolds became its first head. In 1915, he left Guelph to become president of Manitoba Agricultural College, but five years later returned as president of O.A.C., holding that position until his retirement in 1928. He operated a farm near Port Hope until a few years ago when he took up residence in town. For many years he was connected with the Ontario Milk Producers' Association and was editor of that association's official paper, retiring only last winter. He was also active for some time with the Ontario Milk Foundation. Dr. Reynolds is survived by three sons.

Scott—After a brief illness, Howard Lawrence Scott, Sc. '14, died at Ottawa, Ontario, on February 10. Mr. Scott was born in Duluth, Minnesota, in 1889. After taking his preliminary education by private tuition, he entered Queen's in 1910. He graduated four years later with his B.Sc. degree in mining engineering. Mr. Scott served in World War I with a tunnelling company in the Canadian Army. After the war he studied optometry, graduating in 1928. He went to Ottawa at that time, and had resided there ever since. He is survived by his wife, a son, a daughter, and two brothers.

Thomson—Active in mining circles, George M. Thomson, Sc. '11, died at Sunnybrook Hospital, Toronto, Ontario, on March 1. Mr. Thomson was born in Ayr, Ontario, where he received his early education. He entered Queen's in 1907 and studied mining engineering for three years. During the First World War he served in France with the 52nd Battalion, with the rank of major. He was wounded in 1916. During the Second World War he was safety officer with General Engineering Com-

pany. For many years Mr. Thomson was with the Gypsum Lime and Alabastine Company and latterly practised as a consultant. He was vice-president of the National Construction Council of Canada and a member of the Research Council of Ontario and the Canadian Institute of Mining and Metallurgy. Surviving are his wife, two daughters, two step-daughters, and three brothers.

Workman—A veteran mining engineer, Charles Wasnidge Workman, Sc. '03, died at his home in Kingston, Ontario, on March 16. Mr. Workman was born at Stratford, Ontario, in 1878, and received his early education in the schools of that city. He entered Queen's in 1898 and graduated with a B.Sc. degree in mining engineering in 1903. After graduation he went to Rossland, British Columbia, where he was employed under R. W. Brock (afterwards director of the Geological Survey of Canada and deputy minister of mines for the Dominion), helping to prepare a report on the Snowshoe Mine at Phoenix and the Le Roi, War Eagle, and Centre Star Mines at Rossland. These were merged and became the Consolidated Mining and Smelting Company of Canada. Then followed six years in Mexico as chief engineer and later assistant superintendent for the Amparo Mining Company, Jalisoc. In later years he worked in Nova Scotia, Northern Ontario, and Quebec. Surviving are his wife, Lucy Cumming, Arts '02, a son, D. Gordon Workman, Sc. '46, a daughter, Mrs. R. J. Kennedy (Shirley Workman), Arts '40; two brothers, Dr. Wililam Workman, Med. '03, Dr. Harold Workman, Arts '02, Med. '09; and a sister, Mrs. W. C. Baker, widow of the late Prof. W. C. Baker, Arts '95.

NOTES

1890 - 1899

Dr. F. G. Huffman, Med. '97, formerly practising in Wheatland, Wyoming, is now living in California at 1744 Addison Road, Palos Verdes Estates.

Dr. J. A. Snell, Arts '90, LL.D. '17, formerly of Saskatoon, Sask., is now retired and living in Chatsworth, Ont.

1900 - 1909

Mrs. George Benton (Maude McKenzie), Arts '06, is now living in Prince Albert, Sask., where her address is 30 21st St. E.

Dr. J. E. Bromley, Med. '04, is practising in Bracebridge, Ont.

Dr. W. R. Glover, Arts '04, Kingston, was bereaved by the death of his wife on March 20.

Dr. W. S. Grimshaw, Med. '01, who practised in Toronto as a physician and surgeon for many years, is now retired and living in Lansing, Ont., where his address is 90 Hollywood Ave.

Rev. Dr. R. J. McDonald, Arts '07, Theol. '10, D.D. '31, superintendent of home missions for the United Church in Southern Saskatchewan and Alberta for the past twelve years, is retiring this June after serving in the ministry in Western Canada since 1913.

Dr. Philip Nash, Med. '02, of Brooklyn, N.Y., was bereaved recently by the death of his brother, Mr. Joseph Nash, former proprietor of the College Book Store in Kingston.

H. R. Parker, Arts '08, has retired after thirty-seven years as Inspector of Schools in Vermilion, Alberta.

W. R. Pearce, Arts '05, is living in Sheffield Mills, N.S., where he is engaged in poultry farming. He was formerly assistant chief engineer for South America International Telephone and Telegraph Corporation in New York.

Rev. A. Rintoul, Arts '08, has retired from the active ministry and is living in West Hill, Ont., R.R. No. 2.

W. B. Timm, Sc. '06, director of the mines, forests and scientific services in the Department of Mines and Resources, Ottawa, has announced his retirement which will take place sometime during the coming summer.

R. Knox Walkem, Arts '02, Vancouver, was bereaved by the death of his brother, Col. Hugh Crawford Walkem, in Montreal, on April 3.

1910 - 1919

Rev. J. J. Black, Arts '16, Theol. '18, formerly of Cambridge Street United Church, Lindsay, Ont., is now minister of Newtonbrook United Church in the rapidly growing area of North York. He is Director of Adult Education in the North Yonge Street Community Council and President of the North Yonge Street Ministerial Association.

Dr. J. Grant Countryman, Arts '15, is practising dentistry in Hamilton, Ont., at 434 King Street W.

J. E. Cowie, Arts '16, is retired and living at 3362 W. 18th Ave., Vancouver.

C. D. Drimmie, Arts '13, and **Mrs. Drimmie** (Gladys Yule), Arts '13, formerly of Regina and Prince Albert, Sask., are now living in Mount Forest, Ont. Mr. Drimmie is retired.

John Gilchrist, Arts '15, teaches in the high school in Blenheim, Ont.

Mrs. Garnet Grigg (Erma Dafoe), Arts '13, lives in Picture Butte, Alta. She is acting as a supply teacher.

1920 - 1929

Dr. F. A. Alexander, Arts '29, Med. '33, is at the V.A. Hospital in McKinney, Texas, where he is head of the Department of Anesthesia and in charge of the Administrative Department.

Dr. N. S. Beaton, Sc. '27, (Ph.D. M.I.T.) is Assistant Managing Director of Northern

Canada Mines Limited, 44 Victoria St., Toronto.

G. F. Bruce, Arts '27, after many years' missionary service in Manchuria, is now Director of the Correspondence School Branch, Department of Education, Province of Alberta. He lives at 11045 90th Ave., Edmonton, Alta.

F. D. Closs, Arts '25, is retired and living in Aylmer West, Ont.

Dr. Francis Forster, Med. '27, Ithaca, N.Y., Dr. John Forster, Med. '28, New York City, and Dr. Douglas Forster, Med. '33, Simcoe, Ont., were bereaved on March 26 by the death of their father, Mr. John Russell Forster, of Kingston.

Mrs. William Haggart (Bessie Edwards), Arts '26, of Carnoustie, Angus, Scotland, is at present visiting relatives in Kingston.

H. R. MacGregor, Sc. '23, is assistant plant chemist for the Solvay Process Company, 7501 W. Jefferson Ave., Detroit, Mich.

Ralph D. Matthews, Arts '26, was the general chairman of the committee set up to extend a civic welcome to the Rt. Hon. Louis St. Laurent in Victoria, B.C., recently.

E. M. Patton, Com. '26, general commercial supervisor, Eastern Area, Bell Telephone Company of Canada, since 1946, has been appointed general employment supervisor in the employee relations department of the company in Montreal.

Mary Rowland, Arts '26, Com. '28, Ottawa, Dorothy Rowland, Arts '31, Kingston, and Douglas Rowland, Sc. '44, Ottawa, were

bereaved by the sudden death of their mother in Kingston, on April 9.

1930 - 1939

Dr. Louis Baker, Med. '33, is in general practice at 2695 West Broadway, Vancouver.

Dr. E. F. Beach, Arts '34 (M.A., Ph.D. Harvard), chairman of the social sciences group of the faculty of Arts and Science at McGill University, has been awarded a research fellowship by the John Simon Guggenheim Memorial Foundation.

Mrs. Herbert Beall (Mary Forke), Arts '30, is living at 27 Renfrew Ave., Ottawa.

H. L. Blakeley, Arts '34, is inspector of schools at Davidson, Sask.

W. R. Burnett, Com. '34, Ottawa, has been appointed solicitor for the Central Region, Canadian National Railways, with headquarters in Toronto.

Lt.-Col. C. M. R. Elmsley, Sc. '37, is stationed at Fort Osborne Barracks, Winnipeg, with the R.C.E.M.E.

Dr. C. W. Forsyth, Med. '38, of Grenfell, Sask., was bereaved by the death of his mother in Ottawa on March 26.

Norman Muir, Arts '32, formerly on the staff of the high school in Ridgetown, Ont., is now Inspector of Schools at Fort Frances, Ont.

O. H. Nickel, Arts '30, is principal of the high school in Kemptville, Ont.

P. G. Reid, Arts '38, teaches in the high school in Guelph, Ont.

T. L. Reid, Sc. '38, is with the Tsumeb Corporation Limited in South West Africa.

Dr. Carter B. Storr, Arts 37, Ottawa, and John F. Storr, Arts '42, Long Island, N.Y., were bereaved by the sudden death of their father Mr. John Storr, at his home in Ottawa on April 17.

Bernard Tetro, Arts '30, was bereaved by the death of his mother, Mrs. James Tetro, in Kingston, on March 27.

G. C. Tilley, Com. '36, has been appointed comptroller of the H. J. Heintz Company of Canada Limited, Leamington, Ont.

Mrs. Arthur Dunnott (Dorothy Warren), Arts '32, is now living in Brighton, Ont.

Arnauld Wright, Arts '32, Sc. '33, is at the Canadian Embassy in Washington where he is Attaché and Defence Research Board Representative.

1940 - 1948

Harry Abramson, Arts '41, is practising law in Windsor, Ont., and not in Kirkland Lake, Ont., as recently published in these columns.

R. S. Allison, Sc. '46, of the Canadian Pacific Railway Company, has been transferred from London, Ont., to Montreal.

John P. Baker, Arts '44, received his LL.B. from the University of Manitoba in the spring of 1947 and was admitted to the Manitoba Bar as a barrister in October, 1948. He is at present practising with Messrs. Dilts, Baker, Laidlaw and Shepard in Winnipeg.

Mrs. J. E. Boyle (Isobel Matheson), Arts '40, has moved to Collinsville, Ill., where her address is 156 Kenwood Lane.

Rev. H. N. Burgess, Arts '43, is minister of the United Church in Thomasburg, Ont.

Mrs. H. C. Campbell (Sylvia Woodsworth), Arts '40, left recently with her husband and children for Paris, France. Mr. Campbell, who was formerly in the archives division of the United Nations Organization, Lake Success, will shortly assume new duties as head of the bibliographical department in UNESCO. Their address is UNESCO House, 19 Avenue Kleber, Paris 16.

C. G. Case, Arts '42, was one of six Canadians who received degrees at the University of Chicago's winter convocation held in Rockefeller Memorial Chapel. Mr. Case obtained his master's degree in psychology.

W. L. J. Dimmock, Arts '46, is teaching in the Prince of Wales School, Windsor, Ont.

G. K. Dopking, Arts '47, is with the Dominion Oxygen Company, Ottawa.

M. W. Farrell, Arts '42, recently joined the staff of the Ontario Agricultural College, Guelph, Ont., as associate professor in the Department of Agricultural Economics. He received his A.M. and Ph.D. in economics at Harvard where he held a teaching fellowship.

Dr. A. G. Follows, Sc. '44, who obtained his Ph.D. in chemistry from the University of Toronto last year, is now research

chemist in the Solvay Process Division, Allied Chemical and Dye Corporation, Syracuse, N.Y. While at the University of Toronto he held the Canadian Industries Limited fellowship in chemistry.

G. M. Hale, Sc. '45, Canadian Resins and Chemicals Limited, has been transferred from Shawinigan Falls, Que., to Toronto, where he is in the sales department.

John M. Hamilton, Com. '42, student at the Graduate School of Business Administration, Harvard University, has been selected as a George F. Baker Scholar of the School. The designation "Baker Scholar" is bestowed each year on the top five per cent of the graduating students. It represents the highest scholastic honours given a student before graduation. Mr. Hamilton is the only Canadian student to receive the honours this year.

Geraldine Howard, Arts '42, and Dorothy Howard, Arts '49, Kingston, were bereaved early in April by the death of their mother, Mrs. Clarence A. Howard.

G. R. Kartzmark, Sc. '48, has joined the staff of the Abitibi Power and Paper Company, Iroquois Falls, Ont.

A. G. Keeley, Arts '45, recently became associated with Gairdner and Company, bond dealers, 320 Bay St., Toronto.

H. L. Kliens, Arts '48, is a graduate student in psychology at the University of Toronto.

D. H. Parker, Sc. '43, assistant designer for A. V. Roe, Canada, Limited, Malton, Ont., recently addressed the Kingston Branch of the Engineering Institute of Canada on the subject "Gas Turbine Engines with Special Reference to the Avro Canada Chinook."

Dr. C. G. Patten, Med. '46, is in private practice at Chilliwack, B.C.

Joyce Watson, Arts '45, has entered St. John's Anglican Convent in Toronto. Her name in religion is Novice Elda.

PARTICIPATE IN TREE-PLANTING CEREMONY

In a brief ceremony after Spring Convocation on May 21, a tree was planted in front of the new Students Memorial Union by members of Science '49 on behalf of the entire student body of Queen's. Left to right, with Principl Wallace, Hon. Ray Lawson and his A.D.C. looking on, Chancellor Dunning wields the shovel, while Eric Jofgensen, 1948-49 president of the Alma Mater Society.

QUEEN'S AND CANADA

Text of a Radio Broadcast Given by L. W. Brockington, B.A., LL.D., K.C.,
Rector of Queen's, over a Nation-wide Hook-up, May 22, 1949

I HAVE been asked to speak to you for a few minutes about something that is as Canadian as a maple tree. It is old because its roots go down deep into our Canadian earth. It is also young because every year it renews its green leaves of hope. Many Canadian men and women have carried into far and lonely places memories of its beauty and gratitude for its shelter. And, in great measure, because of that memory and that gratitude, they have so often been good men and good women, who have unselfishly served the Motherland that nursed them.

The Canadian thing to which I refer is Queen's University. I am only a temporary guest at its hearth. But I think that the greatest honour which has ever been my undeserved good fortune is my present companionship with those who gladly teach and gladly learn within its famous and kindly household.

May I tell you why I think it is a typical Canadian thing. But, before I do so, I would like to say that while its qualities, and perhaps its special virtues, may make it different from other places, no one worthy of its teaching and its example would claim that it is better than other schools of Canadian learning. They all deserve your support and have earned your proud respect. For neither Queen's, nor any other university, can be nobler than the character of the men and women who seek and give inspiration at its shrine. No community of Canadians can be other than the reflection of the proud homes from which they come; and the ideal university, which perhaps will never come into being, cannot deserve a greater praise than to be called a home of kind hearts, free minds, and a place where human lives are made richer. Queen's University, like most Canadian institutions, and most great things, started from a small beginning. It has been in existence for over a hundred years. It began as a little clearing in the backwoods of long ago, built upon by patient and hopeful hands. It had to grow slowly out of Canadian earth in a Canadian way, to meet Canadian needs. As one of its faithful servants said to me yesterday, "We never had enough money to imitate anybody else".

Queen's University was from the first a protest against domination by a Church that has long since learned the lesson of humility and the wisdom of non-interference. I hope Queen's will continue for ever as a protest against domination, either by Church or State. Although it has never grown to be big, it is interesting to recall that in 1869 there were two students in the final years in Arts and six in the junior year, and that a professor sat on one side of the stove discussing Hebrew roots, with a single student listening on the other side of the stove. That almost sounds like the famous American definition of education as "Mark Hopkins on one end of a log and a young man on the other end". It had many struggles for survival. The Scottish virtues of courage and perseverance, with which it was born, and

that great Canadian optimism that has always believed that clouds will break, combined to make it live. As Robert Burns once said of himself, so Queen's can say of itself

It knew misfortunes great and small
But had, aye, a heart abune them all.

As the years passed and it grew in service, it attracted men who, deaf to the call of money, remained at Queen's to give, rather than to take. Perhaps the names of Grant, Shortt, Cappon, Watson, Dupuis, Skelton, Wallace, and McNeill mean little to you, but in the great history of Canada, that will someday be written, many of their names will be inscribed in the Book of Gold commemorating the lives of gifted men who loved their fellow men. Under their hands, within the sound of their voices and the guidance of their wisdom, the traditions of this University were fashioned for Canada's sake.

Queen's has always been a University of men and women of little substance. It has produced few rich men. Today, the great majority of its twelve thousand graduates are teachers and ministers of the Gospel, doctors and engineers, most of them working gladly for small rewards. Its men and women have gone into the world to serve. Its teaching has always been that, for the lover of literature, all humanity and the humanities await him. For the artist, there is so much beauty before his feet to fashion and to sing; for the teacher, there are so many blinds to raise and so many windows to open for the wondering eyes of little children; for the engineer, there are so many great forces to harness for man's comfort; for the doctor, there are so many sick rooms to cheer; for the minister of every Church, so many ways of God to justify to man, so many charities and pities and mercies to hold before the eyes of sorrow. Queen's has believed too, I think, that the true end of a university is to stimulate the spirit of free enquiry, to help men to ask better questions and to receive better answers, and by intimate communion between student and student, and teacher and student, to encourage what one of Queen's Professors called "the golden heresy of truth".

Its undergraduates have always been a cross-section of Canada. The greatest number was thirty-two hundred last year; its present enrolment is twenty-eight hundred. It hopes to reduce the number of its students to twenty-two hundred; not because it wishes to receive less, but because it wishes to give more. Queen's believes that a small university can best fulfill that high mission. Of every ten students at Queen's today, not more than two belong to Kingston and its district. Over six hundred of the present enrolment came from provinces other than Ontario, from countries other than Canada. Nothing has impressed me more than the fine tolerance and humanity and generosity of the student body. It has no fraternities or sororities, but throughout its fabric there runs a fine strong thread of human brotherhood and sisterhood.

When I was speaking the other day to a gathering of its friends, I reminded them of some of the little things I had noticed on my visits to this University; coloured students are always treated with equality and

dignity; Jewish students are never allowed to remember the old unhappy and unjust prejudices; French-speaking students help to seal, in all its fullness, the fine citizenship of Canada. I recall, too, one Colour Night, when the captain of the football team gently, modestly, unobtrusively, and without sentimentality brought to the party, as his particular guest, a young lady whom a cruel fate had stricken with a heavy physical burden. And so often, with particular reference to returned soldiers, and sailors and airmen, the Padre has told me of secret generousities, of strong arms placed around shoulders helping men to self-respect and self-redemption.

The students of Queen's are allowed and taught to govern themselves by self-discipline, which is the best of all disciplines. They regulate, in a large measure, their own conduct and punish their own transgressions. Their best scholars this year are men who bravely held high the honour of their country in the war that is over. Like good Canadians, they play hard and work hard. They do not always win the games they play, but, like true sportsmen, they have usually shown chivalry in victory and courtesy in defeat.

The graduates of Queen's have always been a rather clannish people, partly, no doubt, because they have been bred in the Scottish tradition, believing, with John Ruskin, that the noblest virtue which men have practised is the virtue of loyalty, and the sweetest word which men have learned in the pastures of the wilderness is "fold". By that word "fold" he means, I think, the gathering of men and women together in peace and concord, beneath the benediction of wise laws and gentle governance. Queen's has always shown that fine tolerance which I like to think is typically Canadian. It has believed that truth, like a precious jewel, has many facets. Gentile and Jew, Protestant and Catholic, French-speaking and English-speaking have all been equal in the sight, the favour, and the constant care of their Alma Mater. Queen's is, and always has been, in a good manner a Christian University. It has always sought to keep strong the foundations of those eternal verities which are the springs of honourable conduct. Perhaps that is why I can say with truth that no men and women have had, for their numbers, a greater influence on the life of Canada than the men and women who have learned the lessons of citizenship in the College on the banks of the St. Lawrence. To the government of Canada, to the teaching of Canada, to the healing of Canada, to the guidance of Canada, to the building of Canada, to the inspiration of Canada, the contribution of its men and women has been noble and enduring.

Today, rising costs, the loss of grants, the determination to maintain quality in teacher, in teaching and in student, the desire to keep sterling the hall-mark of its graduation, the need of greater revenue, the fear of losing an individuality that has been forged and tempered and sharpened for a century, all these things have forced this University to appeal first to its sons and daughters and, secondly, to its friends wherever they may be. It has often been said that the present age is a race between catastrophe and education. Today, in Britain, about two hundred of every one hundred

thousand go to a university. In Canada, about nine hundred out of every hundred thousand attend our various colleges of higher learning. In the United States, about eighteen hundred out of every hundred thousand are given that opportunity. There is an ever-growing place for the great provincial universities, which have opened so many doors of opportunity to the sons and daughters of Canada. But it will be a calamity if a little university, a free university, a university that wants to grow not bigger but better, a university that has been and is a natural and national training-school for young men and young women from every part of Canada, should be forced to pass from the free air of independence into the closer atmosphere of State aid and State control.

I have been able to speak to you as I have, because I am, as it were, a stranger sitting at the genial hearth of a great and noble household. I am an admirer of its labours and not the heir of its virtues. I hope that you will take whatever opportunity is given you to help Queen's University to survive. Her needs and her demands are modest. Tomorrow, she will receive, in ever growing measure, the sacrificial support of her graduates, who owe her so much. If you who are listening to me are one of those graduates, may I just send you the affectionate greetings of your ancient college, knowing that you, above all, will be mindful of her needs and do all you can to help her to flourish in the future, as she has in the past, for the service and honour of the Land we love.

MRS. W. R. HAMBLY HEADS ALUMNAE ASSOCIATION

AT the annual meeting of the Queen's University Alumnae Association held in Kingston on May 7, Mrs. W. R. Hambly (Edna McGill), Arts '12, was elected president. Other officers elected were: first vice-president, Miss Jean Royce, Arts '30, Kingston; second vice-president, Mrs. A. G. Racey (Phyllis Leggett), Arts '31, Montreal; third vice-president, Mrs. W. I. Garvock (Ethel Guthrie), Arts '15, Ottawa; secretary, Mrs. W. R. Alder (Beatrice Helmky), Arts '18, London; treasurer, Miss Clunas McKibbin, Arts '40, London; archivist, Miss Nancy Foster, Arts '48, Kingston; councillors—Mrs. C. F. Washington (Jean Malcolm), Arts '26, Walkerton; Miss Jean Tweddell, Arts '12, Kingston; Miss Mary McCallum, Arts '16, Smiths Falls; Mrs. J. T. Cloke (Frances Hayward), Arts '41, Hamilton; Miss Mar-

garet Cameron, Arts '38, Montreal; Mrs. Edna L. Page (Edna McCartney), Arts '19, Vancouver; Miss Helen Davidson, Arts '30, Toronto; Levana representative, Miss Elizabeth Corlett, Arts '49, Kingston.

A. A. Day Appointed Secretary To Royal Commission

A FORMER associate professor of classics at Queen's, Archibald A. Day has been appointed secretary to the royal commission on national development in the arts, letters, and sciences. Mr. Day, graduate of the Universities of Toronto, Paris, and London, served overseas at Canadian military headquarters in London and at Canadian Army headquarters on the Continent. He was appointed to the external affairs department as first secretary in 1947.

709 GRADUATE AT SPRING CONVOCATION

TWO CEREMONIES REQUIRED TO ACCOMMODATE RECORD NUMBER

SEVEN hundred and nine men and women earned degrees by examination this spring to establish a new record at Queen's. The degrees were granted at the 108th Spring Convocation, held in Grant Hall, on May 21. So large was the graduating class that two ceremonies were held, one in the morning for the Faculty of Applied Science and the School of Commerce, and one in the afternoon for the Faculty of Arts and Queen's Theological College. Both attracted capacity crowds of friends, relatives, and students.

Morning Convocation

At the ceremony in the morning, 324 were given degrees: M.Sc., 7; B.Sc. (honours), 23; B.Sc. (pass), 182; M.Com., 1; B.Com., 111. Honorary degrees were presented to four men: Prof. Manly Benson Baker, emeritus professor of geology, Queen's; Prof. Stanley Newlands Graham, emeritus professor of mining engineering, Queen's; Robert Crooks Stanley, president of the International Nickel Company, New

York City; William Benjamin Timm, director, Mines and Geology Branch, Department of Mines and Resources, Ottawa. Principal Wallace presented the candidates for honorary degrees to Chancellor Dunning with the following citations:

M. B. BAKER—"Who by ability and constructive statesmanship developed the teaching of geology in this University to a standard that commands the regard of our sister institutions throughout the continent."

S. N. GRAHAM—"Who by his high standing in his profession maintained and enhanced the reputation of mining engineering at Queen's University in an outstanding way."

R. C. STANLEY—"A man of worldwide reputation, whose wise and foresighted guidance of a great company has meant much for the prosperity of Canada and for Canada's position in international trade."

W. B. TIMM—"A tried administrator whose service over many years in the

MORNING CONVOCATION GROUP

Front row, left to right: Dean Mackintosh, Principal Wallace, Dr. S. N. Graham, Dr. R. C. Stanley, Chancellor Dunning, Dr. W. B. Timm, Dr. M. B. Baker. Second row: Miss Dorothy Riches, G. J. Smith, Miss Jean Royce, Brigadier G. Walsh, Dean Ellis, Mayor C. A. Curtis, Dean Melvin. Third row: Prof. A. Jackson, Dr. L. W. Brockington, Rev. A. M. Lavery, Dean Douglas, Col. W. R. Sawyer

developing and processing of our Canadian mineral wealth has been held in high regard by all who are concerned with Canada's material progress."

Mr. Stanley replied on behalf of the recipients of honorary degrees. In his remarks he referred to the speed with which new ideas spread throughout the world today and warned of the danger inherent in such speed. "We must create improved techniques to cope with a blitz of ideas, to distinguish the good from the bad," said Mr. Stanley. "We cannot expect over-night to meet effectively this new challenge in each home in which these ideas are daily presented, but we can and must meet it wherever possible. In the first place, it must be met by the leaders in each community without whose support these new ideas cannot be translated into action."

"And these leaders are and will be those who have had the advantage of training in our colleges and universities," said Mr. Stanley. "An important part of that training is the development of the critical faculties—the ability to reason, to analyze, to compare, to exercise an informed, independent judgment. These faculties must be sharpened so as to meet, recognize and reject unsound schemes with the same rapidity as that with which these can now be presented. On the other hand, these faculties must also be developed to recognize, retain, and develop new ideas when, upon analysis, they are found to be good and constructive and of benefit to the community."

In his remarks to the graduating class, Principal Wallace advised his listeners that when they go out with high aims to set the world right they must not be disappointed if in their lifetime they do not realize all their hopes. "But my counsel is not one of pessimism," he said. "On the contrary. The gains that have come have been due to men and women like yourselves, of high purpose and unwavering faith, who have believed that enlightenment can come, and who have dedicated themselves to that belief."

The Principal said that it is fundamental to believe that there are values that endure. "Justice and goodness and truth are not man-made qualities. They

are of the essence of the divine. We carry them on from generation to generation in the great purpose of the universe. It gives us much confidence, as we bid you Godspeed, to feel that you have learned that they are the deepest things in life during these golden years at Queen's on which you look back to-day."

Afternoon Convocation

At the convocation in the afternoon, 385 received degrees: B.D., 2; M.A., 20; B.A. (honours), 91; B.A. (pass), 272. In addition, two diplomas were granted in laboratory technique. Honorary degrees were presented to six men: LL.D.—Percy Gerald Cadogan Campbell, emeritus professor of French language and literature, Queen's; Stanley Harwood McCuaig, president of the Canadian Bar Association, Edmonton, Alberta; His Honour Ray Lawson, lieutenant governor of the Province of Ontario, Toronto; D.D.—Henry Welsford Cliff, Cooke's United Church, Kingston; David William Hay, professor of systematic history, Knox College, Toronto; Charles Roderick Finlayson MacLennan, Trinity United Church, New Glasgow, Nova Scotia. Principal Wallace presented the honorary degree candidates to Chancellor Dunning with the following citations: P. G. C. CAMPBELL—"The dean of the teaching staff of Queen's University, who during his long service of forty-six years charmed his colleagues by his urbanity and stimulated his students by his enthusiasm."

S. H. MCCUAIG—"Who, coming out of the West, has brought honour back East to his Alma Mater through the tribute which the Canadian Bar Association has paid to him in electing him to the presidency, their highest office."

THE HONOURABLE RAY LAWSON—"Who represents His Majesty the King in our province with a high dignity, and who has won the regard of all by his human sympathy and his unfailing devotion to public responsibilities."

H. W. CLIFF—"Who has given signal service to his own congregation, to the Theological College, and the Theological Alumni over many years."

D. W. HAY—"Whose distinguished gifts in scholarship and in preaching were made available to the Presbyterian Church and to Canadian religious life through his appointment to the Chair of Systematic History at Knox College."

C. R. F. MACLENNAN—"Who comes back to be honoured by his Alma Mater after a long and influential pastorate."

THE HONOURABLE RAY LAWSON replied on behalf of the recipients of honorary degrees. Speaking to the graduating class he said that success lies in the proper division of the 24-hour day—eight hours for sleep, eight hours for work, but the most important are the other eight hours. It is the efficient use of the other eight hours which means the difference between success or failure, he said.

"If those other eight hours were well spent there would be no failures, little sickness, and less crime," said Dr. Lawson. "Our clergy would have less work and our social organizations would have little to do. If the other eight hours were properly directed for moral, physical, and spiritual development, mankind's improvement would be amazing—play, amusement, exercise, and study

are all necessary to fit us for the eight hours' sleep and for the eight hours' work."

Dr. Lawson urged his listeners not to let the material things of life influence their future. He told them that the greatest pleasure they were going to receive would be in the satisfaction of achievement.

In his remarks to the graduating class, Principal Wallace spoke on "The Faith We Live By." "I can wish for you nothing greater than a faith which has an anchorage in the eternal, and which will sustain you in your purposes in life," he said. "May they be hitched to the stars. May they give you a deep sense, if not of achievement, of inner satisfaction and true happiness."

There are fundamental values in life which have not been created of man's own volition, the Principal said. "Justice, goodness, and truth are rooted in the eternal verities. We are but the vessels that carry them on to men and women who come after us. They are timeless. They endure when all else passes away. This world is not an accident. It has a purpose, and we are the means at hand to carry out that

AFTERNOON CONVOCATION GROUP

Front row, left to right: Dr P. G. C. Campbell, Dr. S. H. McCuaig, the Honourable Ray Lawson, Chancellor Dunning, Principal Wallace, Dr. H. W. Cliff, Dr. D. W. Hay. Second row: Dr. C. R. F. MacLennan, Lt. Col. T. F. G. Lawson, G. J. Smith, Principal Kent, Mayor C. A. Curtis. Third row: Dean Mackintosh, Dean Ellis, Col. W. R. Sawyer, Dr. L. W. Brockington, Miss Jean Royce, Rev. A. M. Laverty, Dr. A. Vibert Douglas.

purpose. It will help you to know, in time of stress, that there is a great cloud of witnesses behind and before us who too have played, or will play their part in the great design. It is no less than the fulfilment of the Kingdom of God on earth. It will come in his own good time, if we but persevere."

After laureation of the graduates, scholarships, medals, and prizes were presented.

RE-ELECT J. M. MACDONNELL AS CHAIRMAN OF BOARD

J. M. MACDONNELL of Toronto, chairman of the Board of Directors since 1930, was re-elected at the spring meeting held on May 21. At the same time J. M. Farrell of Kingston was re-elected as vice-chairman.

The Principal's report covered the work and affairs of the University during the past year. Particular reference was made to the problems to be faced in connection with declining revenues and increasing costs.

The Treasurer's report showed that the revenue and expenditure for 1948-49 was the largest in the University's history: revenue, \$1,675,936; expenditure, \$1,673,895; surplus for year, \$2,041.

The report of the building committee, presented by Chairman T. A. McGinnis, covered McLaughlin Hall, Students Memorial Union, Gordon Hall extension, synchrotron for atomic research, new boiler at the Central Heating Plant, installation of new electrical distribution system.

Progress and results to date in connection with the endowment campaign were reported by M. N. Hay, chairman of the central committee, and M. C. Tillotson, director of endowment.

The following were appointed to the Ban Righ Hall Board: Miss Mabel Roberts, Brockville; Miss Jennie Tweddell, Kingston; Rev. Dr. G. A. Brown, Kingston.

Staff changes included Prof. J. H. Brovedani, who is to retire this fall after thirty-five years' service, and who was made emeritus professor of Spanish. A. R. C. Duncan, recently on the staff of the University of Edinburgh, was ap-

pointed professor and head of the Department of Philosophy. Dr. J. M. Blackburn, recently associate professor of psychology at McGill, was made professor and head of the Department of Psychology. Assistant Professor A. M. Fox was made acting head of the Department of Spanish. H. M. Good will be assistant professor in biology and R. A. MacLeod will be assistant professor in biochemistry.

Promotions included Professor Henry Alexander as head of the English Department, and Prof. Hilda Laird as professor and head of the German Department. Retirements included that of Dr. E. Flammer, professor of mathematical physics, and a member of the staff for thirty years.

Among the resignations were Prof. L. F. Grant in civil engineering and Dr. G. B. Harrison, professor of English and head of the Department of English Language and Literature. R. C. Lodge, professor of philosophy, and Brother Roger Philip, professor of psychology, will also be leaving after having filled temporary appointments.

Leave of absence for one year was granted to Dr. R. G. Trotter, Prof. J. L. McDougall, Dr. C. R. McLean, Prof. J. E. Hodgetts, Prof. Glen Shortliffe.

DR J. H. BROVEDANI
Emeritus Professor of Spanish

ALUMNI ASSOCIATION PROVES VALUABLE TO CAMPAIGN

THE value of the General Alumni Association was never more evident than during the months that the University's endowment campaign was being planned and put into operation, it was reported at the semi-annual meeting of the Board of Directors held in the Douglas Library on May 21. The president, Mrs. D. W. Boucher, was in the chair.

The Alumni Association was a by-product of the last endowment campaign, in 1926, when it was realized that such an organization would be of invaluable assistance to the University and the graduate body. Now, when the University is in desperate need of funds and another campaign has been launched, there is a considerable amount of machinery already set up, in the form of alumni branches. All over the country there are groups of alumni organized as branches and all are playing a prominent role in the present campaign. In some instances the branch executive has taken on the details of the drive, in others members of the executive have formed the nucleus of a larger endowment committee. In all cases the branches have been of tremendous assistance.

And the General Alumni Association has benefited from the interest stirred up in the endowment campaign. Branches which had become inactive as a result of the war and which had been dormant since have been revived and reorganized. New branches have been formed where none existed before because the alumni themselves recognized the need.

The report of the Employment Service showed that there were still more positions available than there were graduates to fill them, although the difference was not so marked as during the past few years. The picture was equally bright for students seeking summer employment.

W. P. R. Holdcroft and J. L. Murray of Kingston were appointed for a one-year term and R. N. Bassarab and Dr. D. W. Boucher were appointed for a two-year term as alumni representatives on the Athletic Board of Control.

J. H. Stewart reported that the Toronto branch would like to establish a permanent alumni secretariat in Toronto as it was felt that such an office would be of the greatest advantage in conducting alumni affairs. Representatives of other branches pointed out that their branches had the same problems as Toronto but not the same opportunity for income. Finally it was agreed to set up a committee to discuss the whole matter and present a report at the next meeting. Named to the committee were J. B. Stirling, M. N. Hay, Dr. Wallace Troup, Dr. J. E. McAskill, Dr. W. A. Mackintosh, and the Secretary-Treasurer. In addition there is to be a representative appointed by the Toronto branch.

Present at the meeting were: President Mrs. D. W. Boucher, Past Presidents A. C. Hanley and D. A. Gillies; First Vice-President Dr. J. E. McAskill; Second Vice-President J. B. Stirling; Dr. J. H. Orr, Dr. J. E. Hammett, M. N. Hay, R. M. Winter, Dr. Wallace Troup, J. H. Stewart, Dr. W. A. Mackintosh, Dr. C. H. McCuaig, W. M. Goodwin, M. J. Aykroyd, C. B. Murphy, Dr. E. L. Bruce, and the Secretary-Treasurer.

Seven Granted Testamurs At Spring Convocation

AT a ceremony held in Convocation Hall on April 27, seven graduates of Queen's Theological College were presented with testamurs.

Rev. Dr. H. A. Kent, principal, who presided, pointed out in his remarks that theological teaching had been going on at Queen's for 108 years. "The background of Queen's was the training of men for the ministry," he said. "Queen's is the child of the Christian Church."

Guest speaker was Rev. John Y. MacKinnon, London, Ontario, who emphasized the value of preaching. He said that there is no substitute for preaching and he advised his listeners to pay attention to their public speaking. He also stressed the importance of scholarship and the need of prayer.

Assisting in the service were Rev. H. W. Cliff of Kingston and Rev. Dr. W. E. L. Smith of Queen's.

ALUMNI SUPPORT ENDOWMENT CAMPAIGN

DIRECTOR M. C. TILLOTSON GIVES ENCOURAGING REPORT

IN the first seven weeks of this fiscal year as many alumni have contributed to the Endowment Fund as in the whole of last year, and the average contribution has exceeded the \$25 established as the minimum necessary to ensure the success of the campaign, Morley C. Tillotson, director of endowment and assistant treasurer of the University, reported at the meetings of the University Council and the Board of Trustees held on Convocation weekend.

Since the first of last April, the Endowment Office has received 674 contributions from alumni for the Alumni (Maintenance) Fund, totalling \$20,746, and 66 contributions from other individuals and organizations to a total of \$306,409, said Mr. Tillotson. Also, the alumni have pledged for payment to the Alumni (Maintenance) Fund during the next four years approximately an additional \$60,000, and other individuals and organizations have pledged an additional \$80,050 to be paid within the same period.

Many graduates living in the United States have not consistently contributed to the University for the reason that they could not obtain U.S. income tax exemption, Mr. Tillotson pointed out. So, an organization called "Friends of Queen's, Incorporated" is now in process of being established. When this is effected, United States corporations and individuals will be permitted to contribute to it and obtain tax exemption within the limits of the federal income tax legislation.

Mr. Tillotson referred to the fact that the Alumni Association had grown out of the 1926 endowment campaign and said that in his opinion it was the most important result of that campaign. The alumni, scattered all over the world with no definite organized tie with the University, were brought together in one association with a considerable number of operating branches located in districts where graduates were concentrated.

Tribute was paid to G. J. Smith, who served as director of endowment from 1939 to 1948, and the work that he had done in setting up the Endowment Office. One of the first steps undertaken had been to enlist the interest and co-operation of the undergraduate body and this had been done by encouraging the graduating years to establish new scholarships or to take on the responsibility of raising capital sums that could be used to endow certain unendowed scholarships which the University was awarding out of its own limited resources. Graduating years in Science have already taken over twelve of the

M. C. TILLOTSON

fourteen Science scholarships that had been previously provided by the University.

The Alumni Fund idea was then formulated and announced to the alumni through the *Queen's Review* and by personal letters. Literature concerning the needs of Queen's and pledge forms were prepared and distributed. The Endowment Office, under Mr. Smith, also undertook to follow up unhonoured pledges from the 1926 campaign. In addition a large list of Canadian and American companies and a list of individuals who could be con-

sidered prospective benefactors were prepared. These lists, with pertinent information concerning each prospect, were very valuable during the 1944 excess profits campaign. In fact, the year 1944 produced the greatest amount of money so far during this decade.

Another method introduced by Mr. Smith was the solicitation of funds by will bequests. All alumni practising law have been sent sample types of bequest clauses for insertion in wills of those people who can be encouraged to leave something to the University. These forms have been published and will again be published in the *Review* for the benefit of all graduates who might like to leave a bequest to their Alma Mater.

Other funds have come to the University as a beneficiary of a considerable number of insurance policies that have been carried by graduates, said Mr. Tillotson. Mr. D. J. Day was the sponsor of this type of endowment.

During Mr. Smith's tenure of office the University received, apart from Government benefactions, a total of \$2,718,159.50 for one purpose or another, said Mr. Tillotson. While the Endowment Office could not and would not claim it was responsible for raising all this money, it did play a significant part.

Mr. Tillotson said that he had been asked on many occasions by many graduates: "How much should I give?" In reply to this he had prepared a statement which he frankly admitted he had plagiarized from a booklet distributed by an American university. Now entitled "What do I owe Queen's University?" it reads as follows:

"From the standpoint of bookkeeping in the Treasurer's Office you probably do not owe Queen's University a cent. As a student you paid your tuition and therefore considered your account clear.

"As an actual fact, the tuition in fees paid by students represents only a part of the full cost of educating that student. The balance has been supplied by gifts and grants made to Queen's University in recognition of the great value of its work to the individual and to society. Every student who ever attended Queen's has enjoyed a particular spiritual and material benefaction.

"Therefore, we cannot look at our indebtedness to Queen's from the narrow viewpoint of bills rendered and paid. There are debts which cannot be billed. There are further gifts of friendship, happiness, and personal development gleaned from the days at Queen's upon which no material value can be placed.

"Thousands of men and women owe to Queen's their careers and their usefulness and success. Here their talents and capacities were developed; here they found a pathway leading from environments which were often limited and uncongenial to expanding opportunity and achievement.

"The Alumni (Maintenance) Fund gives to each Queen's man or woman the opportunity to repay the enduring debt owed to their Alma Mater. I hope each former student of Queen's will embrace this opportunity with generous and eager enthusiasm."

To those who ask "How much shall I give?", Mr. Tillotson said he answered "Give within your means." The president of a great university has stated: "When men contribute financially to a cause in which they are interested, their solicitude for the validity of that cause becomes even more intensified than before." Judging from the contributions of some individuals, the speaker said he suspected they were not giving up to their means unless their benefactions elsewhere are many and large.

"To those who say 'What can I do to help Queen's?' I answer 'Raising funds for Queen's should be a religion with you,'" said Mr. Tillotson. "It is incumbent upon you to do your share and to see to it that others do theirs, but you can also help your Alma Mater by doing whatever you can to bring the fortunately few recalcitrants back into the fold, by directing students to Queen's and by impressing upon the parents of prospective university students what this University stands for and the value of an education received at Queen's. In short I am suggesting that every alumnus should be cognizant of the value of the goodwill that he or she can gain for Queen's. Our public relations need strengthening and the Endowment Office solicits your support."

FIELD WORKERS BUSY ORGANIZING ALUMNI GROUPS AS ENDOWMENT CAMPAIGN GATHERS IMPETUS

ALUMNI meetings in connection with the endowment campaign were held in a score of centres during April and May. There is now only a comparatively small percentage of the Queen's constituency that remains to be organized.

Principal Wallace continued his rigorous schedule with visits to Sarnia, London, Brockville, Port Hope, Gananoque, and New York, in addition to visits to several other centres on behalf of the special names canvass. Dr. S. M. Gilmour, associate director of endowment, visited the prairie provinces, and Rev. J. R. Leng, on brief leave of absence from the Board of Home Missions of the United Church of Canada, made a tour of northern Ontario. Rev. A. M. Laverty, University chaplain, went to Peterborough and also attended the annual meeting of the Windsor alumni branch.

Approximately sixty were in attendance for the Sarnia meeting held on April 11 at the hotel, with Principal Wallace as the speaker. President T. B. Doherty of the Sarnia branch was in the chair. It was reported that the organization for the campaign was practically complete. Mr. Doherty is the general chairman, and R. E. Waller is in charge of the alumni canvass.

For the meeting in London, at the Hotel London, on April 12, there were eighty present. Principal Wallace was the speaker, outlining the needs of Queen's. Prof. G. M. McCracken was elected branch president for the ensuing year, with M. H. Wilson as the secretary-treasurer. W. A. McWilliams was appointed as chairman of the endowment committee and J. O. Hughes will head up the special names canvass.

At the first alumni meeting held in Brockville in years, approximately one hundred attended the dinner held in the Hotel Manitonna on May 4, with A. E. Thompson as chairman. The toast to the University was proposed by Miss Mabel Roberts and Principal Wallace responded. Elwood Oakes led the gathering in a sing-song and Miss Eleanor Mc-

Broom contributed a group of vocal solos, with W. E. Fletcher providing the piano accompaniment. The following committee was set up to take charge of the endowment campaign and to consider the advisability of forming an alumni branch: president, Dr. C. M. Bracken; vice-president, D. A. Grant; secretary-treasurer, Miss Marjorie Lewis; publicity secretary, Mrs. R. C. Swerdfeger; special names, G. A. Beale; general canvass, W. W. Ashworth; representatives—J. M. Purvis, Kemptville; Dr. R. P. Walker, Prescott; Mrs. H. P. Beale, Athens.

About seventy alumni in Port Hope and surrounding district attended the meeting held in the United Church, Port Hope on April 27, at which Principal Wallace was the guest speaker. Chairman was A. H. Ross, who spoke briefly regarding the purpose of the meeting and introduced Dr. Wallace. The speaker was thanked by C. J. Tottenham. The toast to "Our Alma Mater" was proposed by Miss Lottie Hammond. P. J. Bigelow, head of the local campaign committee, outlined briefly the details of the drive for funds, and introduced his committee consisting of Miss Lottie Hammond, R. G. Frederick, A. G. W. Lamont, A. H. Ross, Mrs. H. R. S. Ryan.

Plans for the endowment campaign in the Gananoque area were formulated at the meeting held in the Provincial House on May 10, with fifty in attendance. The chairman was W. F. Hiscocks. Introduced by Dr. J. G. Jenkins, Principal Wallace was the guest speaker. He was thanked on behalf of the gathering by Dr. K. C. Gray. Also speaking briefly were Rev. A. M. Laverty, University Chaplain, H. J. Hamilton of the General Alumni Association, and Dr. H. W. Curran of Queen's staff who showed a film of the Biological Station at Lake Opinicon. In the brief business session that followed the following committee was appointed to look after the endowment campaign and to consider formation of a branch; Mrs. A. G. S. Wart-

man, Mrs. G. G. Hood, J. F. McGuire, W. F. Hiscocks, J. W. Sigsworth, and Mr. and Mrs. G. V. Roney.

Rev. A. M. Laverty attended the annual meeting of the Windsor branch which took the form of a banquet in the Hotel Norton-Palmer, on April 25. One hundred and three were present. A new executive was elected with W. W. Muir as president, and Don Hedley as secretary-treasurer. Gordon Fraser, solicitor for the City of Windsor, proposed the toast to Queen's, and the Padre, in response, spoke of Queen's present needs and future plans. While in the city, Mr. Laverty discussed endowment plans with various alumni and parents of undergraduates.

The Padre attended a small dinner of those who were undertaking the graduate canvass in Peterborough which was held at Trinity United Church on May 12. Present were fifteen canvassers and six members of the alumni executive. Excellent preparations had been made by the co-chairman, Miss Jean Lancaser and the Rev. Dr. Bruce Gordon. The canvassers' kits were placed in the hands

of those who volunteered for the work, and the entire list of graduates in the area had been divided up so that no canvasser had more than seven to solicit.

Visits Western Canada

Dr. S. M. Gilmour visited the western provinces during the latter part of April and the month of May. This was the first visit to western Canada by a member of the Central Endowment Committee. Some preliminary work in connection with the campaign had been done by J. Alex Edmison during the course of his tour of the western provinces on behalf of the United Nations Society and the John Howard Society.

On April 23 Dr. Gilmour spoke at a meeting of alumni held in the Marlborough Hotel, Winnipeg, with about forty-five in attendance. A strong endowment committee of twelve to fourteen members was elected with Ian McLandress as chairman. Mrs. R. A. Macpherson was elected as president of the Winnipeg branch for the ensuing year.

Twenty-five attended a meeting held in the Board Room of Metropolitan United Church in Regina on April 28, to hear Dr. Gilmour and to make plans for the local campaign. A new branch executive, which was also charged with the responsibility of conducting the drive, was appointed as follows: president, T. M. Spencer; vice-president, Mrs. E. L. Gray; secretary-treasurer, F. A. Rutherford; committee—Miss Katharine Stephen, Dr. F. C. Dobie, Dr. J. G. Wright, H. C. Flegg, M. Brodie, D. F. Milliken, M. S. McCracken. The campaign committee consists of L. A. Thornton, chairman; F. A. Rutherford, secretary-treasurer; H. C. Flegg, chairman graduate canvass, Regina; T. M. Spencer, chairman graduate canvass, Regina district; L. A. Thornton, chairman special names.

At Saskatoon, Dr. Gilmour addressed a supper meeting held in Westminster Church Hall on May 3. A. A. Murphy agreed to act as campaign chairman and plans were made to conduct the campaign during the next three weeks. A new executive was elected for the alumni branch, for details of which see Branch News.

DR. S. M. GILMOUR
Associate Director of Endowment

At Edmonton on May 12, Dr. Gilmour met with a small group of enthusiasts. The opinion was expressed that Edmonton was a good Queen's territory and that a far higher average contribution than \$25 could be obtained. G. H. Steer, K.C., and Dr. J. O. Baker accepted the co-chairmanship of the endowment committee and A. W. Haddow will serve as secretary-treasurer. Plans call for an immediate canvass of graduates in Edmonton, to be completed by June 10. Alumni in Northern Alberta will be reached by mail.

Twenty were on hand for the dinner meeting in the Empress Grill at Calgary, which Dr. Gilmour visited on May 13. The following committee was appointed: chairman, Alex Calhoun; secretary-treasurer, Mrs. W. L. Sexsmith; city canvass, F. L. Perry, R. K. Motherwell, D. MacArthur, E. B. Asselstine, Mrs. S. R. Robbins; outside city canvass, Dr. H. A. Gibson, W. J. McGill, Mrs. A. N. Woods.

Forty attended a meeting held in Vancouver on May 21, at which Dr. Gilmour outlined the case for Queen's. A new branch executive was formed consisting of: president, O. F. Lundell; vice-president, Principal Kenneth Taylor; secretary-treasurer, Dr. C. R. Salsbury; committee—Dr. A. R. Lord, Prof. M. A. Cowie, Dr. F. C. Bell, Mrs. Edna Page, Miss Ruby C. Nash. At a subsequent meeting on May 25 it was agreed to conduct the campaign in Vancouver in the fall.

Dr. Gilmour addressed a meeting of alumni in Victoria on May 23 at which approximately twenty were in attendance. After a dinner meeting at "Terry's", the gathering adjourned to the home of Dr. and Mrs. Vincent W. Smith. A strong endowment committee was set up, consisting of: chairman, Dr. E. W. Boak; secretary-treasurer, Mrs. C. B. Conway; committee—Dr. and Mrs. Vincent Smith, Ralph Matthews, W. H. Hughes. The committee agreed to undertake an immediate canvass of all graduates on the Island.

A dinner meeting of the Kootenay alumni branch was held in the Blue Room, Crown Point Hotel, Trail, B.C., on May 26, attended by fourteen gradu-

ates. Also present were Prof. T. V. Lord of Queen's, and Dr. R. W. Diamond, LL.D. '48. Plans were made to conduct an immediate campaign in the Kootenay area and President C. H. Simpkinson was empowered to name the endowment committee.

Northern Ontario Organized

Mr. Leng met with the Porcupine alumni branch on May 9 and addressed a gathering of sixty people on the needs of Queen's. The president, S. B. Hansuld announced that the canvass would get under way in the near future. The committee in charge consists of the branch executive.

At Kirkland Lake on May 10, Mr. Leng spoke at a dinner meeting of the Kirkland Lake branch. A new executive was elected, with R. W. Thompkins as secretary, and this group will conduct the canvass in that area.

Mr. Leng also visited the Cobalt-Haileybury area and made arrangements with O. E. Walli to organize this district which includes Cobalt, Haileybury, New Liskeard, and Englehart. At North Bay, Mr. Leng attended a dinner meeting at which thirty were present. Plans were made to start the canvass of alumni and local industries immediately. Mr. Leng concluded his tour with a visit to the Northwestern Quebec alumni branch which held a dinner meeting and dance at Malartic, Quebec. One hundred and fifty were in attendance. Details of the campaign will be handled by the branch executive.

Will Represent Queen's Students At I.S.S. Summer Seminar

JOAN KEOUGH of Revelstoke, British Columbia, and Kenneth Lendon, of Toronto, Ontario, are the Queen's students who have been selected to attend the second international summer seminar sponsored by the International Student Service of Canada. The seminar will be held at Castle Bouvigne, near Breda, Holland, July 11 to August 15.

The subject which the session will develop by means of lectures and discussions is "The Individual in Society."

Preparations are progressing for the 70-MEV synchrotron (a type of "atom smasher") which is to be installed during the month of June. The illustration shows the underground room at the north end of Ontario Hall which will house the magnet, vacuum equipment, capacitor bank and starting equipment. At the left end is the interconnecting passage between the machine and control rooms. In the control room will be the control desk with instrument and sequence-control panels for remote operation. Interlocks and safety switches are to be incorporated so that the power cannot be applied when anyone is in the machine room.

Dr. H. W. Curran Awarded Shield As Kingston's Man of the Year

R. H. W. CURRAN, professor of biology, was recently presented with the "Man of the Year" Shield by the Junior Chamber of Commerce in Kingston.

Among the "many works for the community" were listed the management and teaching at Queen's biological station at Lake Opinicon, and his activities in the Kingston and District Rod and Gun Club of which he is a past president. Dr. Curran was twice president of Kingston Film Council and a charter president of the Federation of Film Councils of Eastern Ontario. He is director of the Associa-

tion of Film Councils of Ontario and chairman of the St. Lawrence-Ottawa zone of the Ontario Federation of Anglers and Hunters and in charge of foreign films at Queen's.

Large Number Attend Firefighters Training School

FEATURED by the best representation in years, the annual Firefighters Training School at Queen's on May 12-13 was attended by delegates from seventeen Eastern Ontario municipalities, from Kingston and Collins Bay Penitentiaries, and from Canadian Industries Limited. There were sixty enrolled for the course.

OCTOBER 15 WILL BE REUNION WEEK-END

REUNION week-end will be the occasion of the Western-Queen's football game and Fall Convocation on October 15, it was decided at the semi-annual meeting of the Board of Directors of the General Alumni Association on May 21.

After a lapse of ten years, the Dix Reunion Plan will be put in operation again. Under this schedule, forty-two classes will be invited to hold a reunion this fall. Of course, any other class may hold a reunion if desired, and at least two—Science '15 and Medicine '29—are making such plans.

Although the week-end of October 15 has the official sanction, it is hoped that some of the classes will prefer to hold their gatherings on the week-ends of the other games, namely, McGill-at-Queen's on October 29 and Varsity-at-Queen's on November 12. Such an arrangement would ensure that all classes could get accommodation for their dinner meetings.

Last year the official reunion was held on the week-end of the McGill-Queen's game on October 9, and five classes came back for the festivities. On the week-end of the Western-Queen's game, two classes held reunions, and on the week-end of the Varsity-Queen's game, four classes. This year it is hoped that the resumption of the Dix Plan will induce a much larger number of classes to return to the campus.

It is expected that the new Students' Union will be completely ready for occupancy at the beginning of school term next fall, and it was this development that influenced the Board of Directors to put the Dix Plan into operation again. The facilities of the Union will make possible a great many more class reunions than would otherwise be the case.

Events already arranged or under consideration, in addition to the football game, include Autumn Convocation, University Reception, Reunion Address, Alumni Luncheon, annual meeting of the General Alumni Association, fall meetings of the University Board of Trustees and Board of Directors of the General

Alumni Association, Class Dinners, and the Football Dances.

For all graduates, regardless of vintage, there is much that is new to be seen on the campus. Besides the beautiful new Students' Union, which is the latest addition, there are McLaughlin Hall, the mechanical engineering building; the new wing to Gordon Hall, the chemistry building; and the new Technical Supplies Building. For the older graduates there are many other buildings that have been added since their time. A graduate of 1906 who was a visitor to the Alumni Office recently remarked that she had some difficulty in getting her bearings as she didn't recognize the campus as now constituted.

Class officers who would like further information and assistance in planning a reunion are asked to get in touch with the Alumni Office.

Alumnae Hold Reception For Graduates After Convocation

OFFICERS and members of the Kingston alumnae branch held a reception in the Gymnasium for the graduates after Spring Convocation on Saturday morning and afternoon, May 21. Convener of the tea was Mrs. R. O. Earl (Olga Somerville, Arts '14, and her committee included: Mrs. Reginald Jackson (Clara Farrell), Arts '24, Miss May Chown, Arts '11, Mrs. V. Crothers (Mary Grace Free), Arts '14, Miss Florence O'Donnell, Arts '09, Miss Caroline Mitchell, Arts '26, Miss Doris Williams, Arts '26, and Miss Eleanor Smith, Arts '46.

Tulips, spring blossoms, and yellow tapers in a silver basket adorned the tea table at which the following poured: Mrs. W. A. Mackintosh, Mrs. D. S. Ellis, Mrs. H. A. Kent, Mrs. A. M. Laverty, Mrs. R. G. Sinclair, Mrs. A. Biéler, Mrs. A. V. Corlett, Mrs. C. A. Curtis, Mrs. G. J. Smith, Mrs. G. Krotkov, Miss Hilda Laird, and Miss Wilhelmina Gordon.

More than fifty assistants served refreshments.

THE DIX PLAN FOR CLASS REUNIONS

YEAR OF REUNION ★

'90.....		'90					'90					'90						'91

By this plan each class returns 4 times in a cycle of 19 years, always with other classes of its generation at College. The 25th and 50th anniversaries are also observed. Follow your own class through its reunions. This fall's Reunion, October 14-16.

SPECIAL COURSES FEATURE OF SUMMER SCHOOL

ADVANCE registrations indicate that every Canadian province and several States will be represented at Queen's fortieth Summer School session, July 4 to August 17. The director is Dr. H. L. Tracy.

Thirty academic courses, eight offerings in the School of Fine Arts, a School of English for French-speaking Canadians and others, directed by Prof. Henry Alexander of Queen's, and a refresher course in English in charge of Dr. E. J. Pratt, of Victoria College, Toronto, will comprise the programme.

Special features will include a choral clinic designed to assist teachers in charge of choral groups. It will be conducted by Dr. Graham George, professor of music at Queen's and composer of the opera *Evangeline*.

A new venture will be a course in puppetry, with instruction by Miss Jocelyn Taylor, Art Department, Central Technical School, Toronto, formerly assistant to the director of Hart House Theatre.

Ballet classes for beginners, advanced students, and children, will be in charge of Bettina Byers, Principal of the Academy of Ballet, Toronto, and Marjory Haskins, her assistant.

Public speaking, a course introduced last year, will be given again by Arnold Edinborough of the University Department of English.

Dr. William Angus, Canadian Drama Award winner this year, and Director of Drama at Queen's, will be assisted by Georgina Von Tornow, New York State Teachers College, Fredonia, New York, Margaret Angus, and Walter Avis. Dr. Angus has announced a new Summer School feature, a radio workshop, in which there will be instruction and practice in writing for radio, and actual broadcasting over station CFRC.

Carl Shaefer, instructor in painting, Ontario College of Art, Toronto, Henri Masson, instructor at the National Gallery, Ottawa, and Sydney Key, curator, the Art Gallery of Toronto, will make up the Art staff for Summer School.

Plans are being made for a workshop in audio-visual education as assistance to teachers interested in using special classroom aids.

PROF. M. B. BAKER AWARDED MONTREAL MEDAL

FOR meritorious contribution to the honour of Queen's, Dr. Manly B. Baker, emeritus professor of geology, will be awarded the Montreal Medal, it was recently announced by the Montreal alumni branch. The presentation will be made at the annual meeting in the fall.

The announcement of the Medal award was made the same week-end that Dr. Baker received a honorary LL.D. degree from Queen's. The committee stressed the fact, however, that their decision had been made some time previously.

Inscribed on the Medal, as struck in 1939, are the words, "Makers of Queen's". Recipients to date include the late Prof. J. A. Macphail, the late Dean John Matheson, J. G. Bews, Dr. W. E. McNeill, the late Dr. L. J. Austin, Dr. P. G. C. Campbell, Prof. D. M. Jemmett, Dr. A. L. Clark, and the Richardson family.

Memorial Provided as Tribute To Late Dr. G. Harold Ward

THE sum of \$53,400 has been donated to the hospital fund of Englewood, New Jersey, to provide seven rooms in the proposed hospital addition as a memorial to the late Dr. G. Harold Ward, Med. '03. The donation was made by Mrs. Dwight W. Morrow and her three children. Mrs. Morrow credits Dr. Ward with having saved the life of her youngest daughter in childhood.

Dr. Ward, who died in 1939, was family physician for the Morrows and was a former chief of staff at Englewood Hospital.

Principal's Report Available

Copies of the *Principal's Report* may be obtained on application to the Principal's secretary, Queen's University.

SOME WEST INDIAN MEDICAL HISTORY

By J. A. Ogilvie, Med. '91

NOW that Canadians are viewing with ever increasing interest the possibilities and advantages of the West Indies, not only from the standpoint of commerce but also from that of health and pleasure, a peep into the sad records and tragic death rolls of past and bygone days makes us realize how greatly modern sanitary science has changed the medical history of these beautiful and picturesque islands.

Formerly five years were sufficient for the disappearance of a white regiment of a thousand men, and often in a single year a regiment would lose 300 men, whilst casual visitors from northern climes were frequently swept off by yellow fever, malaria or dysentery within a few weeks of arrival. Bad water, bad food or overcrowding in ill-ventilated barracks did their part in this alarmingly high mortality, but the chief destroyer was "Yellow Jack"—not only of the soldiers but also of the seamen of the King's ships.

The sanitary conditions were infamous, and service in the West Indies was looked upon as almost certain death. Pools of foul and stagnant water were everywhere, and heaps of garbage exposed to heat and air accumulated and decayed in the streets, yards and barracks without let or hindrance. In short, sanitary regulations of any kind were non-existent, public health duties being entirely relegated to the John Crows (vultures). These repulsive birds, harbingers of death, could daily be seen by the scores actively and energetically engaged in dismembering the putrefying bodies of dead animals, unmolested and undisturbed by passers-by. To all these causes were added the dissolute habits of the men themselves. The private soldiers obtained without difficulty an abundance of cheap rum which was often poisoned with lead. Drunkenness was almost universal, and deaths from delirium tremens were frequent. The salt meat they were obliged to eat caused a raging thirst, which the rum bottle in reality only aggravated.

The sad story is summed up by one old writer in the following words:

"Our troops in the West Indies are killed by drinking new raw rum; and so are the lower order of mechanics and white people on the plantations."

During the period 1790-93 the annual mortality in Jamaica varied at the different stations from 111 (Montego Bay) to 15.7 per 1000 of strength at Stony Hill. In the years 1794-97 the mortality much greater; the most unhealthy regiment on the plains lost 333 men; the most healthy 45.4 per 1000 of strength. In the years 1817-36 the mean annual mortality was 121.3; the mean of the four healthiest years gave 67, and of the four unhealthiest years 259 per 1000. Between 1837 and 1859 the mortality declined by one-half, but in 1860 and 1867 yellow fever appeared at New Castle (3,974 feet) and the old mortality figures were nearly equalled. No epidemic of yellow fever has occurred in Jamaica since 1897.

For the years 1817-36, the average normal mortality of the white troops in Trinidad was 106.3 per 1000 of strength. In Barbados, for the same period, 58.5 per 1000 of strength; greatest mortality, 204 per 1000 in 1817; lowest mortality 18 per 1000 in 1823. The casualty records of the Windward Islands are not available, but the graves of whole battalions are still to be seen in their cemeteries and bear silent testimony to the horrors of the past. (Incidentally, it may be mentioned that the annual mortality among the white troops at Sierra Leone, West Africa, in these bad old days was 480 per 1000 of strength, and the Colony was popularly known as "the white man's grave." Today Sierra Leone is no longer associated with this lugubrious sobriquet, for Freetown, the capital, has been transformed by permanent sanitary improvements and serves as an interesting object lesson of what is possible in the tropics when the laws of health and modern sanitation are intelligently applied.)

At the present time, the annual death rate of the British West Indies compares favourably with that of most Canadian cities. Indeed, the white northerner from Canada, the United States, or Europe enjoys better health in these sun-kissed isles of the West than he does under his own dull and wintry skies.

Yellow fever, its origin and treatment, puzzled the medical fraternity greatly in those tragic days, and many acrimonious discussions occurred. In 1752 Dr. John Williams, a prominent practitioner of Kingston, Jamaica, published a volume on the "Bilious Yellow Fever of Jamaica." This erudite work appears to have been freely and severely criticized by Dr. Parker Bennett, a brother practitioner, which so incensed the author that he at once challenged his critic to a duel. The meeting, which is said to have taken place on the old race course,

unfortunately resulted in the death of both the combatants, and as neither of these bellicose gentlemen enriched the profession with any new facts concerning this dangerous and puzzling disease, nor introduced any new methods in the treatment thereof, history has not regarded them as martyrs in the cause of science.

The marvellous transformation in health conditions in these now salubrious islands which has taken place in little more than half a century, strikingly illustrates the truth of the old Latin maxim, *homini nihil utilius homine*, for this remarkable achievement has only been rendered possible by the self-sacrifice and devotion of medical gentlemen who dedicated their careers to research and experimental work to the end that the human family might enjoy freedom from pestilence and disease.

Out of the Past

OFFICERS OF Y.M.C.A., R.C.P. & S.R., 1886-87

Front row, left to right: A. G. Allan, J. F. Smith (President), A. E. Bot'om, M. Gallagher, W. J. Hall. Back row: O. L. Kilborne, J. C. Connel, T. J. Jamieson, W. H. Downing.

At the Branches

Waterloo County

RESPONSIBILITY of parents in preparing students for university was stressed by Dr. B. K. Sandwell, editor of *Saturday Night*, at the annual dinner held at Westmount Golf and Country Club on May 6. Eighty-three were in attendance, including large representations from Galt and Guelph. The president, Mrs. J. L. Collins (Irene Macphail), Arts '30, was in the chair.

Speaking on "Modern Trends in Education," Dr. Sandwell emphasized parental responsibility in relation to prospective university students. He said they should learn in the home first the fundamentals of living, good manners, and an honest desire to work before they enter university. It is a mistake for parents to expect schools and universities to perform this task for them, he said.

The toast to Queen's was proposed by Dr. S. F. Leavine, Med. '20, Arts '27. Response was made by H. J. Hamilton, secretary-treasurer of the General Alumni Association, who spoke briefly regarding the endowment campaign.

In the election of officers for the ensuing year Dr. S. F. Leavine was appointed president. Others included: vice-president, E. O. Nettleton, Arts '30; secretary-treasurer, J. P. Devenny, Sc. '22; executive—J. D. Muir, Com. '46.

BRANCH OFFICERS 1949

DR. S. F. LEAVINE
President
Waterloo County

G. D. DIES
Secretary
Belleville

Dr. C. G. Teskey, Med. '35, W. L. Bulmer, Sc. '34, W. H. Bechtel, Sc. '44, Duncan MacIntosh, Com. '34.

Attractive decorations in Queen's colours were arranged by Mrs. J. R. Dier (Helen Baxter), Arts '17, and Mrs. C. S. Wilson (Angeline Benson), Arts '29.

Sudbury - Copper Cliff

A REORGANIZATION meeting of the Sudbury-Copper Cliff branch was held in the Nickel Range Hotel on May 6. Dr. E. A. Collins, Sc. '05, LL.D. '47, presided.

The new executive was elected as follows: honorary president, Dr. Collins; president, T. M. Gaetz, Sc. '30; first vice-president, Harry Waisberg, Arts '33; second vice-president, R. R. Wainwright, Sc. '39; secretary-treasurer, R. R. Saddington, Sc. '37; district representatives—Sudbury, E. A. Martin, Sc. '13, A. C. E. Ritter, Arts '32; Copper Cliff, E. G. Stoneman, Sc. '36, H. F. Zurbrigg, Sc. '31; Falconbridge, Mrs. D. C. Ganton, J. S. Poupore, Sc. '39; Levack, W. D. Fritz, Arts '35, Sc. '40; Espanola, H. T. Ralph, Sc. '34; Coniston, Dan Kelly, Sc. '45; alumnae representatives, Miss Alix Edge, Arts '31, Mrs. F. G. Wright (Geraldine Scott), Arts '29.

Pledge cards for the endowment campaign were distributed. The local endowment committee will be under the direction of Dr. Collins.

Kingston Alumnae

AN audience of approximately 500 attended a meeting held in Grant Hall May 18 under the auspices of the Kingston alumnae to hear Mrs. Kate Aitken, journalist, commentator, and lecturer. Mrs. Aitken spoke on her 17½-day trip around the world last January.

Mrs. Aitken caught and held the attention of her audience with vivid descriptions of life in Japan, China, Siam, Burma, India, Pakistan, Egypt, Sicily, and Berlin. She interspersed her comments with humorous anecdotes from her personal experiences.

Mrs. Aitken was introduced by Mayor C. A. Curtis of the University staff. The University Chaplain, Rev. A. M. Laverty, thanked her for her address.

Principal Wallace also spoke briefly regarding the endowment campaign. He particularly mentioned the extension of Ban Righ Hall, as the chief project of the women graduates.

Mrs. R. Jackson (Clara Farrell), Arts '24, president of the branch, was in the chair. She introduced those who were on the platform, and this assemblage included representatives of most of the women's organizations and service clubs of the district.

While in Kingston Mrs. Aitken made three radio broadcasts in which Queen's University and the campaign for funds received prominent mention. She also visited the Endowment Office, Ban Righ Hall, and other university buildings.

London

AN interesting outline of current needs and future plans of Queen's was given by Principal Wallace at a meeting held in the Hotel London on April 12.

The speaker was introduced by Dr. T. H. Coffey, Med. '39. He was thanked on behalf of the meeting by J. O. Hughes, Com. '29.

The toast to sister universities was proposed by W. A. McWilliams, Arts '18, and response was made by Chancellor A. R. Ford of the University of Western Ontario.

During the business portion of the meeting the following officers were elected for the ensuing year: honorary president, Dr. K. P. R. Neville, Arts '96, LL.D. '47; past president, Mrs. O. S. Fells (Mabel Anderson), Arts '34; president, Prof. G. W. McCracken, Arts '28; vice-president, J. O. Hughes, Com. '29; secretary-treasurer, M. H. Wilson, Sc. '34; executive council—Mrs. A. Carr-Harris (Marion McLean), Arts '06, Ian Patterson, Sc. '42, Dr. T. H. Coffey, Med. '39, W. A. Spencer, Com. '32, F. C. Biehl, Arts '32

Calgary

PLANS are progressing favourably for the formation of a branch in this area. On April 19 twenty alumni attended

an inaugural meeting at which J. Alex Edmison, Arts '26, spoke on "Europe Revisited". Present were: Miss Jennie Elliott, Arts '10, E. B. Asselstine, Arts '04, Mrs. A. M. Wood (Mary Iona Peever), Arts '43, A. Calhoun, Arts '02, F. L. Perry, Sc. '42, W. J. McGill, Sc. '37, W. S. Webb, Arts '29, Dr. L. I. Mitchell, Med. '42, and Mrs. Mitchell, C. E. Leppard, Arts '21, W. A. Pinkerton, Sc. '06, and Mrs. Pinkerton, H. N. Lukes, Sc. '36, Miss Anna B. Anglin, Arts '11, Mrs. W. L. Sexsmith (Elizabeth Webb), Com. '39, R. A. Barnett, Com. '28, R. K. Motherwell, Sc. '42.

A small committee was set up to continue the organization of a local branch and to arrange for the next meeting, at which Dr. S. M. Gilmour of Queen's Theological College was to be the speaker. At this meeting, held in the Empress Grill on May 16, twenty were present. Plans were made for the endowment campaign in Calgary and district, with A. Calhoun, Arts '02, as general chairman.

Montreal Alumnae

AT the annual meeting held at the University Women's Club on May 14, Miss Eleanor Holland, Arts '28, was re-elected as president for the ensuing year. Other officers appointed were as follows: first vice-president, Mrs. G. R. Woolsey (Florence Munro), Arts '22; second vice-president, Mrs. R. M. Horsey (Ruth Anglin), Arts '23; recording secretary, Mrs. A. W. Mackay (Sylvia Rowley), Arts '43; corresponding secretary, Mrs. T. H. C. Richardson (Doris Emery), Arts '39; treasurer, Miss Marjorie Boehmer, Arts '48; assistant treasurer, Mrs. D. C. Cameron (Anne Paynter), Arts '47; programme convener, Miss Theda Albright, Arts '46; social convener, Mrs. J. E. Conner (Lucette Hansen), Arts '45; assistant social convener, Mrs. Rodney Bruce; membership convener, Miss Marion Bartlett, Arts '35; associate membership convener, Mrs. L. D. Jack; out-of-town membership convener, Mrs. B. W. Burgess; representatives at Local Council of Women, Mrs. R. E. Hunt (Anna Mowat), Arts '19, Mrs. H. S. Van Patter (Jean McPherson), Arts '19.

The sum of \$175 was voted to be sent to the Ban Righ Hall Extension Fund and \$25 to the Crosby Hall Fund.

* * *

At the annual bridge held at the N.D.G. branch of the Y.M.C.A. on May 2 the sum of \$80 was realized. Bridge was played at thirty tables, after which door and raffle prizes were drawn and refreshments were served. The successful gathering was planned by the president, Miss Eleanor Holland, Arts '28, and her committee.

Regina

GUEST speaker at the meeting in the Board Room of the Metropolitan Church on May 5 was Dr. S. M. Gilmour of Queen's Theological College. Dr. Gilmour was visiting Regina as part of his tour of the western provinces in connection with the Queen's endowment campaign.

Dr. Gilmour referred to Queen's as Canada's national university. He pointed out that nearly 1,500 out of 12,000 living graduates live in Western Canada. He said there are ninety graduates in Regina and 237 elsewhere in Saskatchewan. Twenty-one young men and women are now studying from Regina.

During the business part of the meeting the following executive was elected for the ensuing year: president, T. M. Spencer, Arts '28; vice-president, Mrs. E. L. Gray (Mary Rebecca Curry), Arts '21; secretary-treasurer, F. A. Ruther-

ford, Com. '44; committee—Miss Katharine Stephen, Arts '47, Dr. F. C. Dobie, Med. '40, Dr. J. G. Wright, Med. '14, H. C. Flegg, Com. '30, M. Brodie, D. F. Milliken, Com. '48, M. C. McCracken, Arts '32.

Northwestern Quebec

ONE hundred and thirty attended the dinner dance held at the Chateau Malartic on May 14. President K. D. Thomson, Sc. '42, was in the chair.

Rev. J. R. Leng, formerly of the Queen's staff and now connected with the Home Missions Board of the United Church, was the guest speaker. Mr. Leng gave a comprehensive summary of the reasons that Queen's is now making an appeal for funds. He said "If we wish Queen's to maintain the same high standards in the future as in the past, it is our responsibility to bequeath the Queen's heritage to future generations and support the endowment campaign.

The speaker was introduced by Mr. Thomson and was thanked on behalf of the meeting by D. M. McLean, Sc. '32. Queen's yells and songs enlivened the proceedings, after which dancing took place.

In charge of arrangements were D. M. McLean, Sc. '32, and R. G. McKelvey, Sc. '34.

Northern Saskatchewan

FORTY graduates attended the supper meeting in Westminster Church Hall, Saskatoon, on May 3. The guest speaker was Dr. S. M. Gilmour of the Queen's Theological College who spoke in connection with the endowment campaign.

Officers were elected for the ensuing year as follows: honorary president, Hon. Stewart McKercher, Arts '19; president, D. H. Marshall, Arts '04, Theol. '08; vice-president, Mrs. B. M. Wakeling (Kathleen Jarvis), Arts '34; secretary-treasurer, W. J. G. Scott, Arts '14; executive—J. W. Yake, Arts '11, W. S. Cram, Arts '06, Mrs. T. W. H. Williams, Arts '14, G. M. Munro, Arts '37, J. S. M. Allely, Arts '29, J. M. Singleton, Arts '15, Mrs. W. W. Swanson (Grace Connor), Arts '05.

Alumni News

Births

Adams—On May 14, at Winchester District Memorial Hospital, Winchester, Ont., to Rev. J. B. Adams, Arts '43, Theol. '47, and Mrs. Adams, of South Mountain, Ont., a daughter (Marylysbeth).

Battista—On March 18, at the Hotel Dieu Hospital, Cornwall, Ont., to N. I. Battista, Sc. '33, and Mrs. Battista, a son (Mark Edward).

Beachell—On December 25, 1948, at Delaware Hospital, Wilmington, Delaware, to Dr. H. C. Beachell, Arts '37, and Mrs. Beachell, a son (James Charles)—(corrected notice).

Beattie—At Toronto, on May 13, to Dr. Gordon Beattie and Mrs. Beattie (Donalda MacRae), Arts '41, a daughter.

Blake—On May 18, in Pembroke, Ont., to Capt. W. E. Blake, Sc. '42 and '47, and Mrs. Blake, a son.

Cameron—At the Ottawa Civic Hospital, on May 18, to Dr. E. G. Cameron, Med. '45, and Mrs. Cameron, a daughter (Carol Ann).

Cornwell—At the Kingston General Hospital, on May 17, to Cecil Cornwell, Arts '47, and Mrs. Cornwell, a daughter (Margaret Aileen).

Couch—At the Kingston General Hospital, on May 22, to Percy Couch, Arts '37, and Mrs. Couch, a daughter.

Cranston—At the Mount Hamilton Hospital, Hamilton, Ont., on April 20, to Mr. M. S. Cranston and Mrs. Cranston (Stuart Chubb), Arts '39, of Dundas, Ont., a son.

Dickens—On May 6, at Grace Hospital, Ottawa, to N. A. Dickens, Sc. '39, and Mrs. Dickens (Beryl Winters), Arts '37, a son (Thomas Arthur).

Erdil—On May 10, at Flushing Hospital, Flushing, N.Y., to Dr. L. I. Erdil, Arts '45, Med. '48, and Mrs. Erdil, a daughter (Meredith Arna).

Finlayson—At the Geraldton Hospital, Geraldton, Ont., to D. E. Finlayson, Sc. '46, and Mrs. Finlayson, a daughter (Susan Ellis).

Hagerman—At Kirkland Lake, Ont., on May 13, to Dr. G. E. Hagerman, Med. '46, and Mrs. Hagerman, a son.

Levitin—At the Ottawa Civic Hospital, on May 19, to Flt. Lt. N. Levitin, Com. '47, and Mrs. Levitin, a daughter.

McLean—On April 18, at the Wellesley Hospital, Toronto, to Mr. William E. McLean and Mrs. McLean (Molly Noonan), Arts '45, a son (James Douglas).

Menzies—At the Ottawa General Hospital, on May 15, to Mr. Arthur R. Menzies and Mrs. Menzies (Sheila Skelton), Arts '39, a daughter.

Miller—At the Royal Victoria Hospital, Montreal, on May 6, to Mr. Dean Miller

and Mrs. Miller (Barbara Gibson), Arts 39, a daughter (Carolyn).

Moore—At the Lady Minto Hospital, Cochrane, Ont., on May 5, to Dr. J. A. Moore, Med. '46, and Mrs. Moore, a daughter (Heather Dawn).

Parker—At Mount Hamilton Hospital, Hamilton, Ont., on April 15, to Earl W. Parker, Sc. '42, and Mrs. Parker, a daughter (Jill Elizabeth).

Peever—In Toronto, on April 9, to Dr. M. G. Peever, Med. '35, and Mrs. Peever, of Newmarket, Ont., a daughter.

Pelletier—On April 22, at Niagara Falls, Ont., to R. C. Pelletier, Sc. '36, and Mrs. Pelletier, a son.

Pickup—At the Red Cross Hospital, Dryden, Ont., on April 21, to Dr. H. Jackson Pickup, Med. '42, and Mrs. Pickup, a son (Gregory Jackson).

Reid—At the Private Patients Pavilion, Toronto General Hospital, on May 7, to J. W. Reid, Sc. '38, and Mrs. Reid, Kleinburg, Ont., a daughter.

Robertson—At the Ottawa Civic Hospital, on April 21, to J. K. B. Robertson, Arts '38, and Mrs. Robertson, a son.

Sanders—On May 11, at St. Thomas, Ont., to A. Lawrence Sanders, and Mrs. Sanders (Mary Stock), Arts '43, a son (Andrew John).

Sigal—At the General Hospital, Estevan, Sask., on March 15, to Dr. Bernhard Sigal, Med. '45, and Mrs. Sigal, a son (Peter Ralph).

Simonton—On May 19, at the Women's College Hospital, Toronto, to W. A. Simonton, Com. '37, and Mrs. Simonton, a son (John William).

Small—On April 14, at the Catherine Booth Maternity Hospital, Montreal, to William D. Small, Com. '48, and Mrs. Small, a daughter (Mary Ann).

Stiles—At Caracas, Venezuela, on May 4, to Mr. John A. Stiles and Mrs. Stiles (Margaret Buckley), Arts '41, a son (Mark Douglas).

Watts—At the Soldiers' Memorial Hospital, Orillia, Ont., on May 13, to Dr. W. G. Watts, Med. '43, and Mrs. Watts, a daughter.

Wheal—On May 8, at Toronto Western Hospital, to John W. Wheal, Sc. '42, and Mrs. Wheal (Anna Margaret Kleinsteuber), Arts '43, a son.

Wiggin—On May 5, to Dr. N. J. B. Wiggin, Med. '45, and Mrs. Wiggin, of Beaverton, Ont., a daughter (Pamela Anne).

Marriages

Alexander—On May 28, in St. Matthias Church, Westmount, Que., Marjorie Winnifred Jackson to Ian McMurtry Alexander, Com. '43.

Lewis—On May 7, in Emmanuel College Chapel, Toronto, Blanche Ellen Foster to Edmund Philips Lewis, Sc. '47, of Sarnia, Ont.

Macnee-Minnes—On May 7, in St. Andrew's Church, Kingston, Mary Elizabeth Minnes, Arts '50, daughter of Mrs. Minnes and the late Major Arnott Minnes, Arts '13, to Walter Quirk Macnee, Sc. '50, son of W. Kent Macnee, Sc. '12, and Mrs. Macnee, Kingston.

Matheson—In Chalmers United Church, Kingston, on May 28, Winnifred Julia Elliott, of Saint John, N.B., to Kenneth Bruce Matheson, Com. '43. George Thorpe, Arts '33, was groomsman and Bruce Tyrrell, Sc. '43, was an usher.

Nash—On March 19, in Rogers Memorial Chapel, St. James' Church, Kingston, Lynn Harris to Philip Townsend Nash, Sc. '45. Pauline Earl, Arts '49, was bridesmaid and Walter R. Henson, Arts '47, was best man.

Roger—On April 18, in Christ Church Cathedral, Ottawa, Pauline Doris Firth to Frederick Baskerville Roger, Arts '40.

Shepherd—On May 9, in the Morgan Memorial Chapel, Queen's University, Agnes Jane Richardson to Thomas George Shepherd, Sc. '49.

Walker—In the Morgan Memorial Chapel, Queen's University, on May 7, Ruth Elizabeth Snowden to Robert M. Walker, Arts '49. Helen Milton, Arts '37, was bridesmaid.

Wigle—In Westdale United Church, Hamilton, Ont., in May, Mary Cathèrine Christilaw to Francis Elliott Wigle, Arts '43.

Deaths

Cook—An employee of the Ontario Department of Highways for twenty years, Walter Samuel Cook, Sc. '15, died at his home in Ottawa, Ontario, on April 26. Mr. Cook was born in Ottawa in 1888. He received his early education in the schools of that city. He then entered Queen's, graduating with his B.Sc. degree in civil engineering. Surviving are his wife, a son, two daughters, a brother, and two sisters.

Cumming—Retired since 1947 due to ill health, Austin L. Cumming, Sc. '05, died at Ottawa, Ontario, on May 9. Mr. Cumming was former superintendent of the North West Territories and Yukon Bureau of the Department of Mines and Resources. He was widely known in oil and mining circles throughout western Canada and served with the Mines and Resources branch at The Pas, Manitoba, and Fort Smith, N.W.T., for several years. Previously, he had travelled across Canada while with the Topographical Survey Branch of the Dominion Government. Born at Cornwall, Ontario, he was educated at the separate schools and high school there and later attended Queen's from where he graduated in 1905. In 1914 he enlisted with the Canadian Army at Edmonton and went overseas with the Canadian Engineers. After the Armistice Mr. Cumming returned to Government work in the Mines and Resources Department. He was a member of the Engineering Institute and the Canadian Institute of Mining and Metallurgy. Among the survivors are a sister, Mrs. F. W. Paynter (Eva Cumming), Arts '14; a brother, C. H. Cumming, Sc. '17, and a number of nieces and nephews including Mrs. F. Judge (Bonnie McCloskey), Arts '46, Mrs. D. C. Cameron (Ann Paynter), Arts '47, A. F. Paynter, Com. '48, and Miss Helen McCloskey, Arts '51.—E.C.P.

Currie—Although a member of the Queen's Medical staff for only one year, Dr. John Ronald Currie, who died in Edinburgh, Scotland, on April 13, did a great deal to improve the teaching in his subject. He also left his mark in the city, having conducted an enquiry into the possibility of improving the water supply. Dr. Currie was brought to Queen's in 1922 by Dr. James Miller, where he filled the chair of preventive medicine. The following year the Henry Mehan chair of public health was founded at Glasgow, and Currie returned to Scotland to be its first occupant. He was elected F.R.C.P. Ed. in 1934, and on his retirement from the chair in 1940 he received the honorary degree of LL.D.

Farquharson—Retired for the past ten years, Roberts Andrew Farquharson, Arts '98, died at Whitby, Ontario, on May 29, after a prolonged illness. Mr. Farquhar-

son was born at Whitby in 1868 and belonged to a family of pioneer settlers. He attended the University of Toronto and later obtained his B.A. degree extramurally from Queen's. For thirty years he was principal of Farquharson School, Toronto. He was prominent in the Masonic Order and was a member and past master of Wilson Lodge, A.F. & A.M., a member of the Scottish Rite, and a thirty-second degree Mason. Among the survivors are his wife, a son, two sisters.

Goodfellow—Scholar and mathematician, Joseph Goodfellow, Arts '98, died April 15 at the Hitchcock Memorial Hospital, Dartmouth, New Hampshire, College, after a short illness. Mr. Goodfellow was born in Glasgow, Scotland, in 1869, and attended elementary school there. He later attended schools in Kingston, graduating into Queen's with the highest scholastic honours in the Province of Ontario, having won two scholarships and the Governor-General's Medal. Mr. Goodfellow graduated "cum laude" in 1900 and started a long career of teaching. He specialized in his two favourite subjects, English and mathematics, and taught at several Canadian schools, including Westminster in Vancouver, British Columbia. Among his works were "Geometry After Hours," "Quotations Without Apology," "Prosper Merimes Columba," and translations of Caesar's Gallic Wars. He also contributed to the Mathematical Monthly and the Scientific American. At the time of his death he had just completed a possible solution to the famed "Delian Problem," one of the greatest of all mathematical puzzles. Surviving are three sons, a brother, and a sister.

Hamilton—Principal of Hanover High School since its opening twenty-five years ago, John Rennie Hamilton, Arts '09, died suddenly at his home in Hanover, Ontario, on May 13. Mr. Hamilton was born at Winterbourne, Ontario, and was educated in the schools of that community and at Kitchener. He entered Queen's and graduated with his B.A. degree in 1909. He

was formerly principal of the Warton high school and also taught at Essex and Carleton Place before going to Hanover. Keenly interested in community activities, Mr. Hamilton was a Rotarian, a Mason, and an elder in the Presbyterian Church. He was a past president of the Western Ontario Secondary Schools Association. Surviving are his wife, three sons, including James Hamilton, Arts '27, and George Hamilton, Arts '31, and three daughters, of whom Mrs. E. G. Johnston (Jeanette Hamilton), Arts '34, is one.

Hunt—At the age of sixty, George Edgar Hunt, Arts '20, died at Melville, Saskatchewan, on February 16. Mr. Hunt was born at Annapolis, Nova Scotia. After attending Pictou Academy he taught in several schools in Nova Scotia before proceeding to Saskatchewan, where he was a member of Melfort High School staff for five years. During the first World War he enlisted as a lieutenant. Afterwards he entered Queen's, graduating with his B.A. degree in 1920. He articulated in the law office of H. M. P. de Roch, Melville, Saskatchewan, and thenceforth practised law there until his death. He had always taken an active interest in sports and politics, being returning officer for Melville constituency for many years. Among the survivors are his wife and two sons.

Irwin—A member of the University's Board of Trustees for fourteen years, Mr. John Irwin died suddenly in Toronto, Ontario, on March 31. Mr. Irwin was born in Kingston, Ontario, in 1881. He received his education in Kingston public schools and at Kingston Collegiate Institute. Mr. Irwin started his business career as a stenographer with Edwin Chown and Sons, in 1897, and held the post for three years, when he moved to Montreal. In 1901 he was appointed secretary of Henderson and Potts Company, Montreal, and four years later he was made manager of the Winnipeg branch of the firm. In 1912 he established the firm of McArthur Irwin Limited, corrodors and grinders, white lead manufacturers. Mr. Irwin formed the Frontenac Oil Company and when it merged in 1928

MONTREAL

with the McColl Company and became the McColl-Frontenac Company he was made president. He retained this position until 1938 when Texas Oil Company acquired control of McColl-Frontenac. Then he transferred his interest to Canadian Oil Companies Limited, of which he became president, and held that post until his death. He is survived by his wife, a son, a daughter, and a sister.

Jarvis—After a brief illness, Gerald Walter Jarvis, Sc. '30, died in the General Hospital at Montreal, Quebec, on March 17. Mr. Jarvis was born at Hamilton, Ontario, in 1907, and received his early education in the schools of that community. He entered Queen's and graduated with his B.Sc. degree in chemical engineering in 1930. After spending two years as lecturer in the Mechanical Engineering Department at Queen's, he joined the staff of McColl-Frontenac in 1934 and held various positions on construction and operations until his appointment as chief engineer in 1943. Under his guidance a most extensive construction programme was carried out, culminating in the erecting of the new fluid catalytic cracking facilities in 1948. Mr. Jarvis was a member of the Engineering Institute of Canada, the Corporation of Professional Engineers of Quebec, A.F. & A.M. 578 Queen's Lodge, and a member of the board of managers, Stanley Presbyterian Church, Montreal. He is survived by his wife and two sons.

G. W. JARVIS

Kidd—Minister of St. Andrew's Presbyterian Church for thirty-three years, Rev. Charles Edward Kidd, Arts '02, Theol. '07, died May 15 in the Sunday School Hall at Gananoque, Ontario. Mr. Kidd was born in Carleton Place, Ontario, and received his preliminary education there. He entered Queen's and after a brilliant scholastic record graduated with his B.A. degree in 1903 and his D.D. in 1907. He served in mission fields in British Columbia and the Yukon Territory. He was a former moderator of the Synod of Toronto and Kingston and also served as moderator of the Kingston Presbytery. Surviving are his wife, two sons: Paul Kidd, Arts '33, and Charles Kidd, Com. '41; and two daughters: Mrs. M. R. Bowie (Catharine Kidd), Arts '34, and Miss Eleanor Kidd, Arts '43.

MacIntosh—At the age of forty-six, Dr. Edward Foster MacIntosh, Med. '29, died of a stroke at Wa Wa Mining Camp, north

of Sault Ste. Marie, Ontario, on May 1. Dr. MacIntosh was born in Dundella, Ontario, and was educated at Spencerville and Prescott. After graduating from Queen's with his M.D., C.M. degrees in 1929, he joined the staff of the Hepburn Hospital in Ogdensburg, New York, where he practised for twelve years. During World War II he served in the Canadian Army. He was a member of the Royal Ottawa Sanatorium prior to his appointment as attending physician at Wa Wa. Surviving are his wife, a son, a daughter, and a sister.

MacCallum—Professor of Philosophy at the University of Toronto since 1927, Henry Reid MacCallum, Arts '19, died on May 1 at the age of fifty-one. Professor MacCallum was born at Aintub, Turkey in Asia, where his Canadian parents were missionaries. He entered Queen's in 1914, at the age of seventeen, and graduated with his B.A. degree in 1919. A Rhodes scholar, he also studied at Oxford University, England, and at Harvard. Besides his wife, two daughters, and a son, he is survived by three sisters, Mrs. E. S. Laird (Edith), Arts '13, Mrs. Keith Crowther (Frances), Arts '24, and Elizabeth MacCallum, Arts '17; and a brother, F. Lyman MacCallum, Arts '12, Sc. '17.

Mundell—A member of the outstanding Queen's football teams in the 1920's, Dr. Charles Duncan Thomas Mundell, Com. '24, Med. '30, died suddenly in Montreal, Quebec, on May 19. Dr. Mundell was born in Kingston, Ontario, in 1902. He received his early education in the Kingston schools and Trinity College, Port Hope, after which he attended the Royal Military College. He graduated as B.S.M., winning the Governor-General's sword of honour and many prizes. He then entered Queen's, where he obtained his B.Com. and M.D., C.M. degrees. For a time Dr. Mundell was engaged in cancer research at the Kingston General Hospital, later accepting a position with the DuPont Cancer Research Foundation at Philadelphia, Pennsylvania. During World War II he served as major with the R.C.A.M.C., and was severely injured during the Battle of Britain. For the past few years he had been connected with the R.C.M.P. in Regina, as head of the laboratory of criminal medicine. Surviving are his wife, a son, and three sisters.

Nugent—A long and useful life came to an end with the death of Dr. Alexander Nugent, Arts '97, Med. '99, at Ottawa, Ontario, on March 18. Dr. Nugent was born in Ops Township, Victoria County, Ontario, in 1864. Brought up on a farm, he had to take charge of it at the age of thirteen, having just passed his entrance to high school examinations when his father took sick. He was married in 1889 and when his wife died a few years later he went back to school. He took his matriculation

What Does a Bank
Mean to You?

A PLACE OF SAVINGS

From time to time you may see a lot of unnecessary spending. You are likely to hear people explain 'I just *can't* save'. It takes determination to make a deposit every week or month in a savings account. You'll be surprised how fast your savings deposits mount up.

The Canadian Bank of Commerce welcomes the opening of Savings Accounts at any of its more than 500 branches across Canada.

in one year at Lindsay Collegiate. Then he went to Queen's where he graduated with his B.A. degree in 1897 and his M.D.,C.M. degrees in 1899. In 1899 he was appointed by the Board of the Presbyterian Church as a medical missionary to India. He and his second wife served in India until 1932, mostly in the City of Ujjain. For many years he served on the Municipal Council of Ujjain, taking an interest in all its work. On retirement he lived in Toronto until 1939, when he moved to Ottawa to be near his daughter, Mrs. Charles Donald (Fannie Nugent), Arts '13.

Pringle—After a lifetime of service in the Presbyterian Church, Rev. Dr. George Fraser Pringle, Theol. '03, died on February 19, in Vancouver, British Columbia. Dr. Pringle was born in Galt, Ontario, in 1873. At the age of twenty-one he entered University of Toronto from where he graduated with his B.A. degree. In the fall of 1900 he enrolled in Theology at Queen's and at the end of the first year he went to the Yukon as a student minister. Here he was prevailed upon to stay, and although he was ordained in 1902 he was not able to complete his theological course until 1920. He served in the Yukon for ten years and stories of his thrilling experiences in that period of his life were published in 1922 in his book, "Tillicums of the Trail." After brief pastorates at Vernon and Vancouver, British Columbia, he served with the Canadian Army overseas during World War I. He was gassed at Passchendaele and the chest weakness which resulted finally led to his retirement in 1931. After a short time in Edinburgh he returned to Canada to take over the Loggers' Mission of the Presbyterian Church on the west coast of British Columbia. His experiences in this period are recounted in "In Great Waters," and "Adventures of Service." In 1929 he resigned from the arduous marine work and accepted a call to Centennial Church, Victoria. Ill health compelled his resignation after only a two-year pastorate, and he spent the remainder of his life as an invalid. The degree of Doctor of Divinity was conferred on him by Union College, Vancouver, in 1936. Surviving are his wife, son, and daughter.

Storms—Regarded as the grand old man of Hamilton physicians, Dr. Douglas Geraghty Storms, Med. '86, died at Hamilton, Ontario, on May 21, after a long, eventful, and useful career. A new graduate, he started to practise in Hamilton sixty-three years ago. Dr. Storms was born at Odessa, Ontario, in 1857, of Pennsylvania Dutch and United Empire Loyalist stock. After graduating from Queen's with a Medical degree in 1886, he went to Hamilton. For fifty-two years he served that community actively and ably as an obstetrician. Even after his retirement in 1938 he led an active life. He had been

president of the horticultural society several times and was keenly interested in gardening. When he was unable to engage in his outdoor hobby, he made cribbage boards in his workshop. Some 3,200 of these were sent overseas to the troops during World War II. Articles made by Dr. Storms raised more than \$1,100 when raffled for the Red Cross and other war service organizations. As a younger man he was also interested in the Canadian Club and served as its second president. In 1894 he started the practice of school children's collecting waste materials. Dr. Storms was a prominent member of the Canadian Order of Foresters and the Scottish Rite Club. A thirty-second degree Mason, he was presented with a jubilee medal for fifty years' membership in the lodge in 1941. He married in 1868 and after his first wife's death married again. Besides his wife he is survived by two sons.

Woodruff—Retired from active practice for several years, Dr. George Albert Woodruff, Med. '02, died at his home in Balm Beach, Ontario, May 1. Dr. Woodruff was born at Odessa, Ontario, in 1871, and received most of his early education at Sydenham. Graduating from Queen's with his M.D.,C.M. degrees in 1902, he began his medical practice in the province of Manitoba. Later he returned to Ontario, serving in Middleville, Cookstown, Penetanguishene, and Elmvale. Surviving are his wife, a sister, and a brother.

Notes

1890 - 1899

H. W. Baker, Arts '91, is living at 4350 Osler Ave., Vancouver, B.C. He is pension board representative for the Sovereign Life Assurance Company.

Dr. J. H. Oldham, Med. '91, Yarker, Ont., was recently tendered a complimentary luncheon and presented with an engraved cane by members of the Medical Association of Lennox and Addington. **Dr. T. M. Galbraith**, Arts '06, Med. '10, of Napanee, on behalf of the Association, paid special tribute to Dr. Oldham's contribution to the medical profession which he has served for over fifty-seven years.

' 1900 - 1909

Rev. James Anthony, Arts '00, retired minister of the United Church of Canada, is now living in Exeter, Ont.

Charles H. Bland, Arts '07, Chairman of the Civil Service Commission of Canada, has been appointed by the United Nations as a member of the International Civil Service Advisory Board.

Dr. N. L. Bowen, Arts '07, Sc. '09, LL.D. '41 (Ph.D. Harvard), of the Carnegie Institute of Washington, D.C., has been made a member of the Royal Society, an organization of British scientists.

Association of Professional Engineers

PROVINCE OF ONTARIO

Attention of Engineering Students

The Association of Professional Engineers of the Province of Ontario is constituted by the Legislature of the Province of Ontario to govern the practice of professional engineering in this Province. In brief, no person is permitted to practise professional Engineering (with certain exemptions as defined in the Act) unless he is a registered Member or Licensee of the Association.

Registration can be obtained by graduates of the Faculty of Applied Science, Queen's University, holding the Degree of Bachelor of Science in Engineering as soon as they are able to submit evidence of satisfactory practical experience.

Provision is made in the Act that an undergraduate may be recorded with the Association while attending University, thereafter, submitting annually information as to his standing and additional engineering experience. When he has acquired the necessary practical experience, he may then apply for final registration, which gives him the right to call himself a professional engineer and to practise professional engineering. With the exception of persons exempted from the operation of the Act, no one may use the title "Engineer" or any abbreviation thereof in such context or in such a manner as to lead to the belief that he is a Professional Engineer.

Over 3,000 undergraduates have recorded themselves with the Association, realizing that it is to their advantage to do so in order to facilitate their registration as Professional Engineers. It also keeps them in touch with the requirements for registration in the Association, and the Code of Ethics for Professional Engineers, as well as serving as an introduction to other professional associations.

The Association is keenly interested in the welfare of the Young Engineer, and is awarding five Scholarships each year (totalling \$400) to students in the Faculty of Applied Science at Queen's University.

Any further information desired may be obtained from the Registrar of the Association.

J. V. Dillabough, Sc. '05, Winnipeg, was bereaved by the death of his wife on May 10. Mrs. Dillabough was at one time organist of Queen Street Church, Kingston, and took an active part in Queen's musical activities for several years.

Hon. Dr. J. J. McCann, Med. '09, M.P. for Renfrew South for the past fourteen years and Minister of National Revenue since 1945, has been chosen unanimously by his constituency to contest the Federal election on June 27.

Rev. J. A. Petrie, Arts '01, Theol. '06, has retired from the ministry of the United Church of Canada. He is living at 1067 Martin Ave., Kelowna, B.C.

J. A. Speers, Arts '05, Paed. '08, formerly of Bedford Road Collegiate Institute, Saskatoon, is now secretary of the Teachers' Superannuation Commission in Vancouver. He lives at 2783 - 45th Ave. E.

1910 - 1919

F. X. Ahern, Sc. '14, deputy fire commissioner for the Province of Quebec, was re-elected president of the Dominion Fire Prevention Association at the annual convention held in Regina, Sask., recently.

O. D. Boggs, Sc. '16, is geologist for Imperial Oil Limited, with headquarters in Calgary, Alta.

Carrie Costin, Arts '16, is teaching in the high school at Mitchell, Ont.

R. M. Cram, Sc. '13, is with the Department of Labour, Ottawa.

Dr. McGregor Easson, Arts '12 (D.Paed. Toronto), has tendered his resignation as chief inspector of the Public School Board, Ottawa, after forty-one years' service.

Rev. T. J. Fleming, Arts '15, is minister of the United Church, St. Mary's Ont.

Major-General A. H. Harty, Med. 12, has retired from the Indian Medical Service and has started a general practice in Kingston, Jamaica. In a recent letter to the Alumni Association Major-General Harty stated that he would be very happy to meet any Queen's men visiting in the West Indies.

C. E. Jamieson, Arts '14, retired recently as principal of the Napanee Collegiate Institute, which position he has held for the past twenty years.

Helen McArran, Arts '13, is teaching in Penny, B.C.

Dr. W. A. Mackintosh, Arts '16, Vice-Principal and Dean of Arts, Queen's University, has been elected a council member of the first Institute of Public Administration formed in Canada.

F. D. Pringle, Sc. '17, is doing roadway engineering work for the city of Hamilton.

G. H. Raitt, Sc. '14, is vice-president of the Consolidated Western Steel Corporation, Berkeley, Calif.

Claude Root, Arts '19, general manager of the Better Business Bureau, Montreal, has been elected president of the Canadian Better Business Bureaux, an organization which has a membership of five thousand.

C. A. Scarrow, Arts '18, is retired and living at 106 East 52nd Ave., Vancouver.

R. A. Snider, Arts '19, is practising law in Eastend, Sask.

1920 - 1929

J. Alan Broadbent, Arts '29, is now living in Vancouver where he is manager of the Manufacturers Life Insurance Company.

V. R. Currie, Sc. '23, St. Catharines, has been appointed commissioner of works and engineer of the city of Kingston, in succession to David Jack, Sc. '30, who resigned early in the year.

Dr. G. W. Danton, Med. '27, is practising as a surgeon in Johnson City, N.Y., where his address is 209 Main St.

Dr. G. D. Denton, Med. '28, is practising in West Hartford, Conn., specializing in psychiatry.

M. Belle Elliott, Arts '26, has been elected president of the Kingston chapter, Canadian Federation of University Women at the annual meeting held on May 17.

Mrs. C. H. Francis (Beatrice Milne), Arts '25, Calgary; J. M. Milne, Sc. '29, Donnacona, Que.; Mrs. J. A. McGrindle (Gladys Milne), Arts '29, Montreal; and Mrs. W. A. Hoffman (Carmel Milne), Arts '33, Noranda, Que., were bereaved by the death of their father, Mr. Peter J. Milne, in Kingston on May 9.

C. H. Hand, Arts '29, formerly on the staff of the collegiate institute in Chatham, Ont., is now principal of the high school in Thamesville, Ont.

Mrs. H. G. Wood (Ruth Hermiston), Arts '21, is now living at 66 Brookdale Ave., Cornwall, Ont.

Dr. H. N. Morphy, Med. '26, of Smiths Falls, Ont., left recently for Natchez, Miss., to become Director of the Adams County Health Department in that city.

Martha L. Murphy, Arts '24, special placements supervisor with the Unemployment Insurance Commission in Toronto, has been awarded a fellowship at Bellevue Hospital, New York City, which provides for a seven weeks' course in advanced employment counselling for the physically handicapped.

Anna Murray, Arts '29, has retired from teaching and is living at 1142 Grafton Ave., Moose Jaw, Sask.

W. B. Musgrave, Sc. '20, is with the Foundation Company of Canada, Toronto.

D. K. MacTavish, Arts '20, was recently elected chairman of the board of governors of Ashbury College, Ottawa.

James E. Neilson, Sc. '28, was recently in Western Canada on an inspection tour for Foster Wheeler Limited, of which firm he is chief engineer in St. Catharines, Ont. He attended the Queen's Alumni meeting in Winnipeg at which Prof. S. M. Gilmour spoke on behalf of the Queen's endowment fund campaign.

Dr. E. R. Tiffin, Arts '26, Med. '28, is practising in Wallaceburg, Ont.

Dr. W. R. Webster, Med. '28, has been transferred from the Rochester State Hospital to Rockland State Hospital in Orangeburg, N.Y.

1930 - 1939

J. D. Bell, Arts '31, is retired from teaching and living in Oak Lake, Man.

Major C. B. Caswell, Med. '36, has been promoted to the rank of Lieutenant-Colonel and appointed to command the 37th Field Ambulance at Camp Borden, Ont.

Helen Mary Cram, Arts '36, is on the staff of the Toronto Public Library.

Mary W. Currie, Arts '30, is district secretary for the Family Welfare Association, Montreal.

Ray Dorland, Com. '30, teaches at the vocational school in Chatham, Ont.

G. R. Dulmage, Arts '32, was recently elected president of the Progressive-Conservative Association in Perth, Ont.

Dr. R. L. Empey, Med. '32, is on the medical staff of the Mountain Sanatorium, Hamilton, Ont.

Frances Mariam Fletcher, Arts '38, is teaching at the collegiate institute in North Battleford, Sask.

G. A. Hutchinson, Sc. '37, is general manager of Metal Fabricators Limited in Tillsonburg, Ont.

D. A. Lapp, Arts '36, is inspector of schools in Alliston, Ont.

J. S. McGill, Arts '31, is teaching commercial subjects at the high and vocational school in Timmins, Ont.

A. A. McNab, Arts '36, is practising law in Renfrew, Ont.

G. A. Mercer, Arts '31, is principal of the public school in Corner Brook, Nfld.

Charles Miller, Sc. '30, formerly of Arvida, Que., is now chief hydraulic engineer for the Ontario Paper Company at Thorold, Ont.

W. M. Robson, Arts '36, principal of the Sir James Douglas School in Vancouver, received his M.A. from the University of Washington, Seattle, last year.

Mrs. L. M. A. Smith (Evelyn Shillington), Arts '35, sailed recently from New York to join her husband who is now with Macalder Mines Limited, Kisumu, Kenya Colony, South Africa.

Grace Stephen, Arts '33 and '34, is in the annuities branch of the Department of Labour, Ottawa.

Dorothy Stickney, Arts '35, is teaching in Florenceville, N.B.

Dr. A. E. Thoms, Med. '36, is director and senior medical officer of health, Leeds and Grenville Health Unit, with headquarters in Brockville, Ont.

Edmond Tremblay, Sc. '38, is with the Aluminum Company of Canada Limited, Arvida, Que.

Mrs. R. G. B. Waylett (Frances Jean Thomson), Arts '38, formerly of Regina, is now living in Toronto. Her address is Suite 422, The Dorchester, 150 Farnham Ave., Toronto 5.

PICKERING COLLEGE

NEWMARKET,  ONTARIO

A RESIDENTIAL SCHOOL FOR BOYS

Pickering College offers a complete educational programme for boys from nine to nineteen years of age. An experienced staff, seasonal athletic activities, vocational guidance, hobby and club groups, library service, and careful medical supervision assure parents that the individual needs of each boy receive fullest consideration.

Early application for future vacancies is essential.

Autumn term opens September 14th

Robert E. Rourke, M.A., Headmaster

Mrs. F. C. Witherspoon (Irene Owen), Arts '33, is living at 4110 Commonwealth St., Detroit, Mich.

1940 - 1948

J. W. Bannister, Com. '47, has joined the staff of Queen's University as a member of the Treasurer's department.

Mary Jane (Jerry) Barclay, Arts '47, of the Department of External Affairs, Ottawa, left recently for Moscow, U.S.S.R., where she has been appointed to a position in the Canadian Embassy.

J. J. V. Buckley, Arts '41, was ordained to the priesthood in St. Mary's Cathedral, Kingston, on April 24. After graduation he attended the Ontario College of Education and then taught in St. Jerome's College, Kitchener, before entering St. Augustine's Seminary in 1944. Father Buckley is at present attached to the cathedral staff in Kingston.

T. L. Chapmen, Arts '42, teaches in the vocational school in Chatham, Ont.

J. L. Field, Arts '42, has accepted a position in the history department of the Belleville Collegiate Institute and Technical School. His duties will begin next September. He has been on the staff of the high school in Bancroft, Ont., for the past two years.

Dr. H. L. Foster, Med. '40, Hamilton, has been awarded certification by examination as a diplomate of the American Board of Anaesthesiology. Following his graduation from Queen's he did postgraduate work in Regina, Sask., Hartford, Conn., and Toronto General Hospital.

H. S. Jackson, Sc. '48, recently joined the staff of the electronics department, International General Electric Company, 570 Lexington Ave., New York City.

W. G. Jones, Sc. '48, is doing research work in heat transfer at Cambridge University, Cambridge, England. His new residence address in Cambridge is 51 Newmarket Road.

L. G. Little, Arts '41, is a student in medicine at the University of Toronto.

J. A. Maguire, Arts '42, is supervisor of the Children's Aid Society, 71 West Warren St., Detroit, Mich.

D. F. Manchester, Sc. '43, is working towards his Ph.D. at McGill University.

Donald W. McAdam, Sc. '43, formerly in Hagersville, Ont., with the Canadian Gypsum Company, has been transferred to the U.S. Gypsum Company, Plasterco, Virginia.

W. N. McGillivray, Sc. '40, is assistant production manager for Frigidaire Products, Leaside, Ont.

A. F. Ness, Sc. '45, is with the Canadian Comstock Company in St. Catharines, Ont., working on the Hydro-Electric Power Commission frequency changeover.

W. H. Potts, Sc. '48, is on the staff of the Electric Reduction Company in Buckingham, Que.

PRINCIPAL R. C. WALLACE

Bowley and Carey

WALLACE OF QUEEN'S

By Dr. W. E. McNeill, Vice-Principal Emeritus

WELL for the man or woman born in the right place.

The Orkney Islands lie off the north-east coast of Scotland. They are bleak and treeless, perhaps the "ultima Thule" of the ancients. Great winds sweep them and wild tides lash them, but also a fantastic beauty ethereally glorifies them. Light never fails in that north land. It is a place for the nurturing of the soul. Its people are of that great lineage pridefully praised in Barrie's rectorial address at St. Andrews, "a race of men the very wind of whose name has swept to the ultimate seas. . . . Mighty are the universities of Scotland, and they will prevail. They are not four, but five. The greatest of them is the poor, proud homes you come out of, which said so long ago: 'There shall be education in this land.'"

Robert Charles Wallace and Elizabeth Marcus Smith were born in the Orkneys and are rich heirs of that strong, strange land. They met in the Kirkwall Grammar School, where one was teacher and the other pupil. The pretty pupil once whispered in a Mathematics class and was sternly reminded that in the last test she had made only twenty-nine per cent. They met again at the University of Edinburgh, where one was back for a second degree and the other was there for her first. A few years later, after a Ph.D. at Göttingen for one and a French Lycée for the other, they were married and came to Canada.

From 1910 to 1928 Dr. Wallace was in charge of Geology at the University of Manitoba, and from 1928 to 1936 President of the University of Alberta. He has been Principal of Queen's since 1936.

Mrs. Wallace, as her husband proudly tells, was a very beautiful girl at school and university. She is now a beautiful, graceful and gracious woman, with shy originality and quiet humour. She has a delicate, questing imagination. The mark of the Orkneys is upon her. She likes and lives the words of Catherine of Sienna, "Nevertheless I hold me in peace, for I perceive that nothing happens without mystery." Dr. Wallace once said that the Canadian north had "the feminine charm of undiscoverability". He was thinking of his wife.

Robert Charles Wallace is now the senior university head in Canada. Others write after his name the symbols of the honours the years have brought him—C.M.G. from the King, F.G.S. and F.R.S.C. from great learned societies, M.A., B.Sc., D.Sc., Ph.D., LL.D., and D.C.L. from universities in Scotland, Germany, Canada, the United States, and England. Two universities have made him Doctor of Science, Edinburgh for research at St. Andrews and the Michigan School of Mines and Technology *honoris causa*; thirteen have made him Doctor of Laws, including Harvard and Edinburgh; two have made him Doctor of Civil Law, including

Oxford. One American and one Canadian university in centenary celebration honoured him alone of Canadian heads, and a third selected him for its bi-centennial list. The Oxford Doctorate of Civil Law was given in the summer of 1948 when that University was host to the first post-war Congress of the Universities of the Commonwealth. A special convocation was held to honour educational leaders from overseas. There were 163 of them, but only six were chosen. One was from South Africa, one from India, one from Australia, one from New Zealand, and two from Canada. These were the Rector of Laval and Wallace of Queen's.

Principal Wallace—Queen's and McGill use the Scottish and not the American title—is a past president of the Royal Society of Canada and of the National Conference of Canadian Universities. He is a member of the National Research Council of Canada and President of the Research Council of Ontario. In 1944, along with Sir Robert Watson Watt, scientific adviser to the British Air Ministry, Dr. C. J. Mackenzie, President of the National Research Council, Dr. Otto Mass, research chemist at McGill, and President Conant of Harvard, he was made an honorary member of the Royal Canadian Institute. That is the scientific company he belongs in. He is the only Canadian member of the Board of Trustees of the Carnegie Foundation for the Advancement of Teaching. He was the one Canadian university head selected by the Prime Minister in 1947 to represent Canada at the London conference that created UNESCO—the United Nations Educational, Scientific and Cultural Organization. Dr. Archibald MacLeish, head of the United States delegation, said of him: "Only a few know how large a service Wallace rendered. He was one of the moulders of UNESCO." He has had many other notable honours and turned more away, including the headship of a larger university.

No other educator in Canada is more widely famed. Seventeen years ago, the President and Chancellor of Victoria in the University of Toronto said so. He wrote in his introduction to the book of the Burwash lectures of 1932: "The committee responsible for the choice of subject and lecturer believed that the fourth series should be concerned with a fresh consideration of the purpose of a liberal education in our time. It was the committee's conviction that no one in our country is better qualified to speak on this subject than the distinguished President of the University of Alberta".

The President of the University of Alberta of 1932, grown still greater in wisdom and knowledge, has been Wallace of Queen's since 1936. He has found his true home, intellectual and spiritual. At the installation dinner the keenly appraising John W. Dafoe, then editor of the *Winnipeg Free Press*, said with fine judgment: "Wallace was made for Queen's and Queen's for Wallace". Time has proved him right.

It was indeed a marriage of true minds and hearts without impediments. Look at each of the high contracting parties.

Queen's is in the oldest city in Ontario. It was founded when Kingston had its three-year eminence as the first capital of United Upper and Lower Canada. Naval and military establishments and old country gentry and

teachers and ministers and business and professional men made it the aristocrat of Canadian cities. Kingston had the first school in the province and Queen's was the first University. McGill and Toronto got their charters in 1821 and 1827 but neither began teaching till 1843. Queen's got its charter from Queen Victoria, with permission to use her royal title, on October 16, 1841, and promptly prepared to open. But it took two months for the Principal to arrive from Scotland and after that winter snows had to melt and waterways to thaw before students could travel. So the actual opening was deferred till March 7, 1842. Queen's was the first degree-granting institution in operation between the Maritime Provinces and the Pacific Ocean.

The Royal Charter required that Queen's be within three miles of St. Andrew's Church, Kingston. It was really born there, December 18, 1839, when at a great meeting a campaign for funds began. A young lawyer of twenty-four years, whose name was John A. Macdonald, moved or seconded four of the eight resolutions passed that night, but was too shy to deliver the speech he had prepared. Twenty-eight years later, in 1867, he became the first Prime Minister of the newly-formed Dominion of Canada. A few years before Queen's had given him its first honorary degree.

The Queen's of March 7, 1842, had ten students in a small frame house. In its last completed session of 1947-1948 it had 3,192 in residence doing full-time degree work and 3,342 others in Summer School and various extension activities, a total enrolment of 6,534. It has over thirty buildings, mostly of limestone.

The University has three faculties, Arts, Medicine, and Applied Science, and in close affiliation, Queen's Theological College. It has a combined course in Arts and Physical and Health Education, leading to the degrees of B.A. and B.P.H.E. It has a School of Nursing with the degree B.N.Sc., and a School of Commerce and Administration, which besides its regular degree work for B.Com. and M.Com., does Extension teaching for the Institute of Chartered Accountants of Ontario and other provinces, for the Society of Industrial and Cost Accountants of Ontario, and for the Association of Ontario Trust Companies. It also conducts courses for the Canadian Bankers' Association leading to Associates' and Fellows' Diplomas. There are two research divisions with some teaching—one called Industrial Relations and the other the Institute of Local Government.

Research is actively promoted in other fields. The University has a well-equipped Biological Research Station at Lake Opinicon on the Rideau, forty-five miles north of Kingston; it has the Miller Memorial Research Chair in Geology and the Chown Science Research Chair, at present in Physics. Other researches are carried on by individuals and groups in all faculties. The National Research Council and the Research Council of Ontario have given much help. So also has the Ontario Government, various corporate bodies, and generous individuals. Departments of the Dominion Government support Defence Research and Arctic Research. A member of Queen's staff is very active in the former and members of the Medical Faculty do summer work in the latter.

In view of the large contribution of Queen's staff and graduates to nuclear research — a law is named after one of them—the Atomic Energy Control Board has recently shared with the University the cost of erecting a synchrotron, a newly developed machine for atomic research. Three other universities in Canada have comparable equipment but Queen's new synchrotron covers a different range of energies.

A very important part of Queen's work is done in the Summer School, which has an attendance of about 600. Here are classes in Arts subjects for degree credit, a School in the Fine Arts with Art, Drama, Puppetry, Ballet, Music, Choral singing, Orchestra playing, Public Speaking and Radio, using the University Station CFRC. Very notable is the Refresher Course in English for teachers, usually conducted by Dr. E. J. Pratt, and the School of English, supported originally by the Carnegie Foundation and the Quebec Government, for teaching English to those of another tongue. In 1948 there were fifty students from the Province of Quebec and about half a dozen others.

Queen's 12,000 living graduates are active in many fields. But they have special distinction in three. They have become far beyond their numerical ratio administrators and teachers in the schools of Ontario. At one time they made up two-thirds of the inspectors and half the principals. As mining engineers they have been pioneers in developing the mineral resources of the province; they number nearly half the men in northern mining camps. And lastly, they have contributed largely to government, as members of Parliament, Ministers of State, and civil servants in key positions. The *McGill News* some years ago with kindly envy referred to "the aphorism, so current in Ottawa now, that Canada is not governed by a King but by Queen's."

But all this is external. Queen's does more for its students than any enumeration of courses or recital of great names can suggest.

It has always been tolerant of free discussion and of independence of thinking, believing with Milton that no one "ever knew Truth put to the worse in a free and open encounter".

It does not want bigness; it is one of few universities trying to be smaller in order that it may do more for the individual. It is famous for the friendly association of teachers and students. It desires to conform to Newman's ideal of a university, to be not a mill or a mint or a foundry but an Alma Mater knowing her children one by one.

Queen's is the most national of Canadian universities. Smaller institutions attract few from outside their province; the larger draw from fifty per cent to seventy-five per cent from the city in which they are. Queen's has only ten per cent from Kingston. Every county in Ontario, every one of the ten provinces is represented. If ten Queen's students meet for discussion in classroom, club room, or in a Professor's home, the chance is that only one is from Kingston. If ten students at McGill or Toronto or British Columbia similarly assemble, the majority of them are from local homes. The diversity of locality and background at Queen's makes for national good.

Though non-denominational Queen's is essentially Christian and all important faiths are represented. The United Church of Canada has thirty-five per cent, the Church of England thirty per cent, the Presbyterians fourteen per cent, the Roman Catholics thirteen per cent. Baptists, Jews, Lutherans, Christian Scientists follow in the order named. This year there are six Latter Day Saints from Utah and Idaho. All are welcomed. Any man or any woman has a chance to be president of the students' governing body, the Alma Mater Society. The only test is to be useful.

Queen's is democratic and friendly. Said the Rector, Dr. L. W. Brockington, recently: "May I tell you one or two little things I have noticed. Coloured students are always treated with equality and dignity. Jewish students are never allowed to remember the old unhappy prejudices. I recall one Colour Night when the captain of the football team, gently, modestly, and without sentimentality, brought as his particular guest a young lady whom a cruel fate had stricken with a heavy physical burden. The Padre has told me often of secret generousities, of strong arms around bowed shoulders that have helped to self-respect and self-redemption."

Fraternities are forbidden. In 1934 when a group, including some members of the football team, tried to defy the ban, the Alma Mater Society, on the eve of a game with Toronto, forbade the rebels to play. The Queen's team was left with only fourteen men, including two substitutes. Defeat seemed certain. But a hot, fighting spirit that would not be denied won 8 to 7, to the applause of all Canada.

A distinguished Englishman has said that he would rather be Principal of Queen's than of any other Canadian university because it is old enough to have traditions, big enough to have standards, and small enough to have character.

Such is Queen's. What of the Principal? Dr. Wallace's academic training has been briefly stated; it is of the best. But he is no remote academic figure, living apart from the world of men. He knows Canada as few do. In his early period as a Geologist, he went into the field each summer with the Dominion Geological Survey. A Manitoba lake bears his name. For three years, 1918-1921, he was Commissioner of Northern Manitoba. As such he had power like that of the Governor of a Crown colony. His charter from the Manitoba Government was, "Whatever you recommend, we'll do." His headquarters were at The Pas, five hundred miles north of Winnipeg, in a pioneer mining, lumbering, and fur trading district, extending to the shores of Hudson Bay. The population was diverse—adventurous explorers from the east, English, Scottish, Irish, French; Indians, half breeds, and lesser breeds; a scattering from the continent of Europe. They represented all intellectual and social levels, from the English gentleman who carried a copy of the *Iliad* in his pocket to rough-necks and n'er-do-wells. He had dealings with them all. He travelled constantly, by canoe in summer and by dog team in winter, always close to humanity in the raw, settling disputes, seeking the improvement of country and people, everywhere winning respect. In that new land the man counted and not his office or trappings. While he was Com-

missioner, foundations were laid for the development of the Hudson Bay Mining and Smelting property at Flin Flon and of the Sherrit Gordon property at Sherridon. As a son of the Orkneys, he not only defied the hardships but enjoyed them, and he loved the strange beauty of the north. He gloried in what the skill and courage of men had wrought. Perhaps deep in his heart he would have liked to spend his life there. But the University of Manitoba, which had given him leave, called him back. However, so great a service had he rendered that the province induced him a few years later to be part time Commissioner of Mines and Natural Resources while he taught Geology in the University.

Wherever Dr. Wallace has gone, he has immediately towered as a leader. So in 1928, when President H. M. Tory of the University of Alberta retired, only one man in Canada seemed fitted to succeed him, to continue the work of that virile and imaginative builder who in twenty years had magically created a great modern university out of nothing but earth and fire. In his eight years in Alberta Dr. Wallace consolidated gains, brought Mount Royal College of Calgary into affiliation as a junior college, founded a School of Nursing, and established a Summer School of Fine Arts, not in Edmonton, but in Banff, where Nature is chief instructor. Once more he became a traveller to maintain the Alberta tradition of bringing the University to the people. Through radio, libraries, and well directed extension work, Alberta is probably more of a people's university than any other in Canada. But Dr. Wallace's main service was in maintaining morale through the withering years of the depression. A large Carnegie grant for assistance was used, not to support salaries, which had to be cut, but to promote research. Not money but a sense of stoic pride sustained the staff.

In 1936 the brilliant Sir William Fyfe left Queen's to be Principal of Aberdeen. Queen's is not rich in endowments but its tradition is to be rich in men. The greatness of Grant and Watson, of Cappon and Jordan, of Shortt and Dupuis, of Skelton and a hundred others can never be forgotten. They must have worthy successors. Dr. Wallace was the man Queen's needed; he was the unanimous choice as the next Principal.

It is now time for a personal introduction.

Principal Wallace is a man of deeply spiritual nature; he is an elder in Chalmers United Church, Kingston, and unless something prevents, he is in his pew every Sunday morning. The remainder of the day is reserved for rest and thought. He does not give or accept Sunday invitations. His personal habits are simple and abstemious. He smokes little, uses no alcohol, is always unpretentious.

He looks much younger than he is. No lines of care tell of his rich experience in living. At the time of the Queen's Centenary in 1941, the delegate from Harvard, who was its Dean of Arts and Sciences, said to his host after the Principal's Convocation Address, "That young man will go far". He was then past sixty. He is young, not in years, but in mind and manner and vigour. Work is not a task but a pleasant natural function, like most men's eating and sleeping. He rises at 6:00 in the morning to get on with his read-

ing and writing. If anyone is around to give him breakfast, well and good; if not he contentedly gets it himself. He is at his office at 8:30. Thereafter, to his household his ways are unpredictable. When he will return to lunch or dinner no one knows, least of all himself. He may come home at 5:00 to say that in half an hour he must motor to Ottawa. There is no record of his being fined for speeding; that is his good luck.

His office door stands wide open all day as a symbol of accessibility. He sees people gladly, especially students. He likes them and they like him. If now and then they irreverently jest, they are always kindly. In the comic column of a student paper, under the heading, "Presents Santa Forgot", the writer listed "A brush and comb for Dr. Wallace". Said Mrs. Wallace in amused comment, "It isn't that he doesn't comb his hair; it just won't stay". It would be a pity if it did. No fashion plate he. The sometimes touseled head and the sometimes unpressed clothes belong to the arena, where he has his life and wins his plaudits. A playful commentator wrote in the *Queen's Journal* last winter, making a comparison of past and present, "Now Queen's thinks a lot more of her Principal. Why, I don't suppose there is a student who would trade Dr. Wallace for Ban Righ Hall [the women's residence] or any other building for that matter, although one would naturally hesitate to stack him up against the Senior Rugby Team".

There is great kindness in him. Before church every Sunday morning and sometimes oftener, he visits the students and staff who may be in hospital. In a community of 3,000 there are always many such. He writes letters of sympathy promptly and feelingly, not as a formality but as a natural human act. He is completely unselfish. He never asks or expects anything for himself but only for his staff and university.

Notwithstanding his humanity, no one gets very close to him. He has a fine reserve. He keeps his troubles and his triumphs to himself. He doesn't tell even his wife. He laughs heartily at a bit of fun but he never raises his voice in argument or becomes ill-tempered. He bears no grudges. He is never annoyed when opposed. Many a time he has said, "If a man thinks I am wrong I want him to tell me so." He wears equanimity like a garment. He is a leader but not a dictator. Still, he usually gets what he wants.

He is in daily demand as a public speaker. There can be few men in Canada who have addressed so many meetings on so many topics, always without manuscript or even a note. One of his great speeches was on Technical Agriculture. He will talk about mining or medicine or nursing or about art or music or literature with equal facility and inspiration. In his introductions to scores of public lecturers at the University each year, he is always fluent, informed, and felicitous. His great theme is Education. His range of reading, so modestly exhibited as to be almost unnoticeable, reaches far. Names like Plato, Whitehead, Eddington, Einstein, Bacon, Huxley, William James, freely appear in his writing and here and there bits of poetry adorn like jewels. One could very rightly adapt an epigram made on Jowett, the great Master of Balliol:

He is master of this college
What he knows not is not knowledge.

Dr. Wallace is quite fearless. At a recent meeting of the University Trustees, one of them said: "It is not fair to ask the Principal to make the decisions involved in this policy. He may find it embarrassing to discriminate between the individuals concerned". Another Trustee said quickly, "Not this Principal". Dr. Wallace added quietly, "I am willing to take the responsibility". Like any normal person he prefers peace to contention, happiness to pain, but if he must hurt feelings, his only thought is to do what is right.

His dominant personal quality is sincerity. This it is that everywhere captivates individuals and great audiences. His sincerity is a radiating force as compelling as the late President Roosevelt's smile. He speaks much in discussions, whether in small committees or at University conferences, never just to be heard but because he must. His fertile and active mind is always in swift operation. He is listened to with deep respect. No one carries more weight.

Such is the man who in 1936 came to an old University with great traditions and who nevertheless has changed and added much. Of the activities mentioned earlier, he has, after discussion with proper officers and governing bodies, brought into being the Schools of Nursing and of Health and Physical Education, the department of Industrial Relations, the Institute of Local Government, the Biological Research Station, the School of the Fine Arts, and other special activities of the summer. He himself gives a series of lectures each year to the entering class in order to introduce them to the different fields of knowledge. Every department in the University has felt his revivifying spirit. Above all he has stimulated research, well-developed when he came. Sabbatical leave with generous salary is annually given to three persons. A special grant of \$250,000 from the Province a few years ago, though made without limitations, has been exclusively used for research, mostly in the development of the natural resources of the province. Buildings that once were chilly and dark through winter nights are now kept comfortable till late hours and lights in many windows mark the researcher's vigil. The staff is ever in the great but kindly taskmaster's eye.

What is Dr. Wallace's educational philosophy? It will be noted that many of his additions to the curriculum are vocational. Not everyone approves all. But his action was based on the deep faith that certain practical studies are best taught in a university where humanizing and philosophical lights give clearer view. No one is a firmer believer than he in the value of the humanities. The keynote of a liberal education, he writes, is humanism, but the highest utility is the advancement of mankind. Education is liberal only if it is purposive. The culture of the past must recognize the realities of the present. The two must join hands in friendship. Technical courses are justified in a university if they deal fully with principles and lightly with techniques. So medicine, nursing, law, engineering, commerce, finance, and many more are proper university subjects. "If technical training remains true to this conception, it will provide in its own sphere a liberal education." So reasons one who is a Master of Arts of Edinburgh, knowing Greek and Latin, a Doctor of Science of the same university and a Doctor of Philosophy

of Göttingen, knowing Geology and Mineralogy, and a man among men, knowing human needs and aspirations.

Here are a few *obiter dicta* from his writings:

“Education must redirect minds and emotions and inculcate a sense of values, both material and spiritual.”

“It is the height of folly not to find out what a boy or girl is best fitted for.”

“We should have an uneasy conscience so long as able young men and women are deprived through lack of means of the education that would return dividends many times over.”

“Junior Colleges should not from a sense of local pride be mushroomed to the scope of full scale universities. There is only a limited amount of money. The danger is that all will be starved alike.”

“A dull teacher with no enthusiasm in his own subject commits the unpardonable sin. He makes education impossible.”

“There is no way to knowledge and ultimate wisdom but by hard work and pleasure in doing it.” That is the Wallace biography in brief.

The Dominion Government's committee on cultural activities might well ponder these sentences:

“The enduring quality of a people is to be found not in its material development but in its culture, its literature, its interpretation of a way of life. The contribution which China or Judea or Greece or Rome or Italy or Spain or the Netherlands have made to the spirit of mankind has had little to do with the material prosperity of those countries. . . . The glory of pomp and circumstance has faded, . . . the glory of truth and beauty. . . glows steadfastly.”

Then in practical application, Dr. Wallace says that Canada is too big and too varied to be portrayed on a single canvass. “We can do no better thing for the spirit of our country than to encourage those who are delineating faithfully and skilfully the life and atmosphere of that part of Canada they know and love. Writers cannot be true to the Canadian scene if they are tempted to write for the larger and wealthier American public.”

Wallace and Queen's are a little mixed in this article. How could it be otherwise? They are one. Let the last words be the matchless eloquence of the Rector, Dr. Leonard W. Brockington:

“This University is determined to survive as a free institution, uncontrolled by State or Church, making no distinction of race or colour or creed. It will continue quietly and not blatantly as a protest against the fallacy of bigness, as an advocate of the excellence of quality, as an example of the personal and national good that springs from intimate association between devoted teachers and eager learners, for it proposes to remain what it was established to be, a teaching university, not a factory of diplomas but a forge of character and an armoury of citizenship.

- “No things bring more distinction to our land than the noble sincerity and devotion of Dr. Wallace.”

FORTY-THREE RECEIVE MEDICAL DEGREES

EIGHT GRADUATE FROM SCHOOL OF NURSING SCIENCE

FORTY-ONE men and two women received the degrees of Doctor of Medicine and Master of Surgery at the Medical Convocation in Grant Hall on June 4. In addition, eight young women were granted degrees of B.N.Sc. and one was awarded a diploma in public health.

Recipient of the honorary degree of LL.D., Dr. Duncan Graham, former head of the Department of Medicine, University of Toronto, was the guest speaker. He made an appeal to the members of the graduating class to cultivate the best in all spheres of life, so that they might have a knowledge of the first rate in their calling, a better appreciation of human values, and a broader understanding of human beings.

Speaking of the great advances made in the profession during recent decades,

he said "At no period have achievements from scientific medicine been greater or hopes brighter for progress in the prevention and cure of disease."

The speaker deplored the growing tendency for teachers in medical schools to place greater emphasis on the vocational or technical aspect of training, though he recognized the cause of this as the inevitable development of specialism and the application of scientific methods. He said that a just balance between education for living and education for earning a livelihood is not being maintained.

"Today you are facing life in a world of uncertainties, shaken Christian beliefs, and changing values," Dr. Duncan stated. He appealed to the graduates to strive to bring health and comfort to the minds of their patients as well as healing to

MEDICAL CONVOCATION GROUP

Front Row, left to right: Miss Dorothy Riches, Dr. Duncan Graham, Principal Wallace, Dean Melvin, Rev. A. M. Laverty. Back Row: Dr. J. H. Orr, Miss Royce, J. F. Foster (secretary of the Association of Universities of the British Commonwealth), Miss L. D. Acton (superintendent of nurses, Kingston General Hospital), Miss J. M. Weir, Dean Ellis.

. . . .And thus it has come about that graduates and students of Queen's have something approaching a fanatical loyalty to their Alma Mater. Perhaps because they have found the pearl of great price there. They have learned to cherish truth and beauty; to explore the sciences and the arts; and to contribute to the construction of a humane and enlightened society. They know that a university must not only pursue the truth and grasp something of its significance, but must also diffuse that truth and its healing power in service to others. And so the doctors, engineers, teachers, ministers, and men of affairs who have been graduated from Queen's have healed the sick and ministered to the minds and souls of men; taught and wrought in great urban centres and lonely hamlets on the far frontiers of civilization. They have built bridges across mighty rivers, and constructed highways and railroads. Everywhere, and in all directions, they have added to the material and cultural riches of their country.

As to the future of this proud and honorable institution, there must be no doubt. It must have the support of its graduates and friends now. Its students still raise Queen's defiant war cry, which has sounded over the immemorial years, in days of peace and years of war. They shout it in a language doubtless spoken in Eden, but which may be compassionately translated for the uninstructed Sassenach:

The Queen's Citadel of Learning
Shall stand forever!
Never yield, never yield, never yield!

—W. W. Swanson, *Saskatoon Star-Phoenix*

their bodies. "To this end you must know not only what is best in the vocational side of your calling but what is best on the spiritual side," he stated.

In his remarks to the graduating class, Principal Wallace said "It is because you will have to work out your own professional status in a world of changing views as to the function of the medical man that I would wish for you a stability in your own thinking that gives you a firm anchorage for your lives. If the foundations on which we build are solid, we can stand foursquare to the changing winds of this day and the next, and keep our feet firmly planted on ground that does not move. There are solid foundations. For the great affirmatives of justice, of goodness, and of truth, the values of sympathy and understanding, the belief in one's fellow man and his potentialities—all these are of the well-tested gold in life's experi-

ence. They are of things that will endure. By them you can set your compass, and you will reach your harbour. They have been tested by many generations of men before your time, and they have not failed."

The sponsio was administered to the Medical graduates by Dean G. Spencer Melvin and to the nursing graduates by Miss Dorothy Riches, Director of the School of Nursing.

Represented Queen's At Anniversary Ceremony

DR. F. H. C. Baugh, Arts '20, Med. '22, president of the Guelph alumni branch and medical superintendent of the Homewood Sanitarium, Guelph, represented the University at the 75th anniversary of the founding of the Ontario Agricultural College on June 18.

ENDOWMENT DIRECTOR REPORTS PROGRESS

THE Endowment Campaign got under way across Canada on April 1. For the four-month period ending July 31, the Director reports a total of \$980,312.66 pledged by graduates, other individuals and corporations, and \$553,620.12 paid on account.

The Alumni Maintenance Fund is the particular concern of the graduates. The goal has been set at \$175,000 a year. For the first four months of the 1949 Campaign, graduates have paid \$56,316 into this fund. However, about \$25,000 of this represents prepayment of pledges over a five-year period, and only about \$31,000 can properly be credited to the 1949 account. This means that, as of August 1, 1949, 17 per cent of the Alumni Maintenance Fund objective has been reached. In several districts the Campaign will not begin until Autumn. In many others only a small proportion of the graduates has as yet been canvassed. Even so, it is clear that only a thorough canvass of all graduates and generous response from a large proportion of them will put this fund over the top. All district chairmen are being asked to complete their canvass at the earliest opportunity and to make a re-canvass of those who have not yet subscribed, where they deem this possible and advisable.

The Building and Endowment Fund objective is \$3,000,000. As of August 1, 1949, approximately \$650,000 had been pledged and approximately \$360,000 had been paid into this account. Thus about 22 per cent of the required amount has been raised. Here again it is evident that renewed efforts must be made if the necessary funds are to be obtained.

Reports on returns from each district for the period April-June have been sent to all chairmen. Readers of the *Queen's Review* will be interested in some excerpts:

Percentage of alumni contributing (to June 30):

Ottawa: 50 per cent; St. Catharines, 40 per cent; Welland, 36 per cent; Niagara Falls, 34 per cent; Windsor, 30 per cent; Toronto, 29 per cent; Hamilton, 28 per cent; Kingston, 25 per cent;

Saskatoon, 25 per cent; Winnipeg, 24 per cent; Montreal, 19 per cent; Chatham, 19 per cent; St. Thomas, 14 per cent; Calgary, 14 per cent.

Percentage of alumni pledging annual support (to June 30):

Ottawa, 32 per cent; St. Catharines, 27 per cent; Windsor, 21 per cent; Welland, 20 per cent; Hamilton, 18 per cent; Niagara Falls, 16 per cent; Toronto, 15 per cent; Winnipeg, 13 per cent; Montreal, 11 per cent; Saskatoon, 11 per cent.

Average alumnus' contribution (to June 30):

Winnipeg, \$45; Kingston, \$43; Montreal, \$30; Toronto, \$28; Saskatoon, \$28; Ottawa, \$25; Simcoe, \$25; St. Catharines, \$23; St. Thomas, \$23; Hamilton, \$21; Welland, \$21; Windsor, \$19; Chatham, \$17; Niagara Falls, \$16; Calgary, \$14.

Number of non-graduates contributing (to June 30):

Ottawa, 112; Kingston, 21; Toronto, 11; Montreal, 7; Winnipeg, 4.

Contributions by Corporations, etc. (to June 30):

Montreal, \$378,285; Toronto, \$146,550; Hamilton, \$60,550; Ottawa, \$47,690; Kingston, \$5,700.

Receives Grant For Research

A GRANT of \$3,835 to Queen's has been announced as one of 217 given by the National Institute of Health, Washington, District of Columbia. The money will be used for the study of peptic ulcers being carried on by Dr. Malcolm Brown.

Professor Grant Retires

INCLUDED in error in the list of resignations from the staff in the May issue of the *Review* was the name of Prof. L. F. Grant, associate professor of civil engineering. Professor Grant did not resign, but has reached retirement age.

QUEEN'S EXPEDITION VISITS FAR NORTH

A six-man medical expedition from Queen's University left Rockcliffe Airport, Ottawa, Ontario early in July for Coral Harbour on Southampton Island at the northern end of Hudson's Bay. They are, left to right, seated: John Green, final-year Medical student, who is in charge of administrative arrangements, and Dr. Thomas Boag, English graduate who is interning at the Kingston General Hospital; standing: Dr. J. D. Hatcher, fellow in physiology at University of Western Ontario, Donald Whittier, fifth-year Medicine, John Page, final-year Medicine, and Don Delahaye, final-year Medicine. The party was joined by its head, Dr. Malcom Brown of the Queen's staff, in August.

The group will study the effects of climate on health, the high incidence of certain diseases among peoples living in northern latitudes, and the lack of certain vitamins, and the prevalence of parasitic infections among the Eskimos. This is the fourth such medical expedition to the Arctic from Queen's. The party is scheduled to return September 1.

ALUMNI INCREASE ENDOWMENT PLEDGES

THE alumni response to the endowment campaign to date has been most encouraging. Several who signed the pledge forms for annual contributions have subsequently increased the amount of their pledge on their own initiative. Typical are the following excerpts from letters received at the Endowment Office:

"I received the receipt for \$25 for my contribution to the Alumni Fund for 1949. When my pledge was sent I

promised \$10 per year in the future. I intend to increase that to \$25 per year for some years at least. I am glad to make this small contribution to the University."

"This will acknowledge with thanks official receipt for my contribution of \$25 to be applied to the Endowment Fund of Queen's University. After having given this matter further consideration, I believe my contribution was lower than it should have been and instead of \$25 per year will contribute \$100. I am enclosing herewith a cheque covering the additional \$75."

THE 1949 REUNION

FRIDAY AND SATURDAY, OCTOBER 14 - 15

FROM all over the continent, Queen's alumni will converge on Kingston for the official Reunion week-end on October 14-15. After a lapse of ten years, the Dix Reunion Plan will be in operation again, and thirty-eight classes are being invited to hold a reunion. In addition, other classes are planning to meet at this time, including Science '19 and Medicine '29.

Some of the classes may not find it convenient or expedient to hold their reunion on the official week-end and some are considering the week-ends of the McGill-at-Queen's game on October 29 and Varsity-at-Queen's on November 12. Such an arrangement avoids congestion and ensures better accommodation for dinner meetings.

The football game is usually the highlight of the week-end programme. This year Queen's will be host to Western. The Tricolour has not won a game from the Mustangs in a decade but the tide must turn some time. Last year Queen's were tied with the Purple and White at the half-way mark and went down to ultimate defeat only after making the game one of the most thrilling of the season.

Classes officially scheduled to return this fall include those of '92, '93, '94, and '95 '99, '11, '12, '13, '14, '24, '30, '31, '32, '33 and '49. Of course, any other class may hold a reunion if desired. As a matter of fact because of the lapse of the reunion schedule during the war years and afterwards, nearly all are due for a reunion.

At time of going to press several classes have made considerable progress with their preliminary plans. The Class of Science '19, with Norman F. Tisdale of Pittsburgh, Pennsylvania, in charge, are planning a dinner, with an orchestra in attendance, in the ballroom of the LaSalle Hotel. Any other Science years of about the same vintage who would like to share this accommodation are invited to get in touch with Mr. Tisdale.

The Class of Medicine '29, with Dr. G. R. W. Mylks, Jr., of Kingston, acting as the

spark-plug, have lined up an "open house" at the home of Dr. Mylks, a cocktail party at the home of Dr. W. Ford Connell, and a reunion dinner. This class is planning to publish a yearbook with pictures and biographies of the individual members.

Science '24 are making plans for their twenty-fifth anniversary and Vice-President F. M. Roberts of Schenectady, New York, is in charge of the organization. Other classes are also now at work on their programme and details will be available in the near future.

The Class of Science '43 is planning to hold a reunion in Toronto on the week-end of the Queen's-Varsity game on October 8. The executive is taking advantage of the fact that many members of the class make it a practice to attend this event in any case. A highlight of this week-end will be the Toronto alumni pep rally dance in the Mutual Street Arena on Friday evening, October 7.

Events already arranged or under consideration for the Reunion Weekend at Queen's on October 14-15 include the Queen's-Western game, Autumn Convocation, University Reception, Reunion Address, Alumni Luncheon, annual meeting of the General Alumni Association, fall meetings of the University Board of Trustees and Board of Directors of the General Alumni Association, Class Dinners, and the Football Dances. For those classes who will be holding their reunion on the week-end of the Queen's-McGill game on October 29, the outstanding feature will be the formal opening of the new Students Memorial Union.

On the week-ends of all home games, two alumni dances will be conducted—one in Grant Hall, under the auspices of the General Alumni Association, for alumni, staff and friends; and the other in the Gymnasium, put on by the Kingston Branch, for the students and such alumni as wish to attend.

PROGRAMME

Friday, October 14

Registration, and Visiting the University and Hospitals.
Evening—University Reception in Grant Hall.
Annual Meeting of the General Alumni Association.
Reunion Address.
Class Dinners.

Saturday, October 15

Morning—Registration, and Visiting the University and Hospitals.
Fall Convocation.
Afternoon—Queen's-Western Football Game.
Evening—Class Dinners.
Alumni Football Dances.

Date and Time Undecided

Fall Meetings of the University Board of Trustees and Board of Directors of the General Alumni Association.

WELCOME TO QUEEN'S

THE REUNION CLASSES

ARTS AND MEDICINE '92-'93-'94-'95

There have been so many additions to the campus since your day that you would need a guide to find your way about, and that is exactly what we propose to provide for your convenience. There will be a group of student guides eager to show you around.

ARTS '99

Fifty years out! This will indeed be a memorable reunion. Make your plans now to revisit the Old Ontario Strand "where Queen's forever more shall stand." A royal welcome awaits you!

MEDICINE '99

Come back and meet the new Dean of Medicine and see the latest development in the Faculty. There have been many changes since your day but the old Queen's spirit is the same.

ARTS '11-'12-'13-'14

Remember the spirited inter-class debates? Here is an opportunity to talk over old times with others of your vintage. Just put an "Out to Lunch" sign on your door and take a few days off for a week-end with your old classmates. It will be an experience you will never forget.

SCIENCE '11-'12-'13-'14

There are many new features on the campus of interest to Science graduates. You will particularly enjoy seeing the beautifully equipped McLaughlin Hall, the mechanical engineering building.

MEDICINE '11-'12-'13-'14

When the reunion organizers of your classes send you an invitation to return to Queen's, be sure to reply that nothing could keep you away. A most interesting programme is planned.

SCIENCE '19

Norman F. Tisdale of Pittsburgh, Pennsylvania, is acting as party whip for the thirtieth anniversary of this class. He has been foresighted enough to arrange for accommodation at the LaSalle Hotel and has reserved a block of tickets for the football game. Tell him you will be among those present.

ARTS, MEDICINE, and SCIENCE '24

It seems as if it were only yesterday that you were enjoying yourself at Queen's, watching the big Tricolour team make Intercollegiate gridiron history. How about getting us started off again?

MEDICINE '29

Twenty years after, and this class is due for a big reunion. Gordie Mylks is stealing time from his large practice to organize the details. Plans include a yearbook and several gatherings.

ARTS, MEDICINE, AND SCIENCE '30-'31-'32-'33

Most of these classes have had only one reunion since graduation. In the intervening years the members have scattered all over the face of the earth, but they are planning to get together for this occasion. They will be particularly interested in the new Students Memorial Union, which replaces the building opened in their time.

DR. G. H. ETTINGER SUCCEEDS DR. G. S. MELVIN AS DEAN OF THE FACULTY OF MEDICINE

APPPOINTMENT of Dr. G. H. Ettinger, M.B.E., B.A., M.D., C.M., F.R.S.C., as Dean, and Dr. H. D. McEwen as secretary of the Faculty of Medicine, in succession to Dr. G. S. Melvin and Dr. J. H. Orr, respectively, was recently announced. Dr. Melvin and Dr. Orr resigned shortly after the close of the 1948-49 academic year.

The new Dean is a native of Kingston and graduated from Queen's in Arts, 1916, and Medicine, 1920. On graduation, Dr. Ettinger became a lecturer in Physiology at Queen's. In 1923 he studied at the University of Chicago. In 1928, Dr. Ettinger went to Scotland to study under Sir Edward Sharpey-Schafer at the University of Edinburgh.

Dean Ettinger worked with Sir Frederick Banting in Toronto as an associate on medical research from 1931 to 1935 when he came back to Queen's as professor of physiology. In 1938, Dr. Ettinger was appointed a member of the associate committee on medical research, National Research Council. During the war, he was honorary secretary of this committee and several sub-committees involved in important medical research to safeguard the lives of men in Canada's armed services.

Well known for his medical research, especially in electric shock and cardiovascular physiology, Dr. Ettinger in 1946 was appointed assistant director of the Division of Medical Research and secretary to the advisory committee on medical research, National Research Council. He will retain these appointments.

Dr. Ettinger is immediate past president of the Canadian Physiological Society which he himself organized in 1935. He is on the Advisory Medical Board of the Ontario Cancer Treatment and Research Foundation, a member of its committee on scientific research and chairman of its editorial committee.

Dr. McEwen is also a graduate of Queen's, where he obtained his B.A. and M.A. degrees, and of the University of Rochester, where he earned his Ph.D. His teaching background includes posts

at University Hospital, University, Virginia; University of Rochester, Rochester, New York; and University of South Dakota, Vermillion, South Dakota. He came to Queen's in 1947 as associate professor of pharmacology.

Dr. Melvin, who has been in ill health for some time, was appointed Dean of the Faculty of Medicine in 1943, succeeding Dr. Frederick Etherington. A member of the Queen's staff since 1919, he has served as head of the Department of Physiology and secretary of the Faculty. He has also been officer commanding the Queen's University Contingent, Canadian Officers' Training Corps. He will continue to serve as head of the Department of Physiology.

A graduate of Queen's of 1923, Dr. Orr served his internship in New York and joined the Queen's staff in 1925 as a bacteriologist. In 1927 he spent a leave of absence in England, returning to Queen's the following year. He has been engaged on many research projects in addition to serving as professor of bacteriology. He will continue in the latter capacity.

DEAN G. H. ETTINGER

HONORARY DEGREES CONFERRED ON DISTINGUISHED VISITORS AT SPECIAL CONVOCATION ON JUNE 20

HONORARY degrees of Doctor of Laws were conferred on Sir David Lindsay Keir, vice-chancellor of Queen's University, Belfast, Northern Ireland, and newly appointed master of Balliol College, Oxford, and Dr. Ernst Malherbe, principal of the University of Natal, Pietermaritzburg, South Africa, at a special convocation held in Grant Hall on June 20. Principal Wallace conferred the degrees as the recipients were presented to him by Dr. W. A. Mackintosh, vice-principal.

Dr. Mackintosh cited Sir David as a "distinguished son of a Scottish manse, an eminent scholar in the law and history of the constitution, a wise and courageous leader in education." Dr. Malherbe's citation was "an outstanding scholar in the methods and organization of education, whose creative enthusiasm and skill in administration have made him an architect of education in his native country."

Special guests at the ceremony included Dr. Lillian Penson, vice-chancellor of the University of London, London, England, and Dr. R. S. Aitken, vice-chancellor of the University of Otago, Dunedin, New Zealand. Both brought greetings to Queen's from their respective universities.

The four prominent educators were in Halifax recently attending the first universities ever held in Canada. They meeting of official of Commonwealth were also visitors at the National Conference of Canadian universities there.

Sir David Keir discussed the problem of the relationship between the university and the community which it serves. "Any university which fails to relate itself to the needs of its people is not living up to its task," he said.

He described the university as a training centre, as a centre of scientific inquiry, and as a disinterested arbiter in public affairs. "The university does consist of buildings," he said. "It also consists of people in mutual relationship to each other in pursuit of a common purpose. That purpose must be to provide

youth with that kind of education most in keeping with our tradition and with the needs of the community."

Dr. Malherbe described the development of the Union of South Africa, with particular emphasis on the two European cultures which made up the nation. He drew a parallel between the Dutch and English elements in South Africa and the French and English elements in Canada. But, he said, where only 15 per cent of the population of Canada speak both French and English, 66 per cent of the population of South Africa speak both Afrikaanse and English.

He pointed out that the younger dominions of the British Commonwealth "can contribute vitally to the Old Country and to the continent." The young nations have a readiness to experiment but also a strange conservatism". They are not so tolerant of a man who, they think, thinks dangerous thoughts.

Dr. Malherbe contended that there was more tolerance of new ideas in the old universities, such as Oxford and Cambridge, than there was in the younger universities, especially those in the United States.

SCHEDULE ANNOUNCED FOR CONCERT SERIES

THE schedule for the University Concert series this year is as follows:

October 17—Montreal Women's Symphony.

November 7 — Pearl Palmason, violinist.

November 23 — Greenwich Village Opera Company.

January 17—Bartlett and Robertson, piano duo.

February 23—Ernest Adams, singing star.

Tickets cost \$6 and \$5 for the series. Applications are now being accepted at the Office of the Department of Extension.

Athletics

Football

GRADUATION this year cost Queen's fewer football players than any other team in the senior Intercollegiate league, but this basis for restrained optimism received a severe jolt when the examination results were announced. Several important members of the team failed to make the grade and are definitely lost and a large number of others have to write off supplemental examinations before they will be eligible to play.

Via graduation, the Tricolour lose the services of one-time captain and experienced lineman Bob Stevens, Roy Fardell, and Frank MacIntyre. Casualties at examination time include Dino Bandiera, Bill Huntley, Roy Sadler, Jim McGuire, Keith Christiansen, as well as several members of the intermediate team who were due for promotion. Among those threatened with "supps" are Bill Bell, Murray Bulger, Harry Dick, Art Jackson, Hank Simola, Ross Steeves, George Devlin, and several of the intermediates.

On the credit side of the ledger, Captain-elect Ross McKelvey passed his examinations, as did Al Lenard, former captain and Intercollegiate all-star. Others with a clear bill of academic health are Bill Burgess, Don Bahner, "Rozy" Bryane, Jim Charters, John Faulkner, Bill Gatfield, Dick Harrison, "Tip" Logan, Harold McCarney, Morris Richardson. Nick Speropoulos, who played senior two years ago, will be eligible this fall.

From the intermediates and the juniors, the Comets and the Rockets, there are expected to come some badly needed replacements. Last year's squads boasted several players of proved senior calibre who were not eligible to play Intercollegiate. In addition, there should be some good material among the newcomers, if pre-season rumours can be believed.

While Queen's did not have a spectacular season last year they showed a marked improvement over 1947. Under

the new head football coach, Frank Tindall, the team won two and lost four, not counting two victories in exhibition games. In the games that they lost, they gave a good account of themselves. Perhaps the best indication of the change for the better may be seen in their performances against Western. In 1947 Queen's lost 52-3 and 32-0; last year they lost 19-12 and 23-9, and in both games the score was tied at half-time. Against the new Intercollegiate champions, University of Toronto, Queen's had one win and came within six inches of victory in the second game.

At the start of the 1948 season Coach Tindall did not know the players and as a result much time was lost that could have been used to better advantage. This year the coach knows his men and what they can do and the Tricolour may be expected to get away to a better start.

SCHEDULE

- Sept. 24—Assumption at Queen's (exhibition)
- Oct. 1—Queen's at McMaster (exhibition)
- Oct. 8—Queen's at Toronto
- Oct. 15—Western at Queen's
- Oct. 22—Queen's at McGill
- Oct. 29—McGill at Queen's
- Nov. 5—Queen's at Western
- Nov. 12—Toronto at Queen's

ALUMINUM PLANT EMPLOYEES ENROL AT SUMMER SCHOOL

SEVERAL married employees of the Kingston works of the Aluminum Company of Canada have registered for the classes in Spanish at the current session of Summer School which began on July 5. These engineers, accountants, and industrial experts are taking the university course in order to be able to do their job the more effectively should they be sent to South America with their firm. As their wives would accompany them, they too have enrolled.

At the Branches

Kingston

WINNER of the alumni golf trophy this year was A. C. Hanley, Sc. '18, in the annual competition held at the Cataraqui Golf and Country Club on July 28. Other winners were as follows: second low net, F. L. Reid, Med. '16; low gross, Dr. P. A. McLeod, Arts '21, Med. '26; second low gross, Dr. G. R. W. Mylks, Jr., Arts '27, Med. '29; high gross, G. O. Walker, Com. '40; highest any hole, Dr. G. B. Macpherson, Med. '30, Arts '31. Presentation of the prizes was made by Dr. McLeod at the dinner held after the competition.

In the annual election of officers the following were appointed: past president, Dr. Mylks; president, D. L. Rigsby, Sc. '40; vice-president, R. N. Bassarab, Sc. '47; secretary, H. F. Gibson, Arts '37, Com. '38; treasurer, W. W. Farrell, Com. '34; executive committee—Dr. J. J. E. Baker, Med. '34, Dr. R. C. Burr, Med. '32, Dr. D. W. Boucher, Med. '28, Dr. O. A. Carson, Sc. '23, J. J. Clarke, Sc. '41, Prof. H. G. Conn, Sc. '31, W. G. Cunningham, Arts '39, D. J. Day, Arts '23, Dr. J. E. Gibson, Arts '37, Med. '40, A. C. Hanley, Sc. '18, M. N. Hay, Sc. '23, H. J. Hamilton, Arts '32, W. J. O. Henderson, Arts '38, W. P. R. Holdcroft, Arts '21, Sc. '23, A. E. Hyde, Sc. '37, Ian MacLachlan, Sc. '25, Arts '26, Dr. P. A. McLeod, Arts '21, Med.

Branch Officers

H. I. MARSHALL
Secretary, Ottawa

W. W. MUIR
President, Windsor

'26, C. A. Macpherson, Com. '26, W. C. Newman, Arts '39, Dr. S. M. Polson, Arts '05, Med. '10, J. T. Provan, Sc. '46, D. J. Rankin, Arts '24, H. M. Reid, Arts '30, Robert Seright, Sc. '31, D. E. Steacy, Arts '43, Graham Thomson, Arts '34, M. J. Waite, Sc. '31, J. E. Wright, Com. '28.

Dr. G. R. W. Mylks, the retiring president, was in the chair and welcomed the incoming executive. Announcement was made of the fishing party scheduled for early in September.

Frank Tindall, head football coach, spoke briefly of plans for the coming season. He promised that the Tricolour would give a good account of themselves.

M. C. Tillotson, Com. '26, director of endowment, gave a progress report in connection with the endowment campaign. Dr. J. S. Delahaye, Med. '27, spoke in reminiscent fashion of the football teams of the '20's. Dr. P. M. Macdonnell, Arts '12, Med. '16, and W. P. R. Holdcroft, Arts '21, Sc. '23, contributed anecdotes.

Ottawa

AT the annual meeting held in the hall of Knox Presbyterian Church on May 26, Dr. L. D. Wilson, Med. '28, was elected president of the Ottawa branch for the ensuing year.

Other officers elected were: honorary president Dr. W. C. Clark, Arts '10, LL.D. '35; honorary vice-presidents, Judge C. A. Cameron, Arts '13, Dr. Florence Dunlop, Arts '24, Dr. D. M. Gordon, LL.D. '47, A. E. MacRae, Sc. '14, N. B. MacRostie, Sc. '11, Arts '14, Dr. Wallace Troup, Med. '24; first vice-presidents, N. B. Davis, Sc. '11, and Mrs. N. M. Sanders (Jennie Shields), Arts '14; second vice-president, P. E. H. Brady, Arts '41; secretary, H. I. Marshall, Sc. '41; treasurer, M. L. Narraway, Sc. '47; auditors, A. T. Batstone, Arts '17, and Miss Dora Helmkey, Arts '18; committee, Miss Jean Burrows, Arts '37, Miss Jacqueline Cote, Arts '46, Miss Wilhelmina Dowler, Arts '49, Mrs. F. J.

Fortune (Gertrude Best), Arts '23, Mrs. L. T. Lett (Eva Doak), Arts '27, Miss Laura Master, Arts '45, Miss Avonne Sprague, Arts '46, Miss Edith Whyte, Arts '48, Dr. O. E. Ault, Arts '24, C. G. W. Bird, Sc. '46, Major Allan Brady, Arts '40, H. G. Caldwell, Arts '16, Com. '22, H. A. Graves, Sc. '28, Dr. H. B. Kidd, Med. '29, K. L. Lachance, Sc. '47, Dr. R. L. Nesbitt, Med. '37, R. W. Southam, Arts '36, and R. M. Winter, Arts '26.

Speaker of the evening was B. J. Bannerjee, secretary to the High Commissioner for India, who spoke on the development and progress of India during the last few years to its present political status. Mr. Bannerjee was introduced by Dr. L. D. Wilson and thanked by Miss Wilhelmina Dowler.

A report on the endowment campaign was given by Dr. Wallace Troup.

Middle Atlantic

THE annual picnic of the Middle Atlantic Branch was held at the home of Nelson Cooper, Sc. '22, near Wilmington. A good representative gathering of Queen's graduates with their families and guests was present. After visiting and eating a picnic lunch, a short business meeting was held with Dr. John Lansbury, Med. '26, the president, in the chair.

The president requested that Harris Campbell, Sc. '28, look after arrangements for the dinner meeting to be held in November. Dr. Lansbury will arrange to have a speaker for this occasion. The meeting extended an expression of appreciation to Ed Fox, Sc. '41, and his picnic committee and, in particular, to Mr. Cooper for his work and hospitality.

Dr. G. E. Flanagan, Arts '17, Med. '23, reported on his visits to Queen's during the past season and outlined the University's plans in connection with future building, the student body, and financing. Dr. Flanagan pointed out that the student registration last year was smaller than the year previous by approximately 210 students. It is expected that next year the drop in the number of students will be even greater and the registration is expected to be in the neighborhood of 2400. It was also pointed out that

Queen's is entering a campaign for increasing her endowment and in the next few years will rely to some extent upon contributions from graduates for making up the deficiency in operating income.

The meeting adjourned to view some of the latest movies which Dr. Flanagan had taken on his visits to Kingston.

Kirkland Lake

APPROXIMATELY twenty graduates and friends attended the dinner meeting on May 10. Officers were elected for the ensuing year, with E. C. Keeley, Sc. '16, being returned as president, and R. W. Thompkins, Sc. '33, as secretary-treasurer.

Guest speaker was Rev. J. R. Leng, who outlined the reasons for Queen's making an appeal for funds at this time. The speaker was introduced by Eric Holt, Sc. '23, and was thanked by R. W. Thompkins. It was agreed that the new executive would conduct the canvass in the Kirkland Lake area.

Dinner arrangements were in charge of E. C. Keeley, who served as chairman, and Eric Holt.

Kent County

.. A VERY pleasant outing was spent by alumni and their families from Chatham and district at Bill Colby's cottage at Rondeau on July 3. The picnickers enjoyed the use of the Colby's boat, beach, and kitchen, and indulged in relaxation, visiting, swimming, boating, horseshoes, and finally a picnic supper. Among those present were W. D. Colby, Sc. '17, W. D. Colby, Jr., Sc. '44, Dr. F. G. Palanek, Med. '43, Dr. W. F. Glen, Med. '32, J. H. D. Wilson, Sc. '23, N. J. Southern, Sc. '39, Martin Bowen, Arts '47, and Dr. G. B. Kendrick, Arts '09, Med. '11.

Toronto

THE annual golf match sponsored by the Toronto alumni branch was held at the St. Andrew's Golf Club on May 28 and was an outstanding success.

Included among the large entry list were such sports luminaries at Football

Coaches Ted Reeve, Frank Tindall, Bob Masterson, Don Crowe, Ted Morris. Harry Sonshine, Arts '37, one-time football star, was in charge of the programme.

The Reg Barker Memorial Trophy for the best low gross score was won this year by W. S. Mills, Sc. '21. Presentation of the trophy was made by Ted Reeve.

Other prize winners included R. D. Osborne, Arts '46, Bob Masterson, P. L. P. Macdonnell, Arts '40, J. M. Munro, Arts '38, C. C. Peck, Arts '39, Don Crowe, J. B. Barber, Com. '35, A. J. Strain, Sc. '25, L. S. Brown, Arts '41, R. W. Willis, Sc. '27, N. B. R. Dean, Sc. '43, Ted Morris, G. S. Webb, Com. 47, H. J. Hamilton, Arts '32. Presentation of these prizes was made by various alumni and guests who were called upon by the chairman, A. J. Strain, Sc. '25.

Queen's football coach, Frank Tindall, spoke briefly regarding the Tricolour and the 1949 season. Mr. Tindall assured his listeners that Queen's would have a fighting team to represent them this fall.

Ex-Queen's coach Ted Reeve also spoke briefly in reminiscent vein. In humorous fashion he described the trials and tribulations that beset him during the years he had guided Queen's destinies on the gridiron. The other football coaches present were also called upon to speak.

Mr. Strain announced that the pep rally football dance would be held on the evening preceding the Queen's-Varsity game on October 8. The Royal York Hotel would not be available this year and arrangements were being made to hold the dance in the Mutual Street Arena.

REG BARKER MEMORIAL TROPHY PRESENTED

Ted Reeve presents W. S. Miller, Sc. '21, with the Reg Barker Memorial Trophy for 1949 at the annual Toronto golf party. In the background are President A. J. Strain and convener Harry Sonshine.

ARTS '49 PLANT MEMORIAL TREE

In a brief ceremony after Spring Convocation, a tree was planted in front of the new Students Memorial Union by members of the Class of Arts '49 on behalf of the entire student body of Queen's. In the May issue credit was erroneously given to another class. In addition, the Class of Arts '49 is donating a beautiful piece of furniture to grace the new Union.

In the above picture Eric Jorgensen, president of the Alma Mater Society in 1948-49, is shown speaking briefly, while looking on are Principal Wallace, Hon. Ray Lawson, lieutenant-governor of the Province of Ontario, and his A.D.C., and Chancellor Dunning.

COMING EVENTS

- Thursday, September 29—Montreal Medal Dinner and Dance, 7:00 p.m., Spanish Room, Queen's Hotel, Montreal. Presentation of Medal to Dr. Manly Baker, emeritus professor of geology, Queen's University. Tickets may be obtained by writing to A. S. E. Duncan, c/o Foundation Company of Canada, Ltd., 1900 Sherbrooke W., Montreal, Que.
- Saturday, October 1 —Queen's vs. McMaster, exhibition football, 1:00 p.m., Civic Stadium, Hamilton. In the second half of the doubleheader, Hamilton "Tigers" will play Windsor "Rockets." Reserved seats for alumni and friends, \$1.50 each—write or 'phone R. D. Travers, 117 Charlton St. W., Hamilton, Ont.
- Saturday, October 1 —Alumni Football Dance and Rally, 9:00 p.m., McMaster Drill Hall, Hamilton. Admission, \$1.00 per person. For tickets write or 'phone R. D. Travers, 117 Charlton St. W., Hamilton, Ont.
- Friday, October 7 —Queen's Pep Rally Dance, Mutual Street Arena, Toronto, 9:00 p.m., evening prior to Queen's-Varsity game. Admission, \$1.25 per person—tickets available from Toronto executive or Queen's Alumni Office.

Alumni News

Births

Almqvist—On January 14, at the Deep River Hospital, Deep River, Ont., to Einar Almqvist, Sc. '41, and Mrs. Almqvist, a daughter (Ellen Kristine).

Annis—At the Ottawa Civic Hospital, on August 1, to Dr. C. A. Annis and Mrs. Annis (Margaret Fenton), Com. '39, a son.

Baker—At the Hanover Memorial Hospital, Hanover, Ont., on April 30, to W. W. Baker, Sc. '28, and Mrs. Baker, a son (Thomas Henry Williams).

Bradford—On July 14, at Victoria Hospital, London, Ont., to Arthur Bradford, Arts '41, and Mrs. Bradford, a son (Scott Kenneth).

Brown—At the Ottawa Civic Hospital, on June 28, to Lt.-Col. C. E. Brown, Sc. '38, and Mrs. Brown, a daughter.

Byers—At Winchester Memorial Hospital, Winchester, Ont., on May 23, to Dr. W. M. Byers, Med. '41, and Mrs. Byers, a daughter.

Campbell—At the Western Hospital, Toronto, on July 27, to L. J. H. Campbell, Com. '41, and Mrs. Campbell, a daughter.

Cohen—At the Kingston General Hospital, on July 4, to Harold A. Cohen, Arts '28, Sc. '30, and Mrs. Cohen, a son (James Maxwell).

Connor—On June 9, at the Troco Hospital, El Centro, Colombia, South America, to Eric Connor, Sc. '44, and Mrs. Connor, a son (Eric James, Jr.).

Countryman—On June 4, at the Private Patients' Pavilion, Toronto General Hospital, to Dr. C. J. Countryman, Med. '37, and Mrs. Countryman, a son (Paul Ian).

Devenny—In Kitchener, Ont., on July 4, to J. P. Devenny, Sc. '22, and Mrs. Devenny, a son.

Eddy—At Bathurst, N.B., on May 25, to R. C. Eddy, Sc. '41, and Mrs. Eddy (Isabel Race), Arts '44, a son (Robert Bruce).

Ellicott—At the Kingston General Hospital, on May 25, to Dr. E. R. Ellicott, Med. '31, and Mrs. Ellicott, a son.

Ellis—On June 5, at the Ottawa Civic Hospital, to Major W. H. Ellis, Sc. '39, and Mrs. Ellis (Evelyn Brown), Com. '40, a daughter (Susan Evelyn).

George—At the Kingston General Hospital, on June 27, to Dr. Graham George, Professor of Music at Queen's, and Mrs. George, a son (Charles Robert Brian).

Edwards—At St. Joseph's Hospital, Sarnia, Ont., on August 14, to D. C. Edwards, Sc. '47, and Mrs. Edwards (Dorothy Grace Hughson), Arts '44, a son (Anthony James), first grandchild of W. R. Hughson, Arts '13, Sc. '17, and the late Mrs. Hughson, of Corner Brook, Nfld.

Glenn—At the Western Division of the Montreal General Hospital, on May 22, to Mr. W. L. Glenn and Mrs. Glenn (Norah McGinnis), Arts '35, a daughter.

Grant—At the Memorial Hospital, Port Hope, Ont., on August 3, to G. O. Grant, Sc. '42, and Mrs. Grant, a son.

Haw—At the Kingston General Hospital, on July 22, to V. A. Haw, Sc. '47, and Mrs. Haw, of Sudbury, Ont., a daughter (Victoria Ann).

Hay—On May 7, at Malamulo Mission Hospital P.O. Malamulo, Nyasaland, Central Africa, to Dr. J. A. Hay, Med. '45, and Mrs. Hay, a daughter (Karen Lee).

Holloway—On June 20, to A. F. Holloway, Sc. '44, and Mrs. Holloway (Grace McGaughey), Arts '48, of Kingston, a daughter (Margaret Jean).

Horwitz—At the Ottawa Civic Hospital, on June 13, to J. C. Horwitz, Arts '36, and Mrs. Horwitz, a son.

Hovey—At the Private Patients' Pavilion, Toronto General Hospital, on June 17, to F. L. Hovey, Sc. '41 and '46, and Mrs. Hovey, a daughter.

Innes—On June 1, at St. Mary's Hospital, Montreal, to Ian Innes, Sc. 48½, and Mrs. Innes, a son (Allan James).

Kappler—On May 27, at Victoria Hospital, London, Ont., to C. G. Kappler, Sc. '45, and Mrs. Kappler, a son (John Scott).

Kelly—At the Hotel Dieu Hospital, Kingston, on July 22, to P. B. Kelly and Mrs. Kelly (Patricia Mahoney), Arts '49, a daughter (Maureen Patricia).

Lambert—At the Ottawa Civic Hospital, on July 14, to D. P. Lambert, Sc. '41, and Mrs. Lambert, a daughter (Jane Howard).

Latimer—At Marine Alexander Hospital, Goderich, Ont., on July 16, to J. W. Latimer, Arts '48, and Mrs. Latimer, a son.

Lucas—At the Pickering Nursing Home, Pickering, Ont., on June 11, to Leonard Lucas, Arts '36, of Ajax, Ont., a son.

Lyttle—On July 19, at the Hotel Dieu Hospital, St. Catharines, Ont., to W. A. Lyttle, Com. '49, and Mrs. Lyttle, a son (John William).

McKinty—On January 5, to D. W. McKinty, Sc. '48½, and Mrs. McKinty, of Sudbury, Ont., a son (Patrick).

McDonald—On June 20, at the Kingston General Hospital, to Dr. W. A. L. McDonald, Med. '41, and Mrs. McDonald, a son.

Moriarty—In Calgary, Alta., on July 15, to Dr. Joseph Moriarty, Med. '44, and Mrs. Moriarty, a daughter.

Miller—On July 5, at the General Hospital, Coburg, Ont., to F. A. Miller, Arts '42, and Mrs. Miller (Ruth Boyce), Arts '42, a son (David Harold).

Moore—On July 30, at the Kingston General Hospital, to J. W. Moore, Sc. '48½, and Mrs. Moore, a son (Randy James).

Moulds—On June 18, at the Ottawa Civic Hospital, to Dr. Godfrey Moulds, Med. '42, and Mrs. Moulds, a son (Ronald Richard).

Mulkerns—On July 5, in Kingston, to Major J. S. Mulkerns, Arts '43, and Mrs. Mulkerns, of Wayne, Pa., a son (John Stuart).

Peart—At the Ottawa Civic Hospital, on June 6, to Dr. Arthur Peart, Med. '40, and Mrs. Peart, a son.

Purser—At the Herbert Reddy Memorial Hospital, Montreal, on July 28, to R. B. Purser, Sc. '47, and Mrs. Purser, a daughter.

Reynolds—On June 24, at the Ottawa Civic Hospital, to Lt.-Col. W. B. G. Reynolds and Mrs. Reynolds (Barbara Lowe), Arts '32, a daughter (Margot Elizabeth).

Rogers—At the Private Patients' Pavilion, Toronto General Hospital, on June 22, to N. M. Rogers, Arts '43, and Mrs. Rogers, a son (Brian MacLeod).

Saunders—On May 26, at the Women's College Hospital, Toronto, to G. D. Saunders, Com. '31, and Mrs. Saunders (Sarah Elizabeth Graham), Com. '30, a daughter.

Scott—On June 10, at the Kingston General Hospital, to Dr. George D. Scott, Med. '39, and Mrs. Scott, a son.

Smiley—At the Ottawa Civic Hospital, on July 16, to Dr. R. K. Smiley, Med. '47, and Mrs. Smiley, a son (Joseph Bruce).

Spence—On August 9, at the Ottawa Civic Hospital, to N. S. Spence, Sc. '36, and Mrs. Spence, a son.

Stabler—On May 19, at the Royal Victoria Hospital, Montreal, to Ernest Stabler, Arts '39, and Mrs. Stabler, a son.

Stevens—On July 25, at the Deep River Hospital, Deep River, Ont., to W. H. Stevens, Sc. '40, and Mrs. Stevens (Mary E. T. Baker), Arts '40, a daughter (Ann Louise).

Storms—At the Mount Hamilton Hospital, Hamilton, Ont., on June 28, to R. G. Storms, Sc. '34, and Mrs. Storms, a daughter.

Stubbs—On May 29, at the Royal Victoria Hospital, Barrie, Ont., to G. F. Stubbs, Sc. '48, and Mrs. Stubbs, a daughter (Patricia Anne).

Tracy—At the Kingston General Hospital, on July 21, to G. L. Tracy, Arts '48, and Mrs. Tracy, a daughter (Ann Elizabeth).

Vowles—on June 17, in Ste. Croix Hospital, Drummondville, Que., to B. F. Vowles, Arts '40 and '46, and Mrs. Vowles, a son (James Frederick).

Deaths

Campbell—A teacher at Balfour Technical School for the past seventeen years, and head of the mathematics department, Bertram Alfred Campbell, Arts '27, died at Regina, Saskatchewan, on February 4. Mr. Campbell was born at Lansdowne, New Brunswick, in 1896, and attended public, high, and normal schools at Bath. During the First World War, Mr. Campbell served

with the C.E.F. for four years. On his return to Canada he attended the University of New Brunswick, taking the first year course in engineering. In 1920 he went to Saskatchewan and taught school, and in 1932 he joined the staff of Balfour at Regina. During the Second World War he served with the Canadian Ordnance Corps as a major in England and Germany. At the time of his death he was a major in No. 2 Corps Troops Ordnance Field Park, R.C.O.C., reserve. Mr. Campbell obtained his B.A. degree from Queen's in 1927, taking his course extramurally and at Summer School. He also held a B.Paed. from the University of Toronto and M.Ed. from the University of Manitoba. He is survived by his wife, two sons, and two sisters.

Graham—At the age of eighty, Dr. Dawson Graham, Med. '02, died at Vancouver, British Columbia, on May 19. Dr. Graham was born at Oxford Station, Ontario, and received his preliminary education there and at Albert College, Belleville. He obtained his M.D., C.M. degrees from Queen's in 1902, and started a practice in Elm Creek, Manitoba. Shortly afterwards he enrolled in the medical branch of Manitoba University, where he received an M.D. degree in 1906. In the same year he went to Alberta, where he opened a practice at Stettler. In 1912 he moved to Drumheller as the community's first doctor and also opened the first hospital and drugstore. He continued practice there until his retirement, in March, 1944, when he moved to Vancouver. Dr. Graham is survived by his wife, three sisters, two daughters, and two sons.

Horne—Superintendent of the Ontario Hospital School at Orillia, Ontario, for nearly twenty years, Dr. Sidney James Wood Horne, Med. '18, died on June 11. Dr. Horne was born at Wolfe Island, Ontario, in 1896. After graduating from Queen's with his M.D., C.M. degrees he served overseas in World War One with the rank of Captain. After his return to Canada he was posted to Westminster Military Hospital at London, Ontario, before going to Orillia. Active in community, fraternal, and service club affairs, Dr. Horne was a leading citizen of the town. Surviving are his wife, a son, John, Med. '53, a daughter, and a sister, Mrs. Ashley Smith (Fannie Horne), Arts '22.

Ireland—Retired since 1941, Francis Arthur Weir Ireland, Arts '91, died at Wellesley Hospital, Toronto, Ontario, on July 17. Mr. Ireland was born at Chatham, Ontario, where he received his preliminary education. He graduated from Queen's with his M.A. degree in 1891 and later from Osgoode Hall. As a young man he went to New York City and engaged in legal practice. For many years he was counsel for Globe and Indemnity Company, New

York City, and resided at Short Hills. After his retirement, he lived in Toronto. Surviving is one son.

Lyon—After a brief illness, Dr. Rosswell Cameron Lyon, Med. '18, died in Misericordia Hospital, Haileybury, Ontario, on July 16. Dr. Lyon was born at Flower Station, Ontario, in 1893. After graduating from Queen's with his M.D., C.M. degrees in 1918, he served in Canada and overseas with the Canadian Army Medical Corps, returning with the rank of Captain. He practised medicine at Chesterville, Ontario, and took a year's postgraduate course in New York, before going to Haileybury in 1925. He built up a large practice in the town and district. For his funeral, citizens formed the longest cortege in the community's history. Among the survivors are his wife, a daughter, a son, two brothers, of whom Dr. Benjamin Lyon, Med. '16, is one, and three sisters.

Martin—Associated for many years with daily newspapers, George Kent (Buck) Martin, Arts '09, died at Barrie, Ontario, on August 10. He was born at Kingston, Ontario, in 1887, and attended Queen's from 1905 to 1907. He was one-time business manager for the Kingston Daily Standard and for many years advertising representative with the Toronto Globe. He was later with the Star Weekly and advertising manager of the Hamilton Daily Herald. In the Laurentian Shield Area he was noted as a sportsman with rod and gun. Surviving are a son a daughter.

Pitts—The first ordained man of any denomination to enter the silver mine country of Northern Ontario, Rev. Frank Edwin Pitts, Theol. '97, Arts '98, died in Alberni, British Columbia, on April 6. Mr. Pitts was born in Woodlands, Ontario, in 1871. He attended Albert College, before entering Queen's in 1891. He graduated with his testamur in theology in 1897 and his B.A. the following year. He immediately went to the New Liskeard area, where he had under his care people scattered over seven townships. He served his field by canoe, horseback, and snowshoe. Mr. Pitts was promoter and organizer of much that went into building such a sound community as New Liskeard became—public and high schools, Masonic lodge, public library, hospitals, and cemetery. When Temiskaming Presbytery was organized, he became its first Moderator. Going to Manitoba, Mr. Pitts was appointed Principal of the Presbyterian Indian School under the W.M.S. at Birtle. Upon Church Union he was transferred to the United Church Indian School at Alberni in 1927. Mr. Pitts died while still at work. Among the survivors are his wife, two daughters, and a son, Dr. W. C. Pitts, Arts '27, Med. '29.

Porteous—Mrs. Douglas C. Porteous (Alice Beveridge), Arts '92, died at St.

George, Staten Island, New York, on April 11. Mrs. Porteous was born at Houghton, Michigan, and received her early education privately. A stepdaughter of the late Rev. Donald Ross, one-time principal of Queen's Theological College, she graduated from Queen's with her B.A. degree in 1892. Among the survivors are her husband, D. C. Porteous, Arts '91, and two sons.

Ross—President of the *Ottawa Journal* and one of Canada's oldest working newspapermen, Philip Danksen Ross, LL.D. '19, died at his home in Ottawa, Ontario, on July 5. He was ninety-one years of age. Mr. Ross was born in Montreal, Quebec, and was educated at McGill University as an engineer. After a few months in that profession he became a newspaper reporter and remained one throughout his life. He started his newspaper career in 1879 as a \$5-a-week reporter with the *Montreal Star*, and in six months he was city editor. After short periods with the *Toronto Mail* and the *Toronto News* he returned to the *Montreal Star* in 1885 as managing editor. In 1886 Mr. Ross bought a half interest in the *Ottawa Journal* and the following year completed the purchase. Last March he turned the newspaper over to a group of men who had been his associates. Mr. Ross was a popular after-dinner speaker, noted for his dry wit and his clear understanding of the affairs of the day. He was a promoter of the Canadian Associated Press in 1904 and one of the founders of the Canadian Press. He was a former president of the Canadian Daily Newspapers Association.

Shaver—At the age of sixty-five, Mrs. J. M. Shaver (Elizabeth Asselstine), Arts '04, died in Winnipeg, Manitoba, on June 24. A native of Odessa, Ontario, Mrs. Shaver graduated from Queen's with her B.A. in 1904 and her M.A. the following year. In 1910 she married Rev. J. M. Shaver, a graduate of Queen's and Victoria, and from then on she shared fully with her husband in a consecrated ministry among and with newcomers to Canada and their children. Their work took them to the University Settlement, Toronto, Wayside House, Fort William, and All People's Church, Winnipeg. For one year, near the beginning of their ministry, they served a rural church at Easton's Corners, Ontario. Mr. Shaver died in 1948, after a few years of retirement. Among the survivors are two sons and a sister.

Silverthorn—Physician for forty-four years, Dr. Victoria Reid Silverthorn, Arts '00, Med. '04, died at her home in Toronto, Ontario, on June 24. Wife of the late Dr. Gideon Silverthorn, Dr. Reid graduated from Queen's with her B.A. degree in 1900 and her M.D., C.M. degrees four years later. After graduation she interned at the Women's Hospital in Boston. In 1905 Dr. Reid established her practice in Toronto.

She was also one of the founders of the Women's College Hospital, Toronto. For three years during the First World War, she was on the staff of the London General Hospital, London, England. Dr. Reid was married in 1925 and maintained her own practice. Dr. Silverthorn died in 1926. Surviving are three sisters, including Mrs. T. A. Newlands (Etta Reid), Arts '92, and Mrs. J. R. Stewart (Lulu Reid), Arts '05, and a brother.

Supple—A lawyer in Pembroke, Ontario, for nearly fifty years, Joseph Alfred Supple died on May 13, at the age of seventy-six. Mr. Supple was born in Pembroke and received his early education there. He entered Queen's in 1892 and as a student he was active in track and the social activities of his Class. After graduating with his B.A. degree in 1896 he attended Osgoode Hall. When he was admitted to the Bar of Ontario he returned to Pembroke, where he established a practice. In addition he was active in the public life of Pembroke, serving for a time as a member of the Board of Education and the Public Library Board. Surviving, in addition to his wife, are his mother (now 101 years of age), and a son.

Waterbury—In poor health for several months, and confined to Sunnybrook Hospital, Toronto, Ontario, William Robert Waterbury, Arts '47, died on July 1. Mr. Waterbury was born at Copper Cliff, Ontario, in 1921, and received his early education there and at Scollard Hall. He enlisted in the navy early in 1942, and served on Atlantic patrol duty aboard a corvette as a deck officer. He held the rank of Lieutenant and served overseas until his discharge late in 1945. Mr. Waterbury enrolled at Queen's and graduated with his B.A. degree in 1947. He entered Osgoode Hall, and at the time of his death had just one year to complete. Besides his parents and wife, he is survived by a baby daughter, and a sister, Mrs. Ramsay Park (Barbara Ann Waterbury), Arts '46.

F. H. Chapman, Sc. '26, resigned on June 15 as executive secretary of the

Association of Professional Engineers of the Province of British Columbia to accept the appointment of assistant consulting metallurgist for the Anglo American Corporation of South Africa Limited. He left Canada in July with his family and will be stationed indefinitely at Nkana, Northern Rhodesia.

Miss Mildred Clow, Arts '14, has been appointed Librarian at the Kingston Public Library.

Mrs. A. T. DeMuy (Eva Bouchard), Arts '24, who has been teaching for some time in Chatham, Ont., recently resigned her position there to join the staff of the Collegiate Institute in Cornwall, Ont.

Dr. H. W. Fairbairn, Sc. '29, represented Queen's University at the recent inauguration of James Rhyne Killian, Jr., as President of the Massachusetts Institute of Technology, Cambridge, Mass.

Dr. Donald C. G. MacKay, Arts '29 (Ph.D. Stanford), Associate Professor of Psychology in the University of British Columbia, has been elected President of the British Columbia Psychological Association.

T. A. McKee, Arts '31, has been appointed a Public School Inspector in Ottawa.

Pearl Morgan, Arts '25, is on the staff of the H. B. Beal Technical and Commercial High School, London, Ont.

G. W. Reid, Sc. '23, was bereaved in July by the death of his father.

Elsie Roberts, Arts '23, is on the staff of the high school in Newmarket, Ont. She formerly taught in Cochrane, Ont.

Dr. D. C. Rose, Sc. '23 (Ph.D. Cambridge), chief physicist of the National Research Council, Ottawa, was elected president of the Canadian Association of Physicists at the annual meeting of that body held in June at Laval University, Quebec City.

J. R. Rutledge, Arts '22, of the T. Eaton Company, has been transferred from Toronto to Vancouver, B.C. His address is 3854 West 33rd Ave.

Rev. Dr. Gordon Sisco, Arts '23, D.D. '37, Secretary of the General Council of the United Church of Canada, was given the Albert Award for 1949 at the Convocation of Albert College, Belleville, recently. The award was presented to him for distinguished service to the United Church and the World Council of Churches.

J. G. A. Stevenson, Sc. '28, is managing director of Canadian Longyear Limited, North Bay, Ont.

M. C. Thurling, Sc. '27, is manager of the engineering service division, Canadian General Electric Company, Montreal.

William Wallace, Arts '24, is vice-president and actuary of the Palmetto State Life Insurance Company, Columbia, South Carolina.

O. E. Walli, Sc. '25, is principal of the Provincial Institute of Mining, Haileybury, Ont.

Dr. L. S. Watts, Med. '29, is supervising psychiatrist at Hudson River State Hospital, Poughkeepsie, N.Y.

Dr. Robert Westwater, Arts '27 (D. Paed. '49) has been appointed chief inspector of Public Schools in Ottawa.

BRANCH OFFICE AND AGENCY SERVICE
THROUGHOUT THE NORTH AMERICAN CONTINENT •

Dr. D. H. Young, Arts '25, Med. '30, (F.R.C.S. Edinburgh), has been consultant surgeon at the Warrington Infirmary, Warrington, England, since 1945. He served with the R.A.M.C. during the war, rising to the rank of Lieutenant-Colonel.

1930 - 1939

F. C. Biehl, Arts '32, is Principal of the Normal School in London, Ont.

G. R. Bingham, Arts '30, is an actuary with the Northern Life Insurance Company, Seattle, Wash. He lives at 5208 East 50th St., Seattle 5.

S. V. Burr, Arts '39, has left the Geo-Technical Development Company, Bourlamaque, Que., to accept the position of resident geologist with the Kirkland Lake Gold Mining Company at Chaput Hughes, Ont.

J. B. Callan, Arts '32, of Glebe Collegiate Institute, Ottawa, has been elected president of the Ottawa Division of the Secondary School Teachers' Federation.

Mrs. Donald Campbell (Catherine Boyle), Arts '35, has resigned her position as assistant superintendent of the Cochrane Children's Aid Society to accept a new position as social case worker at the Toronto Psychiatric Hospital.

Dr. Kenneth Clendenning, Arts '35 (Ph.D. Toronto) of the Division of Applied Biology, National Research Council, Ottawa, was awarded a staff fellowship in 1948 for a year's study in United States laboratories which are devoted to research on photosynthesis. Dr. Clendenning spent six months in the Department of Chemistry, University of Chicago, and part of the summer at the Marine Biological Laboratory, Woods Hole, Mass. For the coming session he will be at the University of Illinois, Urbana, Ill.

E. C. Connolly, Com. '37, Ottawa, has been admitted to membership in the Certified Public Accountants' Association.

Diana Jean Dickey, Arts '32, is teaching in Oshawa, Ont.

Dr. W. J. Elliot, Med. '37 is attached to the Royal Canadian Navy and stationed at H.M.C.S. "Nadon" in Victoria, B.C.

E. G. Dodd, Com. '31, is owner of the Dodd Distributing Company, 29 East 7th St., Salt Lake City, Utah.

D. A. H. Gillies, Arts '37, has been appointed principal of the Wellington School in Ottawa. He is president of the Ottawa Teachers' Institute.

Dr. A. M. Glover, Med. '34, Kingston, was bereaved by the death of his infant son on July 28.

A. B. Handler, Arts '31, is living at Gleasondale, Mass.

W. J. Henderson, Arts '38, was elected member of Parliament for Kingston in the recent Federal election.

Mrs. Stewart Jacques (Alice Wolfe), Arts '34, is living at 467 Melbourne Ave., Woodstock, Ont.

T. H. Janes, Sc. '38, is with the Department of Mines and Resources, Ottawa.

Dr. Ernest A. Johnson, Med. '38, formerly physician and surgeon at Elfros, Sask., has been appointed Resident in Ophthalmology at the Vancouver General Hospital.

Carl Klotz, Sc. '33, has been awarded the Plummer Medal by the Engineering Institute of Canada for his paper "Laurentien Aluminum" which describes the use of aluminum in the construction of the Laurentien Hotel, Montreal. Mr. Klotz joined the Aluminum Company of Canada in 1942 and is now with the sales development division.

J. M. Leaver, Arts '38, has assumed his post as officer in charge of the Department of Transport's meteorological station at Rockcliff Airport, Ottawa. He was appointed to the position last year but has been acting as liaison meteorologist at National Defence Headquarters.

W. W. Muir, Arts '38, is executive assistant in the Industrial Relations Division of the Ford Motor Company of Canada Limited, Windsor, Ont.

Mrs. Clayton Peacock (Kay Wayling), Arts '36, was bereaved by the death of her father on June 5.

G. R. Poole, Arts '34, is in the Claims Department of the Workmen's Compensation Board, Toronto. His residence address is 200 Howard Park Ave.

H. W. Richardson, Com. '34, Canadian Government Trade Commission at Bogota, Colombia, has returned to Canada on tour. Mr. Richardson was named acting commissioner at Bogota in May, 1947. His territory includes Panama and the Canal Zone as well as Colombia.

A. E. Salton, Arts '34, is on the sales staff of A. Kimball Limited, 187 Geary Ave., Toronto 4.

R. T. Sawle, Sc. '34, (M.Sc. Toronto) formerly with the English Electric Company, is now a partner in the firm, Blenkhorn and Sawle Limited, Engineers and Contractors, St. Catharines, Ont.

G. C. Shannon, Sc. '32, has been appointed superintendent of Canadian production for Parke, Davis and Company.

Dr. H. G. Skinner, Med. '38, is director of the Pennington County Health Department in Rapid City, South Dakota.

Helen (Babs) Smythe, Arts '45, received the F. J. Hughes award for efficiency in bedside nursing at St. Michael's Hospital School of Nursing, Toronto, at the recent graduation exercises held in Convocation Hall, University of Toronto.

E. J. Spence, Com. '38 (Ph.D. Northwestern), formerly of Winnipeg, is now in Toronto where he is with Canadian Food Products Limited, 302 Bay Street.

W. F. Thom, Arts '36, is principal of the high school in Almonte, Ont.

Dr. I. O. Wilson, Med. '32, is practising as an eye, ear, nose and throat specialist in Corbin, Kentucky. His address is 209 First St.

G. R. Yourt, Arts '35, is with the Mines Accident Prevention Association of Ontario, Timmins, Ont., as assistant engineer.

1940 - 1949

G. F. Allison, Arts '41, is in the department of mathematics at the University of New Brunswick, Fredericton, N.B.

Alison Armstrong, Arts '47, recently received the degree of Master of Arts from Vassar College, Poughkeepsie, N.Y.

Kathleen Barclay, Arts '49, has joined the staff of the Royal Commission of National Development in the Arts, Letters and Sciences.

Irving Betcherman, Sc. '44, received his Ph.D. in metallurgy from the University of Toronto at the June 8th Convocation.

Colin Blyth, Arts '44, and Mrs. Blyth (Susan Jacox), Arts '47, are living in Berkeley, Calif., where Mr. Blyth is a

research assistant in the University of California Statistical Laboratory.

R. A. Bradley, Arts '44, has completed his graduate studies in the Department of Mathematical Statistics at the Institute of Statistics, University of North Carolina and received his Ph.D. He has been appointed assistant professor in the Department of Mathematics at McGill University.

J. W. Brison, Sc. '48, has joined the staff of the Ford Motor Company of Canada as an engineer in the plant engineering department.

A. D. Brown, Sc. '47, has joined the staff of the Steel Company of Canada, Hamilton, Ont.

H. M. Brown, Sc. '45, has received his Ph.D. in chemistry from Brown University, Providence, R.I., and has accepted a position at the University of British Columbia as assistant professor of chemistry.

I. C. Brown, Sc. '40, received his Ph.D. in geology from Harvard University at this Spring's convocation.

Hector Chaput, Sc. '41, has been appointed to the staff of the Ottawa Transportation Commission as an electrical engineer.

Dr. C. E. A. Cragg, Med. '43, is first assistant at the Oxford Eye Infirmary, Oxford, England.

D. J. Daly, Arts '43, Com. '43, has been awarded a Marshall Field fellowship in economics at the University of Chicago. For the past year Mr. Daly has been an economist with the Dominion Government.

Stanley Dingle, Arts '42, is principal of the high school in Wawota, Sask.

RIDLEY COLLEGE

FOR BOYS

Ridley College—for boys 8 to 18—combines the advantages of supervised residential life in modern buildings, with sound academic, athletic and character training. Over 50 acres of playing fields for organized recreation. Generous entrance Scholarships and bursaries.

For information and illustrated prospectus, write the Headmaster—J. R. Hamilton, B.A., F.C.I.C.

Applications are now being entertained for boys who will be ready to enter Ridley in 1949 and later years. Fall Term opens Tuesday, September 13, 1949.

RIDLEY COLLEGE

FOUNDED 1889

ST. CATHARINES

ONTARIO

2-48

PICKERING COLLEGE

NEWMARKET, ONTARIO

A RESIDENTIAL SCHOOL FOR BOYS

Pickering College offers a complete educational programme for boys from nine to nineteen years of age. An experienced staff, seasonal athletic activities, vocational guidance, hobby and club groups, library service, and careful medical supervision assure parents that the individual needs of each boy receive fullest consideration.

Early application for future vacancies is essential.

Autumn term opens September 14th

Robert E. Rourke, M.A., Headmaster

D. G. MacArthur, Com. '47, has joined the staff of Imperial Oil Producing with headquarters in Calgary, Alta. He recently completed a six months' field training course for the company in Northern Alberta and at Norman Wells, N.W.T.

Murdoch Maclean, Arts '41, has been awarded one of the two first fellowships at the Maxwell graduate school of citizenship and public affairs at Syracuse University.

R. J. Merrill, Sc. '44, received the degree of Ph.D. in Geology from the School of Higher Studies, Johns Hopkins University. Dr. Merrill is now geologist for the Quebec Asbestos Corporation at East Broughton, Que.

Instructor Lieut. C. W. Montgomery, R.C.N., Arts '49, of Ottawa, has taken over his duties as an instructor officer of the Royal Canadian Navy. He completed his last year at the University under the provisions of the Navy's programme for the training of specialist officers which enable selected university students to receive R.C.N. commissions at the beginning of their final academic year and to take up active naval careers on graduation.

A. M. Moore, Arts '49, has received a \$500 Charles R. Walgreen Foundation scholarship at the University of Chicago.

K. A. Murchison, Com. '46, recently graduated from Osgoode Hall Law School.

Sam Pataran, Sc. '45, is shift boss at East Sullivan Mines Limited, Val D'Or, Que.

Dr. K. G. Phin, Arts '44, Med. '49, is interning at St. Luke's Hospital, Newburgh, N.Y.

R. S. Rettie, Sc. '41, recently received his Ph.D. from Oxford University, where he has been in attendance as a Rhodes Scholar from Queen's.

K. C. Rose, Sc. '45, is geologist for the Hudson Bay Mining and Smelting Company at Flin Flon, Man.

R. B. Ross, Arts '43, recently received a Ph.D. in organic chemistry from Yale University and is now a research worker at DuPont Electrochemicals, Niagara Falls, N.Y.

D. L. Seymour, Sc. '42, is assistant city engineer for Peterborough, Ont.

D. W. Slater, Arts '47, has been awarded the \$750 Clara M. Stein fellowship in economics at the University of Chicago. Last year he was in attendance on a Charles R. Walgreen Foundation scholarship.

H. P. Thomas, Sc. '41, is working at the National Research Council, Ottawa. His address is Britannia, Ont.

G. O. Walker, Com. '40, of the London Life Insurance Company, has been transferred from Orillia, Ont., to Kingston.

MAGNET ARRIVES FOR SYNCHROTRON

Preparations are proceeding for the installation of a 70-MEV synchrotron. Shown above is the ten-ton magnet which is being lowered into the underground room at the north end of Ontario Hall. This room will also house the vacuum equipment, capacitor bank, and starting equipment.

STAFF LOSES THREE SENIOR MEMBERS

DEATH TAKES DRS. MELVIN, TIROL, AND BRUCE

IN the space of less than four weeks, Queen's lost through death three senior members of the staff: Dr. G. Spencer Melvin, head of the Department of Physiology and former Dean of the Faculty of Medicine; Dr. Marcel Tirol, a member of the French Department for the past nineteen years; and Dr. Everend Lester Bruce, the Miller Memorial Research Professor of Geology and head of the Department.

Dr. G. S. Melvin

Dr. Melvin's death occurred on September 11 after a lengthy illness. He had returned to the University early in February after an absence of several months abroad, and was greeted at the station by a delegation of Medical and other students. Apparently recovered from the illness that had prolonged his visit to the Old Country, he resumed his duties at the University, but resigned as Dean of the Medical Faculty on July 1.

A graduate of the University of Aberdeen, Scotland, Dr. Melvin came to Queen's in 1919 after serving during

World War I in the Royal Army Medical Corps with the rank of Major. He took an active part in the life of the University and other enterprises. He was a former commanding officer of Queen's University Training Corps, past president of St. Andrew's Society, member of St. Andrew's Presbyterian Church, charter member of the Cataraqui Golf and Country Club, and a member of the Faculty Players of Queen's for many years.

A large number of staff, students, and friends attended the funeral service in Grant Hall. The service was conducted by Rev. J. Forbes Wedderburn of St. Andrew's Church, and Dr. J. M. Shaw of Queen's Theological College. Honorary pall-bearers were Dr. Frederick Etherington, Dr. G. H. Ettinger, Dr. J. H. Orr, Dr. W. E. McNeill, Prof. J. K. Robertson, Dr. W. A. Jones, Dr. J. R. Third and Prof. D. M. Jemmett. The active pall-bearers were final year Medical students: George Cragg, Arthur Blair, D. J. Delahaye, D. E. Bowes, J. E. Devitt, and J. D. Hare.

Survivors include his wife, a son, Dr. James Melvin, Med. '44, a daughter, Miss Jean Mary Melvin, Arts '44, two brothers, and one sister.

Dr. Marcel Tirol

Dr. Tirol died suddenly of a heart attack on September 25 at the Royal Military College where he was attending a ceremony at which Viscount Alexander, governor general of Canada, officiated. He expired just as the governor general stepped from his car to unveil plaques commemorating ex-cadets who died in World War II.

Due to retire from Queen's at the end of this session, Dr. Tirol had planned to return to his native France next spring. He had received his education there and had later taught in Brussels, Belgium, and at La Maison Francais in Edinburgh and the Edinburgh Institute before coming to Queen's in 1930. He saw service with the French during the First World War and was taken prisoner.

DR. G. S. MELVIN

DR. MARCEL TIROL

The funeral took place in St. Mary's Cathedral where a solemn libera was chanted by Rev. J. P. Sullivan. The honorary pall-bearers were Dr. W. E. McNeill, Dr. W. A. Mackintosh, Dr. J. A. Gray, Dr. Bruce Rose, Lt.-Col. C. A. Chabot, Dr. W. H. Evans, Dr. Glen Shortliffe, Prof. William Conacher. The active pall-bearers, including six students, were Gelindo De Re, Bernard Henheffer, Eric Toller, Morgan Bebee, J. A. Lucas, D. J. Pattison, James Day, Geoffrey Minnes. He is survived by his wife.

Dr. E. L. Bruce

Dr. Bruce died in the Kingston General Hospital on October 5 after an illness of ten days. He had been ill earlier in the year but had recovered sufficiently to be able to attend his classes.

A graduate of Queen's with a B.Sc. in 1909 and B.A. in 1911, Dr. Bruce also held the degrees of M.A. and Ph.D. from Columbia University. After a period of employment with the Geological Survey of Canada he came to Queen's in 1919 as professor of mineralogy. With the establishment of the Miller Memorial Research department in geology in 1927, Dr. Bruce was appointed its head and had directed it since that time. When Professor Manley Baker, head of the Depart-

ment of Geology, retired in 1944, Dr. Bruce succeeded him.

He was a past president of the Geological Society of America, and at the time of his death was vice-president of the Society of Economic Geologists of America. He was also a member of the Royal Society of Canada, the Geological Society of Finland, the Geological Society of Edinburgh, and the American Institute of Mining and Metallurgical Engineers. He represented the Canadian Government at the seventeenth International Geological Conference in Moscow in 1937. He was the representative of the Royal Society of Canada to the centenary of the Geological Society of France in Paris. Dr. Bruce had been a member of the Board of Directors of the General Alumni Association since 1934.

Among the survivors are two sons, Douglas, Arts '49, and Geoffrey, Arts '47, and two step-daughters, Mrs. H. P. Davis (Dorothy Horwood), Arts '33, and Miss Lorna Horwood, Arts '31.

The funeral service was held in Grant Hall and was attended by a large number of staff, students, and friends. The service was conducted by Rev. Dean Briarly Browne and Rev. A. M. Laverty, University chaplain. Honorary pall-

DR. E. L. BRUCE

bearers were Principal Wallace, Dean D. S. Ellis, Dr. M. B. Baker, W. J. Gibson, Prof. Bruce Rose, and Dr. Bryce M. Stewart. The active pallbearers were six of Dr. Bruce's students: R. E. Jones, J. C. Gill, A. M. Goodwin, J. F. B. Silman, A. D. Graham, and G. A. Gross.

Medical School Graduates 3,000

QUEEN'S University Medical School was established in 1854 with six students in the first graduating class. Since then, Queen's has graduated more than 3,000 physicians and surgeons, many of whom have won high recognition in their particular fields.

NOMINATIONS SOLICITED FOR ELECTIONS

AS provided in the by-laws of the University Council that govern the elections of the administrative bodies of Queen's, graduates and graduate-benefactors of the University are hereby notified that nominations of candidates for election to these bodies are not sent out, except to the elected members of the University Council and to the non-graduate benefactors in the case of the Trustee elections.

Nominations to the Council by Graduates

Graduates of the University (except those who are elected members of the University Council, from whom nominations are solicited as stated above) may nominate two candidates for election to the Board of Trustees to succeed Mrs. H. B. Campbell, B.A., Montreal, Quebec, and J. A. Edmison, K.C., B.A., Toronto, Ontario, whose terms expire on March 31, 1950. Mrs. Campbell and Mr. Edmison are both eligible for re-election. No other present member of the Board should be nominated, and no member of the University staff is eligible.

Nominations of Trustees by the Benefactors

Benefactors who have contributed \$100 or more to the University may nominate two candidates for elections to the Board of Trustees as follows:

(a) Under the Act of 1912 (General) One Trustee to serve until April 5, 1954, in succession to J. M. Macdonnell, M.C., K.C., M.A., M.P., Toronto, Ontario. Mr. Macdonnell is eligible for re-election.

(b) Under the Act of 1916, providing for representation of the "School of Mining" (Special Science)—One Trustee

to serve until April 5, 1953, in succession to D. A. Gillies, B.A., Arnprior, Ontario. Mr. Gillies is eligible for re-election.

No present member of the Board, other than Messrs. Macdonnell and Gillies, should be nominated, and no member of the University staff is eligible. Candidates must be nominated by five or more electors in order to qualify. Nominations must be in writing, signed, and received by the Registrar of the University on or before December 31, 1949.

Nomination to the Council by Graduates

Graduates of the University may nominate nine candidates for election to the University Council to succeed the following members whose terms expire in 1950: C. W. Drury, B.Sc., Ph.D., Toronto, Ontario; Dr. J. E. Hammett, M.D., C.M., New York, New York; J. C. Macfarlane, K.C., M.A., D.C.L., Toronto, Ontario; B. R. MacKay, B.Sc., Ph.D., Ottawa, Ontario; Ian Maclachlan, B.A., B.Sc., Kingston, Ontario; Dr. W. P. E. Paterson, M.D., C.M., Ottawa, Ontario; Dr. C. M. Scott, B.A., M.D., C.M., Peterborough, Ontario. No present members of the Council should be nominated.

Candidates must be graduates of Queen's and must receive five or more separate nominations in order to qualify. Nominations must be in writing (permission must be obtained from the nominee to allow his or her name to appear on the nominating paper), signed, and received by the Secretary of the University Council on or before December 15, 1949. The members elected will serve until March 31, 1956.

ALUMNI CONTRIBUTE TO CAMPAIGN

MEMBERS OF STAFF ARE DRAFTED AS CANVASSERS

BETWEEN April 1 and September 30 slightly more than 2,600 alumni contributed to the endowment drive, according to information received from Endowment Campaign headquarters. An additional 500 alumni had pledged to contribute funds at a later date this year. Therefore, in all, some 3,100 of the alumni have subscribed to the Queen's appeal for funds.

Letters and new campaign literature have been sent to all those who have not responded. In addition, the Central Committee has enlisted the services of about twenty-five members of staff to assist for one week in the canvass of alumni. The staff members will proceed to various districts requiring assistance and will undertake to see as many graduates as possible. Local district committees are requested to give these members of staff every assistance. The professors who are canvassing have consented to do so at considerable inconvenience to themselves and to their work at Queen's, and are undertaking these additional duties only because of the imperative need that Queen's endowment campaign achieve its objective.

Between April 1 and September 30, \$1,161,976.95 was pledged by alumni, non-alumni, and corporations, and \$718,380.31 has been paid on account. The objective of the Alumni Maintenance Fund for this year is \$175,000. To date \$80,733.47 has been paid in. "We are making progress but a great deal remains to be done yet," Director M. C. Tillotson told the *Review*.

By the end of August, 24 per cent of all alumni had contributed to the campaign. Proportion of alumni contributing, by districts, was as follows: Ottawa, 52 per cent; Gananoque, 47; North Bay, 46; Shawinigan Falls, 45; Niagara Falls, 41; St. Catharines, 40; Montreal, 39; Welland, 38; Sarnia, 38; Walkerton, 38; Hamilton, 35; Toronto, 34; Windsor, 31; British and foreign, 30.

At the end of August, 14 per cent of the alumni had pledged annual support. By leading districts the proportion of

alumni in this category was: Shawinigan Falls, 34 per cent; Sarnia, 31; St. Catharines, 27; Ottawa, 26; Gananoque, 25; Montreal, 24; North Bay, 24; Welland, 21; Windsor, 21; Hamilton, 21; Peterborough, 20; British and foreign, 20.

By August 30 the total of \$848,853 had been pledged by corporations and non-graduates as follows: Montreal, \$472,205; Toronto, \$158,230; Ottawa, \$100,041; Hamilton, \$60,550; Sudbury, \$50,000.

Figures released by the Endowment Office show that the over-all average contribution of alumni at the end of August had been \$26. District records were: Orillia, \$84; Cornwall, \$53; Winnipeg, \$44; Vancouver, \$44; Kingston, \$43; Calgary, \$35; New York, \$35; Saskatoon, \$35; Montreal, \$29.

Non-graduates who have contributed to the campaign totalled 229 at the end of August. By districts these were: Ottawa, 120; Kingston, 26; Toronto, 11; Chatham, 8; Montreal, 7.

The number of corporations contributing were 201: Toronto, 75; Ottawa, 57; Montreal, 48; Hamilton, 6; London, 5; Kitchener, 5.

FIVE DIRECTORS ELECTED TO ALUMNI BOARD

FOUR retiring members and one new member were elected in the annual election to the Board of Directors of the General Alumni Association which closed on September 30. There were fourteen nominees.

Re-elected for a three-year term were Dr. E. L. Bruce, Sc. '09, Arts '11, Kingston, Ontario; Dr. O. A. Carson, Sc. '23, Kingston, Ontario; Dr. W. A. Mackintosh, Arts '16, Kingston, Ontario; and R. M. Winter, Arts '26, Ottawa, Ontario. Dr. J. E. Hammett, Med. '19, New York City, New York, is the newcomer to the Board.

Since the election returns were announced, the death of Dr. E. L. Bruce occurred.

ALUMNI DONATIONS FROM APRIL 1 TO SEPTEMBER 30, 1949

To August 31 an additional 500 Alumni who have not contributed as yet have pledged funds to be paid at a later date.

QUEEN'S MEDICAL EXPEDITION TO ARCTIC DURING SUMMER EXPECTED TO HAVE IMPORTANT RESULTS

BIOCHEMICAL analyses of specimens brought back by the Queen's University medical expedition to the Arctic this summer have begun in the laboratories of the Biochemistry Department.

Dr. G. H. Ettinger, Dean of the Queen's Medical Faculty, said that "results of Queen's investigations may have considerable bearing on ultimate plans for the defence of the North Country."

Head of the Northland medical mission, Dr. Malcolm Brown of the Faculty of Medicine is now preparing his scientific report of the expedition's findings and points out that research on the project will continue in the Queen's laboratories throughout the winter.

Fourth such medical expedition to the Arctic from Queen's, the party of seven doctors and medical students flew to Coral Harbour on Southampton Island at the northern end of Hudson's Bay. The group studied the effects of climate on health, the high incidence of certain diseases among peoples living in northern latitudes, the lack of certain vitamins and the prevalence of parasitic infections among Eskimos.

More than a ton of scientific equipment was taken along in addition to a ton of food, medical supplies and heavy clothing. Equipment included an electrocardiogram, portable X-ray and deep freeze equipment to quick-freeze specimens brought back to the Queen's medical laboratories in Kingston for examination and experimentation.

Members of the Arctic expedition besides Dr. Brown were: Dr. Thomas Boag, Kingston General Hospital; Dr. J. T. Hatcher, a Fellow in Physiology at University of Western Ontario; final-year Queen's medical students John Green, Burgessville, John Page, Owen Sound, Don Delahaye, Kingston, and Don Whittier, Ottawa.

On July 14, Dr. Morley G. Whillans of Ottawa joined the group at Coral Harbour when they divided into two groups with Dr. Brown, Dr. Whillans, Dr. Boag and Green flying another 600 miles due north to Igloolik Island. Word had been sent ahead to the natives that the doctors were coming and would give

the Eskimos whatever medical aid was required.

From these Arctic medical studies, it is expected that information will be obtained which will prove valuable to all peoples forced to live in an extremely cold environment. Dr. Brown stressed the need for determining the resistance of the Eskimo to various infections which the white man sometimes takes with him into the Arctic. Research into the problem of widespread tuberculosis and other non-tubercular chest infections is being continued.

On the expedition, Dr. Hatcher studied the blood flow in the hands and feet of the Eskimos while they were exposed to different temperatures. Dr. Boag concentrated on analysing the amount of vitamins in their diet, which involved sending samples of plants and meats back to Queen's to determine vitamin content. Samples for examination of parasitic infections were sent to Dr. E. Kuitunen-Ekbaum at the Toronto School of Hygiene.

"Queen's Medical School is greatly pleased to be able to participate in fundamental investigations in relation to the health and environment of the Eskimo," Dean Ettinger said. "These investigations were undertaken some years ago at the suggestion of Dr. Dennis Jordan, a Queen's Trustee, who spent several summers giving medical attention to the natives."

Staff Members Contribute To Well-Known Reference Work

PRINCIPAL R. C. WALLACE and three other faculty members are among the forty-three prominent contributors to the New Canadian edition of the *Encyclopedia Ameri-Cana* which was recently issued. Dr. Wallace served as advisory editor for Canada to the 120-year-old reference work. Other Queen's contributors and their works are: Prof. J. A. Corry, writing on the Canadian constitution; Dr. C. A. Curtis, on Canada's commerce, tariffs, and public finance; Dr. S. M. Gilmour, on Canada's protestant churches.

WOMEN MEDICAL STUDENTS CRITICIZED IN ARTICLE

QUEEN'S pioneered in admitting women to the Faculty of Medicine as students and such practice is now widely accepted as a matter of course, but it was not always thus, judging from an article in the University's *Canadiana* collection.

The article appeared in the *Bystander: A Quarterly Review of Current Events, Canadian and General*, Toronto, January, 1883. Under the heading "Academical Affairs," the editor takes a jaundiced view of medical co-education at Queen's, an "unpleasant affair" altogether.

"Nothing in the 'Revolt of Women'", says this indignant commentator, "is

more startling than her determination not only to attend lectures on human physiology, but to attend them with males. In vain have chiefs of medical science protested in the interests of the lecturer, who could not fail to be embarrassed by the presence of ladies, as much as in that of delicacy. Their opposition has served only to stimulate the passionate desire to break through the last barrier. It is surely impossible that a professor should be able to entirely avoid either language or demonstrations which must give pain to female sensibility . . . Once more, if woman demands equality she will have to resign privilege; she cannot be at once the partner and the competitor of man."

OLD BIBLES FROM QUEEN'S ON DISPLAY

AN exhibit of ten old Bibles from the collection of more than 500 in the Douglas Library was displayed in the Women's Building at the Canadian National Exhibition this fall. Twenty thousand pamphlets were distributed, describing the exhibit and presenting the claims of the endowment campaign for Queen's Theological College. In the above picture Mrs. B. E. Hall (Dora Tottenham), Arts '42, is seen looking over part of the Library's Bible collection.

Athletics

THE senior football team went into the Intercollegiate campaign with a record of one win and one loss in their pre-season schedule. Against Loyola on September 24 the Tricolour came through with a convincing 35-6 triumph but one week later went down to a 7-5 defeat against McMaster in Hamilton.

By the time this reaches print the Intercollegiate championship will be practically decided, but at time of writing it appears that the University of Toronto, last year's titlists, are again the team to beat. Western has a strong contender—any team with Jack Parry and the McFarlane brothers is bound to be a threat—while Queen's and McGill are the question marks of the league. In early season practice the Tricolour seemed to be considerably improved over last year, although still lacking reserve strength on the line. McGill is reputed to be stronger than in 1948.

The announcement by Head Coach Frank Tindall just before training started that Andy Mullan of Patterson, New Jersey, would be his assistant, assured Queen's of additional coaching strength. One of the earliest American imports into the Canadian game, Mullan was quarterback of the Dominion champion Argonauts and an all-Canadian selection in 1933. Subsequently he served as coach of the Hamilton Tigers.

Although only a handful of aspirants reported for the first practice, Coach Tindall soon had a large squad battling for positions, with a preponderance of backfield prospects. Gradually some strength was added to the line but it was early evident that lack of experienced line players was going to be a problem.

Against Loyola Queen's displayed flashes of a strong offensive and scored six touchdowns on a wide variety of plays. Defensively they did not show up so well, and the visitors were able to break through for long gains. It appeared that if some scheme could be worked out whereby the opposition never had an opportunity to handle the ball then the outlook for the Tricolour would

be much improved. The *Journal* nevertheless was inspired to comment: "the win may well herald a new and brighter era for Queen's pigskin public."

These high hopes received a rude jolt the following week when Queen's were set back on their heels by McMaster, a team they were expected to beat by a good margin. It is true that the Tricolour were minus several regulars, but the main reason for their downfall seemed to be over-confidence and the fact that they dropped the ball every few minutes. They were beaten by a better team on the day's play, and about the best that could be said for their performance that it got a bad game out of their system.

The intermediates are being coached this year by Johnny Edwards, former Tricolour and Argonaut star and a member of the staff of the University's Department of Health and Physical Education. In their first start the seconds dropped an 8-7 verdict to Cobourg, Dominion intermediate champions.

Coach of the Juniors is Billy Bell, who starred with the seniors in 1948 and is not eligible to play this year.

ANDY MULLAN

ADDITIONAL STAFF CHANGES ANNOUNCED BY TRUSTEES

IN addition to the major appointments approved at the spring meeting of the Board of Trustees, several staff changes were recently announced.

Appointed assistant professor of chemistry was Dr. R. Y. Moir, in succession to Dr. A. F. McKay, who resigned. Dr. Moir attended Queen's as provincial scholar from Saskatchewan. After receiving his M.A. in chemistry with honours he went to McGill where he obtained his doctorate. He had been working as an industrial chemist with the Dominion Rubber Company in Guelph for some years.

C. S. M. Salomon, B.Sc., has been appointed lecturer in mechanical engineering to replace W. W. Corry, who had resigned. Mr. Salomon is a native of Peru and an accomplished linguist. He obtained his degree at McGill.

Miss Jenny M. Weir, instructor in public health, has been appointed acting director of the School of Nursing, replacing Miss Dorothy M. Riches. Miss Riches resigned from her post to be married.

Appointment of Miss Helen M. Gatch, M.A., Toronto, as lecturer in psychology fills the vacancy created by the resignation of Dr. E. I. Signori.

Dr. N. E. Berry of the Faculty of Medicine was appointed to represent the University on the Medical Council of Canada. Dr. Malcolm Brown was named to act in a similar capacity on the College of Physicians and Surgeons of Ontario.

Major E. D. Taylor Appointed Resident Staff Officer

MAJOR EDWARD D. TAYLOR, R.C.E., until recently assigned as Canadian liaison officer with the United States Corps of Engineers, has taken over his new duties as resident staff officer at Queen's.

Besides Laval University, from which he graduated with an M.Sc. degree in geology in 1939, Major Taylor also attended Stowe School in England, the

universities of Toronto and London, England, and Johns Hopkins University, Baltimore. He received his army commission in 1940, and graduated from the Canadian War Staff College in 1943.

TENTATIVE PLANS MADE FOR LIBRARY RECONVERSION.

DURING the current campaign for funds, many special features of the Library have been publicized. Articles have appeared in the press concerning crowded conditions in the main reading room, the archives, and the wealth of government documents at Queen's, the rare books and ancient Bibles, the R. S. McLaughlin Canadian Historical Collection, and the Lorne Pierce Collection of Canadiana already overflowing the room in which it is housed.

"Queen's graduates take a justifiable pride in the University Library, in the labour, devotion, and self-sacrifice which have been built into it for over one hundred years," says Librarian E. Pearson Gundy. "But it is not a complacent pride, for the library must keep pace with the expanding research activities of the University in all departments. Space is at a premium, but more books are needed and more learned journals, and that means more money. If the library budget were doubled, every cent could be wisely and profitably spent, with handsome dividends in wider service and increased efficiency. From time to time highly desirable items appear on the second-hand book market that would fill a gap in our collection or supplement a particular section, Archaeology for instance, for which no separate appropriation is made. Too often such tempting bargains have to be turned down for lack of funds."

Already tentative plans have been made for the reconversion of the Douglas Library building entirely for library purposes, anticipating the removal of administrative offices to a new Administration Building. This will involve major changes in library organization, all of which are being given careful consideration.

SOPHOMORES WELCOME NEWCOMERS

First-year students arriving at Queen's this fall were greeted by an undergraduate welcoming committee which undertook to see that the frosh were made acquainted with the campus and the city, and the members of the staff, and generally helping to see that they were properly introduced to college life and the Queen's spirit. There were pep rallies, dances, dinners, bonfires, and frolics, with hardly a free five minutes to get a note off to mother—a far cry from the days when newcomers were tarred and feathered and half-killed with barbaric initiation indignities. The programme included taxi rides through the city and boat rides in the harbour. Above is shown a group of freshmen and freshettes lining the deck of a Navy Fairmile.

HAYUNGA CLINIC IN NEW YORK HAS PROUD HISTORY

THREE generations of the Hayunga family have graduated in Medicine from Queen's and now all are associated with the Hayunga Clinic, in New York.

The Clinic is the oldest medical unit in New York City that has been continuously in one family. It was founded in 1845 by Dr. Hendrick William Hayunga, a graduate of Amsterdam, Holland, Medical College, and its work

in medicine, surgery, and pharmacy has been carried on ever since. In 1867 the business was sold to Dr. G. A. Hayunga for \$1.00 and in 1890 it was again sold for this sum, this time to Dr. George E. Hayunga, Sr., Med. '90.

The staff now includes, in addition to Dr. Hayunga, Sr., Dr. George E. Hayunga, Jr., Med. '40, and Dr. George E. Hayunga, III, 'Med. '48. Associated E. Hayunga, III, Med. '48. Associated Med. '40.

I TAUGHT IN AN AMERICAN UNIVERSITY

By J. Basil Manning, Arts '43

J. B. MANNING

FOR two years I had helped hundreds of Canadian exservicemen bring their college requirements up to standard, so that they might enter various Canadian universities under the Federal Government Rehabilitation Plan in conjunction with C.V.T. (Canadian Vocational Training). I had seen determined veterans accomplish prodigious feats of scholarship, making up for lost time, receiving instruction in classrooms that were being erected and dismantled in an old automobile factory, smoking incessantly, yet paying close attention as they did so—in order to enter the hoary portals of some ivy-covered university hall which they fondly hoped would put them into another world or into some magical, privileged, section of society which would permit them to discover a pot of gold at the end of the rainbow.

Before that, I had instructed in freshman English at Queen's while doing postgraduate work, and before that again I had taught in Ontario's high schools, in her urban graded schools, and even in her rural ungraded little red school houses, which still exist not so far from the nation's capital.

Perhaps it was the pioneer Canadian spirit which encouraged me to spread my wings and to fly farther afield; perhaps it was the lure of greater financial reward, or perhaps it was just chance—being engaged at the Windsor Training and Rehabilitation Institute which is situated within five minutes' bus service of Detroit—that prompted me to accept an appointment to the staff of an American university. Perhaps it was the congeniality of the head of the De-

partment of the History of Civilization, Dr. H. H. Kimber, who in true hospitable American fashion, telephoned for an interview, arranged for expenses, raised the original salary offer, aided me in locating living quarters, as well as with border-crossing difficulties (before the American Consulate, custom officials, Foreign Exchange Board, F.B.I., R.C.-M.P. were through with me, and pronounced me perfectly harmless, I decided that even a psychiatrist would be unable to find any traces of latent subversive potential in my subconscious). In any case, I found myself installed as instructor in the fall quarter (most American universities run on a four term basis annually, each term equivalent to one quarter of the year; most Canadian universities run on a semester basis) in the history section of the Basic College of Michigan State University.

By American standards, this is not a large university; nevertheless I was impressed by its size! Fifteen thousand students—about three times as many as the average Canadian university—enrolled. Thirty-five hundred were registered in our department! Over eleven thousand persons lived on the university campus itself, in a motley assortment of shelters—brick apartments, quonset houses, pre-fabs, tents, trailers, dormitories, former army barracks, and what not. The college even had to build schools for the children of the university students! In Canada, I had regarded a university as a society of scholars. This was evidently something different, perhaps something more, perhaps something less, but certainly something different.

Frankly, I was staggered! It was asking for an annual operational budget from the state legislature of eight million dollars, was operating fifty short course conferences, and was engaged in a building programme totalling several million dollars, including a new lecture hall containing fifty classrooms. Exclusive of the

state grants which are used for administrative and classroom buildings, it was interesting to note that the university functioned as a business concern and all dormitories were being built on borrowed money to be repaid in the form of room and board fees from the students who use these structures. Contrary then to the almost exclusive function of a Canadian university, that of imparting and discovering knowledge, the American university seemed to have all the problems and responsibilities of a small city. Take the parking of cars, for example, which were at one time not even allowed on the campus. This now requires a special campus police force. And bicycles, not usually allowed on a Canadian sidewalk, seem to be everywhere, and everywhere to stay! A few days after my arrival, I saw a blur of metal and paint whizz past me to become embedded in the midriff of a stalwart freshman, knocking him prostrate to gaze upwards into the blue eyes of a blonde coed. Perhaps it was her blue eyes but to my amazement, he picked himself up with an apologetic: "Oh, excuse me, Miss", and holding one hand to his stomach, gathered up his books with the other.

To a much greater extent than in Canada, an American college is a local unit of economic exploitation. In general, inflated prices make the cost of living higher in the United States than in Canada; but that is not the whole story as far as American students are concerned, for the cost of living in the small college towns is higher than in many of the metropolitan centres. Public service comes very high indeed. I gulped a little at eighty-seven dollar apartments, dollar hair-cuts, fifteen-dollar-a-week rooms, ten cent bus fares, and shirts which cost twenty-five cents to launder. And the problem of eating out in restaurants is an everyday headache! At a minimum, it takes two to three dollars to see one through the food problem daily, depending on where one eats. The situation has not improved during the summer when I have been attending lectures at the University of Toronto. At

Michigan State, most of the local restaurants close for Sunday, and then one has to take a three mile bus trip to eat. Figure it out for yourself, at a minimum it takes ten cents for the bus fare down, ten cents for the return, and at least a ten cent tip for the waitress—thirty cents and one hasn't even eaten anything so far!

In general, students are much the same wherever one goes. And American students are pretty much like Canadian ones. American students are freer both with their dress and with their manners. The coeds often come to lectures in slacks, especially during inclement weather. American students have less awe of their instructors, and even less use for the 'stuffed shirt' type of professor. They are very frank, but also very friendly. They will try almost anything once, even to questioning the instructor's ability to grade papers. Two interesting anecdotes will serve to illustrate what I mean.

It has long been an interesting educational phenomenon that students and student papers tend to fall into a fairly uniform distribution of classification, about 5 to 10 per cent ranking first class honours, and the same approximate percentage of failures, with the bulk falling into the middle brackets, which has become known as the 'probable or normal curve'. This is a fallacious classification when dealing with small numbers or sampling of students, but works with increasing accuracy as numbers run into the thousands and over a long period of years. American students and college staffs have a very high regard for Canadian standards, and both students and superiors were somewhat concerned over the potential standards which an instructor from Canada might be disposed to maintain. Knowing this, I decided that it would be good strategy to explain my prospective procedure in regard to examination and class procedure. I gave a very sincere and perhaps serious discussion of the problems involved in grading examination papers, only to have the wind taken out of my sails by a very attractive, buxom blond coed who was seated in the front row of the lecture

hall, and who demanded sweetly at the end of the explanation—as she ostensibly drew down her dress over a pair of legs that would have done credit to Marlene Dietrich, but actually drew it up three inches. “Professor Manning, do I understand then that you are going to grade on the curve?” Being a bachelor my eyes dropped, but I could not resist a silly smile, and that brought the house down. As I said, they will try anything once!

On another occasion, I had just returned a set of papers to a class of fifty students, which I had graded as A, B, C, or D work. One student, an ex-flier, politely rose in his place and demanded on what basis I had the temerity to so classify the work. I swallowed hard. I had been told that the veteran was a hard man to convince that professors know how to grade papers, and had been warned that some questioning would be forthcoming. So I thought, “here it is; here it comes!” I cleared my throat and prepared for the worst. But before I had time to begin, a little Jewish boy of about twenty-five, also a veteran flier, came to the rescue. Turning to face the inquirer from his point of vantage in the front corner, he addressed the following to the daring student: “Look chum,” he said, “you were a Detroit high school fellow, eh? You joined up for air-crew, eh? You wanted to be a pilot, eh? Well, didn’t ya? And you went to training camp, eh? And you worked like Hell, didn’t ya? Until you fly that kite right side up and upside down, didn’t ya? Until you fly that thing in your sleep almost, by instinct, didn’t ya? Well, didn’t ya? Sure, sure! Well, that’s how the professor marks papers, he learned how, and he now marks ’em by instinct!”

The little Jewish boy sat down as the others squirmed in their seats, and I made no comments on the poor English, and no one else made any more inquiries about the grading. Needless to say, the Jewish flier got standing on the course!

Besides appreciating the frankness and friendliness of the students, I came

to have great admiration for the grit and loyalty of the American girl. We had some seven thousand veterans, the majority of whom were married. And how their attractive brides stuck by them! These young women lived in cramped quarters, in one-roomed accommodations for both with one, two, or even three children, in barracks, in trailers, and not for a summer month or so, but all winter and sometimes for two or three winters. Others worked as waitresses, in department stores, as secretaries, or typists, as baby-sitters, and what not. At Christmas some of the G.I.’s did not have sufficient money over to go home for the festivities, but the loyalty of their youthful wives must have been wonderful compensation.

In closing, there is one over-all comparison which I should like to make, and that is in the general approach to higher education in both countries. In Canada, closer to the European tradition, our universities tend to reserve higher education for the few. In both countries there are high selection costs, and the number of students who begin but do not finish college is extremely large. It has been variously estimated above and below 50 per cent. In general, however, the American authorities are trying to do something for these students who do not finish a degree course as now understood. It is admitted that many students cannot complete a university course *as now outlined and required* with profit either to themselves or to the country, but there is no reason why provision should not be made for them to complete a university course (which may have to be yet formulated and instituted) in which they could receive further education and training, beyond high school graduation, with great benefits both to themselves and to the state. Perhaps the Royal Commission on Education now in session will have some recommendation to make in regard to this democratic responsibility. In addition, social and economic factors as well as intelligence play a vital part in successful university graduation, and, to survive, any democracy must take cognizance of these factors.

At the Branches

Montreal

A VIVID description of the prominent role played by members of the Queen's staff and graduates of the University in the development of Northern Ontario as a source of valuable minerals was given by Dr. Manley B. Baker, emeritus professor of geology, at the annual dinner meeting held in the Queen's Hotel on September 27.

When cobalt ore was first discovered in the north, specimens were sent to Queen's for assay and the results reported led to the development of the great silver mines in the Cobalt-Haileybury area. Queen's staff members played a leading part at this stage and subsequently Queen's engineering graduates were active in the mining field.

Dr. Baker, who served as a government inspector, recounted many personal reminiscences of his experiences in the rugged north, to the delight of his listeners. He also described the opening up of the Hollinger, Kirkland Lake, and Noranda areas, with the discovery of gold. In his anecdotes the names of

Queen's alumni figured prominently. Among those he included the following with whom he had had personal contact: C. W. Knight, A. G. Burrows, Fraser Reid, Alex Longwell, Ed Corkill, Jim Denny, Anson Cartwright, Fred Pope, Fred Connell, Jim Bartlett, Scotty McLaren, Billy McNeill, Dan Keeley, Ed. Keeley, Mat Fairlie, Frank Stevens, Bill Wilgar, Tim Sutherland, John Reid, Bill Alderson, Allan McKay, Billy Ringsleben, Happy Longmore, Red Doherty, Arch Howse, Billy Boggs, Arch Carmichael, Bob Basserman, J. C. Honsberger, Cliff Smith, Jim McRae, Eddie McDonough, Doug Wright, George Dickson, E. L. Fralick, Fred Bell, Jimmy Hill, Jim Donnell, Reg Brock, Stan Graham, Bob McKelvey, Neil Beaton, Jim Anderson, and others.

It was a thrilling story that Dr. Baker had to tell. A detailed account of his speech will appear as a leading article in an early issue of the *Review*.

The occasion of the dinner was the presentation to Dr. Baker of the Montreal Medal as one of the "Makers of Queen's." J. B. Stirling, Arts '09, Sc. '11, cited Dr. Baker in glowing terms and the award was conferred by C. B. Murphy, Sc. '28, president of the branch, who served as chairman.

Former recipients of the Medal include the late Alexander Macphail, the late John Matheson, J. G. Bews, Dr. W. E. McNeill, the late Dr. J. L. Austin, P. G. C. Campbell, A. L. Clark, D. M. Jemmett, the J. A. Richardson family.

H. J. Hamilton, secretary-treasurer of the General Alumni Association, brought greetings from the University. He gave a report on the progress of the endowment campaign to date and also reported on recent happenings at the University.

The committee in charge of this excellently arranged affair included A. S. E. Duncan, Sc. '40 (convener), J. S. Corbett, Sc. '33, B. W. Burgess, Sc. '44, A. D. Gray, Arts '46, H. P. Davidson, Com. '32, C. B. Murphy, Sc. '28.

DR. M. B. BAKER

Kingston

THE hardy fishermen who braved the inclement weather for the annual fishing party, this year held at Sharbot Lake on September 21, were rewarded with a well-rounded programme, including fish.

The group met at Dick Allen's cottage and after adequate preparation against the cold, set forth in groups of two. After an afternoon of matching their wits with those of the small mouth bass, the fishermen returned with sufficient proof that they had actually been fishing.

Dinner was held at the Sharbot Lake Hotel, with president D. L. Rigsby, Sc. '40, in the chair. A reel, the prize for the largest fish, went to H. H. Lawson, Sc. '36. Other prizes, consisting of tackle, were awarded to E. A. C. Symons, Sc. '37, R. N. Bassarab, Sc. '47, and D. L. Rigsby. After dinner the remainder of the evening was spent in playing cards.

Convener in charge of this successful event was M. J. Waite, Sc. '31.

Toronto Alumnae

ON September 17, the annual fall tea was held at the home of Mrs. Marsh Jeanneret (Ethel Mellan), Arts '37, 19 Strathgowan Crescent. Over ninety guests were received in the garden, resplendent with late summer flowers, by the immediate past president, Mrs. Norman McLeod (Mary Johnston), Arts '26, Mrs. Jeanneret, and the president, Miss Martha Murphy, Arts '24.

Refreshments in charge of the social convener, Mrs. J. G. Burley (Marjorie Harrison), Arts 24, were served from a table covered with a beautiful linen cloth in Chinese cutwork and centered by a huge silver bowl of yellow mums. Mrs. R. E. Dowsett (Jean Rose), Arts '19, Mrs. F. Yeigh (A. L. Laird), Arts '01, Miss Flora Stewart, Arts '98, and Mrs. John Matheson, wife of the former Dean of Arts at Queen's, poured tea while the Misses Betty Williams, Arts '28, Anna Kerfoot, Arts '31, Mabel Knight, Arts '29, Margaret Mason, Arts '26, and Fern McLeod, daughter of Mr. and Mrs. Norman McLeod, served sandwiches, cake, and ice cream.

Mrs. J. P. Young (Lila Spooner), Arts '16, and her committee of Mrs. John Ewing (Jean Cresswell), Arts '23, and Miss Janet Craig, Arts '47, served as an advance reception committee at the corner of Blythwood and Mount Pleasant Road, and arranged for the transportation of the guests to the tea in taxis provided for the occasion by an alumnae member.

In the absence of Miss Jean Larsen, Arts '34, who was travelling in Europe, Mrs. E. J. R. Booth (Jaqueline Earl), Arts '42, Com. '43, sold tickets and Miss Helen Davidson, Arts '30, took in the fees.

It was a delightful party and the large number present encouraged the executive to look forward to a successful fall and winter.—M.I.A.

Dr. Joseph Saunders Visits Queen's After Thirty-Five Years

GRADUATE of the Faculty of Medicine of the Class of 1914, Dr. Joseph W. Saunders recently visited the University for the first time in thirty-five years.

Dr. Saunders went to New York upon graduation and has been a general practitioner there ever since. During World War II he was a member of the Selective Service Board in New York. In recognition of the non-compensatory services which he rendered that organization, the government presented him with a medal "awarded in the name of the Congress of the United States for faithful and loyal service."

Mrs. Saunders, who accompanied her husband, has also had an interesting medical career. She is ward instructor in obstetrics and care of the newborn at the Harlem School of Nursing, New York City.

A native of British Guiana, Dr. Saunders received his early education there and then came to Canada to study medicine. Oddly enough there were ninety-six students enrolled in the freshman Medical class of which he was a member, whereas the group registered for first-year training in the 1949-50 session numbers only sixty-five.

Alumni News

Births

Aikenhead—On August 24, at Renfrew, Ont., to Mr. Donald Aikenhead and Mrs. Aikenhead (Ruth Fraser), Arts '45, a daughter.

Barends—At the Ottawa Civic Hospital, on August 30, to Dr. H. A. Barends, Med. '45, and Mrs. Barends (Lillian Derry), Arts '37, a son (Howard Arthur III).

Beneteau—At St. Joseph's Hospital, Rimouski, Que., on August 18, to B. A. Beneteau, Sc. '44, and Mrs. Beneteau, a son (Paul Basil).

Bray—At St. Joseph's Hospital, Ann Arbor, Mich., on August 15, to Sqdn. Ldr. N. D. Bray, Sc. '35, and Mrs. Bray, a son (Richard Douglas Norman).

Berlin—At the Private Patients' Pavilion, Toronto General Hospital, to A. D. Berlin, Sc. '43, and Mrs. Berlin, a daughter (Raisa Rebecca Sarah).

Black—At the Kingston General Hospital, on September 30, to J. A. Black, Arts '44, and Mrs. Black (Ruth Anne Munns), N.Sc. '48, a daughter (Dianna Lyn).

Brown—At the Ottawa Civic Hospital, on June 28, to Lt.-Col. C. E. Brown, Sc. '38, and Mrs. Brown, a daughter.

Collins—At Prince Edward County Hospital, Picton, Ont., on July 13, to Capt. K. F. Collins, Sc. '41, and Mrs. Collins, a son (Bruce Ian).

Courtright—On August 30, at St. Paul's Hospital, Vancouver, to J. M. Courtright, Sc. '41, and Mrs. Courtright, a daughter (Patricia Nora).

Elliott—On October 18, at Grace Hospital, Ottawa, to R. A. Elliott, Sc. '41, and Mrs. Elliott, a daughter (Sheena Mary).

Eaman—At the Ottawa Civic Hospital, on September 12, to Lt.-Col. J. H. Eaman, Sc. '29, and Mrs. Eaman, a daughter.

Edwards—At St. Joseph's Hospital, Sarnia, on August 14, to Douglas Edwards, Sc. '47, and Mrs. Edwards (Dorothy Hughson), Arts '44, a son (Anthony James).

Elliott—At the Winnipeg General Hospital, on August 9, to Dr. R. C. Elliott, Med. '45, and Mrs. Elliott (Catherine Rowland), Arts '43, a son (Robert David).

Elliott—On September 10, at the Kingston General Hospital, to Robert F. Elliott, Arts '32, and Mrs. Elliott, a son (Robert Whitney).

Ewart—On August 18, at Mount Hamilton Hospital, Hamilton, Ont., to Dr. H. T. Ewart, Arts '26, Med. '35, and Mrs. Ewart, a son (Hugo Deane).

Goddard—On August 19, at Windsor, Ont., to C. P. Goddard, Sc. '48½, and Mrs. Goddard, a daughter (Paula Suzanne).

Gordon—On October 2, at Grace Hospital, Ottawa, to Mr. H. Glen Gordon and Mrs. Gordon (Dorothy Mills), Arts '45, a daughter (Dorothy Julia).

Green—On September 21, at the Kingston General Hospital, to Dr. O. R. Green, Med. '43, and Mrs. Green, a daughter (Barbara Ellen).

Hamlin—At the Ottawa Civic Hospital, on September 29, to Dr. J. H. Hamlin, Med. '35, and Mrs. Hamlin, a son.

Juvet—At the Ottawa Civic Hospital, on August 21, to C. S. Juvet, Com. '33, and Mrs. Juvet, a daughter.

Lewis—On July 23, to Dr. J. E. Lewis, Med. '33, and Mrs. Lewis, of Timmins, Ont., twin sons (James Barry and Richard Byrd).

McDougall—On September 5, at Drummondville, Que., to C. W. McDougall, Com. '38, and Mrs. McDougall (Eileen O'Connor), Arts '36, a son (Charles William).

McNaught—At the Memorial Hospital, Perth, Ont., on September 29, to Rev. Robert J. McNaught, Arts '42, Theol. '45, and Mrs. McNaught of Lanark, Ont., a daughter (Anna Jean).

Nash—At the Kingston General Hospital, on September 8, to P. T. Nash, Sc. '45, and Mrs. Nash, a son (David Harris).

Nesbitt—On October 10, at the Ottawa Civic Hospital, to H. J. Nesbitt, Arts '37, and Mrs. Nesbitt (Elizabeth Clendinnen), Arts '42, a son.

Newby—At Niagara Falls Hospital, Niagara Falls, Ont., on August 25, to W. M. Newby, Sc. '40, and Mrs. Newby, a son.

Noakes—At the General Hospital, Calgary, Alta., on September 10, to Dr. J. A. Noakes, Med. '46, and Mrs. Noakes, a daughter.

Nobes—At the General Hospital, Rochester, N.Y., on October 10, to W. D. Nobes, Sc. '46, and Mrs. Nobes, a daughter (Susan Marie).

Parnell—At Victoria Hospital, London, Ont., on September 14, to D. E. Parnell, Arts '39, and Mrs. Parnell (Dorothy Matheson), Arts '40, a daughter (Margaret Ellen "Peggy").

Rannie—On June 29, at Beamsville, Ont., to W. F. Rannie, Arts '38, and Mrs. Rannie (Kathleen Richardson), Arts '40, a son (Edward Charles).

Ross—At Toronto East General Hospital, on August 29, to Mr. A. M. Ross and Mrs. Ross (Marian MacLeod), Arts '45, a daughter (Margaret Evelyn "Peggy Lynn").

Rowan—On May 9, at the Royal Victoria Hospital, Montreal, to R. G. Rowan, Sc. '40, and Mrs. Rowan (Kay Lee), Arts '39, a daughter (Margaret Lee).

Steckley—On March 13, in Toronto, to Mr. H. M. Steckley and Mrs. Steckley (Margaret Lawson), Arts '47, a son (John Lawson).

Stitt—At the Ottawa Civic Hospital, on October 19, to J. H. Stitt, Sc. '48, and Mrs. Stitt, a daughter (Patricia Joan).

Williamson - Porter—In St. Andrew's Presbyterian Church, Owen Sound, Ont., in August, Edythe Evelyn Porter, Med. '50, to Harold Foord Williamson, Med. '50.

Deaths

Baker—Classics teacher on the staff of Harbord Collegiate Institute for twenty-five years, Archibald Black Baker, Arts '25, died from a heart attack at his home in Toronto, Ontario, on August 11. Mr. Baker was born at Wallacetown, Ontario, in 1898. After attending Dutton High school, he secured his B.A. degree from Queen's in 1925. After a period on the staff at Sarnia Collegiate, he went to Harbord Collegiate in Toronto. Mr. Baker had been active as a coach for student basketball teams and in the Classical Club. Surviving are his wife, three sons, and four sisters.

Brown—Prominent business man and sportsman, John Herbert Brown, Sc. '40, died at St. Joseph's Hospital at Hamilton, Ontario, on October 9. Mr. Brown was born

in Hamilton, in 1914, and attended the schools of that city. He entered Queen's in 1936 and graduated four years later with his B.Sc. degree in mechanical engineering. As a student he played on the senior football team. Always interested in sports, he played with the Hamilton Wildcats football team which won the Dominion championship in 1943. Mr. Brown was personnel manager and a director of Brown, Boggs Foundry and Machine Company, Limited. Surviving are his wife, two sons, his mother, three sisters, and two brothers.

Brown—Former superintendent of the General Hospital at Hamilton, Ontario, Dr. Miles Gillespie Brown, Med. '16, died September 5 in the hospital he had served so faithfully for many years. Carrying the burden of the institution during the difficult war years, he was stricken suddenly in January, 1947, and following several months' leave of absence, was retired by the Hospital Board. He was recognized as an outstanding hospital administrator. Dr. Brown was born at Moore's Mills, New Brunswick, in 1892. He graduated in medicine from Queen's in 1916, and enlisted with the 85th Infantry Battalion. He served overseas with distinction, being awarded the Military Cross. Dr. Brown went to the Hamilton General Hospital as an interne in 1919 and was appointed assistant medical superintendent in 1922. He held this appointment until 1939, when he succeeded to the position of superintendent. Dr. Brown was active in the field of hospital organization and administration and was a member of the board of directors of the Ontario Hospital Association. Surviving are his wife, a son, and a brother.

Carefoot—At the age of sixty-one, Dr. Ernest Melville Carefoot, Med. '14, died at Belleville, Ontario, on September 26. Dr. Carefoot was born at Collingwood, Ontario, and received his preliminary education in the schools of that town. He entered Queen's in 1910 and graduated with his M.B. degree four years later. He carried on a practice at Milestone, Saskatchewan, for many years, and had lived at Belleville since 1932. Among the survivors are his wife, formerly Ethel Miller, Arts '14, and daughter Margaret Mary Carefoot, Arts '39, now Mrs. M. J. Kennedy of Renfrew.

Clark—After a lengthy illness, William Thomas Clark, Arts '95, died at his home in Kingston, Ontario, on August 18. Mr. Clark was born at Kingston in 1872 and received his education in the schools of that city. He graduated from Queen's with his B.A. degree in 1895. He taught school in Grand Forks, British Columbia, and later in Vancouver. For most of the latter part of his life, he was connected with real estate business in Vancouver. He also had interests in the California fruit-growing industry. Mr. Clark returned to Kingston in 1925 upon the death of his mother. Surviving are his sister, and a brother.

Coverdale—Rector of Queen's 1925-29, William Hugh Coverdale, LL.D. '22, died in New York City on August 10. Mr. Coverdale had been president of Canada Steamship Lines for twenty-five years and was also well known as head of one of the largest firms of consulting engineers in North America. Under his leadership the C.S.L. had been built up to the point where it was known as the largest inland transportation company in the world. While his business interests were large and varied, one of his main interests in later years was the assembling of the W. H. Coverdale collection of Canadiana at the Manoir Richelieu, a C.S.L. hotel at Murray Bay, Quebec. This collection, numbering more than 3,000 pictorial and other items, is the largest of its kind in the world. At the Company's other hotel on the lower St. Lawrence, the Hotel Tadoussac, Mr. Coverdale had gathered a collection of French Canadian handicrafts and furniture and had also rebuilt the old Chauvin house, first trading post in Canada, from plans drawn by Samuel de Champlain. Mr. Coverdale received his education at Kingston Collegiate Institute, Kingston, Ontario, and Geneva College, Beaver Falls, Pennsylvania. He received the honorary degree of LL.D. from Queen's in 1922. The survivors include his wife, two sons, and two daughters.

Hays—A civil engineer with the Ontario Hydro Electric Power Commission, Charles L. Hays, Sc. '09, died suddenly in Toronto, Ontario, on July 12. Mr. Hays was born at Hudson, Wisconsin, in 1884. He attended Dunnville, Ontario, High School before entering Queen's in 1905. Four years later he graduated with his B.Sc. degree in civil engineering. He served as an engineer on the Trent Canal and the Welland Ship Canal, and at the time of his death was engaged on a construction job at Mattawa, Ontario.

Kidd—Struck down by a bus just after she had pushed her two grandchildren to safety, Mrs. C. E. Kidd (Mary Youngson), Arts '98, Gananoque, Ontario, was killed in Ottawa on September 26. The children, aged eighteen months and five years, respectively, escaped without injury as a result of her heroic action. Mrs. Kidd was born at Walkerton, Ontario, in 1876. She attended Kingston Collegiate Institute before entering Queen's in 1894. She obtained her B.A. degree four years later. In 1912 she married Rev. C. E. Kidd, Arts '03, Theol. '07, in Vancouver, British Columbia. They moved to Gananoque four years later. Mr. Kidd was minister of St. Andrew's Presbyterian Church at the time of his death in May, 1949. Mrs. Kidd is survived by her daughters, Mrs. Murray Bowie (Catherine Kidd, Arts '34, Miss Eleanor Kidd, Arts '43, and two sons, Charles Kidd, Com. '41 and Paul Kidd, Arts '33.

McCallum—Awarded the Military Cross in 1917 while serving overseas with the

25th Field Battery of the 2nd Division, and appointed officer commanding of the 101st Light Anti-Aircraft Battery during the Second World War, Lt.-Col. D. N. McCallum, Arts '18, died at Regina, Saskatchewan, on August 9. Lt.-Col. McCallum was born at Glenburnie, Ontario, in 1894. He attended Queen's for one year, 1914-15, before leaving for overseas service. He was wounded in 1918. On his return to Queen's at the end of the war he was in command of the 45th Battery. Following his term of service as officer commanding the 101st L.A.A. Battery during the Second World War he entered the Great West Life Assurance Company in Regina. At the time of his death he was manager of the investment department there. Lt.-Col. McCallum is survived by his wife, a brother, and a sister.

Matthews—Lieutenant Governor of the Province of Ontario from 1937 to 1946, Albert Matthews, LL.D. '41, died on August 13 at his summer home in the Muskoka District. He was seventy-six years of age. A native of Lindsay, Ontario, he started his business career as representative of the George Matthews Company of Lindsay in London, England, and later in Ottawa, Montreal, and Toronto. At the time of his death he was senior partner of Matthews and Company, a Toronto investment house established in 1909, and president of the Excelsior Life Insurance Company and a director of Toronto General Trusts Corporation. He was president of the Lord's Day Alliance of Canada and honorary treasurer of the Grenfell Mission Hospital fund. Throughout his life he held important positions in the Ontario and Quebec convention of the Baptist Church. He served as chairman of the Board of Governors of McMaster University for twenty-five years, and he received honorary degrees from McMaster, Acadia, University of Toronto, Queen's, and the University of Western Ontario. Surviving are his wife, two sons, and a daughter.

Sinclair—Head of the Department of Biochemistry at Queen's, Dr. Robert Gordon Sinclair, Arts '24, was drowned on August 17 while swimming near his home at Collins Bay, Ontario. His body was recovered shortly afterwards and artificial respiration was applied, but without success. Dr. Sinclair was born at Fenelon Falls, Ontario, in 1903, and attended Kenmore Continuation School before going to Queen's. He graduated with his honours B.A. degree in 1924 and obtained his Ph.D. degree from the University of Rochester in 1928. Before being appointed Craine professor of biochemistry and head of the newly formed Biochemistry Department in 1937, he had been assistant professor of biochemistry at the University of Rochester Medical School. Dr. Sinclair had been engaged in research in the field of plant metabolism, particularly in phospholipids, on which he had become

an authority. In 1947 he was joint leader of a medical expedition from Queen's University to Southampton Island, in the Arctic. A one-time president of the Kingston Horticultural Society, he was chairman of the school board at Collins Bay and was regarded as "a great community worker." He is survived by his wife, a daughter, and two sons.

Smith—At the age of seventy-three, Dr. Baxter A. Smith, Med. '05, died at Crosby, Minnesota, on August 2. Dr. Smith was born at Hartington, Ontario, and received his early education there and at Sydenham. He entered Queen's in 1901 and graduated four years later with his M.D., C.M. degrees. He carried on a practice at Mountain Grove, Ontario, for a time, after which he left for the United States for further study. He practised at Biwabik, Minnesota, from 1908 to 1913, when he went to Crosby. He owned and operated the Miners Hospital until retiring from practice two years ago, at which time he sold it to the Benedictine Sisters. At the time of his death he was a patient in the hospital. Surviving are his wife, a son, a sister, a brother, a half-brother, and six half-sisters.

Tanton—Former teacher, and research worker in agriculture and nutrition, Major Francis Tanton, Arts '22, died on August 15 at his home in Toronto, Ontario. Born at Byron, Ontario, he graduated from Queen's with a B.A. degree in 1922. He also took courses at the Ontario Agricultural College, Cornell University, and Ann Arbor, Michigan. He and his wife studied at the University of Illinois on their honeymoon. A teacher of mathematics, English, and history at Ingersoll, Ontario, Collegiate Institute for seven years, he introduced a night school there, and became principal. He was also cadet instructor. He was militia Captain before the First World War, and rose to the rank of Major in the 135th Middlesex Battalion during the war. While principal of the school at Wheatley and other schools in Ontario, he introduced the study of agriculture and manual training. One of his experiments, conducted for O.A.C., was on

the nutritional value of turnip juice. After his retirement, he experimented for the Banting Institute on iodizing soil to improve vegetable growth. Among the survivors are two daughters, his wife having predeceased him.

Notes

1900 - 1909

Rev. W. J. Cook, Arts '07, is pastor of the United Church, Windermere, Ont.

Rev. D. A. MacKeracher, Arts '03, Theol. '06, and Mrs. MacKeracher, formerly Jean Black, Arts '04, have retired after forty-three years' service in the church. They are living at 290 Balliol St., Toronto, having moved there recently from Chatsworth, Mr. MacKeracher's last charge in the United Church.

Rev. I. A. Montgomery, Arts '06, recently resigned his position as minister of Kensington Presbyterian Church, Montreal, after twenty-six years' service.

Margaret Munro, Arts '05, is retired and living at 1408 Stadacona Ave., Victoria, B.C.

Dr. G. O. McMillan, Arts '06, Paed. '17, Principal of the Hamilton Normal School for many years, retired during the past summer.

1910 - 1919

Rev. A. J. Arthur, Sc. '10, Arts '17, is retired and living at 2886 Jedburgh Road, Toronto.

Col. E. A. Baker, Sc. '14, LL.D. '40, managing director of the Canadian National Institute for the Blind, attended a conference during August at Oxford University, England, the purpose of which was to reorganize educational and rehabilitation services for the blind of Western Europe. The Conference was sponsored by the American Foundation for Overseas Blind and the National Institute for the Blind of Great Britain.

Milford Burrows, Sc. '12, is associate research officer, technical information service, National Research Council.

Herbert McIntosh, Arts '12, assistant superintendent, School District of Winnipeg No. 1, recently received the degree of LL.D. from the University of Manitoba.

W. A. Newman, Sc. '11, Manager, Research Department, Canadian Pacific Railway, has succeeded Mr. H. B. Bowen, chief of motive power and rolling stock for the company who recently retired after many years' service. Mr. Newman will remain in charge of the research department.

F. W. Paynter, Arts '16, was recently elected a director of the Montreal Chapter, National Office Management Association.

Very Rev. Robert S. Rayson, Arts '17, rector of the Cathedral of St. John the Baptist in St. John's, Nfld., and Rev. Principal Kenneth E. Taylor, Arts '17 and '20, of the Anglican Theological College, University of British Columbia, were honoured with a degree of D.D. by the Anglican Theological College of British Columbia in September. At the same Convocation honorary degrees were conferred upon Most Rev. C. F. Garbett, Archbishop of York, and Canon Jocelyn Perkins of Westminster Abbey. Principal Taylor was also recently

made a commander of the Order of Orange Nassau by Queen Juliana of the Netherlands.

1920 - 1929

A. E. Allison, Arts '20, is principal of the Trail-Tadanac High School, Trail, B.C.

Dr. S. A. Beatty, Arts '25, Director of the Atlantic Fisheries Experimental Station, Halifax, N.S., of the Fisheries Research Board of Canada, has been elected vice-president of the Chemical Institute of Canada.

John Dunbar, Arts '21, has retired from teaching and is living at 3605 West 8th Ave., Vancouver, B.C.

Dr. Ernest Hess, Arts '25, Director of the Fish Inspection Laboratory of the Dominion Department of Fisheries in Halifax, N.S., has returned from a four months' trip to Europe where he studied fish technology and inspection methods in all the countries adjacent to the North Sea. He also visited his former home in Switzerland. Dr. Hess recently accepted a permanent position with the Fisheries Division of the Food and Agriculture Organization of the United Nations in Washington, D.C., and will move there shortly with his family.

Prof. J. H. Kent, Arts '29, has been appointed head of the classical department of the University of Vermont and State Agriculture College, the appointment to take effect in June, 1950. He is at present spending several months at the American School of Classical Studies in Athens on a Fulbright Research Fellowship.

H. R. MacGregor, Sc. '23, is assistant plant chemist at the Solvay Process Company in Detroit, Mich.

A. C. Malloch, Sc. '21, lecturer in the agricultural engineering department at Macdonald College, Ste. Anne de Bellevue, Que., since 1947, has been promoted to professor.

Rev. G. N. Maxwell, Arts '21, minister of St. John's United Church, Campbellford, Ont., since 1939, has accepted a call to become pastor of Trinity United Church in Montreal.

Langford Miller, Com. '28, formerly of Vancouver, is now with the Union Gas Company in Chatham, Ont.

Dr. G. R. F. Elliot, Med. '35, assistant provincial health officer in British Columbia, has been named executive director of the B.C. Division of the Canadian Cancer Society.

G. Kenneth Eoll, Arts '39, is personnel manager for the Woodlands Division of Marathon Paper Company of Canada, Port Arthur, Ont., and chief editor of the company's magazine, the "Marathon Courier".

Dr. J. R. Erskine, Med. '38, has been appointed assistant medical director of Massachusetts Mutual Life Association. He was formerly in practice at Brantford, Ont.

Dr. J. B. Ewing, Med. '32, surgeon-in-chief of Ottawa General Hospital, has been elected to membership in L'Association Internationale Chirurgie. Last spring Dr. Ewing was made a fellow of the International College of Surgeons.

C. C. Humbert, Sc. '31, is plant engineer in the pulp and paper division of the Diamond Match Company, Ogdensburg, N.Y.

W. A. H. Humphries, Sc. '31, is fire prevention engineer for the International Nickel Company, Copper Cliff, Ont.

Jean Larsen, Arts '34, spent the summer abroad visiting Denmark, Sweden, England and Scotland. She attended the music festival in Edinburgh during August.

Dr. F. D. McDade, Med. '38, of Bengough, Sask., has taken up residence in Scobey, Montana, where he has established a practice.

D. L. McGillivray, Sc. '37, is technical service engineer for Imperial Oil Limited, Sarnia, Ont.

A. F. Malone, Arts '37, is with the Department of Veterans Affairs in North Bay, Ont., where he is superintendent for the district.

Dr. V. C. Malowney, Med. '33, is practising at 36 Fairbank St., Toronto.

G. E. Pilkey, Sc. '33, is owner of the Pilkey-Noble Construction Company and president of Commercial Leaseholds Limited, Hamilton, Ont.

J. B. Rollins, Sc. '34, has been named sales manager of Dominion Linseed Oil Company and also McArthur-Irwin Paint Company, of Montreal. He will be in charge of sales for both companies which are jointly operated.

Major R. J. Smallian, Sc. '38, has been promoted to the rank of Lieutenant Colonel and appointed C.R.E. 10 Field Engineer Regiment with headquarters in Ottawa.

E. J. Spence, Com. '38 (Ph.D. Northwestern), has been elected a vice-president of Canadian Food Products Limited.

Ernest Stabler, Arts '39, Assistant Dean of Sir George Williams College, Montreal, is spending the present academic year at Harvard on a scholarship. He is enrolled in the School of Education working towards his doctorate.

C. J. Tanner, Sc. '39, is assistant superintendent at No. 1 Bayer Ore Plant, Aluminum Company of Canada, Arvida, Que.

Rev. Reid Vipond, Arts '36, Theol. '39,

was formally inducted into his new charge as minister of Metropolitan United Church, Edmonton, Alta., on September 7.

1940 - 1949

Derek Austin, Sc. 48½, is with Aluminum Goods Limited, Sterling Road, Toronto.

R. T. Bailey, Sc. 48½, is village engineer at Crystal Beach, Ont.

R. L. Bartlett, Sc. '42, for the past several years with the Bahrein Petroleum Company, Bahrein Islands, Persian Gulf, has been posted to Rotterdam, Holland, as superintendent of research and development at the new Caltex Petroleum refinery there.

Major James Boles, Sc. '40, Winnipeg, wrote the winning essay in a Canadian wide competition open to all officers of the Royal Canadian Corps of Signals. The contest was conducted to stimulate new ideas for improvement of signal communications and organization.

F. S. Brown, Sc. '46, has left his position with Polymer Corporation Limited in order to take a postgraduate course in Intensive Business at the University of Western Ontario.

H. G. Burbidge, Sc. '44, of Provincial Paper Limited, has been transferred from Port Arthur to Mille Roches, Ont., where he is control chemist.

E. L. Clarke, Sc. 48½, has joined the staff of McColl-Frontenac Oil Company in Montreal.

A. K. Campbell, Sc. '45, is with the McIntyre Porcupine Mines, Schumacher, Ont.

G. C. Campbell, Sc. '45, is with the United Keno Hill Mines, Mayo, Yukon Territory.

M. P. Carson, Com. '48, has been appointed assistant trade commissioner to the Canadian Consulate in Detroit, Mich.

Vera Cole, Arts '50, is attending the McGill School of Social Work, Montreal.

Capt. K. F. Collins, Sc. '41, has been posted to the Directorate of Weapons and Development, Army Headquarters, Ottawa. He recently successfully completed the two years' Technical Staff Officer course at the Military College of Science, Shrivenham, Berks, England. During the summer of 1948 he attended the No. 1 Parachute Training School in England where he qualified as a paratrooper.

James R. Connell, Arts '42, who received his M.A. in Modern History at the University of Toronto this year, recently joined the staff of the high school in Durham, Ont.

J. Wayne Conner, Arts '41, has been promoted to assistant professor in the department of modern languages at Washington University, St. Louis, Mo. He obtained his Ph.D. from Princeton a year ago and was recently awarded a \$600 Post Doctoral Research Fellowship for summer research.

Fern Cramer, Arts '48, has been appointed clinical psychologist on the staff of the Allan Memorial Institute of Psychiatry, Royal Victoria Hospital, Montreal.

H. M. Daggett, Sc. '45, has been granted his Ph.D. in chemistry from Brown Uni-

versity, and has been appointed assistant professor of chemistry at the University of British Columbia, Vancouver, B.C.

Dr. R. A. Dolan, Med. '45, is doing postgraduate work at the Chicago Memorial Hospital.

D. W. Dunn, Arts '48, is doing postgraduate work at the Massachusetts Institute of Technology, Cambridge, Mass.

Major R. C. Elliott, Med. '45, and Mrs. Elliott (Catherine Rowland), Arts '43, have moved from Brockville, Ont., to Winnipeg, where Major Elliott is stationed at Deer Lodge Hospital.

Barbara Ettinger, Arts '49, is with the Bell Telephone Company of Canada, Montreal.

J. M. Gillette, Arts '49, is doing postgraduate work at Washington University, St. Louis, Mo.

John G. Hall, Com. '46, has been promoted to the position of accounting supervisor at Canadian Industries Limited, Nylon Division, Kingston.

Nancy Hawley, Arts '48, who received her M.A. at Queen's this spring, is now a bacteriologist at Chalk River, Ont. She spent the last summer abroad.

Sheldon Johnson, Com. '49, is in the Investment Department of the Montreal Trust Company, Montreal, Que.

Dr. G. M. Johnston, Med. '42, is on the staff of the New Jersey State Hospital, Trenton, N.J.

R. J. Kennedy, Sc. '41, has received his M.Sc. degree from the State University of Iowa.

R. W. Kerr, Sc. '48, has returned from Chile and is now with the International Nickel Company of Canada, Copper Cliff, Ont.

Dr. J. C. Lapp, Arts '40, has been promoted to Associate Professor of French at Oberlin College, Oberlin, Ohio.

W. L. Lemoine, Arts '46, is studying theology at the Presbyterian College, Montreal.

Heather Logan, Arts '47, is with Publications, Ontario Agricultural Department, Guelph, Ont.

H. M. Lumb, Sc. '44, is with Pentagon Construction Company, Portage du Fort, Que.

T. N. McLenaghan, Sc. '47, formerly with the Abitibi Power and Paper Company at Fort William, Ont., has been transferred to the Fort William Division of the Company.

A. E. Malloch, Arts '48, is doing postgraduate work at Harvard University.

John R. Matheson, Arts '40, recently announced the opening of an office for the practice of law in Brockville, Ont. His address is 123 King St. W.

H. A. Newstead, Arts '41, is director of guidance with the Ontario Department of Education, Parliament Buildings, Toronto.

Dr. J. E. Pollak, Med. '42, formerly of Prescott, Ont., has opened a new practice in Burford, Ont.

Dr. Stuart Patterson, Med. '45, is doing postgraduate work at the University Hospital in Baltimore, Md.

STUDENTS' MEMORIAL UNION OFFICIALLY OPENED

The Governor General, Viscount Alexander of Tunis, unveils the memorial tablet in the main hall of the Students' Memorial Union, at the official opening ceremonies.

STUDENTS' UNION OFFICIALLY OPENED

GOVERNOR GENERAL UNVEILS MEMORIAL TABLET

THE new Students' Memorial Union was officially opened by the Governor General, Viscount Alexander of Tunis, on October 30, when he unveiled a memorial tablet in the main hall.

After this ceremony, His Excellency unveiled seven oil paintings, the work of Miss Marion Long, R.C.A., of Toronto, and the gift of the General Alumni Association, which are hung in the Memorial Room. This followed a brief dedication service conducted by Dr. H. A. Kent, principal of Queen's Theological College.

Principal speaker at a luncheon held in the Great Hall afterwards, Viscount Alexander said: "The old Students' Memorial Union was burned down two years ago, and the new Students' Memorial Union has been built to take its place and so honour the war dead from this university, of 1914-18, as well as 1939-45. We honour in all 362. With such a gallant record, no one can say that Queen's people have failed in their duty."

"There is no finer way to keep the memory green of those we honour than to provide the students with a place where they can form comradeships and develop friendships in a building where the memorial hall is a constant reminder of the devotion of Queen's men and women, when the need arose," said His Excellency. He paid tribute to men of Queen's who were killed in the late war, as a commander who had had Canadians under his command.

"This building, dedicated to the memory of great ideals, will, it is hoped mean very much in the real education of successive generations of students," said Viscount Alexander. "They will play together, they will dine together, they will talk together. And they cannot fail to realize that in a building dedicated to a great purpose, the privileges they enjoy entail responsibilities as well. Our country gives us much. It may demand much in return."

The Governor General was introduced by Chancellor Dunning, who also intro-

duced the other speakers, Mr. J. M. Macdonnell, chairman of the Board of Trustees, and Principal Wallace.

Mr. Macdonnell expressed the thanks of the trustees, university officials, staff, and students, to the Governor General for opening the new building and for his address. He spoke of the outstanding war record of Viscount Alexander during the late war and also of the record of the students in whose memory the union was dedicated.

"It is hard in peacetime for people to realize any duty to the state," said Mr. Macdonnell. "But the need in time of peace is just as great as in time of war. I hope the men and women of Queen's who use this building will have a portion of the spirit of those whose memory we honour here to-day."

Principal Wallace transmitted the congratulations of the Royal Society of Canada. He also paid tribute to the work of the architects, Drever and Smith of Kingston, the contractor, M. Sullivan and Son, the chairman of the building committee, T. A. McGinnis of Kingston, and the chairman of the Students' Union committee, Dr. John Orr, of the staff of the Faculty of Medicine.

Head table guests were Viscount Alexander, Chancellor Dunning, Mr. Macdonnell, Principal Wallace, Dr. L. W. Brockington, Rt. Hon. Philip Noel-Baker, Mr. McGinnis, Vice-Principal Mackintosh, Dr. Orr, Principal Kent, and Warden J. E. Wright.

Immediately after the guests had risen to sing "God Save the King," the students, supported by the alumni, gave a rousing Queen's cheer. All guests were presented to His Excellency after the luncheon. He and his party were then conducted on a tour of the building. The Governor General left at 3.15 p.m. to return to his private train.

A tea was held in the Union at 4.30. attended by members of staff and their wives, and by alumni and friends.

COLLECTION OF OIL PAINTINGS IN MEMORIAL ROOM DONATED BY GENERAL ALUMNI ASSOCIATION

SEVEN large oil paintings representing the men and women of Canada's armed services were unveiled by the Governor General, Viscount Alexander of Tunis, on the occasion of the formal opening of the new Students' Memorial Union on October 30.

The unveiling of the pictures, which are hung in the beautiful Memorial Room, was preceded by a brief dedication service conducted by Principal H. A. Kent of Queen's Theological College. The oil paintings are the gift of the General Alumni Association.

By Toronto artist Marion Long, R.C.A., the paintings depict Canadians in mood and dress for battle. There are the soldier, airman, sailor, nursing sister, C.W.A.C., W.R.C.N.S. and W.D. of the R.C.A.F.

The oils are set in exquisite oak panels designed and arranged by Canadian sculptor Ted Watson of Toronto. Legend for the panels, taken from Wordsworth, reads:

We must be free or die, who speak
the tongue
That Shakespeare spake;
The faith and morals hold
Which Milton held.

The Memorial Room has a stone altar and war memoirs in honour of the Queen's men who died in World War I and II. Dr. W. E. McNeill, Vice-Principal emeritus, selected the literary quotations chiselled in the altar and stone panels of the building.

Of the paintings, the artist says that the Sailor felt the call of the sea because his father had been a sailor. She explains that the Air Force man is shown as he would appear on the return from a raid, and he had many raids over Germany. "He talked little of the war, but from the few things he said, I glimpsed what he had been through and his eyes and the lines around his mouth told the rest."

As for the Soldier in the panel, he had fought his way all up through Italy and then into Belgium. Describing him, Miss Long says: "He would come into the studio in his smart uniform with its service ribbons, looking jaunty and alert. But when he put on his old battle dress

and tin hat, he became a man who had looked on dreadful things. Into his eyes came a look of great war weariness. And I hated war more than ever."

The women in uniform lived under discipline and gave of their best as auxiliaries to the Services. To honour those who had served from Queen's, Miss Long has painted a striking resemblance of their strong character and beauty.

Born in Toronto, Marion Long was the first woman to be elected to the Royal Canadian Academy for more than fifty years. In fact, her election to the rank of a full Academician marked the opening of the Academy to women artists on an equal footing with men. Her pictures have been shown in the Wembley Exhibition, Paris, South Africa, Australia, Tate Gallery, London; Cincinatti, Cleveland, New York World's Fair, and on many Canadian tours. For her contribution in art to the Norwegian cause, Miss Long was given the King Haakon VII Medal of Liberation "for services to Norway during the War."

Ted Watson, Canadian sculptor, who designed the oak panels for the paintings, studied in Edinburgh, Belfast, and Glasgow. In England, he did modeling and sculpture for the Liverpool Cathedral, New Westminster Hall, London, and the wood sculpture and interior designs of the White Star and Cunard liners.

In Canada, Mr. Watson is known for his wood and stone sculpture at Trinity College, Toronto, his stone reredos at Grace Church on the Hill and wood reredos at St. Thomas Church, Toronto.

Serving on the advisory committee for these memorial paintings were Dr. Dennis Jordan, Mr. D. I. McLeod, Dr. Lorne Pierce, and Mrs. D. G. Geiger.

To Head C. O. T. C.

DEAN of the Faculty of Applied Science, Lt.-Col. D. S. Ellis, D.S.O., V.D., B.Sc, M.A., M.C.E., has been appointed Honorary Lieutenant Colonel of the Queen's University Contingent, C.O.T.C. Col. Ellis succeeds to the post left vacant by the late Col. Alexander Macphail.

DR. J. E. McASKILL HEADS ALUMNI

DR. J. E. McASKILL, Med. '14, Watertown, New York, was elected president of the General Alumni Association at the fall meeting of the Board of Trustees held in the Red Room, Kingston Hall, on October 14. Dr. McAskill succeeds Mrs. D. W. Boucher (Thelma Bogart), Arts '27, who had served as president for the preceding two years.

Other officers appointed included J. B. Stirling, Arts '09, Sc. '11, Montreal, Quebec, as first vice-president, and Miss Mary White, Arts '29, Toronto, as second vice-president.

Additional directors appointed for a one-year period were M. J. Aykroyd, Sc. '13, Toronto, P. E. H. Brady, Arts '41, Ottawa, W. A. Dawson, Sc. '23, Hamilton, D. G. Geiger, Sc. '22, Toronto, H. E. Searle, Sc. '22, New York. C. H. Drew, Com. '25, Hamilton, was appointed to the Board to complete the term of the late Dr. E. L. Bruce.

A. J. Strain, Sc. '25, president of the Toronto branch, described a plan to have a "district secretary" for the Toronto area. He said that if the principle of annual giving is to be maintained there must be a continuous effort. Any system set up in Toronto would have to be avail-

able to other centres and would have to be financially sound. The position of district secretary would serve the dual purpose of promoting membership in the General Alumni Association and obtaining contributions to the endowment campaign.

The following committee was established to study the Toronto proposal and to bring in a report at the spring meeting: Principal Wallace, Mr. Ernest Gill, Dr. J. E. Hannah, the president of the Toronto branch, Mr. H. J. Hamilton, and Mr. M. C. Tillotson. The president of the General Alumni Association will be an *ex officio* member.

A recommendation that the alumni branches form committees to carry on the work of the endowment campaign from year to year was referred to the advisory committee for consideration. Similar treatment was accorded a suggestion that the branches could render the University a valuable service by interesting and influencing high school students to attend Queen's.

The report of the Secretary-Treasurer showed that the paid-up membership for the year ending September 30, 1949, had been 3,546, an increase of 12 per cent over the previous year and constituting a new record.

The following were present: President Mrs. D. W. Boucher; Past President N. B. MacRostie; First Vice-President Dr. J. E. McAskill; Second Vice-President J. B. Stirling; P. E. H. Brady, C. R. Buss, G. D. Dies, E. A. Fleming, Mrs. W. R. Hambly, M. N. Hay, Dr. C. H. McCuaig, Miss M. L. Macdonnell, Ian MacLachlan, C. B. Murphy, Dr. J. H. Orr, D. L. Rigsby, A. S. Robb, A. J. Strain, Mrs. J. K. Waddell, R. M. Winter, and the Secretary-Treasurer.

Attended Stanford Inauguration

AT the inauguration of Dr. Wallace Stirling as president of Stanford University, California, on October 7, C. R. Blyth, Arts '44, was the Queen's representative. That evening Mr. Blyth was a guest of Mr. Nathan Van Patten, professor of bibliography at Stanford, and one-time librarian at Queen's.

TWO OUTSTANDING CANADIANS HONOURED

E. J. PRATT AND E. G. BAKER RECEIVE HONORARY DEGREES

TWO outstanding Canadians received the honorary degree of Doctor of Laws at the Autumn Convocation held in Grant Hall on October 15: Edwin John Pratt, and Edwin George Baker, both of Toronto. Dr. Pratt, a well-known poet, is head of the Department of English, Victoria College, and has been a member of the staff of the Queen's Summer School for the past fifteen years. Dr. Baker is president of the Canada Life Assurance Company and chairman of the board of Moore Corporation.

The recipients for degrees were presented to Chancellor Dunning by Principal Wallace. Mr. Baker was cited as a man "whose prestige in business enterprise and in community service has won for him an enviable position in Canadian public life." For Dr. Pratt the citation was as a man who "has achieved an enduring place in Canadian letters as a poet of

epic events in Canadian history by land and by sea."

Principal speaker at Convocation was Dr. Pratt who spoke on the role of the university. He said, "The University stands for the full expression of the human spirit where the intellectual and moral issues in their highest sense are in alliance."

"If the philosopher, the scientist, and the statesman could work out their common problems, saturated with the spirit of the New Testament, what a world would be in front of us," said Dr. Pratt. "That we are all of the same human family, being members one of another, whether we like it or not, is shown by the inexorable continuity of scientific thought, to put it on just that level. To catch that rhythm of call and answer and to give it interpretation with the highest moral intelligence is the greatest function of a university."

AUTUMN CONVOCATION

Left to right: Principal Wallace, Dr. E. G. Baker, and Dr. E. J. Pratt.

In his remarks, Principal Wallace referred to the severe loss to the University in the death of four members of staff: Dr. G. S. Melvin, professor of physiology for thirty years, and Dean of the Faculty of Medicine for six; Dr. G. H. Sinclair, head of the Department of Biochemistry for twelve years; Dr. Marcel Tirol, nineteen years a member of the Department of French; and Dr. E. L. Bruce, Miller memorial research professor of geology and head of the Department.

Presentation of a large portrait of Dr. Aletta Marty to Queen's was made by Prof. Hilda Laird on behalf of a group of graduates and friends of whom Mrs. J. A. Cooper (Agnes Massie), Arts '95, was the chairman. The portrait will be hung in Ban Righ Hall.

Winners of entrance scholarships were presented to Chancellor Dunning. These first-year students were introduced by Vice-Principal W. A. Mackintosh.

MARTY SCHOLARSHIP AVAILABLE TO ALUMNAE

VALUED at \$1,400, the Marty Scholarship is again being offered by the Queen's Alumnae Association. Given in memory of the late Dr. Aletta Marty, the scholarship is for a year of graduate study and may be held by any woman graduate of the University with a Master's degree. A committee chosen by the Alumnae will make the award. The scholarship may be awarded to the same woman for more than one year.

Applications should reach the Registrar not later than January 31. Further information may be obtained from the Registrar's Office.

Textiles Are Exhibited

ARRANGED by Prof. Andre Bieler, head of the Art Department, an interesting exhibit of textiles from the Scalamandre museum in New York was held at the University in mid-October.

DECREASE CONTINUES IN STUDENT ENROLMENT

REGISTRATION figures show the enrolment for 1949-50 to be 2624, a decrease of 10 per cent from last year's total.

The number of students is down in Arts, Commerce, Physical and Health Education, and Applied Science, but there is a slight increase in Medicine and the School of Nursing. Applied Science shows the biggest drop, 129 fewer than last year, and Commerce is next with 101 fewer students.

There are 512 women students enrolled, an increase of six over last year. The breakdown shows 415 in Arts, 12 in Commerce, 25 in Physical and Health Education, 3 in Applied Science, 26 in Medicine, 30 in the School of Nursing, and 1 in Industrial Relations.

Intramural registration figures for the past three years are as follows:

	1947	1948	1949

DR. J. A. CORRY GIVES REUNION ADDRESS

THE situation in Western Europe was made the subject of an interesting address by Dr. J. A. Corry, the Hardy professor of political science, at the annual meeting of the General Alumni Association held in Grant Hall on October 14.

Dr. Corry, who had recently returned from Europe, gave a comprehensive outline of conditions in the Western part of that continent and of the outlook for the future. He was introduced by D. L. Rigsby, president of the Kingston Alumni branch, and was thanked by A. J. Strain, president of the Toronto branch.

M. N. Hay, chairman of the Central Endowment Committee, gave a report of progress to date in the campaign for funds. He said that results had been commendable but that there was still a great deal of work to be done.

During the business meeting, the retiring president, Mrs. D. W. Boucher, turned over the reins of office to Dr. J. E. McAskill of Watertown, New York. Mrs. Boucher was thanked on behalf of the meeting for her excellent work by Mr. P. E. H. Brady of Ottawa. The secretary-treasurer's annual report was given by Mr. H. J. Hamilton.

Members appointed to the nominating committee for next year were: Prof. H. G. Conn, Sc. '31, Kingston (chairman); Miss Clunas McKibbin, Arts'40, London; H. I. Marshall, Sc. '41, Ottawa; J. H. D. Wilson, Sc. '22, Chatham, B. W. Burgess, Sc. '44, Montreal, and Dr. J. C. Millar, Med. '41, Toronto.

The annual meeting was held in conjunction with the annual University reception. Approximately 300 were in attendance. After the meeting refreshments were served.

ENDOWMENT REPORT SHOWS 29 PER CENT OF ALUMNI NOW CONTRIBUTING AND AVERAGE CONTRIBUTION IS \$30

AN encouraging report with definitive figures for the first six months of the endowment campaign and tentative figures for part of the month of October was given by M. C. Tillotson, director of endowment, at the fall meeting of the Board of Trustees on October 29.

From April 1 to October 28, the sum of \$1,204,018.22 had been pledged and of that amount, \$737,095.22 had been paid on account. Of these amounts, the alumni had pledged \$272,823.72 and paid \$104,759.97 on account. An analysis of pledges and amounts paid on account indicated that, of the total, \$623,000 had been received for the Alumni (Maintenance) Fund, the Endowment Fund and specific Building Funds. Of the \$467,000 pledged, but unpaid, it was estimated that approximately \$400,000 had been pledged to the aforementioned funds. Mr. Tillotson stated that in his opinion the University would realize at least \$1,000,000 for allocation to any project if the campaign were terminated immediately.

Expenses chargeable to the Endowment Campaign for a period of eighteen months (April, 1948, to September, 1949) amounted to \$24,991.03—approximately 2 per cent of revenue. Charges for rent, electricity, heat, janitor service, telephone and some postage were not included in the above figure.

In a few districts, more than 50 per cent of the alumni had already contributed, and it was expected that several more districts would reach at least the 50 per cent level when all returns for October had been tabulated.

Mr. Tillotson reminded the Board that last year only about 8 per cent of the alumni had contributed. During the period from April 1 to October 28 of this year, approximately 29 per cent of the alumni had contributed, with the average contribution being \$30.

The Directors of Endowment referred to the amount and type of publicity that the University had received. It was estimated that accepted news releases would fill a single newspaper column 1800 feet long.

RT. HON. PHILIP NOEL-BAKER RECEIVES HONORARY DEGREE AT SPECIAL CONVOCATION CEREMONY

SECRETARY of state for commonwealth relations for the government of the United Kingdom, Rt. Hon. Philip Noel-Baker received an honorary LL.D. degree from Queen's at a special convocation held in Grant Hall on October 29.

In his citation Principal Wallace presented Mr. Noel-Baker for his degree as a student of international relations who has had long experience in dealing with the delicate problems of international policy, a distinguished athlete, a scholar of note, and a statesman of empire. The degree was conferred by Chancellor Dunning.

In his address, Mr. Noel-Baker said by a plain unvarnished claim that national sovereignty must remain intact, Russia has rejected the proposals for atomic energy control. He said that some day atomic energy may open new

vistas of happiness for man "if we can learn to use it right; that it may soon destroy us if we use it wrong."

The speaker said he was proud that the governments of Canada and Britain had first faced this supreme world problem. The plan which they, with the United States, laid before the United Nations, has been endorsed in the Assembly by fifty nations, he reminded his audience. "It is, in my belief, the greatest, the most ambitious, the most generous international programme ever planned," he asserted. While the speaker admitted that adoption of this plan would make great inroads on the sovereign rights of nations, he declared its success vital to the survival of the Commonwealth, and even to the survival of mankind.

Mr. Noel-Baker stated his belief that Britain, Canada, and the Commonwealth

SPECIAL CONVOCATION

Front row, left to right: Principal Wallace, Sir Alexander Clutterbuck, Rt. Hon. Philip Noel-Baker, Chancellor Dunning, Mr. J. M. Macdonnell. Back row: Dr. L. W. Brockington, Dean Ettinger, Vice-Principal Mackintosh, Dean Ellis, Principal Kent, Dean Douglas, Dr. J. D. Mackie. University of Glasgow.

have still to reach the full stature of their greatness in world affairs. The Commonwealth which is 90 per cent self-governing is now far stronger than it was before the First World War when only the 40 million in the United Kingdom were self-governing, he maintained.

Among the distinguished persons in the academic procession was Sir Alexander Clutterbuck, United Kingdom high commissioner to Canada.

**Dr. Dennis Jordan
To Head Art Committee**

ON the recommendation of the Queen's Art Foundation, a special Art Committee has been appointed by the Board of Trustees. Dr. Dennis Jordan of Toronto is to be the chairman.

The duties of the committee will be the proper care of the present collection of paintings, responsibility for hanging locations of the pictures, and formulation of policy for the painting of official portraits. The committee will also be charged with the responsibility of encouraging future gifts to the Queen's art collection and preparing a proper catalogue or card index of all paintings and *objets d'art* and an adequate publicity programme. The committee will be asked to establish liaison with the City Council regarding a City-University art gallery, and ensuring that no existing treasures, paintings, or *objets d'art* are allowed to be sold away from the city or to deteriorate from neglect.

In addition to Dr. Jordan, it has been suggested that the committee be composed of the University Librarian, the head of the Department of Fine Arts, Warden of the Union, Dean of Women, a member from each Faculty, a representative of the City of Kingston, and one or two outside members.

GRANTS TOTAL \$100,000

THE University has received a further gift of \$20,000 from the Atomic Energy Board of the National Research Council towards the cost of the Synchrotron installation. Government grants for the project now total \$100,000.

**DR. W. E. McNEILL
ADDRESSES ALUMNI**

VICE-PRINCIPAL EMERITUS of Queen's, Dr. W. E. McNeill was the Chancellor's Lecturer at the fifty-seventh annual conference of the Queen's Theological Alumni Association held October 24 to 27.

Dr. McNeill's lectures had as their common subject "The King's English;" and the individual titles were "Creative and Sustaining Influences of the Past," "Old Influences Weaken, The New Not Sustaining," "Examples of Tarnishing," "Ways of Preserving Its Greatness." All lectures were well attended as many members of staff, students, and others took advantage of the opportunity to hear Dr. McNeill speak on a subject on which he is an authority.

Other speakers included Prof. Bruce Rose, Dr. H. W. Harkness, Dr. H. W. Curran, Rev. Dr. S. M. Gilmour, of the Queen's staff, and Rev. Dr. Charles H. Schmitz of Syracuse, New York, and Rev. Henry Mick, Windsor, Ontario. Devotions were conducted by Rev. J. E. Anderson, Rev. H. J. McAvoy, and Rev. Bruce Guy.

The following officers were elected: president, Dr. J. I. MacKay, Montreal, Quebec, superintendent of missions for Eastern Ontario and Quebec; vice-president, Rev. George Telford, Ottawa, Ontario; secretary, Rev. Dr. H. W. Cliff, Kingston; treasurer, Dr. S. M. Gilmour, Kingston.

**Thirteen Valuable Paintings
Presented To Queen's**

DR. H. S. SOUTHAM of Ottawa has made a valuable and generous gift of thirteen paintings from the Southam Collection. Twelve of the paintings are the work of the French-Canadian artist, Andre Masson, and the thirteenth is a large painting entitled "Quebec Village" by Arthur Lismer. The collection has been placed in the Lower Common Room of the Students' Memorial Union.

1949 REUNION

OCTOBER 14 — 16

FOR the first time since 1939, a normal reunion programme was attempted this fall and judging from the manner in which hundreds of alumni converged on Kingston for the week-end the venture was a success.

Registration headquarters were set up in the new Students Memorial Union. In fact, the Union was practically turned over to the alumni for the whole week-end. There were many new features for the graduates to admire on the campus but none came in for more attention than the beautiful new Union Building.

A new development which was well received and which may well become a feature attraction at future reunions was the Reunion Dinner in the Great Hall on Saturday night. The idea started when one class was unable to find quarters for its dinner and booked a corner of the Hall. Another class took another corner, and so on, until it was finally decided to make one big function and to admit all graduates, regardless of whether their class had planned a dinner or not. Among the classes represented were '99, '11, '12, '13, '14, '24, '30, '31, '32, '33, '36, and '49.

A. E. MacRae, Sc. '14, Ottawa, former president of the General Alumni Association, consented on short notice to serve as chairman of the Dinner. The keynote of the programme was informality and this policy proved highly popular. Mr. MacRae called on the various class representatives to introduce themselves to the gathering. One of the most popular of these was Mrs. G. S. Young (Eva Greenhill) Arts '99, Toronto.

Brief speeches were given by Vice-Principal Mackintosh and Dean Ellis who were guests at the dinner. Principal Wallace also paid a visit and spoke briefly. R. K. Thoman, Sc. '36, led the gathering in class, faculty, and university yells.

The one discordant note in connection the Dinner was the fact that many alumni were unable to gain admittance. There had been no advance indication that the affair would be a sell-out and when the Hall was filled there was no way of accommodating the others. Most accepted

the situation in good part. A recurrence of this state of affairs can easily be avoided in the future.

The Alumni Luncheon which was held in the Great Hall and served cafeteria style also proved to be highly popular as it afforded the alumni an excellent opportunity to meet others who were in town for the Reunion.

In addition to the above events, several classes held their own dinner and other meetings. Those for which reports are available are as follows:

Arts '99

ELEVEN members of the Class of Arts '99 were on hand for their jubilee celebration, and met in the Theological Common Room in the Old Arts Building after Fall Convocation. Letters of regret were read from members who were unable to attend.

Present were Harvey Black, Montreal; A. W. Dunkley, Dr. and Mrs. G. S. Young (Eva Greenhill), Prof. and Mrs. J. F. Macdonald, Toronto; Rev. J. A. McConnell, Winnipeg, Manitoba; Rev. William Macdonald, Peterborough; James Falkner, Hull; Prof. and Mrs. J. K. Robertson (Ethel Minnes), Mrs. A. E. Knapp (Harriet Anglin), W. J. Saunders, Kingston, and Thomas Kennedy, Toronto.

The ninety-niners were guests of honour at the Alumni Luncheon in the Great Hall and were seated at the high table.

Medicine '09

Twelve of the twenty-four survivors returned for the Fortieth Anniversary reunion: Drs. E. J. Bracken, Cannington, Ont.; E. J. Brunet, D. A. Carmichael, Hon. J. J. McCann, Ottawa, Ont.; J. C. Gillie, Fort William, Ont.; T. J. Goodfellow, Saratoga Springs, N.Y.; H. C. Mabee, S. M. Polson, Kingston, Ont.; D. Robb, Ithaca, N.Y.; J. H. Stead, Oakville, Ont.; B. L. Wickware, Perth, Ont.; H. C. Workman, Port Colborne, Ont.

On the afternoon of October 13, Dr. and Mrs. T. J. Goodfellow had Open House at their summer home at Parham, forty miles north of Kingston. An enjoy-

able afternoon was spent and acquaintance was renewed with an '08 graduate in the person of Dr. Lewis H. Fraser of Lima, Peru. Mrs. Fraser was also present.

After visiting the University buildings on Friday afternoon, the members attended an executive meeting of the Aesculapian Society. In the evening the Class was present for the Reunion Dinner in the Great Hall.

On Saturday morning the members visited the Hospitals and then went to Convocation. It was hoped to meet some of the members of staff, who had taught Medicine '09, at the Reunion Luncheon, but unfortunately none turned up. In the evening the Class Dinner was held in the small dining room of the LaSalle Hotel with the wives and daughters having dinner in the main dining room. Photographs of "Then and Now" were exhibited and there was some rare guessing as to identities after forty years of changes. These photos will be collected in a booklet as a souvenir of the event. Each member in turn addressed the meeting and letters from most of the absent members were read. Telegrams of hearty greetings and best wishes were sent to those not able to be present.

During the evening Principal Wallace and H. J. Hamilton visited the dinner and former spoke briefly in welcome. The reunion came to a close with a lusty Queen's yell, and the assertion that all were looking forward to 1959 for the Fiftieth Anniversary.

Medicine '29

Thirty-one members, or 64.5 per cent of the class, were able to return to Kingston for the festivities. Those in attendance were: R. J. Boyce, K. J. W. Bromley, H. A. Brown, E. G. Claxton, W. J. Cochrane, W. F. Connell, J. R. Dowling, S. A. Fisher, E. Y. Handford, M. S. Heddle, W. J. Henderson, McLean Houze, H. B. Kidd, D. G. Leatherdale, R. H. McCreary, A. B. MacDonnell, M. E. MacPherson, M. R. Moore, G. W. Mylks, Jr., T. F. Rutherford, T. H. Seldon, A. T. Shanette, J. T. Shea, R. M. Stringer, W. A. Thompson, K. H. Trebilcock, F. A. Vokes, K. B. Waller, W. G. Watt, C. S. Wilson, and A. E. L. Winsor.

A buffet supper and open house was held at the home of Dr. and Mrs. G. W. Mylks, Jr., on Friday evening. Among the outside guests were Principal and Mrs. Wallace, Dean and Mrs. G. H. Ettinger, Dr. and Mrs. G. W. Mylks, Sr., Dr. and Mrs. W. A. Jones, Dr. and Mrs. Hendry Connell, Dr. and Mrs. W. A. Campbell, and Mr. and Mrs. F. R. (Pep) Leadlay. During the course of the evening the members received a Twenty Years' Reunion Year Book which contained the pictures and biographies of most of the class up to the present time.

After the football game, the members were entertained at a cocktail party at the home of Dr. and Mrs. W. F. Connell. Dinner for the members and their wives took place at the Cataraqui Golf and Country Club. The permanent president of the Class, Dr. H. B. Kidd, was in the chair and with him at the head table were his wife, Dr. and Mrs. G. W. Mylks, Sr., "Pop" and Mrs. Leatherdale, and Bob Stringer. At the close of the brief business session, a moment's silence was observed in respect of the deceased members: M. G. Boyd, J. S. Dunlop, E. F. MacIntosh, J. T. G. Minnes, and H. M. Scott. Guest speaker for the occasion was the Class Honorary President, Dr. G. W. Mylks, Sr. Others were also called upon to speak, winding up with a peek into the future by the Class Prophet, "Pop" Leatherdale. On Sunday morning, those who stayed over met for a farewell breakfast party at the LaSalle Hotel.

Medicine '30 and '31

Approximately forty members of the Classes of Medicine '30 and '31, together with their wives, turned out for the dinner held in the Aluminum Company Cafeteria on Saturday evening. Dr. G. B. Macpherson, president of Medicine '30,

acted as chairman. Principal Wallace made a brief visit and gave an address of welcome. Dean G. H. Ettinger also spoke.

After the game, the members of Medicine '31 and their wives met for tea at the home of Dr. J. T. Tweddell.

Medicine '32

Twenty-four members of the Class registered for the Reunion and attended the dinner held at the Golf Club on October 14. Dr. J. C. Samis, president, served as chairman, and called on each one present to say a few words. Among the members and former members of faculty on hand were Dr. Frederick Etherington, Dr. W. T. Connell, Dr. D. C. Matheson, Dr. J. F. O'Connor, Sr., Dr. John Wyllie, and others.

After the game on Saturday, the members met at the home of Dr. and Mrs. R. C. Burr. Faculty members present included Prof. J. K. Robertson, Prof. J. G. Logan, Principal Wallace, Dean Ettinger, Dr. J. H. Orr, and Dr. W. A. Jones.

Class members included: Drs. R. A. McCaig, H. L. Batstone, A. E. Berry, J. O. Wilson, E. M. Boyd, E. A. Stewart, R. C. Brigham, W. M. James, K. C. Gray, R. J. Young, R. C. Burr, P. N. MacLachlan, N. W. Kerr, J. C. Samis, W. C. Blackwell, O. L. Henderson, M. L. Barrie, J. J. O'Connell, C. R. McDonnell, T. H. Smellie, R. Orange, O. E. Gomoll. Others unable to be present sent greetings. At the dinner a minute's silence was observed in honour of the late Dr. G. P. Nash and Dr. C. E. Irving.

Science '31

FOURTEEN members of the Class of Science '31 returned for the reunion which was held on the week-end of the Queen's-McGill game. In their honour the Tricolour obliged by turning in the first victory of the Intercollegiate football season.

Among those present were M. J. Waite, Bob Seright, Logan Gallagher, Jim Campbell, Percy Climo, M. H. Hastings, Bert Simmons, Bob Basserman, Ad Humbert, H. Robertson, Ike Rice, and Hugh Conn.

After the game the men met at the home of Mr. and Mrs. M. J. Waite and their wives met at the home of Prof. and Mrs. H. G. Conn. This was followed by dinner in the Faculty Club of the Students' Union. During the evening Principal Wallace visited the meeting and was introduced to all present.

OUT OF THE MAILBAG

THE booklet, "Queen's in Pictures," put out by the University as promotional literature, has evoked some interesting comments from J. C. Ross, Sc. '15, San Antonio, Texas. Mr. Ross was recently sent a copy by Rev. A. M. Laverty, University Chaplain. His letter reads, in part, as follows:

"And the memories these pictures conjure up! Old Arts Building, with Convocation Hall. Here was the meeting hall of the Alma Mater Society in the old days, and the uproars and dins and furies that were engaged in! The great 'Q' question! Should gents be permitted to wear a pin, or as some put it, an 'apparatus', that included in some way the letter 'Q', unless the said 'Q' were earned in the accepted manner? Ah, me, what oratory on this. The Fraternity question! 'No, gentlemen, I tell you ALL Queen's men comprise one Gur-rate Fraternity. And, too, surely no Queen's man needs a pin to show that he is a Queen's man! Should gents be permitted to escort the lady fair to the social evenings in a taxi cab? Most undemocratic, very undemocratic. Well, these things did seem of great pith and moment then, and it may well be that these men and the successors have been able to use to advantage the techniques of controversy there learned.

"And there, too, is Nicol Hall, with the basement labs, and the upper floor drafting rooms, where we did our stuff for 'Foxy' Gwillim. And the Physics Building, where Billy Baker held forth, and later where we met the dread and stern Billy Nicol. And last and least, first, foremost, and most compelling, most delightful, Grant Hall, Chamber of Terrors and Hall of Mirth."

Athletics

In the memory of the Oldest Inhabitant it is doubtful whether a football season had ever proved more exciting. It was early evident that there was little if anything to choose among the teams and almost every contest was a thriller.

Queen's served notice of the new order in their opening game against Varsity in Toronto on October 8. Rated by sports writers and fans as underdogs, the Tricolour showed surprising strength, bowing out 22-21 in as sensational a gridiron battle as had ever been staged in Intercollegiate history.

Queen's electrified the large crowd right after the opening whistle when they marched to a touchdown, going 42 yards in four plays. On the kick-off by Lenard interference was called against the Beavers and the Gaels were awarded possession on the 42-yard line. McKelvey ran the end for 13, Lenard threw a pass to Dick Harrison for 10, a plunge moved the sticks, and Lenard tossed a pass to Harrison for a touchdown, and then kick-the convert.

After Varsity had recovered sufficiently to make two major scores, Jack Roberts suddenly broke through the centre of the line, jet-propelled his way past the secondaries, tertiaries, and the safety man, and ran for a touchdown. He covered 74 yards, all in a straight line, on his travels. On the last play before the

half-time whistle, Varsity kicked a placement to take a 15-12 lead.

In the second half, the Blues added a single on a kick to the deadline, in the fourth quarter Lenard kicked a placement to pull up the Tricolour again one point off the pace. Varsity pulled ahead on the strength of a converted touchdown, but in the dying moments of the game Lenard threw a 55-yard forward to Logan from his own goal-line and "Tip" shook off a trio of defenders and raced the remainder of the distance for a touchdown. It was a picture play that brought 20,000 people roaring to their feet. The game ended with Varsity still nursing a one-point advantage.

Before a large Reunion crowd in the Richardson Stadium the next week-end, Queen's had a 11-10 lead going into the final quarter only to lose out when former team-mate Jack Parry threw a long forward that clicked for a touchdown. For thrills, the game was a repetition of the previous week and by the time it was over the rooters of both sides were limp with exhaustion.

Western led 10-5 at the half on the strength of a rouge, a converted touchdown, and a placement, while Queen's had a major score registered by Roberts. The Tricolour took over the lead in the third quarter when a march down the

QUEEN'S 15, MCGILL 0
Murray Bulger evades a horde of Redmen

field set the stage for another touchdown. On this one, McKelvey raced around the end from ten yards out, sifting his way through a horde of would-be tacklers. Lenard made the convert. The Tricolour made the 11 - 10 lead stand up until well into the fourth quarter when Western pulled ahead. Right up until the final whistle it appeared that Queen's might still win out, but Lady Luck was looking the other way.

Down in the mud in Molson Stadium, on October 22, Queen's tangled with McGill and were soundly trounced 17 - 1. The score was no indication of the play as the Tricolour just missed scoring two touchdowns in the first half. The supposedly weak Queen's line showed up well in this game, but McGill had a superiority in all departments.

In this game Captain Ross McKelvey turned in a sensational exhibition, on one occasion running the ball for 61 yards. Late in the game he was injured on a hard tackle and was lost to the team for the rest of the season.

Queen's bounced back from this defeat to whitewash McGill 15 - 0 in the Richardson Stadium the next week. The Tricolour outcharged, outfought, and outplayed the Red and White at every turn as another large home crowd went wild.

Although they enjoyed a wide margin of the play in the first half, Queen's managed to score only a single point. In the third quarter a Sisson to Logan forward resulted in a converted touchdown and two singles made the score 9-0. Sisson added another touchdown which Logan converted to end the scoring. Of this reversal of form the *Toronto Globe and Mail* commented that if anything like that had happened around a race track everyone connected with it would have been ruled off for life.

The other league games were no less exciting. In the season's opener at London, McGill led Western 12 - 0 in the third quarter, only to fall behind 14 - 12 in the last fifteen minutes. McGill then defeated Toronto 22 - 13, Western downed Varsity 11 - 8 and the following week the Blues turned the tables with a 7 - 0 shutout. All of which led one columnist to comment: "Never bet on horses, blondes, or College football games."

For a team that looked none too strong at the beginning of the season, Queen's proved that they were capable of competing on even terms with their higher-regarded rivals. The line developed in a well-knit, hard-charging unit that earned the respect of the other teams in the loop. Head Coach Frank Tindall and Assistant Andy Mullan moulded together a fighting squad with a wide variety of plays in their repertoire. One of the most spectacular of these was a wide lateral which repeatedly set up plays for long gains. It was a crowd-pleasing type of ball that Queen's had to offer.

The team was plagued with injuries throughout the season. At no time was the Tricolour at full strength. Quarterback Don Bahner missed the first two games, and former Captain and triple-threat Al Lenard was out for two, and Captain Ross McKelvey, starry backfielder, missed the last three games. And more than half the others were out of action for shorter periods.

In the remaining two games of the schedule Queen's tied Western 18-18 in London and defeated Varsity 9-0 in Kingston. The Tricolour failed to make the play-offs by the narrow margin of one point, and it was generally felt that they were the best team in the league at the end of the season.

Against Western Queen's had a lead most of the way, only to see the Mustangs draw up on even terms in the last quarter. Both teams had an opportunity to kick for a single point in the last three minutes but neither was able to capitalize on the opportunity. In the case of Queen's a fumble ruined their chances when they had the ball on the 15-yard line with less than a minute to go.

In the Varsity game. Queen's outplayed the last year's champions decisively. The loss put the Blue and White in last place, the Tricolour taking over third. McGill finished the schedule in first place but lost 12-9 to Western in the play-off.

Student Activities

Form Student Congress

In an effort to bring student government closer to the undergraduate body, the Alma Mater Society executive established a Student Congress, consisting of the members of the faculty society executives and representatives of the fifty-seven campus clubs and organizations. It was proposed to hold at least one meeting in each session. At the meeting held in Convocation Hall on November 1, the Congress turned down a proposal that next year's home football game with Varsity be transferred to Toronto, but recommended to the A. M. S. that some action be taken to provide the Athletic Board of Control with additional funds to carry out its programme. The Congress also discussed the various plans which had been brought forward for consideration by the A. M. S. student health committee. Three of the plans, including one operated by the students themselves, were approved for a referendum to be held in the near future.

Meds Formal Held

It was carnival time in the Gymnasium on October 28, when the Aesculapian Society held its annual at-home. Gay decorations, side-show attractions, ballyhoo, and other trimmings transformed the hall into a three-ring circus. Bert Niosi's fifteen-piece orchestra provided music from a huge merry-go-round bandstand. Convener of this highly successful affair was Duane Justus, Med. '51, Chesterville, Ontario.

Present Challenge Shield

"In gratitude for the hospitality extended Queen's students in post-war years 1945 - 49," the Alma Mater Society has presented the Royal Military College with a Challenge Shield, to be awarded to the best all-round cadet in first year. The award was made for the first time this

fall, in a colourful ceremony in which the Governor-General and A. M. S. President Gelindo De Re participated. The hospitality referred to took the form of dormitory accommodation made available to Queen's students.

New Residence Opened

Gift of Dr. Manley B. Baker, Baker House at 120 University Avenue has been opened this fall as a sixth annex for women students. Accommodation is provided for twenty-four girls and the rooms have been redecorated and equipped with new furniture. Two fire-places, one in the common room and one in the sun room, add to the attractiveness of the new residence.

Brockington Lecture Series Opens

Max Freedman, Washington correspondent for the *Winnipeg Free Press*, was the speaker at the first of the current Brockington lecture series, which opened with a dinner in the Great Hall on October 24. Speaking on "Washington Politics and Foreign Politics," Mr. Freedman entertained the capacity audience with a sparkling address. Afterwards he talked informally in the Lower Common Room of the Students' Union as students eagerly plied him with questions.

Here and There

Prof. D. M. Jemmett has been elected honorary president of the Alma Mater Society for the current year G. L. Vogan, Theol. '50, is Chief Justice of the Alma Mater Society Court History was made when George Manjuris, Arts '50, Belleville, and Doug Timms, Arts '50, Kingston, received an equal number of votes in the special election held to elect a president for the Arts Society. On a recount, Mr. Manjuris was declared the winner by a margin of

four votes . . . Dick Lunn, Arts '51, Hillier, Ontario, is the producer of this year's student musical show, "Dear Susie" . . . Paul Roddick, Arts '50, Edmonton, Alberta, was appointed editor of *Tricolour* '50 . . . A World Federalism Club has been formed on the Queen's campus, with Bill Bauer, Arts '49, Ridgeville, Ontario, as the first president . . . A co-operative food purchasing committee has been established for the benefit of married students and others. The co-op. was formed by exservice men . . . Major James Coldwell, national party leader of the C.C.F., was the guest of the government at the opening session of Mock Parliament on November 2.

Represented Queen's

DR. W. W. Swanson, Arts '05, represented Queen's at the installation of Dr. W. P. Thompson as president of the University of Saskatchewan on October 8.

Central European Students

THREE students are in attendance at Queen's under the ruling that "exemption from fees be given to as many as four Central European students for one year, provided that their living expenses are met by some other individual or organization." The students are Miss Sylvia Niilus, Esthonia; Miss Katherine Drechsler, University of Budapest; George Weber, University of Budapest.

Received Honorary Degree

REPRESENTING the National Conference of Canadian Universities, Principal Wallace received an honorary doctorate degree from Queen's University, Belfast, Ireland, in October. The degree was conferred by Field Marshal Viscount Alanbrooke, chancellor of the Irish University, during centenary celebrations.

OPENING DAY CEREMONIES AT STUDENTS' MEMORIAL UNION

Seated at the head table may be seen T. A. McGinnis, Principal Wallace, His Excellency Viscount Alexander of Tunis, Chancellor Dunning, J. M. Macdonnell, Dr. L. W. Brockington, Rt. Hon. Philip Noel-Baker, Dr. J. H. Orr, J. E. Wright

At the Branches

Montreal

IN the election of officers for the ensuing year, A. S. E. Duncan, Sc. '39, was returned as president at the annual Football Night held in the Ritz Carlton Hotel on October 21. Mr. Duncan succeeds C. B. Murphy, Sc. '28.

Other officers were appointed as follows: honorary president, J. B. Stirling, Arts '09, Sc. '11; vice-president, B. W. Burgess, Sc. '44; secretary, J. E. Conner, Com. '47; treasurer, D. C. Cameron, Com. '46; committee chairmen: public relations, A. D. Gray, Arts '46; programme, Jesse Turner, Sc. '37; dance, C. J. Scott, Sc. '35; fellowship, H. D. Woods, Sc. '47; membership, W. H. Stevenson, Sc. '44.

Colour movies of the 1949 Western-Queen's game were shown, with Head Coach Frank Tindall serving as commentator. Mr. Tindall spoke briefly, describing the football situation at Queen's and the prospects for the future. Assistant Coach Andy Mullan was also introduced to the gathering.

Toronto

OUSTED from their traditional Saturday night dance in the Royal York Hotel, the Toronto branch tried a new experiment this year on the eve of the Varsity game—a pep rally dance in the Mutual Street Arena on October 7.

Artistically the evening was a great success, but financially it was almost a disaster. The fans turned out by the hundreds instead of thousands. Those who did come were rewarded by as good a show as has ever been staged for this type of entertainment.

The Queen's pipe band and the brass band were on hand for the festivities and each put on an exhibition of marching and playing. Paced by drum major-ette Marge McGregor, the brass band was given a hearty reception. This was equalled by the pipers, especially when the Highland dancers took the centre of the floor.

Football Coach Frank Tindall, Captain Ross McKelvey, and other celebrities

were introduced to the gathering amid loud cheers. The programme included college songs and yells. A popular contribution was the singing of "Oil Thigh" and other numbers by a student chorus from Queen's.

Convener of this well-arranged affair was J. A. Brown, Sc. '44.

Niagara

A COLOURFUL travelogue was presented by Dr. G. H. Berkley, Arts '19, in the Kate Leonard Room of the St. Catharines Y.M.C.A. on October 28.

Before a gathering of forty-two members, Dr. Berkeley described in interesting detail the British Crown Colony known as the Gold Coast, its people, customs, history, and countryside. He illustrated his talk by means of coloured slides taken by him when he worked there under the direction of the British government.

Dr. Berkeley is plant pathologist at the Dominion Government Plant Pathology Experimental Station in St. Catharines, and his mission in the Gold Coast was to investigate a virus which had been attacking cacao trees in that region.

The following officers were elected for the ensuing year: president, Mrs. E. N. Lotimer (Ruth Fishleigh), Arts '36, Niagara Falls; first vice-president, A. E. Smith, Sc. '34, Welland; second vice-president, W. P. Daly, Sc. '41, St. Catharines; secretary-treasurer, W. H. Dixon, Niagara Falls; Niagara Falls representative, Mrs. F. S. Durdan (Dorothy Miller), Arts '32; St. Catharines representative, T. G. Rust, Sc. '42. The Welland representative will be chosen later by the local members.

Kingston

HUNDREDS of fresh oysters went to their doom at the oyster party held in the Recreation Hall of the Aluminum Company on October 28. Approximately fifty alumni were on hand to gorge themselves with the succulent sea food.

A highlight of the evening's programme was the film of the Western - Queen's football game in Kingston this fall. Head Coach Frank Tindall acted as commentator in entertaining fashion. The remainder of the evening was spent in visiting and playing cards.

In charge of this highly successful affair were Dr. J. E. Baker, Med. '34, and Ian MacLachlan, Sc. '25, Arts '26.

Vancouver

POST-WAR prosperity of Canadian universities is just about finished, Principal Wallace told a dinner meeting held October 24 at which approximately 200 were present.

"I foresee for our universities in the next few years just as difficult a time as in the lean 1930's," he declared. Some new system of university finance must be found. If a university lacks funds its character goes down and its best teachers are lost because it can not afford to pay them, he said.

We are appealing to our graduates, to the provincial and federal governments and to business and industry," said the Principal. "Business and industry are becoming more and more aware of the importance of university-trained men. They need the research that can come only from the universities. Their help can put us on a solid, sound footing.

Universities provide trained minds, capable of hard, clear thinking, No woolly idealism will solve present-day problems. Only with hard thinking and hard work can we see our way clear to the future," he said.

Principal Wallace was introduced by President O. F. Lundell, Arts '23, who served as chairman. He was thanked by Dr. M. Y. Williams, Sc. '09, head of the Geology Department at the University of British Columbia. In stressing the rôle of Queen's graduates in the development of the sister university, Dr. Williams remarked that at one time all the members of the Geology Department at U.B.C. were alumni of Queen's.

The Principal was greeted with a rousing Queen's yell as he took his place at

the head table. The vice-president of the branch, Principal K. E. Taylor, Arts '20, of the Anglican Theological College of British Columbia, said grace. Between courses, Queen's songs were sung under the direction of C. B. Huyck, Sc. '12, convener of the dinner.

Those seated at the head table included, in addition to those already mentioned, Mrs. Edna Page, Arts '19, president of the Vancouver alumnae; Dr. C. R. Salisbury, Med. '24, secretary-treasurer of the Vancouver alumni; Dr. F. C. Bell, past president of the branch and chairman of the endowment campaign for British Columbia outside of Greater Vancouver; Mr. J. A. Broadbent, Arts '29, Com. '36, chairman of the endowment campaign for Greater Vancouver.

Kingston Alumnae

THE total contribution of the Kingston alumnae branch to the Endowment Fund is now \$1300 it was reported at the first regular meeting of the current year held in Ban Righ Hall on October 4. A report of the finances of the branch was given by Miss Jean Tweddell, Arts '12, treasurer.

The president, Mrs. R. Jackson (Clara Farrell), Arts '24, welcomed the new members. She also introduced the members of the executive. Miss Eleanor Tett, Arts '28, programme convener, outlined an interesting series of programmes for the meetings which will be held throughout the winter.

The Harmony String Group, winners of the Ottawa Music Festival, entertained with a delightful concert. Miss Belle Elliot, Arts '26, expressed the thanks of the meeting to the artists.

After the concert, refreshments were served by the social convener, Miss Dorothy Taylor, Arts '41, and the members of her committee.

Ottawa

THE Class of '96 and the Class of '49 shared the spotlight when more than 300 graduates gathered at the Normal School on October 12 for a FUNnight programme.

Rev. William H. Cramm, Arts '96, Theol. '00, beamed with pleasure when

four stalwarts in vivid garb dropped a freshman tam on his head and whisked him up to the platform where they serenaded him with a medley of songs. These included spirited renditions of "We're Working Our Way Through College," and "You've Got To Be a Football Hero." The latter was sung by George Perrin, Arts '48, and Eric Bronskill, Com. '48, to the rise and fall of yo-yos, and included a special vocal salute to Mr. Cramm. At its conclusion, Mr. Cramm thanked the boys in a brief speech.

Dr. Carter B. Storr, Arts '37, highlighted a witty commentary on Eskimo life, based on a trip he made to the North last April, with charcoal sketches. He made a strong plea on behalf of this special Canadian group.

Another highlight of the evening's fun was the chorus of attractive girls wearing evening dress and carrying fans, and boys in blue blazers, grey flannels, and yellow boaters. Their songs included such oldtimers as "Give My Regards to Broadway," "A Pretty Girl," and "The Whiffenpoof Song." George Perrin and the quartet were heard in other numbers

with Harris Arbique, Arts '48, providing the piano accompaniment.

The girls taking part were Nancy Complin, Arts '51, Helen Ferrier, Arts '49, Joan Shore, Arts '49, Barbara Wynkie, Arts '48, Helen Bronskill, Com. '48, Willie Dowler, Arts '49, Barbara Ettinger, Arts '49, Margaret Gerard, Arts '49, Hope Lefebvre, Arts '49, Barbara Cox, Arts '49. The boys were David Chance, Arts '49, John Chance, George Perrin, Ken Wynkie, Arts '46, Eric Bronskill, Com. '48, Frank Macintyre, Sc. '49, Ken Murchison, Com. '46, and Tom Chadsey, Arts '49.

Miss Eileen Bogart, Arts '32, and Frank Macintyre, Sc. '49, won first and second prizes in the quiz conducted by Miss Jean Burrows, Arts '37. Mrs. Norman Sanders (Jennie Shields), Arts '14, president of the alumnae, and Dr. L. D. Wilson, Med. '28, president of the alumni, welcomed the guests. The evening concluded with refreshments and dancing.

The committee in charge included Miss Burrows (convener), Mrs. Sanders, Ross Winter, Arts '26, George Perrin, Dr. Carter Storr, Iva Wilson, Arts '35, and John Chance, Arts '49.

FUNNIGHT IN OTTAWA

Left to right: Dr. G. C. Monture, Terry Tokaryk, Rev. W. H. Cramm, Fred Moote, Mrs. Elizabeth Johnston.

Alumni News

Births

Annan—At Mount Hamilton Hospital, Hamilton, Ont., on September 23, to Douglas Annan, Sc. '40, and Mrs. Annan, a son (David Bruce).

Barton—At the Kingston General Hospital, on September 19, to Dr. H. G. Barton, Med. '44, and Mrs. Barton (Betty Baker), Arts '43, a son (Peter Henry).

Berman—At the Royal Victoria Hospital, Montreal, on October 25, to Philip R. Berman, Arts '46, and Mrs. Berman, a son.

Bleecker—On October 23, at the Private Patients' Pavilion, Toronto General Hospital, to H. B. Bleecker, Com. '25, and Mrs. Bleecker, a daughter.

Broadwell—On May 25, to Dr. D. J. Broadwell, Med. '44, and Mrs. Broadwell, of Windsor, Ont., a son (James Grant).

Cole—At Grace Hospital, Windsor, Ont., on Oct. 14, to R. F. Cole, Sc. '45, and Mrs. Cole, a daughter (Helen Elizabeth).

Cooper—At St. Mary's Hospital, Kitchener, Ont., on September 3, to A. E. Cooper, Sc. '35, and Mrs. Cooper, a daughter (Nancy Margaret).

Craig—On October 29, at the Arnprior and District Hospital, to B. C. Craig, Sc. '42, and Mrs. Craig, a son (John Gordon).

Davis—At the Private Patients' Pavilion, Toronto Western Hospital, on October 20, to Neil C. Davis, Arts '42, and Mrs. Davis (Mora Smith), Arts '42, a son.

Frood—On October 29, at the Women's College Hospital, Toronto, to O. C. Frood, Arts '50, and Mrs. Frood (Nora Cassidy), Arts '49, a son (Peter Cameron).

Guest—On September 14, to Lloyd C. Guest, Med. '51, and Mrs. Guest (Margaret Anderson), Arts '45, of Sudbury, a son (Lloyd William).

Gregoris—At St. Joseph's Hospital, Toronto, on September 20, to F. P. Gregoris, Arts '43, and Mrs. Gregoris, a daughter (Lynne Louise).

Halliday—On August 9, at the Welland County Hospital, to J. G. T. Halliday, Arts '42, and Mrs. Halliday, a son.

Howse—At St. Mary's Hospital, Timmins, on October 16, to Basil Howse, Com. '42, and Mrs. Howse, a daughter (Barbara Joyce).

Keeley—On October 3, at St. Michael's Hospital, Toronto, to Allen G. Keeley, Arts '45, and Mrs. Keeley, a son (Sean Earl).

Kirkman—On October 22, at Sault Ste. Marie, Ont., to Albert Kirkman, Sc. '48½, and Mrs. Kirkman, a daughter (Helene Ann).

McNeill—At Rochester, Minn., on October 27, to Dr. Ian McNeill, Med. '45, and Mrs. McNeill, a daughter.

Massiah—On November 7, at Mount Hamilton Hospital, Hamilton, Ont., to R. N. Massiah, Sc. '47, and Mrs. Massiah, a daughter (Jo-Anne Catherine).

Matthews—At the Kingston General Hospital, on October 23, to Bruce W. Matthews (Banking), and Mrs. Matthews, a son (John Overton).

Noakes—At the General Hospital, Calgary, Alta., on September 10, to Dr. J. A. Noakes, Med. '46, and Mrs. Noakes (Margaret A. Crothers), N.Sc. '48, a daughter.

Van Luven—In the Cathedral Church of St. George, Kingston, on Saturday, October 8, Harriet Selby (University of Toronto), to Dr. Otto Van Luven, Med. '15, of the Department of Veterans' Affairs, Kingston.

Deaths

Barnard—Professor at St. Stephen's College, University of Alberta, for twenty-four years until his retirement in 1937, Rev. Dr. Arthur T. Barnard, Arts '99, Theol. '15, died at Vancouver, British Columbia, on October 25. Born in Hamilton, Ontario, Dr. Barnard became blind at the age of four during a severe attack of scarlet fever. He received his preliminary education in Brantford, Ontario, and afterwards obtained his M.A. and B.D. degrees from Queen's. After graduation he served for four years as pastor of the Presbyterian Church at Bark's Falls, Ontario, and in 1913 he joined the staff of the Theological College at Edmonton. He received the honorary degree of Doctor of Divinity at St. Stephen's in 1925. While in Edmonton, Dr. Barnard took a prominent part in the work of the Canadian National Institute for the Blind, and served as chairman of the northern Alberta section in 1943. Surviving are his wife and two sons.

Cooper—Prominent as an insurance man and community leader, Wilfred Roy Cooper, Arts '33, died in North Bay on October 19 at the age of forty-four. Mr. Cooper was born in Sarnia, Ontario, and attended school

in Brockville and in Portland, Maine, before going to Queen's. Originally enrolled in Science he transferred to Arts and graduated with his B.A. degree in 1933. He went to North Bay fifteen years ago and started in the insurance business. Later he joined with E. L. Banner of North Bay to form the insurance and real estate firm of Banner and Cooper which developed into one of the leading real estate businesses in the city. He was a past president of the North Bay Board of Trade. Surviving are his mother, wife and two daughters.

Elder—Descended from pioneer families in the district, Miss Hosie Elder, Arts '05, died at her home in Elder Mills, Ontario, on October 19. Miss Elder was born at Elder Mills and attended school in Western Ontario. She entered Queen's in 1900 and graduated with her M.A. degree five years later. For a time she taught in Western Canada and in Toronto, where she lived for twenty years. She was an ardent church worker. Last year Miss Elder returned to Elder Mills and built a residence patterned after the old Presbyterian manse. She was stricken shortly after moving into her new home. Surviving are an adopted daughter and an adopted son.

Harper—Victim of a tragic accident, Maurice Farr Harper, Sc. '28, was instantly killed on October 19 when his head and neck were caught in the hoist of a bulldozer he was operating in St. Thomas, Ontario. Mr. Harper was born in St. Thomas in 1905 and received his early education in the schools of that city. He obtained his B.Sc. degree from Queen's in 1928, graduating with the E. T. Sterne prize in chemical engineering. He was the eldest son in the firm of J. P. Harper and Sons, contractors, and was also the proprietor of Harper's beach restaurant at Port Stanley which he had operated every summer for the past fifteen years. Surviving him are his wife, the former Marion Knight, Arts '28, his parents, a daughter, and three brothers, including Stuart Harper, Com. '29.

Lehto—A general practitioner in Toronto's Finnish community, Dr. William S. Lehto, Med. '33, died suddenly at his home in Toronto, Ontario, on August 24. He had suffered from a heart condition for several years. Dr. Lehto was born in Karstula, Russia, in 1909, and was brought to Canada by his parents at the age of one year. His family settled in St. Catharines, Ontario, and he was educated there and at Niagara Falls. He entered Queen's in 1927 and graduated six years later with his M.D., C.M. degrees. Dr. Lehto was a keen baseball and hockey fan, and since the war had been active in various groups organized to assist new immigrants in Canada. He published several magazine articles on medical subjects. He is survived by his wife and a daughter.

McGowan—Shortly after a heart attack, Dr. Cyril Hugh McGowan, Med. '34, died at his home in North Bay, Ontario, on October 6. Dr. McGowan was born in Glasgow, Scotland, in 1907, and came to Canada with his parents at an early age. He graduated from Queen's with his M.D., C.M. degrees in 1934. As a student he was a valued member of the University's boxing and wrestling team. Dr. McGowan set up a practice in Kirkland Lake, later moving to Cobalt. In 1940 he went to North Bay. From the first he was a popular doctor and recently his practice had grown to such an extent that he had acquired the services of an assistant. He is survived by his wife, one son, two daughters, and two brothers, including Dr. T. P. McGowan, Med. '28.

Monkman—Head of the stenography department of the Central High School of Commerce, W. Clarence Monkman, Arts '26, died suddenly at his home in Toronto, Ontario, on October 2. Mr. Monkman was born in Albion Township, Peel County, in 1887, and attended Humberstone Collegiate in Toronto. He obtained his B.A. degree at Queen's in 1926. Mr. Monkman joined the staff of Givens Street School in 1913. He was transferred in 1922 to Central Commerce, where he specialized in commercial work and physical training. He was an elder of High Park Avenue United Church and chairman of the membership roll committee. He was a charter member of Prince of Wales Lodge and former member of University Lodge, A.F. and A.M. Surviving are his wife, a daughter, and a sister.

Mott—The body of Derek Phillip Mott, Sc. '48, was recovered from an unnamed lake in northern Manitoba on September 16, after he had been reported missing from a survey camp two weeks previously. He was a postgraduate student in geology at McGill University and was working towards his Master's degree. Mr. Mott was born at Ottawa, Ontario, in 1924, and received his early education in the schools of that city. He graduated from Queen's with his B.Sc. degree in mineralogy and geology in 1948.

Reddick—A minister for forty-seven years, Rev. Dr. Charles Spencer Reddick, Arts '14, died at Peterborough, Ontario, on October 2. Dr. Reddick was born at Wallbridge, Ontario, in 1879, and attended Belleville High School and Albert College before going to Queen's. He graduated with his B.A. degree in 1914. His pastorates included Whitevale, Seymore, Bloomfield, and Lakefield, all in Ontario. He was superannuated from the United Church four years ago. Surviving, besides his wife, are two daughters, and three sons.

Rowland—Active in the ministry of the Presbyterian Church for more than thirty years, Rev. George P. Rowland, Arts '10, died at Markham, Ontario, on September 27. Mr. Rowland was born in County

Monaghan, Ulster, Ireland, in 1884. He came to Canada in 1902. After a year's study at Queen's he went to McMaster University where he received his B.A. degree. He continued his theological studies at Knox College, Toronto, graduating in 1914. That same year he accepted a call to West Flamborough Church in Hamilton Presbytery. In 1921 he resigned to return to Knox College for further academic work and at the same time he served as supply minister in Dixie. He remained there for three years, until he was called to Cowan Avenue Church, Toronto. Subsequently he served in Stratford, Montreal, and Port Hope. On his retirement he went to Markham where he had lived ever since. Surviving are his wife and three daughters.

Sclater—The minister who made people his hobby and church union his life work, Very Rev. Dr. J. R. P. Sclater, D.D. '35, died suddenly on August 23 while visiting in Scotland. Dr. Sclater was born in Manchester, England, in 1878. A graduate of Cambridge University, he was ordained as a Presbyterian minister in 1902. He came to Canada in 1923 and was the minister of Old St. Andrew's Church, Toronto, from the time the United Church was formed until his death. He believed implicitly in the ultimate reunion of all Christian churches and he died in Edinburgh while still working for union between the Church of England and the Church of Scotland. For many years Dr. Sclater was the only non-American on the Harvard University Board of Preachers. In addition, he was a competent writer. His books include "The Enterprise of Life," "The Eve of Battle," "God and the Soldier," and "The River of Content." He held the degree of Doctor of Divinity from St. Andrew's College, Scotland; Queen's, and Victoria University Toronto. He held the Warrack lectureship of the Scottish Theological Colleges, the Lyman Beecher Lectureships at Yale, the Dudleian Lectureship at Harvard, and many others. Among the survivors are his wife, a son, and a daughter.

Singleton—A pioneer doctor in the Canadian west, Dr. Omer Hilton Singleton, Med. '12, died suddenly at Swift Current, Saskatchewan, on October 10. Dr. Singleton was born at Lyndhurst, Ontario, in 1886. He graduated from Queen's with his M.D., C.M. degrees in 1912 and established a practice in Saskatchewan. During World War I he served in France as a medical officer with the rank of Captain. On his return from overseas he did postgraduate work in heart and lungs at McGill and then resumed his practice in the west. In the early days he was forced to make his calls on horseback, and often travelled long distances in a horse-drawn caboose or on a railway handcart. Later, he was one of the first doctors to use a snowplane in the winter months and he flew into the northern

parts of the province on many occasions to visit his patients. Dr. Singleton's wife predeceased him in 1936. Among the survivors are three sons, a daughter, and a sister.

Third—After a protracted illness, Dr. James Reginald Third, Arts '19, Med. '21, died on October 12 in the General Hospital at Kingston, Ontario. Dr. Third was born in Kingston in 1897 and received his preliminary education in the schools of that city. He entered Queen's in 1914, graduating with his B.A. in 1919 and his M.D., C.M. degrees two years later. Specializing in X-ray, Dr. Third was a prominent physician and was a member of the Queen's Faculty of Medicine for some years. Among the survivors are his wife and mother.

Warren—Founder of the extension service and the department of actuarial science at the University of Manitoba, Prof. Lloyd A. H. Warren, Arts '02, died at Winnipeg, Manitoba, on October 14. Professor Warren, who had been head of the department of actuarial science since 1935, retired last spring. He was born at Balderson, Ontario, in 1879. An M.A. graduate of Queen's of 1902, he also studied at Clark University, Massachusetts, and obtained his Ph.D. degree from the University of Chicago in 1913. He joined the University of Manitoba faculty in 1910 after teaching at Queen's for some time and was professor of mathematics from 1931 to 1935. Professor Warren was an honorary president of the Winnipeg branch of the Royal Astronomical Society, a past president of the Manitoba Educational Association, and had been on the board of trustees of the Manitoba Hospital Service Association. He also helped to organize Winnipeg civic service pensions. He had served as president of the Winnipeg branch of the General Alumni Association. Survivors include his wife, four daughters, a son, a brother, and two sisters.

Williams—Highly regarded as a surgeon, Dr. Louis E. Williams, Med. '13, died suddenly at his home in Madison, New Jersey, on October 22. Dr. Williams was born in St. Thomas, Ontario, in 1891, and received his early education there. He graduated from Queen's with his M.B. degree in 1913 and his M.D. in the following year. He went overseas as a surgeon with the rank of Major in the British Army, and served until the end of World War I. In 1919 Dr. Williams interned at Harlem Hospital, New York City, and in 1921 was granted a residency at Morristown Memorial Hospital. At the time of his death he was chief of Memorial's Department of Obstetrics and Gynaecology. He was also vice-president and director of the James Building and Loan Association in Madison. Besides his wife, he leaves two daughters and a brother.

Notes

1890 - 1899

Henry F. Mooers, Arts '95, Kingston, was bereaved by the death of his wife on October 25. **Grace Mooers**, Arts '26, is a daughter.

Rev. C. D. Campbell, Arts '96, Regina, retired minister and teacher, recently celebrated the fiftieth anniversary of his ordination. Mr. Campbell took postgraduate studies in Greek philosophy and English literature at Princeton University, where he received his M.A. in 1899 and later his B.D. degree. He then moved to Edmonton where he remained for about ten years. Before going to Regina in 1919 he spent a short time in Saskatoon.

1900 - 1909

Dr. I. D. Cotnam, Med. '08, Pembroke, was bereaved by the death of his wife on October 22.

J. M. Macdonnell, Arts '04, LL.D. '41, financial critic for the Opposition in the Dominion Government before the last general election, was elected Progressive-Conservative member of parliament in the recent Toronto Greenwood by-election.

Humphrey May, Arts '05, has sold his legal practice in Palmerston, Ont., and has retired owing to ill health.

Dr. C. A. Publow, Med. '06, eye, ear, nose and throat specialist in Picton, Ont., has been medical representative for the Department of Veterans' Affairs in Prince Edward County for over thirty years.

Helena Raitt, Arts '09, Morrisburg, Ont., **Jean Raitt**, Arts '13, Ottawa, and **George H. Raitt**, Sc. '14, Berkeley, Calif., were bereaved by the death of their mother, Mrs. James Raitt, who died at her home in Ottawa, on November 7, at the age of ninety-three.

1910 - 1919

Dr. R. M. Cairns, Med. '14, who since his discharge from the Army has been assistant to the chief medical officer of the Department of Veterans' Affairs, Ottawa, is now resuming the private practice of medicine and surgery, with offices at 391 Richmond Road, Westboro.

Dr. H. E. Connolly, Med. '12, is superintendent of the State Mental School at Laconia, N.H.

W. J. Coyle, Arts '19, Kingston, was elected a director on the executive of the Newspaper Advertising Managers' Association of Eastern Canada at the annual convention held in Montreal during October.

Prof. W. F. Dyde, Arts '10, is Dean of the Faculties and Vice-President of the University of Colorado, Boulder, Col.

Dr. W. A. Mackintosh, Arts '16, Vice-Principal, Dean of the Faculty of Arts, and Director of the School of Commerce, Queen's University, has been appointed a member of the new dollar-sterling trade board formed to facilitate Anglo-Canadian trade.

Mrs. N. R. Martin (Florence Bissonette),

Are you familiar with the
GRADUATE RESEARCH FELLOWSHIPS

GIVEN BY
IMPERIAL OIL LIMITED ?

ONE OF THE WAYS in which Imperial Oil helps the cause of Education in Canada is the granting of fellowships to graduate students at Canadian universities. Each year four fellowships are given as follows:—

i One fellowship granted yearly to a student wishing to pursue a course of post-graduate study and research in petroleum engineering.

ii One fellowship granted yearly to a student wishing to pursue a course of post-graduate study and research in petroleum geology.

iii One fellowship granted yearly to a student wishing to pursue a course of post-graduate study and research in chemistry and/or chemical engineering.

iv One fellowship granted yearly to a student wishing to pursue a course of post-graduate study and research in mechanical engineering.

A printed bulletin on the subject of these Graduate Research Fellowships is available. For a copy of this bulletin or for any other information respecting Imperial Oil Fellowships write to:

ONTARIO

Arts '13, is living on Edgware Road, St. Thomas, Ont.

Dr. J. E. McAskill, Med. '14, eye, ear, nose and throat specialist of Watertown, N.Y., is second vice-president of the Medical Society of the State of New York. He is also president of the Watertown District branch of the Society.

W. C. Miller, Sc. '17, City Engineer of St. Thomas, Ont., is the recipient of the Veteran's Award of the American Public Works Association for long and meritorious service to the municipality of St. Thomas. The presentation was made at the annual meeting of the Association on September 21, at Kansas City. The award is given to those who have served the same public body with distinction, and for not less than thirty years.

Rev. H. Gill Steers, Arts '15 (B.D. Indiana College, 1916), retired from active work in the ministry a year ago. He lives at 109 Catherine St., Belleville, Ont.

1920 - 1929

Dorothy Brown, Arts '22, is supervisor of social work at the Rome State School, Rome, N.Y. She is a graduate of the School of Education, Harvard University, and has an M.Sc. from the School of Social Work at Simmons College, Boston.

C. M. Christensen, Arts '21, formerly of Dickson, Alta., is now living at 11414-96th St., Edmonton.

W. J. Clement, Arts '20, is a rancher at Mazama, B.C.

Dr. W. C. Gardiner, Arts '26, chemical engineer in the Development Department of the Mathieson Chemical Corporation, Niagara Falls, N.Y., addressed the Metropolitan (New York) section of the Electrochemical Society on "The Mercury Cell for Chlorine and Caustic Soda" on October 26.

Lillian Potter, Arts '23, teaches in the collegiate institute in Pembroke, Ont.

Mrs. F. J. Poupore (Mary Dixon), Arts '29, formerly of Gogama, is now in Skead, Ont., where she is postmistress and proprietor of a store.

Jean Simmie, Arts '28, is teaching in the high school at Fort Frances, Ont.

Mrs. Allan R. Singleton (Frances Hill), Arts '26, is principal of the continuation school at Beachburg, Ont.

R. M. Winter, M.B.E., Arts '25, was honoured at the investiture in Government House on November 7 when he was decorated with the Distinguished Flying Cross by the Governor General, Viscount Alexander. He was among fifty-three members and former members of the R.C.A.F. or their next-of-kin who received the D.F.C. for outstanding service.

Ruby Hilliker, Arts '26, teaches in North Toronto Collegiate Institute. She spent the past summer abroad, visiting chiefly in Rome and Naples.

1930 - 1939

Col. W. A. B. Anderson, Arts '37, has been posted from Army Headquarters, Ottawa, to Kingston, where he is attending the National Defence College.

W. C. Brown, Arts '30, formerly of Jersey City, is now with the Colonial Life Insurance Company in East Orange, N.J. He is Vice-President and Actuary.

R. E. Clarke, Sc. '35, of the Ontario Department of Highways, has been transferred from Kingston to Stratford as construction engineer.

Lorna Corneil, Arts '33, teaches English in the collegiate institute in Lindsay, Ont.

G. P. Eligh, Com. '39, is merchandise manager for the Hudson's Bay Company in Edmonton, Alta.

Lloyd H. Hall, Arts '32, is principal of Deer Park School in Toronto.

H. N. Hilliker, Arts '38, is purchasing agent for the McArthur Chemical Company, Montreal.

C. H. Hilliker, Sc. '33, has been appointed market research section supervisor, development division, chemicals department of Canadian Industries Limited, Montreal.

A. E. Hyde, Sc. '37, is head of the metallurgical engineering division of Aluminium Laboratories Limited, Kingston.

Robert Kennedy, Arts '31, is principal of the high school at Burk's Falls, Ont.

T. J. McKibbin, Arts '35, is assistant treasurer for the City of Kingston.

Norman Muir, Arts '32, is inspector of public schools in the Rainy River District, Ontario. He lives in Fort Frances.

W. H. Paterson, Sc. '34, is chief engineer for the Toronto Transportation Commission.

G. A. Russell, Sc. '35, is assistant professor of geology at the University of Manitoba.

Dr. H. G. Skinner, Med. '38, is director of the Pennington County Health Centre, with headquarters in Rapid City, South Dakota.

Col. A. E. Wrinch, Sc. '35, has been appointed assistant military attache and chief of staff to the Commander of the Canadian Army Staff in Washington, D.C. For the past ten months Colonel Wrinch has been attending the army staff college in Kingston. He takes over his new duties on December 15.

1940 - 1949

D. K. Alexander, Arts '43, is a research chemist at Lake St. John Power and Paper Company, Dolbeau, Que.

Carl Amberg, Arts '46, has resigned his lectureship at the University of New Brunswick in order to do postgraduate work towards his Ph.D. in chemistry at the University of Toronto.

G. J. Bialik, Sc. '48, is doing sales engineering work for the Canadian General Electric Company in New Liskeard, Ont.

Dr. W. E. Burns, Med. '43, is practising in Napanee, Ont.

Dr. D. E. M. Campbell, Arts '40, Med. '45, is practising in Trenton, Ont.

K. M. Carey, Sc. '49, is with the National Film Board, Ottawa.

Florence Cole, Arts '45, is teaching in the high school at Verdun, Que.

Mrs. G. H. Collier (Mary Jeffery), Arts '42, is assistant professor of psychology at Indiana University, Bloomington, Indiana. She has her A.M. from Radcliffe College and her Ph.D. from the University of Minnesota.

Dr. G. N. Crowson, Arts '41, who received his M.D. from McGill University this year, is at present interning at the Ottawa Civic Hospital.

Irene Dombroski, Arts '42, is French specialist at Peace Centennial High School, Montreal.

Mrs. T. A. Eastwood (Katharine Justus), Arts '47, is living at 144 Divinity Road, Oxford, England, while her husband is continuing his postgraduate work at Oxford University.

Dr. Margaret Elliott, Med. '48, is senior intern in Medicine at the Kingston General Hospital.

Dr. J. Bruce Galloway, Med. '45, is orthopedic surgeon at the Northern Clinic in Asheville, North Carolina. After leaving Queen's he interned at Victoria Hospital, London, Ont., and the General Hospital in Norwalk, Conn., later taking a three-year residency in orthopedic surgery in Brooklyn, N.Y.

John Hamilton, Arts '42 (M.B.A. Harvard 1949), and Martha Harrower, Arts '41, have

been appointed to the staff of the school of business administration, University of Western Ontario.

F. C. Hayes, Arts '49, is a student at Osgode Hall Law School, Toronto.

Dr. D. A. Hunt, Med. '46, is in general practice at Marlbank, Ont.

Dr. John R. Ibberson, Med. '45, is resident doctor at Norman Wells, N.W.T.

Dr. J. Ian Jeffery, Med. '47, is specializing in orthopedic surgery at Monmouth Memorial Hospital, Long Branch, N.J.

Prof. J. R. F. Kent, Arts '33 (Ph.D. Illinois), head of the Department of Mathematics, Triple Cities College, Endicott, N.Y., has been elected president of the Triple Cities Chapter of the American Association of University Professors.

W. R. Kidd, Arts '44 (B.Paed. Toronto), and Mrs. Kidd (Ethel Viola Fair), Arts '40, are both teaching in the English department of the Kingston Collegiate and Vocational Institute.

Dr. Douglas Law, Med. '42, is practising at 190 Laurier Ave., E., Ottawa, specializing in Anesthesiology.

R. S. Lockeberg, Sc. '40, has been with the Canadian Ingersoll-Rand Company, Montreal, for the past two years. He received his M.B.A. from the Harvard Graduate School of Business Administration in 1947.

Allan Logan (Extramural 1941-1944), formerly programme secretary at Toronto Broadview Y.M.C.A., has been appointed general secretary of the newly formed Y.M.C.A. in Port Arthur.

Your Friends*

BOTH YOUR HOUSES

By Sir Philip Gibbs. With present-day Britain and the Houses of Parliament for its setting, this is one of the author's finest stories. \$3.00.

PRINCE OF EGYPT

By Dorothy Clarke Wilson. The story of Moses, told against the unmatched splendour prevailing at the height of Egypt's power. \$4.00.

ANDY CLARKE AND HIS NEIGHBOURLY NEWS

Selected broadcasts from the popular Sunday morning "Neighbourly News." Introduction by Greg Clark. \$3.00.

THE PASSIONATE PILGRIM

By Will R. Bird. A top-ranking dramatic novel of Nova Scotian frontier life. \$3.25.

WAR-TIME ECONOMIC CO-OPERATION

By R. Warren James. A discussion of the intimate economic co-operation between Canada and the United States during World War II. Published for the Canadian Institute of International Affairs. \$5.00.

FIFTY YEARS MARCH

By Francis Williams. A full and detailed history of the British Labour Party from its beginning in 1900. \$2.50.

THE RYERSON PRESS TORONTO

John R. McCarthy, Arts '43, recently graduated from Teachers College, Columbia University, with his M.A. in Education. He is now an inspector of public schools for the Ontario Department of Education, stationed in Toronto.

R. J. McClure, Arts '43, teaches at Pickering College, Newmarket, Ont.

Dr. V. W. Malach, Com. '44, Arts '46 (Ph.D. London School of Economics), has been appointed associate professor and acting head of the Department of Political and Economic Science at the Royal Military College, Kingston.

Dr. G. F. Meissner, Med. '43, is research assistant in the Department of Pathology, McGill University.

Dr. M. A. Menzies, Med. '46, is doing postgraduate work at the Toronto Psychiatric Hospital.

Joan Mulligan, Arts '49, has enrolled in the School of Social Work at the University of British Columbia.

Mrs. G. D. Northcut (Martha Jean Harris), Arts '48, is living at 342-8th St., Brandon, Man.

Dr. A. F. Pasquet, Med. '43, is chief anaesthetist at the Montreal Neurological Institute.

J. D. Pattison, Arts '48, is in the department of economics, Imperial Oil Limited, Toronto.

G. A. Pearce, Arts '42, is principal of the continuation school in Wellington, Ont.

R. A. Quance, Sc. '45, formerly of Sarnia, is now instrument engineer for the Shell Oil Company of Canada at their Montreal East Refinery.

Glenn Reist, Sc. '48, has accepted a position in the electrical engineering department of the Canadian Comstock Company, frequency conversion division, St. Catharines, Ont.

F. A. Ritchie, Sc. '42, has been promoted to the position of superintendent of production engineering in the Ford Motor Company of Canada, Windsor.

J. F. Runge, Sc. '46, is with Armeo Drainage and Metal Products of Canada Limited, Guelph, Ont.

J. W. Scott, Arts '48, is studying law at Dalhousie University. His wife, formerly Caroline Coghill, Med. '51, is also continuing her medical course at Dalhousie.

Donald C. Smith, Sc. '48, is a partner in the firm Smith and Smith, Consulting Engineers, Ontario Land Surveyors, Kingston.

Munroe Scott, Arts '48, is doing postgraduate work at Cornell University.

F. G. Smoke, Sc. '45, has been appointed production supervisor in charge of processing and packaging for the Kellogg Company of Canada, London, Ont.

G. W. Sovereign, Sc. '47, of Canadian Industries Limited, has been transferred from Kingston to Brownsburg, Que., where he is in the plastic division.

R. W. Stewart, Sc. '45, is a postgraduate student at St. John's College, Cambridge, England.

GORDON HALL EXTENSION

HITHER AND YON IN 1949

by A. Vibert Douglas

Part 1 — Easter

IN connection with the work of the International Federation of University Women it has been my privilege during 1949 to meet with groups of university women in seventeen cities of nine countries of Europe (if I may count Scotland and Northern Ireland as countries distinct from England). On this continent the range has been from sea to sea from Brown University, Rhode Island, to Vancouver and Victoria, B.C.

Two weeks before Easter I flew from Montreal to London where the headquarters office of the I.F.U.W. is a necessary port-of-call as often as I can get there. A day later two other officers and I went by boat and train to Paris. We were made welcome at Reid Hall, the American university women's residence which, under the wise and kindly direction of Miss Leet, is a truly international centre. There we were joined by other I.F.U.W. officers, French and Swiss, and the annual spring meeting took place over a long week-end. We held no sessions on Sunday morning and evening. This was our opportunity to meet many French members as well as a distinguished group of French, American and British men and women with a common interest in education and in the widening of international cultural relations. That morning I went to Notre Dame with a Queen's scholar, Audrey Freeman (B.A. '42, M.A. '46). The 9.30 mass was concluding with magnificent organ music and choral responses in which the packed congregation, largely young men, devoutly took part. The sun shone through the stained glass of chancel and apse, and upon the people in the square outside the great west portal, waiting to surge in as the earlier congregation streamed out. The sun shone upon the Seine as it flowed past the Louvre, past the Tuileries gardens with fresh spring leaves and buds and early flowers, past the Quai d'Orsay, and on out of sight under its many lovely stone bridges.

The fourth and final day in Paris included a 6 a.m. visit to Les Halles, the gay and huge vegetable, fruit and flower

market of Paris (roses a dollar a dozen, tulips and daffodils twenty cents a bunch, armloads of magnolia and lilac); a broadcast recording at Unesco House for I.F.U.W.; an hour or two of shopping in the rain; a dinner given by Miss Leet when I met the British Council representative and a Yale professor both of whom know Sartre and gave me their different views on his influence and the probable modifications of his philosophy which some of his disciples may develop along positive dynamic lines.

After another day in London I went to Liverpool and across to Belfast at the invitation of the Irish Federation of University Women to address their annual meeting taking place at Queen's University, Belfast. Commenting on the composition of the Irish Federation whose three main branches are Queen's (Belfast), Trinity College (Dublin) and National University (Dublin), I remarked that they were one geographically, two politically and one in loyalty to the ideals of the I.F.U.W. An Ulster friend replied that two things unite all Ireland—one is this Federation of University Women, the other is international football! In my opinion the marvel and miracle of the former are the greater by far. Long may this co-operation endure!

There were two headings in Belfast newspapers which I had occasion to remember subsequently in Dublin. The recent Ulster elections had resulted in almost dead loss to the labour party which had risked taking no definite stand on partition. So the Ulster trade unions put the question to the direct test, and on Saturday, April 9, headlines announced 200,000 to 700 for continued connection with the United Kingdom. A few days later the headlines in Belfast and small type in Dublin recorded that every Protestant had been voted off a certain Dublin hospital board, even well-known citizens whose public-spirited service was a continuance of a family tradition of three generations. True, the best citizens of Dublin were shocked at this stupid piece of uncalled-for intolerance, but the fact remained and it deepened the sad gulf between North and

South. With these headlines in my mind's eye I listened with increasing amazement to a working man, to a dental student and then to His Excellency, the President himself, telling me that the majority of northerners had never had a real chance to express their desire to break the British connection and unite all Ireland, and that Ulster need not fear intolerance or discrimination.

Dublin on Easter Monday—the first day of the Irish Republic—flags and parades and gunfire and crowds; but also a vast apathy and flat refusal of many citizens to participate. Many Irishmen felt that Costello had broken his election pledge to maintain the existing foreign policy; they were tired of De-Valera but at least he knew how to use words skilfully so that Eire could be within the Commonwealth and yet out from under the Crown! There were fireworks by the Liffey that evening and some noisy crowds returning home singing—not Irish patriotic songs—but the latest American radio hits. I had travelled across Ireland that Easter Monday and not one flag was to be seen on any station platform or town or village square from Sligo to the suburbs of Dublin. And what of the Irish Press on that historic day? They carried the news and pictures of the ceremonies, the soldiers and the crowds of the early morning, but the editorials of two leading newspapers were on China and on Dog Racing respectively.

Easter Sunday I had spent in County Sligo by Ballysodare Bay with the Ox mountains to the south, the Donegal mountains to the north, Loch Gill to the east, golden gorse and primroses to intoxicate the eye, and a line of W. B. Yeats to recall one's mind from the grandeur and beauty of nature to the tangled problems of mankind: "The wrong of unshapely things is a wrong too great to be told".

Three days later I was 12,000 feet above the North Atlantic. After sighting Mt. Heckla, we landed at Keflavik and I was able to telephone the president of the Iceland university women at Reykjavick. We crossed the ragged, jagged, angry black rocky tops of the coastal mountains and the great ice fields of

Greenland, and about ten hours later we came to earth at Dorval.

Part 2 — Summer

I left Montreal on June 3, 1949, landed at Liverpool on June 10, and proceeded to Glasgow for the first of five addresses on astronomical topics which branches of the British Federation of University women had requested in Glasgow, Inverness, Aberdeen, Dundee, and Huddersfield. This gave me the opportunity to meet university men and women and other interested citizens and in particular several of the professors in science, mathematics, and philosophy of three of the Scottish universities. Kind friends drove me to see the graves of the clans near the field of Culloden (history 200 years old) and then down into the broad glacial valley of the Nairn to marvel at the many ancient stone burial mounds within sacred stone circles dating perhaps to 2,000 B.C.

In Edinburgh the university women held a meeting on constructive international activities before which I had the pleasure of being received by the Lady Provost, a B.F.U.W. member who had worked in Germany in pre-war and post-war years. She had seen the gradual decline of individual initiative under the early Hitler régime, and the tragic lack of initiative in that country today after years of suppression of voluntary organizations and private philanthropy. In the state of over-nationalization in Great Britain today she views with deep concern a similar trend on the part of citizens to shoulder off upon the government any personal responsibility for local or national welfare.

In another Scottish city I had tea in the home of an economist, a disciple of Keynes. He had filled out a cheque at the Ministry of Supplies during the war for Treasury payment of four million pounds sterling for imported dried eggs! He had but little criticism of the general financial policy of the government. But in Yorkshire I met industrialists outspokenly critical of the government, prophesying its defeat in the next election. Working people in the third-class coach on the London train were equally sure the government would be returned, their arguments being based upon apprecia-

tion of the social security measures rather than on any wider issues.

At the end of June I was in Geneva for a week of meetings of U.N. officials with representatives of over eighty international non-governmental organizations which have been granted consultative status with the Economic and Social Council of the U.N. It was good to see the vast Palais des Nations again humming with constructive activity. The annual I.L.O. conference was also in session and people of many nationalities were thronging halls, corridors and buses of "l'ONU". Special stress was laid upon four points (1) that the strength of the U.N. is the strength of the support it gets from governments, from non-governmental bodies, and from individuals of good will wherever they are found, (2) that public confidence in U.N. must be built up by stressing the practical achievements of the U.N. and its subsidiary bodies—a challenge to the N.G.O.'s and individuals everywhere, (3) that the voice of the N.G.O.'s, through their accredited consultants at Lake Success, Paris, Geneva or elsewhere is heard and hearkened to and welcomed, particularly in the early formative stages of U.N. policy in committees and commissions, (4) that some progress has been made by an able group of lawyers to formulate the basis of a legal status for international N.G.O.'s

From Geneva I went north to Zurich and on to Basel to assist the local committees who are already well advanced with their plans for the I.F.U.W. Conference of August 6-12, 1950. The Realization of Human Rights will be the central theme and special study will be made of the gaps in our various countries between practice and the ideal as set out in the Declaration.

By leaving Basel very early on July 7, I was able to spend several hours in the old city of Strasbourg in which history has been made over many centuries from Roman times, and is being made today. Its massive cathedral, of 11th and 13th century construction with its open stonework gothic tower, the many 14th century buildings and squares, the encircling waterways tributary to the Rhine, and of course the famous astro-

nomical clock in the south transept of the cathedral, all demanded a more prolonged stay; but that evening I was in the capital of the Duchy of Luxembourg where I received a warm welcome from the secretary of their university women's federation.

Luxembourg is a beautiful and impressive city whose core is built on high land half surrounded by deep gorge-like valleys, the rocky sides of which are honey-combed with defensive chambers, tunnels, and galleries. Many of its ancient walls and towers are preserved, high new bridges cross the gorges, old ramparts on the western approaches to the city are now parks. To north and east are high hills thickly wooded or cleared for agriculture, and the deep valleys up which conqueror after conqueror has come in the course of centuries. The sufferings of these brave independent people through two German invasions in thirty years were beyond anything I had realized. Of a population of 300,000, one in ten was sent to Germany during the recent occupation, and one in ten of these never returned.

The president of the Luxembourg F.U.W., a high school teacher, was sent to teach in a German city which was under frequent allied bombardment, replacing a German teacher who came to her class room. Many nights spent in a cold dank cellar have left her with a chronic rheumatic condition; but in spite of everything, she has recently carried through a piece of scholarly research on linguistic peculiarities and variations throughout the Grand Duchy that has won for her the honour of the 1949 award of the Luxembourg Institute of Arts and Science.

The next ten days were spent in southern Holland where our Canadian I.S.S. was running its second international seminar in Europe. This year the site chosen in collaboration with the Dutch I.S.S. was Castle Bouvigne, Breda in Brabant. Once more I found myself living and talking with students of some fifteen nationalities and trying to think over with them the significance of science throughout the course of history and the social implications of science in the world today. Too high a tribute cannot be

paid to the professors from Toronto and Queen's in particular, who carried the load of instruction throughout the entire five weeks of the seminar. Forty-five Canadian students have returned to their various universities from Atlantic to Pacific with the wider knowledge and vision which the seminar and all its accompanying experiences have given them. The influence of such students, each on his own campus, is all the more important now that the maturer veteran students are passing out of the undergraduate picture. These I.S.S. seminars are wholly constructive and merit continued and increased support.

The annual Council meeting of the I.F.U.W. took me to Denmark at the end of July. There representatives of twenty-two of our thirty-four member nations gathered for a week of meetings and two days of great hospitality from our Danish members. They took us to Kronborg and Fredericksborg, both royal castles now national museums. We went by bus to the site, recently excavated by archaeologists, of a Viking encampment, and back by the cathedral town Roskilde where, in this 13th century brick edifice, ten Danish kings are buried.

The next week was without obligations of any kind, and my niece Elizabeth Douglas (Arts '47) proposed that we go down into Germany taking only a raincoat and a small knapsack each. Thus unencumbered we went to Hamburg. The vast desolation around the harbour area and the eastern part of the city is still a grim spectacle, but much of the rubble has been removed from the heart of the city and the university section, though the dust and grit that swirl everywhere on a windy day are still bewildering and depressing.

Food seems much more abundant and the ration more generous than in Great Britain, but the average German worker cannot afford to buy his full ration, nor to take a meal frequently in even an unpretentious restaurant. For example he would pay 1.80 Deutsch mark for a lunch consisting of a slice of good dark bread, buttered, with a generous piece of ham or cheese on it, a fragment of lettuce and small sector of tomato and a glass of beer. This in dollar equiva-

lent was about 55 cents. A man earning 30 DM a week on which to keep his family could not afford it. Many people in the cities looked shabby, dispirited, and sullen. One sensed a latent hostility which sometimes gave place to straight forward friendliness as one tried to talk with them and understand their situation.

The heart of Kiel is still a depressing desolation, and very little of beautiful Lubeck has yet been rebuilt. The overpopulation problem is a grim one. Thousands of the refugees from the Russian Zone of Germany and from the provinces incorporated into Poland are filling every room that the local authorities can commandeer. Many I.R.O. camps have become available as the D.P.'s have been placed in other countries. These camps are now filling or are filled with homeless Germans. We talked with several and the oft-repeated phrase "alles verloren" rang in our ears. Their dread of Russia, their sense of martyrdom, their tendency to blame others are sad to see. When a retired school teacher of high standing in the community said desparately and reproachfully, "They have thrown us to the jaws of Russia" and one realized that the reference was to Britain and the U.S.A., one was at a loss to find common ground for discussion of Germany's problems.

Not soon shall I forget a visit to a large D.P. camp in the heart of Hamburg where two groups numbering many hundreds are residing. One group are brave courageous men with dependents whom they will not leave alone in Germany or men with a physical infirmity which rendered them ineligible under the various immigration schemes; the other group are men whose spirit and self-reliance are so weakened by the experiences of the last few years that they want to remain under I.R.O. protection, even in Germany. This latter is a very tragic group and I.R.O. officials realize that they must be pushed into accepting some responsibility for themselves.

That evening in Hamburg we joined a large crowd at an open air political meeting of the "Schwartz, weis, rot" extreme right party. Opposed to partition of Germany, opposed to "asiatic

tyranny" and to socialism, they campaigned with martial band music to a rather heavy, undemonstrative and unresponsive crowd. A socialism, which also opposes the partition of their country, appears to meet with majority approval but any government in Germany today seems likely to encounter much critical half-trust, if not distrust.

The German countryside with its many undamaged little towns and hamlets near Lubeck is full of beauty, and life there is much more normal and friendly. I think of Mölln with its half-timbered houses of five centuries ago, its legends and tombstone of Til Eulenspiegel (d. 1350), its busy market square, the miles of well kept forests on the hills adjacent, the old woman picking mushrooms by a forest path like a character straight out of a Grimm fairy tale, the immediate natural friendliness of a family in a small hamlet who cooked up eggs and cocoa to give us lunch and drew a pencilled sketch map of the footpath through the forest by two deep set lakes and out to the Mölln highway. The whole impression is of a different country and a different age from Hamburg and Kiel today.

We returned into friendly, forward-looking Denmark with mixed feelings, regret at leaving a lovely countryside and some people whom we liked, relief at escaping from the cities, the debris, the sight of so many crippled and maimed men (you see more of such in two days in Hamburg than in a month in London), the ill-concealed hostility, and with a sense of bewilderment in the face of so many and so great problems of human suffering and of a national psychology which avoids saying, We brought this on ourselves, but rather asserts resentfully, How are the mighty fallen.

A few days later I was again 12,000 feet above the North Atlantic. This time Iceland was enveloped in 2 a.m. darkness, but early sunrise came over an ocean dotted with icebergs and shone on the red rocks and ice slopes of the southernmost tip of Greenland. From the previous midnight August 19, to the following midnight August 20, two T.C.A. planes transported me from Great

Britain to Vancouver, B.C., in the longest "day" I have yet experienced, a day of thirty-two hours duration.

There followed a week of meetings and great hospitality on the Pacific coast where the Canadian Federation of university women was holding its triennial conference. Then into the air again, and eastward over mountains in the sunset, and prairies and lakes and forests under the bright arc and illusive draperies of the aurora. And so on September 2, 1949, I returned to Kingston and the shadow of Grant Hall tower.

Atomic Energy Machine Developed Under Dr. Zinn

IN WHAT has been described as the most significant peacetime step in atomic energy, the design for a machine intended to "breed" the essential materials for creating that force has now been 90 per cent completed at Argonne Laboratory in Chicago, Illinois, under Dr. Walter H. Zinn, Arts '27. Preliminary construction work already has begun.

If it works in its vital test some eighteen months hence, as its creators are convinced it will do, the engine will vastly increase potential production of atomic energy, for industrial uses as well as for weapons like the bomb.

Dr. Zinn obtained his B.A. and M.A. degrees at Queen's and his Ph.D at Columbia. He taught for several years at Columbia and the College of the City of New York. From 1939 to 1941 he was engaged in the problem of nuclear fission at Columbia. He went to Chicago early in 1942, and was actively in charge of the construction of the first successful atomic pile. On July 1, 1946, Dr. Zinn was appointed director of the Argonne Laboratory. He is a professor of physics at the University of Chicago.

University Purchases Paintings

TWENTY-SIX reproductions of famous European paintings were recently purchased by the University through the George Richardson bequest. Painters represented range from Breughel, Bosch, and Rembrandt to contemporary artists such as Picasso and Dufy.

NEW EXTENSION TO GORDON HALL OFFICIALLY OPENED BY HON. LESLIE M. FROST, PREMIER OF ONTARIO

THE extension to Gordon Hall, which will house the chemistry and chemical engineering laboratories, was officially opened by Hon. Leslie M. Frost, premier of Ontario, on November 24.

In a brief ceremony in the main lecture room, Premier Frost paid tribute to Queen's as a university which is national in aims and objects; to the Kingston district, which he called "part of the cradle of Ontario"; to Dr. Wallace as principal of Queen's and president of the Research Council of Ontario; the late Dr. E. L. Bruce, Dr. W. E. McNeill, vice-principal emeritus; Dr. J. A. McRae; and to his brother, Dr. G. B. Frost, who, with Dr. C. A. Plewes, planned the new wing.

Referring to the great increase in industry in Ontario in the past ten years, the Premier said he was glad to declare the new wing open, knowing that it would be used for great things in this country. The \$250,000 granted to Queen's by the Ontario government for the new wing had been well spent, said Premier Frost.

The Premier was introduced by Principal Wallace, who reviewed briefly the

reasons why the new building had been needed. The Chemistry Department had been the "bottleneck" in the University during the war and early post-war years, he pointed out. There was also the advantage of having the Chemistry and Chemical Engineering Departments under the one roof. The project was made possible by grants from the Ontario government, the federal Department of Veterans' Affairs, and Canadian Industries Limited. He expressed his thanks also to Dr. Frost and Dr. Plewes, to Mr. T. A. McGinnis, chairman of the University's building committee, to Drever and Smith, the architects, and M. Sullivan and Sons, the contractors.

Mr. McGinnis accepted the building on behalf of the Board of Trustees, taking the place of J. M. Farrell, vice-chairman, who was unable to be present.

A brief history of the Department of Chemistry was given by Dr. McRae who joined the department in 1912, the year after the original building was opened. He declared the Department to be "on the threshold of greater things" because of the added accommodation.

AT THE OPENING OF THE NEW CHEMICAL LABORATORIES

Left to right: Dr. G. B. Frost, Hon. George Doucett, Minister of Highways, Mr. T. A. McGinnis, Premier Frost, Vice-Principal Mackintosh, Principal Wallace.

Dr. Plewes, new chairman of the industrial wastes committee of the Research Council of Ontario, stated the objectives of his Department. Chemical engineering research had changed a great deal in the past ten years, he said, and Queens could now follow the new trends.

After the ceremony the visitors were conducted on a tour of the new wing by senior students.

Among those present were Miss Wilhelmina Gordon, associate professor of English, and her brother, Rev. Dr. A. M. Gordon. Gordon Hall was named for their father, the late Principal D. M. Gordon.

STAFF MEMBERS AID ENDOWMENT FUND

MEMBERS of the staff have always played a prominent part in any campaign for funds put on by Queen's. Ever since the days of Principal William Snodgrass and Prof. J. H. MacKerras, the faculty has rallied to the aid of the University in the search for additional endowment.

In the present campaign, more staff members than ever before are taking an active part. Principal Wallace has been indefatigable, travelling to all parts of Canada and the United States, speaking on behalf of the endowment drive and doing some of the actual canvassing. Other members of the administrative staff have also made valuable contributions.

During October and November, members of the teaching staff and others have been drafted for service. The following have visited communities ranging from the Maritimes to Manitoba: R. L. Jeffrey, St. John, New Brunswick; H. P. Gundy, Windsor; Norman Miller, St. Thomas and Simcoe; H. W. Harkness, Renfrew and Smiths Falls; F. A. Knox, Niagara Falls; H. S. Pollock, Walkerton and Owen Sound; S. N. Graham, Kirkland Lake; R. L. Dorrance, Stratford and Goderich; A. S. West, Winnipeg; H. W. Curran, Sherbrooke; J. A. Corry, Kitchener, Galt and Guelph; H. L. Tracy, Port Hope, Cobourg, Colborne, Peterborough, Lindsay; A. L. Clarke, North Bay, Sudbury, and Sault Ste. Marie.

The services of these men were used to supplement the efforts of the local endowment committees. All reported an excellent reception, and Director of Endowment M. C. Tillotson is delighted with the results obtained.

STUDENTS' UNION FACILITIES IN STEADY DEMAND

SOME idea of the extent to which the Students' Memorial Union is used over and above the routine service to students may be gathered from the fact that during the month of October, 3941 additional servings of food were recorded. Sixteen banquets accounted for 2633; the Theological Alumni Conference had eight meals for a total of 320; two groups of high school students, 153; the Governor General's opening luncheon, 235; Governor General's tea, 600.

Over Reunion weekend, alumni representing thirty classes used the facilities of the building. One hundred and sixteen meetings were held in the two student committee rooms. The bedrooms were occupied for a total of forty-four nights.

The new Faculty Club, in the north wing of the Union, has also been a popular gathering place. During October 818 luncheons were served there, as well as nine dinner parties, and eight teas.

Memorial to F/L J. L. MacLeod Dedicated in Morgan Chapel

A MEMORIAL to Flight Lieutenant John Leslie MacLeod, D.F.C., Com. '40, in the form of two falls for the pulpit and lectern of Morgan Memorial Chapel were dedicated in a brief service in the Chapel on November 26. The service was conducted by Principal Kent and Wing Commander R. M. Frayne, principal Protestant chaplain for the R.C.A.F., and Rev. A. M. Laverty, University chaplain, took part.

Flight Lieutenant MacLeod was reported missing on a photographic mission in British Columbia on October 18, 1947. A member of the R.C.A.F. during World War II he was awarded the Distinguished Flying Cross.

CHEMISTRY AT QUEEN'S

By Dr. W. E. McNeill, Vice-Principal Emeritus

SCIENCE, at first under the name of Natural Philosophy, was taught at Queen's from its opening in 1842. The first Professor was James Williamson, a graduate of Edinburgh. Chemistry was not included till 1854, when the founding of a Faculty of Medicine made it necessary. It began as a lecture subject on "The non-metallic elements and their compounds."

In 1858 Dr. George Lawson, a very distinguished scientist of Edinburgh, was made Professor of Chemistry and Natural History. His salary was \$1700 while other full-time professors got only \$1500. He energetically earned the difference. At the end of the first session he had a medallist in Chemistry. No student at Queen's had ever before been given a medal. Moreover, this medal was of "aluminum", a newly-developed rare and precious metal costing \$17 an ounce.

In the next session, 1859-1860, in the "New Hall" put up mainly for medicine, today called the Old Medical, Chemistry became the most ambitious subject in the University. Dr. Lawson's syllabus in four finely-printed pages used more space than all the other subjects in Arts, Theology, and Medicine together. It sounds very modern: "The class for Practical Chemistry will be conducted in the Laboratory under the personal superintendence of the Professor. . . All necessary apparatus, materials for examination, and re-agents are supplied free of expense. The student performs every experiment. . . Each pupil receives his instruction independently, and not as a member of a class". There was Agricultural Chemistry and Medical Chemistry, and for those who wanted them, such vocational subjects as Brewing, Distillation, and Tanning.

Chemistry has been well served at Queen's. In its main line of development, its heads have been Williamson (1842), Lawson (1858), Bell (1863), Dupuis (1868), W. L. Goodwin (1883), Neish (1919), and McRae (1941). Today, besides its head, it has two other full professors—Frost (Physical) and Munro (Colloid), two associate professors—

Dorrance (Analytical) and Smith (Physical), and Assistant Professor Moir (Organic). Fellows, demonstrators, assistants and curators bring the staff to a total of 34.

Two divisions have grown into independent departments.

Biochemistry began humbly with only laboratory recognition, but in 1914 A. P. Lothrop was appointed with the title of Assistant Professor of Biological Chemistry. He was succeeded by J. F. Logan in 1925, and in 1937, when the Craine Building was ready, Biochemistry moved into it as a completely independent subject with Associate Professor Logan and R. G. Sinclair as full professor and department head.

Chemical engineering is the other division to become independent. It made its start with Lawson in 1859; it was fostered by Dupuis and W. L. Goodwin; it grew in importance as the School of Mining, founded in 1893, added other engineering courses. In 1900 John Waddell was appointed to Industrial Chemistry; in 1908 L. F. Goodwin was made Assistant Professor of Chemistry in charge of Chemical Engineering; in 1925 he was made its head as a separate department. For a year after his death in 1944, George A. Revelle was acting head. In 1945 A. C. Plewes left industry to head the department. He has with him Assistant Professor Marshall.

Chemistry serves Arts, Applied Science, and Medicine; Commerce, Nursing, Physical and Health Education. It has the largest teaching group in the University. Its budget for salaries and supplies calls for \$86,000 a year.

For the first twelve years Queen's lived in rented properties. Then in 1853 it bought Summerhill, now the Principal's house. For five years all teaching was done there—Arts, Theology, and Medicine. There in 1854 Chemistry began in narrow space. There Dr. Lawson went in 1858. But better days were at hand. Next year, the "New Hall", now Old Medical, the first building Queen's erected, was ready. It was mainly for

Medicine, but it admitted Chemistry, gave it laboratories, and kept it till 1891.

Then Chemistry moved to Carruthers Hall, which had been built for its expanding needs and for some minor uses. For the first time it had almost a whole building to itself and was fairly comfortable there for the next twenty years. By that time Fleming Hall, which contained Mechanical, Electrical, and Civil Engineering, was overcrowded. It was decided to move Civil to Carruthers and to build a new and better home exclusively for Chemistry.

So Gordon Hall came into being. Forty years ago it was planned with space to spare. But in time it became too small for the increasing numbers and activities. As a temporary remedy, Chemical Engineering was squeezed into Ontario Hall. It is now happily back to share with Chemistry the fine accommodation of the new Gordon Hall laboratories.

The Craine Building, which houses Biochemistry, was made possible in 1937 by a gift of \$400,000 from the late Dr. Agnes Craine, a graduate of Queen's in Medicine. Of this amount, \$125,000 was used for the building and the rest for endowment.

The corner stone of Gordon Hall has this inscription:

The corner stone of this building, erected with money granted by the

Province of Ontario, was laid by Sir James Whitney, Prime Minister, 27 April, A.D. 1910.

Sir James named the building in honour of Principal Gordon. It was officially opened November 11, 1911; the New Laboratories, November 24, 1949.

Gordon Hall in a time of low prices was built for \$120,000, which was provided by the Province of Ontario in six annual instalments. It has since been expensively changed. The attic was finished. The whole building was fire-proofed and improved in 1934 as part of the Unemployment Relief Plan, when the University paid for material and the City of Kingston and the Province of Ontario divided the labour costs. Its present value as estimated for insurance purposes is \$300,000 with a further \$100,000 for contents.

The new Laboratories had to be built in a time of high prices. The total cost, basement to roof, is about \$381,000. Of this the Dominion Department of Veterans Affairs paid \$24,482, the cost of temporary adaptations to the basement for the teaching of ex-service students. Canadian Industries Limited besides other generous aids to the University gave \$35,000 to the Chemistry building fund. The Province of Ontario in 1947 made construction possible by a capital grant of \$250,000, which before it was used, earned \$6,304 in interest. Thus approximately \$100,000 must yet be found.

QUEEN'S ENDOWMENT FUND — PROGRESS REPORT

January 1—November 30, 1949

Objective	Objectives	
\$175,000 per annum	\$1,000,000 for buildings	
	\$2,000,000 for Endowment	
	Other Individuals	
	and	
	Organizations	Total
Pledged \$349,965.90	\$ 1,120,671.62	\$ 1,470,637.52
Paid 144,724.75	822,286.77	967,011.52
Balance payable \$205,241.15	\$293,384.85	\$503,626.00

HAROLD V. KINSEY, Sc. '36 DEVELOPS NEW ALLOY

DEVELOPED by Harold V. Kinsey, Sc. '36, and his staff at the Bureau of Mines laboratories in Ottawa, a new super-alloy has been patented for use in jet engines. The alloy is the result of five years' research and is named in honour of Mr. Kinsey.

Kinsalloy possesses the high quality and strength demanded for application in jet engines and because it contains a minimum of elements that might, at some future time, become strategic, its industrial value is greatly enhanced. Additionally, it is 10 per cent lighter than other alloys of its type, no small consideration in construction of rapidly moving parts of an aircraft engine.

According to *Domar*, house organ of the Bureau of Mines, "With the chronic dissatisfaction of scientists, the same team is now engaged on an intensive study of this new family of alloys to discover how they can be still further improved. If Canadian built jet engines don't rank second to none it will not be the fault of Bureau engineers."

KEEN INTEREST SHOWN IN CONVERSATIONAL FRENCH

AN amazing response to evening classes at Queen's in Conversational French is reported by Harry Hutton, Director of Extension. It had been hoped that there would be enough registrations to organize one group. There are now three, one of them composed entirely of employees of the Aluminum Company. Size of a class has to be limited and the desirable number is not more than a dozen. To accommodate as many people as possible the Queen's classes run at from fifteen to twenty students. The instructors, Madam Jeanne McConnell and M. Jean Ogier, both of the Department of French, felt that no one who applied by the date of the first class on October 20 should be turned away.

Only one registration was made by a regular student. The other members of the classes are for the most part business people, civil servants, and housewives. The demand is obviously great and the

Department of Extension wonders what would have happened if Conversational French had been widely advertised.

SCIENCE '49 PRESENTS CHEQUE TO STUDENTS' UNION

SO successful was the reunion of the Class of Science '49, held on the week-end of the Queen's-Varsity game on November 12, that it was decided to plan for a similar gathering next fall.

Highlights of the week-end programme included the Science Formal, the highly satisfactory win over Varsity, dinner in the Students' Union, and the football dances in Grant Hall and the Gymnasium.

President Eric Jorgensen was chairman at the dinner. Guests included Principal Wallace, Dean Ellis, Dr. J. V. Hughes, Prof. R. L. Dorrance, and J. E. Wright. The toast to Queen's was proposed by Dick Steenberg and response was made by Professor Dorrance. A cheque for \$750 to purchase a piano for the Union was accepted by Dean Ellis, on behalf of the Union Council.

Among those present were Mr. and Mrs. E. C. Jorgensen, D. H. Cliff, Mr. and Mrs. C. F. Smith, E. J. Brooker, R. A. Campbell, Mr. and Mrs. R. Higgs, V. A. McCullough, D. Brown, L. D. Rooney, R. J. Kjarsgaard, F. J. Johnston, W. A. Trotter, Mr. and Mrs. C. Crawford, D. Briden, J. MacDougall, Mr. and Mrs. J. Hewson, Mr. and Mrs. R. Gourlay, R. Palmer, D. J. Barlow, Mr. and Mrs. R. Davis, R. G. Dickin, Mr. and Mrs. G. Barry, W. W. Hewitson, L. S. Murray, J. E. Cullen, R. W. Spence, Mr. and Mrs. G. E. Woodside, R. B. Walker, E. D. Hayes, Morris S. McEwen, H. C. Armstrong, C. J. Hamilton, B. C. Stinson, E. L. Duret, J. Hooper, J. Peckett, E. A. Wells, G. N. Hutchinson, Mr. and Mrs. C. W. Hopkins, Mr. and Mrs. R. Steenberg, T. Podolsky, K. M. Carey, R. K. Lalor, R. Dyble, M. S. Campbell, D. M. Whitton, F. W. New, L. McWhinnie, A. E. Argue, C. J. Brodeur, C. W. Smith, J. N. Robbins, Mr. and Mrs. B. Davidson, Mr. and Mrs. C. L. Lewis, Mr. and Mrs. J. F. Farrell, P. N. Bird, A. M. Goodwin, N. J. Moffat, E. R. Davis, A. J. Graham, Mr. and Mrs. J. Bates, F. I. Morrissey, W. Jamieson, G. Mercier, W. J. Lossee, H. D. Carlson.

Athletics

WESTERN regained possession of the Yates Trophy, emblematic of the Intercollegiate football championship, by defeating McGill 12-9 in the play-off at Varsity Stadium on November 19. McGill had completed the schedule in first place, defeating Western the week previously.

By the narrowest of margins Queen's failed to make the play-off. Many observers were of the opinion that the Tricolour were the best in the league at the close of the season. For that matter, the other supporters might be excused for adopting the same attitude, so evenly matched were the teams.

Western, the new champions, lost to McGill and Varsity and were tied by Queen's. McGill lost to Western and Queen's but defeated Varsity twice. Queen's had victories over Varsity and McGill plus the aforementioned tie. Varsity, last year's champions and with a stronger team this fall, had wins over Western and Queen's and finished in the cellar. Such goings-on provided the fans with the most exciting season in years and all games attracted record crowds.

Queen's finished the season strongly,

DICK HARRISON
Voted Most Valuable Player

after a disappointing start, by registering two wins and a tie in their last three appearances. The Tricolour had lost 22-21 to Varsity, 16-11 to Western, and 17-1 to McGill before they hit their winning ways. The week following the loss to McGill, Queen's turned the tables on the Redmen by shutting them out 15-0 at the Richardson Stadium.

That one victory was all that was needed to revive the hopes of the Tricolour fans. At that stage of the campaign it appeared as if all teams might end in a deadlock for first place. These calculations were upset the next week when Queen's could do no better than an 18-18 tie with Western.

What made this outcome all the harder to bear was the fact that Queen's appeared to be a beaten team three minutes before the end, Western having the ball in scoring position on the Tricolour's 28-yard line. But Western elected to try a forward and lost possession. The Tricolour then rolled up the field and with less than a minute to go were fourteen yards from the Western goal line. All they had to do was kick to the deadline for a single, but before they could do this they lost the ball on a fumble and with it went their title aspirations.

In this game Queen's took a two-point lead in the first quarter on a safety touch but Western retaliated with a converted touchdown. The Tricolour again went ahead when Logan recovered a blocked kick and fell on it for a major score. A bad snap resulted in a loose ball a few plays later and Penner picked it up and scampered for another touchdown which Lenard converted to make it 14-6 for Queen's. A rouge added to the Tricolour margin, but a fumble in the dying moments of the half put the Mustangs on the Queen's 10 and on the last play Western went over for a touch which was converted to make the score 15-12.

There was no scoring in the third quarter although Queen's once had the ball within five yards of the Western goal line and were in scoring position on several other occasions. In the final quar-

ter Lenard kicked a field goal from 38 yards out, but Western tied it all up shortly afterwards on a converted touch-down. Although both teams had opportunities to break the deadlock the game ended in a tie.

In the final game of the regular schedule, Varsity visited the Richardson Stadium. Queen's were now out of the running but the Blue and White had a chance to qualify for the play-offs. The Tricolour, however, won this one 9-0 and such was their superiority that the score might have been three times as decisive.

The Gaels struck early in the game when Tip Logan grabbed a long sleeper pass from Al Lenard and ran half the length of the field for a touchdown which was converted. That was all that was needed, it developed, for Varsity was out-classed for most of the remainder of the game. Queen's made a single and a safety touch to account for the rest of their score and registered another touchdown which was called back. Several times they worked the ball down to within 15 yards of the Blues' goal line but failed to capitalize.

Queen's placed two men on the all-star team picked by the Canadian Press: "Tip" Logan received all but one vote for an outside wing position, to be the nearest to an unanimous selection, while Pete Salari was chosen for one of the inside wing posts. On the Canadian University Press selections, former Captain Al Lenard was chosen along with Logan and Salari for the first team, while Dick Harrison, Hal McCarney, Hank Simola, Jim Charters, and Jack Sisson were named to the second team. Dick Harrison was chosen as the most valuable player on the Tricolour on the vote of the team members. He succeeds Pete Salari who won the honour in 1948.

To Head Coach Frank Tindall and Assistant Andy Mullan must go a great deal of credit for the fine showing of the Queen's team. They developed a strong and versatile contender that played pleasing and spectacular football all fall. At the start of the season the Queen's line appeared to be weak but by mid-season it was able to hold its own and more with the strongest. Team spirit was high and

with only four members scheduled to graduate there would appear to be good grounds for optimism for next year's chances despite the fact that McGill and Western are expected to be greatly strengthened. For Queen's those who have played their last game are Al Lenard, Dave Bryane, John Faulkner, and Doug Woolley, although there is a possibility that the latter may return for an additional degree.

The final football standings exclusive of the play-off, were as follows:

	W	L	T	F	A	P
McGill	4	2	0	81	61	8
Western	3	2	1	69	74	7
Queen's	2	3	1	75	73	5
Varsity	2	4	0	58	75	4

University Property Valued At More than \$10,000,000

A RECENT appraisal for insurance purposes has established the value of University property within Kingston at more than \$10,000,000.

All buildings are insured at replacement cost. That is to say, if a fire should destroy any one of the buildings, settlement would be based on the cost of repairing, replacing, or rebuilding with material of like kind and quality without deduction for depreciation.

At present University property is insured for more than \$9,000,000.

"Wallace of Queen's" Meets Enthusiastic Reception

DR. W. E. McNEILL'S excellent article on Principal Wallace, entitled "Wallace of Queen's", which appeared in the *August Review* and which has since been published as a brochure, has met with an enthusiastic reception. A typical comment is the following excerpt from an editorial in the *Oshawa Times-Gazette*: "It is a tribute well deserved, although the nature of its subject is such that he will probably disclaim many of the fine things said of him by his biographer and friend."

Student Activities

Student Health Referendum Postponed

THE vote on the proposed new health plans for students has been postponed until next term in order that expert actuarial advice regarding the student-operated system may be obtained. Dr. L. W. Brockington, Rector, and Dr. Wallace Troup, a member of the Board of Trustees, have arranged for one of the most outstanding actuaries on the North American continent to make a report on the plan which the students propose to administrate themselves. Also up for consideration are plans submitted by an insurance company and by a medical health service.

Seek Drum Majorette

Popular Marge MacGregor of Pembroke, who in two years as drum majorette of the brass band has become an institution at Queen's, will graduate next spring, and a campus-wide search has been instituted to find a suitable successor. Among the qualifications sought are pulchritude, personality, and poise. From a field of ten prospects have emerged four promising candidates and it is expected that a selection will be made in the near future.

Science Formal Held

For the second year in a row, the Science Formal was advanced to the first term and proved to be as popular as ever. More than 500 couples were present on November 11, and many others who sought tickets had to be disappointed. The Gymnasium was transformed into Valhalla and featured a magnificent fountain and other displays. The souvenirs were pictures of each couple taken by professional photographers. Music was provided by Boyd Valleau and his orchestra, of Toronto.

Present "Glass Menagerie"

The main fall presentation of the Drama Guild was Tennessee Williams' "The Glass Menagerie" which was put on in Convocation Hall November 17, 18 and 19, before large audiences. The principals were Art Todd, Arts '50, Kingston; Joan Walker, Arts '53, Kingston; Florence Fraser, Arts '50, Milhaven, and Murray MacKay, Quebec City.

Here and There

Dr. A. S. McCormick, honorary president of the Queen's alumni at Akron, Ohio, has written a march for the brass band called "The Queen's Kilties". . . . The annual convention of the Canadian Federation of Newman Clubs was held at Queen's on November 3, 4 and 5. . . . One hundred and seventy-nine freshettes pledged loyalty to Levana at the annual candlelighting ceremony on November 3. . . . The next session of the Queen's Student Congress is scheduled for January 17. . . . The Alma Mater Society executive has formed a committee to explore the need for a full-time administrative officer for the A.M.S. . . . Pete Braden, Arts '53, Hamilton, has been appointed convener for the showing of films lent to the student body by the Rector. . . . During the week of November 14-19 the co-eds paid the expenses of their dates. Highlights included the band benefit dance, the "Susie Q" in Grant Hall, and a dance in Ban Righ. . . . C. E. Alkerton Sc. '50, Prescott, has been awarded the R.C.E. Memorial Scholarship given annually to a Science member of the C.O.T.C. who has completed his third year. . . . Dr. Jessie McPherson, Dean of Women at Victoria College, spoke at the meeting of the Levana Society on November 24 on "Emotional Adjustment to University Life".

At the Branches

Central New York

UNDER the leadership of Dr. J. E. McAskill, Med. '14, Watertown, New York, president of the General Alumni Association, a reorganization meeting was held at the Hotel Utica, Utica, on November 19. Despite stormy weather, twenty graduates were present and plans were made for future meetings.

Dr. A. J. Flood, Med. '12, Watertown, was elected president and Dr. S. W. McIlmoyl, Arts '26, Med. '28, Troy, was appointed secretary. Dr. T. J. Goodfellow, Med. '09, Saratoga Springs, was named as chairman of the endowment committee. During the evening the alumni canvass was given a start with a telephoned pledge for \$500 from one of the graduates in the area.

Guest speaker was Rev. A. M. Laverty, University chaplain, who spoke on recent developments at the University. He described interesting incidents arising out of his daily contacts with the student body, with particular emphasis on the loyalty that Queen's inspires. He was thanked on behalf of the meeting by Dr. Goodfellow.

Dr. A. J. Flood proposed the toast to the University. H. J. Hamilton, secretary-treasurer of the General Alumni Association, spoke briefly in reply.

Dr. McAskill read a letter from Principal Wallace in which best wishes were expressed for the future of the Central New York Branch. The chairman called on those present for personal reminiscences of their experiences as a student and a graduate and this part of the programme proved to be highly popular. Particularly well received was the oldest member present, Dr. H. M. Buchanan, Med. '89.

Quebec City

AT the annual meeting held at the Victoria Curling Club on October 26, J. Grant Macdonald, Arts '25, was elected president for the ensuing year. Other officers appointed were as follows. vice-president, C. G. O'Neill, Com. '33; secretary, J. M. A. Bleau, Sc. '32; treasurer,

C. B. Bate, Sc. '15; committee—M. R. C. Amaron, Arts '40, G. E. Shipman, Sc. '24.

The programme included a buffet dinner, short speeches, dancing and sing-song.

Saguenay

APPROXIMATELY fifty graduates and friends attended the annual dinner meeting of the Saguenay branch on October 14. The guest speaker was Dr. G. B. Frost of the Chemistry Department at Queen's.

Taking as his subject, "Gardens Around Palaces", Dr. Frost pointed out the necessity for understanding and friendship between neighbours as a basis for a national and international development of understanding and good will among people of widely varied circumstances and interests. He said that such a policy was a possible solution to much of the unrest in the world today.

Dr. Frost was introduced by Dr. W. K. Gummer, Arts '37, and he was thanked for his excellent address by A. C. Turney, Sc. '39. During his two-day visit to Arvida, Dr. Frost was taken by several graduates on a tour of the district, including the Arvida Works of the Aluminum Company, Shipshaw, Port Alfred, and Lake St. John.

Branch Officers, 1949 - 50

A. S. E. DUNCAN
President, Montreal

W. H. DIXON
Secretary, Niagara Falls

Northwestern Quebec

AFTER the annual dinner meeting held at the Noranda Hotel on November 19, the branch directors chose the following officers for the ensuing year: president, D. M. MacLean, Sc. '32; vice-president, J. C. Houston, Sc. '30; secretary, Mrs. W. R. Sutton (Marion Curtis), Arts '32; treasurer, R. R. Turner, Sc. '41.

Sixty members and their wives were present for the meeting. Retiring president K. D. Thomson, Sc. '42, presided and extended a welcome to all.

A toast to the University was proposed by Arnold Sobering, Sc. '43, and E. J. Miron, Sc. '42, led the Queen's vells. The minutes of the previous meeting were read and adopted on motion of W. W. Beaton, Sc. '25, and Llewelyn Chamberlin, Sc. '23. The report of the treasurer, W. A. Hoffman, Sc. '34, showed a balance of approximately \$50.

Mr. Thomas gave a resume of the year's activities which included the inaugural meeting, the Malartic dinner dance, and the endowment campaign. As spokesman for the nominating committee, Mr. Thomson then presented the names of twelve alumni as directors: Fernando De Luca, Sc. '44, W. A. Huba-check, Sc. '45, J. G. Berry, Sc. '43, W. J. Marshall, Sc. '37, R. R. Turner, Sc. '41, Mrs. W. R. Sutton (Marion Curtis), Arts '32, R. L. Coleman, Sc. '42, D. M. MacLean, Sc. '32, J. B. Anderson, Sc. '36, R. G. McKelvey, Sc. '34, R. G. Hoiles, Arts '40, and J. C. Houston, Sc. '30. Nominations were closed on motion of W. W. Beaton, Sc. '26, and W. A. Hoffman, Sc. '34.

W. R. Sutton moved a vote of thanks to the outgoing executive and this was seconded by A. D. Carmichael, Sc. '39.

After the business session, the remainder of the evening was spent in dancing.

Kingston Alumnae

AN interesting talk on "Public Speaking" was given by Prof. Arnold Edinborough of the English Department at the meeting held in Ban Righ Hall on November 1. Professor Edinborough outlined effective methods for making speeches. He was thanked for his ex-

cellent address by Miss May Chown, Arts '11.

Mrs. R. O. Earl presented a report on the Convocation Tea held after Spring Convocation. Mrs. Earl and the members of her committee were heartily thanked for their efforts in making the tea a success.

At the close of the meeting, refreshments were served by the social convener, Miss Dorothy Taylor, Arts '41, and her assistants.

Toronto Alumnae

A HIGHLY successful supper meeting was held on October 28 with fifty-eight in attendance. The guests were arranged in groups according to their graduation year, and were seated at tables decorated with the University colours.

At the head table, centred with a huge tricoloured **Q** donated by a member, were the president, Miss Martha Murphy, Arts '24, the past president, Mrs. Norman McLeod (Mary Johnston), Arts '26, the guest speaker and senior members of the branch, including Mrs. G. S. Young (Eva Greenhill), Arts '99, Mrs. Frank Yeigh (Anne Laird), Arts '01, Miss Dorothy Wilson, Arts '13, Mrs. W. A. McIlroy (Thora Tracy), Arts '01, Mrs. J. F. Macdonald, and Mrs. D. M. Solandt (Edith Young), Arts '05. During the dinner, college songs were sung, led by Mrs. M. A. Gill (Grace Miller), Arts '47, accompanied at the piano by Miss Kay Elliott, Arts '26.

Mrs. G. S. Young told of her visit to Kingston over the Reunion weekend. Miss Dora Stock, Arts '14, another Reunion visitor, described the new Baker Residence, with particular reference to its bright and cheerful aspect.

Mrs. Marsh Jeanneret (Bea Mellan), Arts '37, introduced the guest speaker, Mrs. Lewis, who was the Canadian representative at the Y.W.C.A. executive meeting in Switzerland in 1948. Mrs. Lewis described in a clear and forceful manner her visit to the Pestalozzi Children's Village at Trogen, Switzerland, which has been taken over by U.N.E.-S.C.O. and is really a two-fold project in the care of war orphans and in education for world citizenship. The basic

concern of the village is to mold happy and useful citizens so that on their return to their own country they may play a part in rebuilding it.

Miss Bessie Billings, Arts '26, expressed the appreciation to the speaker.

M.I.A.

Middle Atlantic

TWENTY-NINE attended the dinner meeting held November 12 at the Casa Conti restaurant in Glenside, Pennsylvania. Guest speaker was J. Alex Edmison, Arts '27, executive secretary of the John Howard Society in Toronto.

Introduced by the president, Dr. John Lansbury, Med. '26, Mr. Edmison spoke on "Crime and Criminals." He outlined the background of persons who developed into criminals and the shortcomings of the law and inadequate prison methods.

Mr. Edmison pointed out how there have been periodic investigations and voluminous reports of the conditions in prisons with recommendations for improvements and reform. Actual progress in reform, however, has been slow. In some federal institutions, particularly in England, progress has been made by keeping first offenders in separate prisons and by giving them instruction in a trade during their term of imprisonment so that upon release they may have an op-

J. A. EDMISON

portunity to earn a living by performing useful work. Records indicate that approximately 70 per cent of these released prisoners become satisfactorily rehabilitated as against minor percentages under former methods.

At the short business session which followed, Dr. G. E. Flanagan, Arts '17, Med. '23, outlined some of the plans for future development at Queen's and the need for assistance from graduates in financing present and future requirements of the University. He also told of the formation of a new organization called the Friends of Queen's, Incorporated, through which donations to the University may be made by alumni in the United States and be deductible for income tax purposes. Prof. C. W. Simmons, Sc. '20, of Lehigh University, supplemented Dr. Flanagan's remarks with comments of experiences during recent fund-raising activities at Lehigh.

Harris S. Campbell, Sc. '28, reported on the distribution of the members of the Middle Atlantic branch, 30 being in the immediate Philadelphia area, 34 in Delaware, Maryland and Washington, 11 in the area Philadelphia to Harrisburg, 7 in Virginia and 19 in Western Pennsylvania.

Dr. A. B. Dixon, Med. '39, proposed that next year the dinner be held in Baltimore in order to provide an opportunity for those members in the Baltimore-Washington area to take a more active part in the Association. This suggestion seemed to meet with general approval.

Before adjourning the meeting, Dr. Lausbury welcomed the members who were present on this occasion for the first time: Miss Muriel Schiell, Arts '48; Rev. C. A. Park, Arts '42, and Mrs. Park; Dr. R. K. Smiley, Med. '47, and Dr. L. B. Cronk, Med. '47, and Mrs. Cronk.

Toronto

BILLED as "the Greatest Queen's Night in our History," the annual Dinner and Dance held in the Royal York Hotel Ballroom lived up to advance notice. There were 225 alumni and friends at the dinner and 142 additional at the dance.

Guest speaker for the occasion was Dr. L. W. Brockington, Rector of

Queen's. It is hoped to publish his address as an article in an early issue of the *Review*.

Seated at the head table were Dr. and Mrs. J. A. Hannah, Mr. and Mrs. M. C. Tillotson, Col. and Mrs. E. A. Baker, Mr. and Mrs. C. A. Campbell, Mr. and Mrs. J. C. Macfarlane, Mr. and Mrs. J. H. Stewart, Mr. and Mrs. J. M. Macdonnell, Miss Martha Murphy, Dr. Brockington, Mr. and Mrs. A. J. Strain, Dr. W. A. Mackintosh, Mr. D. I. McLeod, Mr. and Mrs. J. A. Edmison.

The committee in charge of this highly successful affair included J. S. Dewar, Sc. '41 (chairman), Miss Martha Murphy, Arts '24, Miss Marion Ross, Arts '26, N. E. Butler, Com. '30, C. E. McRoberts, Sc. '33, A. T. Clarke, Ernest Collyer, Sc. '23, J. D. Fahey, Sc. '48, J. M. Munro, Arts '38, J. G. Smith, Sc. '44.

Ottawa

UNDER the auspices of the Ottawa branch, the Queen's Drama Guild presented Tennessee Williams' "The Glass Menagerie" before a large audience in the Glebe Collegiate Auditorium on November 26. The play was directed by Dr. William Angus, head of the University's Drama Department.

Peterborough

TWO senior graduates were named as honorary presidents of the branch for the ensuing year at the annual dinner meeting held at the Kawartha Golf and Country Club on November 17: Rev. D. L. Gordon, Arts '97, and Rev. William McDonald, Arts '98, Theol. '01.

Presented by Dr. R. A. Kelly, the nominating committee's report was approved as follows: past president, Miss Helen McGregor, Arts '30; president, Rev. Dr. D. B. Gordon, Arts '28; first vice-president, Dr. A. G. Howson, Med. '15; second vice-president, T. J. Allen, Arts '36; secretary, Miss Ethel Patterson, Arts '49; treasurer, C. M. Krug, Arts '37; executive committee—Arts—Levana, Mrs. C. Gonnert (Alda Crewson), Arts '25; Arts, F. B. Smitheram, Arts '40; Science, D. A. Lamont, Sc. '45; Medicine, Dr. T. E. Currier, Med. '40.

The dinner was attended by sixty graduates and their friends. Miss Helen

McGregor served as chairman, and introduced the guest speaker, Dr. H. L. Tracy, head of the Classics Department at Queen's.

Society's poor relations are its painters, writers, and musicians, Dr. Tracy told the gathering. Like the shabby genteel, they are an embarrassment, and society still does not know how to deal with them. Yet Dr. Tracy felt that there was a bright possibility that the commercial democracy of today could and would cope with its artists to provide them not only the means of existence but the recognition and dignity which is their due.

The thanks of the meeting were expressed to Dr. Tracy by Miss Verna Burgess, Arts '36.

The toast to Queen's was proposed by Dr. D. B. Gordon, and responded to by H. J. Hamilton, secretary-treasurer of the General Alumni Association. Greetings from the University of Toronto alumni were brought by Ross Dobbin and Miss Margaret McCullough; from McMaster University by A. J. Arnott. O. J. Frisken, Arts '27, Sc. '29, presented the financial report, which showed a small balance on hand.

Miss Jean Lancaster, Arts '34, reported on the results of the endowment campaign in the Peterborough district, where more than \$5,000 was pledged. In the City of Peterborough 58.6 per cent of the alumni have contributed.

DR. H. L. TRACY

After the dinner several films were shown, including a colour movie of the McGill-at-Queen's football game this fall.

Belleville

AN account of recent developments at Queen's was given by Vice-President W. A. Mackintosh at the first annual banquet held at the Quinte Hotel on November 4.

Replying to the toast to Queen's, proposed by A. S. Robb, Sc. '36, Dr. Mackintosh said that the University, while old in years, is not old in spirit. He described the expansion that had taken place in many departments and told of some of the plans for the future. He said that although there was no intention of limiting the registration, a small university had many advantages.

The programme included a toast to Canada, proposed by H. R. Park, Arts '36. A roll call, by years, showed that the period 1910-15 was the best represented. A register was passed for all to sign, as an attendance record.

A report on the years activities and some of the plans for the future were given by A. S. Robb, Sc. '36, president. These included the endowment campaign and the establishment of a trust fund to assist students to attend Queen's.

W. L. McDougall, Com. '28, was appointed chairman of endowment and of the trust fund committee. The report of the nominating committee was presented by R. H. Macklem, Arts '33, as follows: honorary presidents: Mrs. W. J. Doyle (Irene Aherne), Arts '14, and Dr. G. S. Cronk, Med. '15; president, A. S. Robb, Sc. '36; vice-president, H. R. Park, Arts '36; secretary-treasurer, G. D. Dies, Sc. '43; executive—W. L. McDougall, Com. '28, D. W. Bews, Sc. '14, Miss Ruth Silvester, Arts '46, Dr. A. E. Miles, Med. '42, D. G. Burr, Arts '36, J. A. Jarvis, Sc. '45, G. A. Clark, Arts '45, Picton, A. F. Brown, Arts '27, Picton, C. H. Buskard, Sc. '14, Deloro, Dr. J. K. Beach, Arts '41, Med. '44, Frankford. On motion of L. F. Reid, Arts '45, and Dr. A. C. Locke, Med. '21, the slate was approved.

In the discussion of possible activities during the winter months, H. J. Hamilton, secretary-treasurer of the General

Alumni Association, described various student undertakings which might be brought to Belleville under the auspices of the branch.

Vancouver Alumnae

ON November 26, the alumnae were entertained at the home of Mrs. Daniel Buchanan, their honorary president. At the short business meeting which preceded tea, several letters were read to the large gathering. These were mainly from European recipients of alumnae gift parcels. The branch, well pleased, voted to continue such gifts. Mrs. E. Page (Edna McCartney, Arts '19, gave a pep talk on the Queen's endowment campaign, which was well received.

Overall result: a pleasant and satisfying afternoon. —E.I.W.

Toronto Alumnae Plan Bridge and Fashion Show

QUEEN'S Alumnae Association, Toronto branch, has booked a reservation at Simpson's Arcadian Court for its annual bridge and fashion show on February 11, 1950. Contact the social convener, Mrs. Gerald Burley (Marjorie Harrison), Arts '24, RE 732*, or the programme convener, Mrs. Marsh Jeaneret (Bea Mellan), Arts '37, HU 6146, for tickets.

ATTENTION PLEASE!

The only way alumni can make certain of receiving their copy of the *Review* is to keep the Alumni Office informed of their up-to-date address.

Examine your address on the wrapper that came with this issue. If not correct in every detail, please notify the Alumni Secretary at once.

Alumni News

Births

Acton—On September 8, at the Ottawa Civic Hospital, to D. B. Acton, Com. '47, and Mrs. Acton, a son (David).

Argue—At the Ottawa Civic Hospital, on November 29, to Douglas Argue, Arts '36, and Mrs. Argue, a son.

Beveridge—At Halifax, N.S., on November 24, to A. A. Beveridge, Arts '49, and Mrs. Beveridge, a daughter (Cynthia Ann).

Benidickson—At the Winnipeg General Hospital, on October 21, to W. M. Benidickson, M.P., and Mrs. Benidickson (Agnes Richardson), Arts '41, of Kenora, Ont., a son (William James).

Breadner—At the Grace Hospital, Ottawa, on November 24, to J. A. Breadner, Sc. '41, and Mrs. Breadner, a daughter.

Brodkin—At the Royal Victoria Hospital, Montreal, on September 8, to Bernie Brod-kin, Arts '47, and Mrs. Brod-kin, a son (Gary).

Caldbick—At the Ottawa Civic Hospital, on November 16, to Wing Cmdr. G. D. Caldbick, Med. '37, and Mrs. Caldbick, a son (David Stewart).

Carmichael—At the Ottawa Civic Hos-pital, on September 8, to J. W. Carmichael, Sc. '38, and Mrs. Carmichael, a son (Allan Hamilton).

Christie—At the Kingston General Hos-pital, on August 20, to Parlane Christie, Arts '42, and Mrs. Christie, a son (Parlane Graham).

Clark—On November 17, at the Western Hospital, Montreal, to Dr. J. W. Clark, Med. '41, and Mrs. Clark, a son (James Rickerd).

Cunningham—On August 22, at the Hotel Dieu Hospital, Kingston, to Willis Cuning-ham, Arts '39, and Mrs. Cunningham, a son.

Dick—On October 6, to J. A. Dick, Com. '48, and Mrs. Dick, of Ottawa, a son (John Balfour).

Guest—On September 14, in St. Joseph's Hospital, Sudbury, Ont., to L. C. Guest, Med. '51, and Mrs. Guest (Margaret An-der-son), Arts '45, a son (Lloyd William).

Gilbert—On November 13, at the Kings-ton General Hospital, to W. D. Gilbert, Sc. '32, and Mrs. Gilbert, a son.

Hare—On April 8, to Dr. J. H. Hare, Med. '43, and Mrs. Hare (Mary Frances Munro), Arts '43, of St. Thomas, Ont., a daughter.

Kirk—On October 17, in Victoria Hos-pital, London, Ont., to J. W. Kirk, Sc. '44, and Mrs. Kirk (Gwen Pearson), Arts '44, a daughter (Heather Pearson).

Knoll—On June 4, to Dr. F. Graham, Knoll, Med. '41, and Mrs. Knoll, of Saint John, N.B., a daughter.

Leadman—At St. Luke's Hospital, Guildford, Surrey, England, on December

12, to Dr. T. P. Leadman, Med. '43, and Mrs. Leadman, a daughter.

McBroom—On November 26, at the Kingston General Hospital, to Dr. J. G. McBroom, Med. '34, and Mrs. McBroom, a son.

MacLean—At the Ottawa Civic Hospital, on November 23, to W. J. MacLean, Arts '46, and Mrs. MacLean (Ruth Woodruff), Arts '47, a son (Bernard Colin).

McQuay—At the Soldier's Memorial Hos-pital, Orillia, Ont., to Dr. N. W. McQuay, Med. '45, and Mrs. McQuay, a son (Peter Norman).

Taylor—On December 5, at the Private Patients' Pavilion, Toronto General Hos-pital, to W. E. Taylor, Sc. '35, and Mrs. Taylor, a son (Robert Allan).

Tiers—On August 21, at Mount Hamilton Hospital, Hamilton, Ont., to Mr. Ross Tiers and Mrs. Tiers (Irene Mark), Arts '35, a son (Mark Walter).

Underhill—On December 15, at the Memorial Hospital, St. Thomas, Ont., to William Underhill, Sc. '49, and Mrs. Under-hill (Barbara Lillie), Arts '51, a daughter (Susan Alane).

Marriages

Barrie—On June 25, in St. Paul's Presbyterian Church, Peterborough, Ont., Eula Rosenburgh, R.N., to Roger Oliver Barrie, Arts '49. Clarke Moon, Arts '49, was best man and R. J. Hope, Com. '48, an usher.

Carss—On June 28, Irene Agnes Carss, Arts '45, daughter of W. B. Carss, Arts '14, and Mrs. Carss, Kamsack, Sask., to Mr. Peter J. Konkin.

Harkness—On March 9, in the Church of the Nativity, Timmins, Ont., Betty Jo Anne Coleman to Thomas John Harkness, Sc. '47.

Law—On November 26, in the Blessed Sacrament Church, Ottawa, Adele Frances Lomer to Dr. Douglas Thomas Law, Med. '42.

Gardner—In Hillhurst United Church, Calgary, Alta., on November 4, Jean Loraine Hoover of Long Beach, Calif., formerly of Edmonton, to William John Gardner, Arts '39. They will make their home in Calgary.

Halsall—On December 31, at St. John the Apostle Church, Kingston, Mary McCarthy to Donald Lester Halsall, Sc. '49.

Haycraft—On June 4, at the United Church, Kapuskasing, Ont., Joyce Maxwell to Alan Finch Haycraft, Sc. '46. Douglas Millikin, Sc. '47, was best man. They are living in Kapuskasing where Mr. Haycraft is on the staff of the Spruce Falls Power and Paper Company.

Lingham - McKinley—In the chapel of Deer Park United Church, Toronto, early in December, Jean McKinley, Arts '44, daughter of Dr. J. N. McKinley, Med. '08, and Mrs. McKinley, Toronto, to Henry Thomas Lingham, Sc. '48.

Moncrief—On October 1, in Port Rowan, Ont., Ethel Marie Moncrief, Arts '48, to Mr. Edward Pennington McLellan. They are living at 44 Spencer Ave., Toronto.

Potts—On September 3, in Glebe United Church, Ottawa, Marion Alma Potts, Arts '49, to Mr. Alan James Williams. They are living in Kingston.

Robertson—On October 7, in All Saints Anglican Church, Ottawa, Ruth Maria Robertson, Arts '45, to Mr. Harold Dwight Campbell.

Rose—In Morgan Memorial Chapel, Queen's University, on November 19, Margaret Ailsa Rose, Arts '46, daughter of Dr. Bruce Rose, Sc. '09, Queen's University, and the late Mrs. Rose, to Lieut. Frederick Thomas Harris, R.C.S. They will live in Brandon, Man.

Surgenor - Armstrong—On September 24, in Trinity Anglican Church, Cornwall, Ont., Margaret Maureen Roseanne Armstrong, Arts '47, to Robert William Surgenor, Com. '47. Attendants included Doreen Jarvis, Arts '47, Gordon Hewitson, Med. '51, and Malcolm Welch, Arts '41. They are living at 502 Bronson Ave., Ottawa.

Weldon—In November, in the Morgan Memorial Chapel, Queen's University, Edna Shirley Jordan, of Perth, Ont., to John MacIlraith Weldon, Arts '51.

Whitmore—On December 3, in St. Saviour's Church, Victoria, B.C., Ann Ellsworth Collins to Dr. Duncan Richard Elmer Whitmore, Arts '39. They are living in Prince Rupert, B.C.

Wrong—On September 3, in Abbotsford, B.C., Mrs. Mary (Mollie) E. Anderson, widow of F.O. Liston Anderson, R.C.A.F., to James Stuart Wrong, Sc. '44.

Deaths

Campbell—After an illness of one month, Mrs. J. W. Campbell (Martha Houston), Arts '93, died in the General Hospital at Kingston, Ontario, on December 12. Mrs. Campbell was born in St. John, New Brunswick, in 1870. She received her preliminary education in Kingston and entered Queen's in 1889. She was predeceased by her husband, Dr. J. W. Campbell, Med. '91, in 1923, and one son, Dr. J. H. Campbell, Med. '26, four years ago. Surviving are one son, Dr. W. A. Campbell, Med. '24, one sister, and four brothers, including David Houston, Sc. '07.

Dick—Former assessment commissioner for the City of Kingston, William Dunlop Dick, Sc. '01, died at his home in Kingston, Ontario, on November 21. Mr. Dick was born in Kingston and received all his education in that city. He joined the assessment department in 1917. On April 1, 1939, he was appointed assessment commissioner, which position he held up to May 1, 1948, when he was made consultant to the department. Mr. Dick retired in September of this year. During the time he was connected with the city he was absent only eleven and a half days from his work. Among the survivors are his wife, one son, two sisters, and a brother, H. S. Dick, Sc. '13.

Foot—Former purchasing agent of the Aluminum Company of Canada, John Ronald Gartshore Foot, Sc. '28, died in the Western Division of the General Hospital at Montreal, Quebec, on November 16. Mr. Foot was born at St. John, New Brunswick, in 1905. Graduating from Queen's with his B.Sc. degree in chemical engineering in 1928, he joined the Aluminum Company in the summer in the same year. He served in numerous sales and purchasing capacities, rising to general purchasing agent in 1941. In this position he carried heavy responsibilities in the company's wartime expansion programme. In November, 1947, he was awarded the King Christian X Liberty Medal by the Government of Denmark in recognition of special war services rendered to Greenland when the Aluminum Company acted as purchasing agent for the colony. In July of 1949, Mr. Foot relinquished his purchasing post and was transferred to the general manager's staff on special duties. Survivors include his wife, a son, a sister, and a brother.

Fry—Word has been received of the death of Mrs. R. G. Fry (Alice Orr), Arts '25, at her home, Ahory Manse, Portadown, Northern Ireland. Never robust, in late years of delicate health, the strain of caring for an invalid sister for seventeen months brought on a cerebral attack resulting in immediate death. Born in Ireland in 1886, Mrs. Fry came to Canada in 1914 as a qualified teacher. She taught in Western Canada for seven years, then went to Queen's for further study. In 1923 she married Rev. R. G. Fry, Arts '21. The

following year Mr. Fry was called to the United Church at Amherst Island where he and Mrs. Fry served for eight years. They returned to Ireland in 1933.

McConnell—While her husband, Rev. J. A. McConnell, Arts '99, was attending the reunion of his class at Queen's, Mrs. McConnell (Kate McConkey), Arts '03, died in the Misericordia Hospital, Winnipeg, Manitoba, on October 16. Mrs. McConnell was born in North Augusta, Ontario, in 1879, and attended the schools of that community and Brockville. She entered

Queen's in 1900 and graduated with her B.A. degree three years later. She taught in several collegiate institutes in eastern Ontario before going to Kenora. From there she was invited to Winnipeg and taught with outstanding success in Kelvin and St. Johns Technical Schools. Her first husband was W. W. Cross who predeceased her ten years ago. Mrs. McConnell was president of the University Women's Club of Winnipeg for three years and president of the Women's French Club at the time of her death. Interment was at Brockville.

Myers—One of the leading surgeons in the Maritimes, Dr. Ambrose R. Myers, Med. '94, died suddenly at Moncton, New Brunswick, on August 27. Dr. Myers was born at Forfar, Ontario, and attended the schools of that community and Athens before going to Queen's. He graduated with his M.D., C.M. degrees in 1894, and shortly afterwards opened a practice in Moncton that was to extend over fifty-five years. Later he took postgraduate studies in leading medical centres in Britain and Continental Europe, returning to Moncton. He retired three years ago. Dr. Myers gained prominence as a surgeon and was recognized as one of the most skilful in the Maritimes. And he gained fame for many years as a consultant, his advice and counsel being widely sought by fellow members of the profession. He was a fellow of the

American College of Surgeons and had served as president of the New Brunswick Medical Association and vice-president of the Canadian Medical Association. Other honours included an honorary degree from St. Joseph's University and the King George V Silver Medal. Among the survivors are his wife, two sons, and a daughter.

Pope—Recognized as one of Canada's outstanding medical men, Dr. Egerton Llewellyn Pope, Arts '95, died in hospital at Edmonton, Alberta, on November 23. Dr. Pope was born at Belleville, Ontario, in 1874, and received his early education there. He graduated in Arts at Queen's in 1895 and in medicine at McGill in 1900. Dr. Pope's postgraduate work took him to New York, London, Paris, and Vienna. He was a fellow of the Royal College of Physicians (London) and a charter fellow of the Royal College of Physicians and Surgeons (Canada). Following graduation, Dr. Pope practised in Quebec for six years before going west in 1906. He practised in Manitoba and later lectured at the University of Manitoba. In 1916, Dr. Pope enlisted in the Royal Canadian Army Medical Corps and served overseas, rising to the rank of Lieutenant-Colonel. In 1935 he was awarded the King's Jubilee medal. In 1923 Dr. Pope went to Edmonton to take the chair of medicine at the University of Alberta, retiring in 1945 as professor emeritus. Since 1944 he had served as medical director of cancer services for the province. Dr. Pope was actively connected with the Medical Council of Canada and the Alberta Medical Association, and through the years contributed many authoritative articles to the profession's journals. Dr. Pope is survived by his wife.

Roszel—After an illness of a few days, John Melvin Roszel, Arts '24, died in St. Joseph's Hospital, Toronto, Ontario, on March 18. Mr. Roszel was born in Wellandport, Ontario, in 1877, and received his early education in Peterborough. He entered the teaching profession and later took his University work extramurally and at Summer School. He obtained his B.A. in 1924, and his specialist's certificate in physical culture the following year. For many years he served as a high school principal, and after completing thirty-nine years of service retired in 1936. He was a past master of Peterborough Lodge A.F. and A.M. Among the survivors is his wife.

Notes

1890 - 1899

Rev. D. L. Gordon, Arts '97, is retired and living at 371 Park St. N., Peterborough, Ont. He was formerly minister of Chalmers United Church in Guelph.

1900 - 1909

Dr. J. O. Baker, Med. '08, Edmonton, Alta., recently visited his daughter, Mrs. Bruce F. Macdonald (Lois Baker), Arts '42,

**SPUN
ROCK
WOOL**

(Reg'd)

A resilient, long-fibered insulation made from molten rock. Proof against Fire, Vermin, Vibration and Corrosion. Recommended for cold-storage; sound-proofing and acoustical treatments; all industrial purposes up to 1000 F. Made in standard forms for home insulation; exported in bulk form.

The Third Side To The Triangle

The flow of capital funds into useful employment is essentially the result of a triangular relationship.

On one side, the fiscal needs of a relatively few government and municipal bodies, private or public companies create the demand for such funds to advance their operations. On another side the supply accumulates in the hands of a great many individual investors and investing institutions who seek to employ it profitably.

Bringing the two together on mutually satisfactory terms—the third side to the triangle—is the function of this firm through the underwriting, marketing and distribution of stocks and bonds. For over a quarter of a century this has been our business.
